The Strathmore Standard

The Strathmore Standard, established in 1909 is a member of the Canadian Weekly Newspapers Association. It is published every Thursday at The Standard Office, Strathmore, by Keith Birk, Editor and Publisher. Member of the Association of Canadian Newspapers. Second class postage paid at Strathmore, Alberta. Entered under No. 1490 in the Post Office Directory for this week.

This Business of Saving Lives

Another big project in the city of Strathmore, a project to be carried out by the Lions Club. The swimming pool needs a complete renovation to keep it in good government standards.

The club has been told that unless some positive action is taken immediately the pool will be closed. What does this mean to Strathmore and surrounding districts and users?

Rocky swimming instructions are given by a qualified instructor and it is thought that there are about 30 children or adults in the club now. The water will be in the pool in about 10 days. This is enough to indicate that the Lions should be given full community support.

In a recent issue of the Hot Cross Magazine, The Dispatch, it told of a 15 year old young hero, Vicki Furrow from Etobicoke, Ontario, who battled his way for more than a mile to bring help from shore after a boat carrying her father and two companions had capsized. Her father and two friends clung to the side of the overturned boat to wait help from shore. Vicki sailed from Etobicoke, her two friends and her father because she had learned to swim. This you may say is an extreme working for you.

SALT ALKALI SOIL PROBLEM

This is just one of many farm problems for which there is no good answer. Alkali is caused by great quantities of salt carrying water down through the soil. The water comes from the surface such as a creek or spring. Our alkalis are mostly old prairie. Glauber, Epsom and Gypsum salts - which are stable and cannot readily be treated or broken down; thus there is no economic chemical treatment. Another method would be to prevent the water from coming to the surface. By means of the drains, but this usually costs more than the land is worth.

Manuring alkali spots helps by increasing the water holding capacity (less evaporation) and loosening up and enriching the soil so that plants may get a start in spite of the alkali. Grains most resistant to alkali are rye, barley and rape. There is little enough grain in the area to produce on good land under present conditions. One field with a quarter or more alkali probably doesn't pay most years, as about all one can do is wait for it to break. A small amount of grain may still give a little return considering that expenses are greatly lowered. Our most tolerant forages are tall wheat, timothy, slender wheat (Western) and sweet clover or alfalfa. There are many failures even in getting a stand, such things as turning the alkali down with a moldboard plow and lots of rain to dilute the alkali. When the young seedlings are starting, leave K. H. WALKER, Dist. Agric.

The complete line of livestock products handled by Canada Packers Ltd.

3— Built, Oyster Shell and other miscellaneous products required by the farmer.

4— A free advisory service to all stock growers, large or small, on the feeding problems they encounter and wish to solve.

After being crushed the grain can go directly to a waiting truck or put through the mixing equipment. Here protein and mineral concentrates can be added to the desired levels.

From the mixer the processed grain is elevated to a delivery bin for the farmer.

The feed mill has three storage bins of 1,000 bushel capacity and there are also six bins over the grinding and mixing equipment as well as four delivery bins.

and operation of the mill. About 3:30 p.m. a demonstration of feed manufacturing will be given to show the type of product manufactured at the mill. Those interested in seeing the construction and operation of the plant will be escorted to the top of the structure and have the operation of each item of equipment explained.

In the evening there will be a livestock feeders meeting held in the community hall from 8:30 to 10:15 p.m. Several speakers will be present to discuss basic nutrition for livestock feeding and the latest developments in the feeding industry.

All citizens and farmers interested in this most important new development in the Rockyford area are invited to attend and to all those who inspect the premises.

The regular monthly of St. Rita's Home and School Association was held Jan. 15. President Mrs. Anna Cunniff presided over the business. We decided to send a representative to the convention of Provincial SSA in Edmonton on May 7 to 9. The president will go if she is able.

Various committees were appointed with Mrs. Munnich and Mrs. Crough in charge of membership. Mrs. Vetter was appointed to head the entertainment committee while Mrs. R. Munnich was to convene the lunch Paul Crough is preparing.

Following the business the president introduced Supt. M. Holman who gave a very interesting report on the effect of transporting children by bus on the child. This report was a summary of an extensive survey conducted by the Sup. of four neighboring divisions, Calgary, Three Hills, Red Deer and Westhead.

The test covered 300 pupils in all grades, both of transported and non transported. The address was very well received by the members.

THE UNIVERSITY PROGRESSES WITH ALBERTA

The University of Alberta has seen tremendous growth since its establishment more than 50 years ago. The beginning curriculum was just two areas only, science and the liberal arts, taught at Edmonton. Today every type of professional school is found within its scope. From the initial opening in Edmonton the University of Alberta has extended to other parts of the province. A branch in Calgary, the School of Fine Arts in Banff and the junior college at Lethbridge are all extensions of the University of Alberta. The university, its operation and expansion is another government service maintained for the people of Alberta. Government grants have resulted in the construction of fine buildings for the establishment of a wider range of courses available to students.

UNIVERSITY PLANS FOR THE FUTURE

The University of Alberta continues to expand and grants from the Government of Alberta this year will assist in several large expansion and construction projects. These include a Physical Education Building, a sister addition to the Medical Building, a new building for Chemistry and one for Physics and Mathematics. The addition to the Medical Building will provide increased facilities for medicine, dentistry, pharmacy, nursing and physiotherapy. New university buildings are being planned on a 325 acre site in Calgary which was given to the university as a gift from the city.

PROVINCIAL GRANTS TO THE UNIVERSITY OF ALBERTA

Government of Alberta grants to the University of Alberta during the current fiscal year total \$4,521,740. These grants cover the cost of operation of the university and the financing of university building projects.

University construction projects this year received a grant of \$2,170,740 and an additional \$200,000 for furnishings.

The operational grant was \$2,225,000 which with an enrollment of slightly more than 5,000 pupils amounts to about \$500 per pupil attending the University of Alberta.

FROM FERTILIZED FORAGE \$15 MORE PER TON!...

Protein is essential for meat and milk production. A ton of unfertilized grass hay contains approximately 100 lbs. of protein. Application of high analysis Elephant Brand Fertilizer can double this figure to give you 200 lbs. of protein in every ton! Most protein feed supplements contain 52 per cent protein, and cost up to five cents per pound. On this basis, the increased protein content resulting from the use of Elephant Brand adds \$15 to the value of every ton of forage... plus extra profits from faster growth and more abundant yields!

BY MISS F. O. K.

The monthly meeting of the HBA was held in the school auditorium last Monday with a good attendance. After the usual business was disposed of a panel composed of members gave a most informative outline of schools of other lands. Mr. Vernon Larsen spoke on Hungary, from information gleaned from an Hungarian newspaper. Mr. H. H. Larsen spoke on the Russian education system. Mr. W. H. H. Larsen spoke on the English system based on personal touch, as he had taught school in England. A clever chart showing the various types of English schools illustrated his talk. Mr. J. H. H. Larsen spoke on the educational system of Denmark and Mrs. H. H. Larsen gave an interesting account of schools in Newfoundland.

In the attendance felt that they had learned a great deal as similarities and differences in the schools and education were discussed.

The lovely farm home of Mrs. W. H. H. Larsen was the setting for an afternoon party. Miss Lorne Peckley, daughter of Mrs. H. H. Larsen, who leaves soon to serve in a representative in Nigeria. Friends from Rockyford, Standard and Calgary were present as well as from Standard. In fact, Mrs. H. H. Larsen was to wish her well in her missionary career. Mrs. H. H. Larsen gave an appropriate Bible reading. Mrs. H. H. Larsen gave two monetary hymns and Mrs. H. H. Larsen gave two monetary hymns. Mrs. H. H. Larsen was presented with a gift of money and other personal gifts.

Mrs. H. H. Larsen and the Works of the Standard Chapter for No. 14 OES. Mrs. H. H. Larsen poured tea at a dainty table centred with spring flowers. A poem which was read by Mrs. H. H. Larsen and a delightful afternoon was brought to a close with everyone repeating the HBA benediction.

An interesting course in farm electricity and wiring is being carried on in the Standard Lodge room this week sponsored by the Lutheran Brotherhood, under the supervision of an Alberta Govt. Bureau course.

A number of members of Standard Chapter OES report a delightful afternoon spent at the OES tea in Central United Church in Calgary last week.

Mr. and Mrs. W. H. H. Larsen of Calgary were guests at the Keweenaw home on Sunday. Mrs. H. H. Larsen returned to Calgary with them.

Town Council

At the regular meeting of the Strathmore Town Council Tuesday night, Mayor Rhodes presided. The Council was present with the exception of Frank Bannat.

The secretary treasurer L. Hill was instructed to bring before the Council an estimated budget for the April meeting using last year's as a guide.

It was passed in Council that the Council Member should see that all fire hydrants be checked and have the plugs removed, the first wild day. Fire Chief Peterson will be on hand to supervise.

The old dead trees that were cut down on railroad avenue will be burned as soon as it is possible. Mayor Rhodes said he would burn them from the right direction.

The school division was also granted permission to burn the old trees on their property in Strathmore.

Council was very surprised about the number of water bills in the town that were in arrears. This item was brought to their attention by Mr. Hill.

It was shown that some of the bills ran close to and over \$100 and instructions were given to notify these residents and demand immediate action or the water would be cut off after notification, if the bills were three months overdue.

The town man will be instructed to make or have made, proper equipment to catch unleashed dogs in the town for the purpose of limiting them.

The assessment of the previous year was adopted under the provisions of the Assessment Act. It will be advertised in the Strathmore Standard to this effect, and anyone with complaints in any way, the taxpayer may notify the council before May 1st.

ACTION TAKEN BY COUNCIL. It should be noted that Wednesday morning, those who were in arrears in water bills were notified and most of them paid up or made arrangements to do so at the town office.

Mayor Rhodes investigated the possibility of burning the trees referred to Wednesday morning but found there was too much snow in the pile to do it as yet.

75 per cent of the farmers reporting their findings to National Farm Radio Forum feel that current federal government farm policies are not meeting the farmers' needs as well as they should.

BY CHARLES E. JOHNSTON
Social Credit Candidate For Re-election In Bow River

Whether you live in the city, in the town or on the farm, the economic condition of agriculture is reflected upon you since it is our basic industry so we look to the Minister of Agriculture.

During the last Session of Parliament the Conservative Government introduced a resolution providing Bill 87 An Act to Provide for the Establishment of Agriculture Committee. Although the strongest of protests were made during the debate by opposition members and also by farm organizations, the Minister of Agriculture stubbornly refused to make any changes and the Bill itself was introduced.

The Bill was even worse than was expected. No provision was made to base the price of agricultural products on a parity basis nor was there any provision to see that the farmers would receive what was promised during the last election campaign by the Conservatives when they said that the farmers should receive their fair share of the national income.

I spoke very strongly against this Bill, as did most members of the Social Credit party. Farm organizations continued to send delegations to see the Minister; letters and telegrams from all across Canada began to pour in until the Minister of Agriculture realized that things were getting too hot. He then decided to bring in a number of amendments. But even with these amendments, the Bill still does not meet the request of farmers or farm organizations.

We Social Crediters, as well as farm organizations, insisted that a definite price formula should be written in the Bill, one that would guarantee a cost of production plus a fair profit. This is referred to in the preamble of the Bill, but the preamble does not form any part of the Bill so it becomes useless.

Under Section 2 of the Bill

are being met through such policies as the price supports on dairy products, hogs and poultry products, the Canadian Wheat Board, and temporarily through cash advances on farm stored grain.

For those giving a negative answer 29 per cent felt that freight rates are too high. 37 per cent of the farmers said that support prices on hogs and eggs are not meeting the producers' needs but are of value to the packers. The price spread between cost of production and price of products is too great and should be investigated according to 19 per cent of the farmers. The farmers want lower machinery prices, better farm loan and credit policy, import controls, stabilized prices, and more advertising of Canadian farm products by the government so that there would be a larger world market for farm products.

Don't Believe All You Hear Or Read

The pessimist has been well described as the person who only sees the hole in the doughnut. This seems to be the way these gloomsters look or rather half look at business statistics like the 1967 Financial Post.

In recent years they have been trying to chill all feelings except to listen with the rawest of emotions. They cite the total number of failures and make shuddering comparisons with the dark days of 1932. They completely ignore the fact that a lot more people and a lot of business firms have been added to Canada in the last 35 years, that totals which might have been grave for 11 million people in 1932 are little more than normal for the almost 17 million people in Canada today.

Business failures in Canada in 1967, reports Don and Bradstreet, were 141 per 10,000 concerns. Do business failures in Canada for 1967 says the same authority, were 53 per 10,000 or less than a third the depth of the depression rate.

As a very wise man once observed: Figures don't lie but facts figure.

It is estimated that 74 per cent of Canadian homes are equipped with telephones, 94 per cent with radio and 63 per cent with TV.

The first aid kit and insurance both have important roles to play in the event of accidents. Each year, the companies writing accident and sickness insurance in Canada pay out more than ninety million dollars (not including automobile accident costs) to policyholders—a mighty bulkhead against unusual financial strain. It is far better, though, to prevent accidents and mishaps, rather than to deal with the treatment of their serious and often tragic—after-effects. That is why insurance companies are constantly seeking ways to stem Canada's mounting accident toll. Safety pays dividends... it saves lives, helps to lower your insurance costs. Be careful.

PROVINCIAL GOVERNMENT GRANTS CITIES, TOWNS AND VILLAGES

Alberta's cities, towns and villages need money to provide diversified services for residents. This money is derived mainly from two sources—municipal taxes and Provincial Government Grants.

The 1956 municipal levy in cities, towns and villages in Alberta was \$45,382,855.33 which, added to the Provincial Government Grant of \$31,616,625.51 equaled a total of \$77,199,480.86.

Provincial Government municipal grants are paid directly to the cities, towns and villages concerned.

School Grants are paid directly to the School Districts and Divisions and Hospital Grants are paid to hospital authorities.

Total Grants and Taxes	100 %	\$77,199,480.86
Provincial Grants	58.7%	\$45,382,855.33
School Grants	22.2%	\$17,965,238.68
Municipal Grants	10.4%	\$8,178,855.06
Hospital Grants	7.5%	\$5,732,516.57

To express these grants in terms of their assistance to a municipality, school grants are pre-allocated on an assessment basis. Hospital grants are pre-allocated on a provincial per-capita basis. The resulting figures are therefore considered an approximation.

Provincial Government Grants to Alberta counties and municipal districts will be discussed in the next installment in this series.

Why An Election?

BY **CHARLES E. JOHNSTON**
Social Credit Candidate For Re-election in Bow River

Was introduced Nov. 1 - passed Nov. 5

Four bills were passed in 5 days:

1. The Agricultural Bill: This bill was introduced Nov. 14, 1967, and passed Nov. 17, 1967. It was the first bill to be passed in the House of Commons.
2. The Atlantic Provinces: This bill was introduced Nov. 14, 1967, and passed Nov. 17, 1967. It was the second bill to be passed in the House of Commons.
3. The Atlantic Provinces: This bill was introduced Nov. 14, 1967, and passed Nov. 17, 1967. It was the third bill to be passed in the House of Commons.
4. The Atlantic Provinces: This bill was introduced Nov. 14, 1967, and passed Nov. 17, 1967. It was the fourth bill to be passed in the House of Commons.

The pressure of election, the necessity of staying in office as a minister, has forced the Conservative Government to come through with legislation which some of us have been advocating for many years. We support legislation which we believe will be of some help but reserves the right to criticize and vigorously pursue policies which we believe to be better. It has been proven that the fiscal policies of the Old Law Parties cannot cope with periods of prosperity and depression so you cannot do as better now to Canada than to send a bill to the House of Commons to Ottawa to force reform legislation on whichever party is in power.

I will appear on CHCT-TV on Monday, March 17 at 10:30 p.m. and Tuesday, March 18 at 10:10 p.m.

"I Killed A Little Boy"

A little mound of earth, a granite stone.
That spells his name, and marks his years; age three -
The joy he brought in life, in death lies down.
And heartbreak lives with loved ones - and with me.

Forever will be haunt my memory,
As from his mother's side, into the night
He dashed, with shout of joy, -
then suddenly,
A sickening thud - as flash and sound came.

He lay there, pale and broken,
stilled his cry,
A crimson halo moist beneath his head -
I knew at once, and cried, Dear God that I
And not this child, might lie there, should!

The officers, the coroner, were kind
There was no guilt according to the laws.
Yet, they would know, could they but read my mind,
That heartless instantation, was the cause!

I was not really speeding at the time,
Five miles above the law, perhaps, or ten.
What I had done could not be called a crime -
But, oh, if I could take that drive again!

For in the night I hear that mother's shriek
Continging with my heart in a tortured scream -
I shudder - and my breast and soul grow weak,
To wake and know it's not a ghastly dream!

It's true the law absolved me of all blame,
The guilt that dwells within is mine alone;
I killed little boy, and carved his name
Upon my conscience - as upon stone!

-Edward J. Allen.

It's Got You Covered

Whether or not you subscribe to any particular plan, you are covered by health insurance all your life. This "insurance" policy is your skin - one of the body's most important organs of your body.

More than a mere container for your skin is a barrier against disease. It is a bulwark against cold, regulating body temperature in hot weather or cold. Another important function of the skin is to regulate body temperature and the salt content of body fluids.

The skin receives and transmits the same of touch, pain, heat and cold, while it encases in a protective sheath delicate tissues that cannot survive exposure to air or sunlight.

Diseases of the skin, therefore, can disrupt the economy of the whole body. Most skin diseases are characterized by itching, swelling and oozing, and are often complicated by infection.

Medical research, taking advantage of the skin's power to absorb, has developed fast-acting drugs against skin inflammation and infection. The newest, called Neo-Margarone ointment, combines a hormone-like substance (Margarone) with an antibiotic (neomycin) to clear up the infection while it quiets the irritation.

Skin diseases, though rarely fatal, keep thousands of people from work each day, make life uncomfortable or even miserable for thousands more.

With today's scientific discoveries, however, the doctor can give prompt accurate relief to millions of skin diseases.

HELPS HANDLESS TO WRITE, DRAW

This transparent plastic attachment is the invention of Joel Berg, Montreal commercial artist-inventor, who is now demonstrating how it works. He designed the apparatus to help a little girl crippled with polio who could not move her hands and who had become moody and morose. With this attachment on her head she is able to write and draw. Berg made the gadget out of a light, transparent plastic.

Average hourly wage in Canadian manufacturing at Oct. 1, 1937, was 10.15 cents, compared to 10.13 cents one year earlier and 10.15 cents five years earlier.

SUPREME COURT RETURNS BOY TO NATURAL MOTHER

A happy family will be separated by order of the Supreme Court of Canada, ruling on the appeal of the natural mother of Donald Agar, now living in Minneapolis, said that at the time she agreed to the adoption she was in a weakened mental and physical condition. The Province family has another son, John, left, age five.

IN ALBERTA LET'S GET MOVING ON THE BIG THINGS -

Your Diefenbaker Government has shown Alberta that it can get things done. A strong Diefenbaker Government will get the BIG things done for Alberta.

* A major natural resources development program, designed to open up the North and provide access roads to its riches.

* Positive support of farmers; cash advances for farm stored grain already introduced, guaranteed price legislation in hand.

* Continued encouragement of housing (home building loans already up by \$300,000,000).

* Continued widening of social security (Old age Pensions raised to \$55).

* A vigorous drive to increase foreign trade... boost farm and industrial exports... assure work and opportunities for all Canadians.

Give your Prime Minister the team he needs to complete these vital tasks.

Montiel. Rev. Hutton of Rockyford officiated for the eldest daughter of Mr. and Mrs. Earl Bohnet. Her husband, and the son of Mr. Paul Montiel and the late Mr. Paul Montiel of Port Lorne, Oklahoma. The double ceremony was performed before an altar set with a basket of mixed flowers, tulips, carnations, and each set off baskets with a large rose colored satin bow.

The bride entered the church on the arm of her father. Her wedding dress was fashioned of white tulle with white satin with fitted bodice, unpressed pleats, forming a voluminous skirt. Her chapel length train was well bordered with large applied flowers, was held by a net covered halo headpiece. She carried a bouquet of roses with streamers of satin ribbon in her arm. Triple strings of pearls, gift of the groom completed her ensemble.

Miss Mary Bohnet, her bride's maid were a matching white length gown of blue tulle. Her bouquet was of daisies.

PROVINCIAL GOVERNMENT GRANTS

COUNTIES AND MUNICIPAL DISTRICTS

Alberta's counties and municipal districts must provide services for residents. Money to provide these services is derived mainly from two sources — municipal taxes and Provincial Government Grants.

In 1956 the municipal levy in counties and municipal districts was \$24,282,630.37 which, added to the Provincial Government Grant of \$27,205,533.37 equalled a total of \$51,488,164.23.

Provincial Government municipal grants are paid directly to the counties and municipal districts concerned.

School Grants are paid directly to the School Districts and Divisions and Hospital Grants are paid to hospital authorities.

away and often more which results in a lessening in the productivity of our land now and for future generations. The population of the world is steadily increasing and as time passes our agricultural resources will become one of Canada's greatest assets providing we use our land properly now. I believe that the Liberal government ought to be given the opportunity of completing its Land Use Survey which was in operation. I am certain that a system of compensation could be devised for those farmers who voluntarily grass their waterways, strip farm where necessary, employ contour cropping practices and employ other soil conservation measures.

In closing I would say that Mr. Pearson has a definite plan for the future of all of Canada and not just parts of it as the Conservative platform advocate. Mr. Diefenbaker has not shown his regard for the rights of parliament which he only upheld on Jan. 1968. This election is summed in my mind as a deal in a hand of what Mr. Diefenbaker on June 1968 received a hand without a face card come of the Bow River election. so he has thrown in his cards for now that our infidelity danger another deal. Letters to the Editor

Dear Mr. Editor—

I have read with interest two Ads. recently by my Opponent—Why An Election? and Let's Talk

I believe all the Canadian people know why there is an election. Following the Motion of non confidence by the opposition and the unnecessary drag in bringing in the agricultural bill, which my Opponent actually was introduced on December 31, 1935, and was not finally passed until January 25, 1936, the time had come to ask the people of Canada whether they liked our policy, and to give us a mandate so that we would have a stable Government in Canada. The last minority Government was in the days of Meighen and King and Parliament on that occasion, lasted only a very short time. Many of you senior citizens will remember the political drama of 1935 or thereabouts. Minority Governments are not stable.

Western wheat, oats and barley are under the jurisdiction of the Canadian Wheat Board which was introduced and implemented by one party, to put a floor price on wheat, and other grain later, to protect Western Canada and to remove these grains from the Grain Exchange in reference to the price being affected on say, the West. The farmer was advised, wheat, etc., would have, say, the Open Market, and who wants to go to the Grain Exchange? Let's ask what our Opponents are suggesting.

In reference to, say, assistance to the Provinces, \$100 million for millage has been given to all the Provinces, and I would suggest that our Opponents should not locate their remarks in the editorial section of the country. The money mentioned, which will be advanced to the Maritime Provinces to be help the Coal Miners. No doubt these contributions to the Maritimes were rejected, by men who were also efficient to guarantee that the coal miner would get his full share of the National Income. Now, say, \$100 million for the Coal Miners in the Drumheller Valley, what has been done for the miner in the last 12 years, during the time that my Opponent has represented this constituency? Any increase in freight rates, or any increase about by the Board of Transport which is set up, like your Wheat Board, which they allowed the increase in freight rates, John Diefenbaker came to the aid of Western Canada with a proper pro Western atmosphere and dismantled the freight rate increase, until at some, further investigation and negotiation, it was worked out, it didn't make a business case of doing things? No Government can interfere with the functioning of the Board of Transport, as it is set up, except in the manner in which Mr. Diefenbaker used. Grants have been made to Western Canada, the same as the Atlantic Provinces.

The charge by our Opponents that trade has been disrupted with the United States, is only being made by our Opponents. They are scared of our Western support. Trade with the United States has increased in comparison to that of the last Western Canada. More than 400,000 head of cattle are now being marketed in the U.S. Since Mr. Diefenbaker's disunion, the United States in reference to wheat, our wheat exports have increased. We have sold more wheat in a comparable period in 1935-36 than in any five years previous. This speaks for itself. In a recent election, I suggested that the Conservative Government was the only party in the country. I say that the critics who throw stones should remember that

a political party has amply on keeping and breaking promises. There have been unusual promises extended right in this Province, which I need not outline, which you know only too well, that have not been kept. Many have been waiting 12 years for these promises to be implemented. I am in accord with my Opponent when he said: "Let's Talk, but I also suggest, Let's Base our Talk on Facts."

We said we would increase production and we did it; we said we would cut taxes and we did it; we said we would pay cash advances to the farmers and we did it; we said we would institute a Price Support Bill and we did it; we said we would send a Trade Contingent to Great Britain and have an Economic Commonwealth Conference and we did it; we said we would have a Provincial Development Program to relieve unemployment and we have such a program.

I want to make one point clear, it is that I have never at any stage of my Campaign attacked any Candidate or any Opponent. I am a man of the deepest respect, and I have never at any stage of my Campaign attacked any Candidate or any Opponent. I am a man of the deepest respect, and I have never at any stage of my Campaign attacked any Candidate or any Opponent.

Yours sincerely,
ELDON WOOLLIAM.

Editor, Strathmore Standard—

During this last year while the Conservatives have been in power, I have seen a number of very alarming rates, bringing with it all the hardships that go with loss of jobs such as the fact of unemployment. I have seen a number of very alarming rates, bringing with it all the hardships that go with loss of jobs such as the fact of unemployment. I have seen a number of very alarming rates, bringing with it all the hardships that go with loss of jobs such as the fact of unemployment.

On December 6th in the House of Commons I brought this question of forclosures before the Prime Minister, Mr. Diefenbaker, by asking the question "Is a result of the growing unemployment in Canada and particularly in Calgary and vicinity according to a paper report, with the Federal Government take such steps as are appropriate to prevent foreclosures that have been purchased on the installment plan? The Prime Minister answered me and said, there is no authority in the Federal Government under the British North American Act to bring into effect a moratorium or anything of the nature suggested in the question. It was apparent that the Prime Minister who as the Conservative candidate says, is an outstanding Canadian lawyer, a distinguished member of 3 Provincial Bars and a member of the Canadian Bar Association, intended to take no action whatever. It was, the Prime Minister says, beyond the powers of the Federal Government. Now let's see what happened. I raised this question on December 4. The same question was again raised in the House of Commons on December 17th after the Mayor of

and criticism. Mr. Green, the Minister of Public Works, who has charge of National Housing and Central Mortgage and Housing Corporation, stated in the House of Commons in reply to these questions about foreclosures and foreclosures on page 3487, December 17, 1935. He said: I quote: "The Weekly pointed out to me that there was some question of eviction actions being taken by Central Mortgage and Housing Corporation in Windsor. I promised him that the matter would be looked into at once, and that if any such actions were being taken they would be stopped. That was done last week; and of course. Remember this action was taken one week after I first brought up the question. Now who was wrong, the Conservative candidate in Bow River and the Prime Minister, or Mr. Green, the Minister in charge of National Housing and me as your Member of Parliament?"

I have been a Member of Parliament for 22 years and have always been conscientiously devoted to my full time and energies to the dis-

charge of my duties. I have accepted the office of Member of Parliament with humility, and I hope with dignity and respect so that reflection has ever been cast upon the people of Bow River through any conduct or actions of mine in-

side or outside the House of Commons. If I am returned to Parliament on Monday, I will again trust that that office will be dignified and respect it deserves.

EFFICIENT FEEDING AND LIVESTOCK MANAGEMENT

By Dr. George Baskin
Executive Professor of Animal Husbandry
University of Wisconsin

Mineral Deficiencies Reduce Stock Profits

The farmer's livestock profits are becoming more and more a matter of efficient management and efficient feeding. Returns dependent in major and trace minerals rob the farmer of part of his profits by causing mineral deficiency diseases and promoting inefficient use of feeds for growth and production.

Mineral feeding program begins with the soil itself. The farmer makes good use of some action taken. But to further make sure that this order preventing foreclosures and evictions under Central Mortgage and Housing Corporation had been properly carried out I personally phoned Mr. Green in Windsor. I was informed the order had been received. Now, am I to be condemned and severely vilified for attempting to save the homes of at least some of our people who are unable to take care of themselves when they lose their jobs because of the depression. If I have saved the home of at least one person, that is worth the try. The obvious conclusion is that had the Conservative candidate in Bow River been in office he wouldn't have even tried. No action would have been taken. I tried, and was successful and I know it to the good judgment of you, the people, as to whether or not you have been properly and effectively represented in the House of Commons.

Considering their ordinary base feeds, cattle and primarily phosphorus added to their rations rather than lime or calcium. If intended for calves, mineral mixture, whether home-made or commercial should be as nearly as possible have the phosphorus as high as it is in steamed bonemeal (14%) or even higher.

To make sure of enough phosphorus for dairy cattle, add one per cent bonemeal or other suitable phosphate about one-half per cent salt to the grain mixture. Other ruminants, too, in key cases that may not be getting grain, may be given voluntary access to mineral.

To make sure of enough calcium for calves, add one per cent bonemeal or other suitable phosphate about one-half per cent salt to the grain mixture. Other ruminants, too, in key cases that may not be getting grain, may be given voluntary access to mineral.

When mineral is added to the major proportion of the ration, such as a mixture of limestone and bonemeal along with 0.5 per cent salt to the total ration. Merely free access to ground limestone and some commercial feed good results.

Second Ave. To Be Gravelled Culverts Placed For Drainage

The regular meeting of the Stanmore Town Council was held in council chambers Tuesday, April 14, with all councillors and Mayor present.

A report came to the attention of the council that a yearling and a colt had been disposed of at the town dump grounds. This, being contrary to regulations, will be investigated. A copy of the brand on the yearling was brought to the meeting by Town Police-man Bert Morritt.

A delegation consisting of Jim Harwood and Norman Seever representing the Stanmore River Cleaning Plant Ltd. was on hand, requesting that the road to the plant from highway No. 1 be fenced and proper drainage equipment installed. A committee consisting of Councillors Hartell, Sorensen and Kishewah will investigate the situation. The Cleaning Plant delegation reported that the rule were very bad around the plant, and that if a truck slipped into them it would become bogged down.

A citizen who had taken the liberty to cut a portion of the sidewalk on third street to allow the water to run off his property will receive immediate notice that he will have to repair the walk in a temporary way at once and when weather permits, he will have to cement it and do a proper job. Councillor Hartell reported that a lady had taken a bad fall over stepping in the hole.

Councillor Butler reported that Piro Chiff Swanson will exhibit the workability of all fire hydrants within the next few days if weather permits.

The tempo of the meeting rose when 2nd Avenue from the highway to the Royal Bank was discussed, and it was decided that that Avenue must be gravelled and given proper drainage by way of well placed culverts at the earliest possible date.

By-Law 247 allowing the town to borrow \$5,000 from the Royal Bank to assist in covering the amount of the School Requisition. This is an annual procedure, to tide the town over until taxes are paid. The loan will be paid back over a period of six months. The school requisition for the year is \$21,366.40 compared to last's \$20,040.00.

Transpurs will be instructed that when unloading at places of business the back of the truck must not block the sidewalk. This action is the result of a complaint that came to the attention of council in writing.

EVER BEEN SISTER OF THE WINNER IS NICE

Mr. Leslie Schofield, Standard was present to give three men as men as to how it should be carried out. The Strathmore club will carry out of two similar bingo carried on in Standard. His visit to this meeting proved very beneficial and the Strathmore club will get their program along the same time.

The local printer was instructed to order the material and go ahead with the printing. The bingo should be full swing by next weekend.

Woolliams Wins By Landslide

Edison Woolliams, successful candidate for the Bow River riding in the election March 31st told the Standard that he wasn't surprised that he won the constituency over his main opponent Charles Johnston, B.C. but he certainly was amazed that as a result of his victory Mr. Johnston lost his deposit.

Of the National session, he said, he has known John Diefenbaker for 20 years, and as a result of this friendship and his association with the Prime Minister, he knew that he felt that it would be a sweeping majority.

In regards to Agriculture, Mr. Woolliams was confident that the farmer would get his full dose, as a result of the big majority they received in Western Canada. The party he said is prepared to work closely with the farm organization and the farmers problems would be reviewed and studied carefully. He went on to say that the present legislation was new, and he was confident that problems would be ironed out as they arose, and that they would receive just attention.

There were 450 cast their vote in Strathmore post, Progressive Conservative 289, Social Credit 183, Liberal 43, and Free ballots rejected.

Larry Hunter of the Circle L Service nearly lost \$40 from his till early Friday morning.

About 4 a.m. a man dressed in a jacket, came in and told the night man, Cliff Dawson that his car had broken down 10 miles west of Strathmore and requested that a wrecker go out and tow it. Cliff suggested that he leave it there till early night, because there wouldn't be any work done on it till that time. The stranger admitted that that plan would be wise, and went into the adjoining coffee shop to have a cup of coffee.

In the meantime, Cliff lay down to have a little snooze. Just around the corner from the office.

Apparently he was not up listening his coffee, told the waitress that he would sit in the garage of the car and have a sleep.

When Cliff woke up to serve gas to a customer, he noticed his prospective customer had gone, and that with some pair of sharp instruments, he had tried to cut out the lock on the till, but failed in the attempt. The till was loose and Mr. Dawson had the keys in his pocket.

Doug Stammond of the Strathmore detachment RCMP was called and upon investigation found that there was no car stalled on either side of Strathmore.

Apparently he was not new as the name; a man of the same description successfully pulled a similar job in Red Deer.

Mr. and Mrs. Lloyd Clark and son moved to Calgary Thursday, and brought Mrs. Clark's mother, Mrs. Sandra home with them.

Miss Ella Williams came from Calgary for a weekend visit with her parents.

Mr. and Mrs. E. Bell and Mrs. J. Brewer were Calgary visitors on Thursday. Mr. and Mrs. J. Bell and son Cameron were in Calgary on Tuesday.

Stander Bros. were down from Calgary looking over the matter of the condition of the streets in Hussar with a view to repaving what they can before the melt, and then they will put things in better shape. The sunshine now will help the drying process.

Mr. Roy Warburton was taken to Bassano Hospital Saturday where he is a patient. Mr. and Mrs. W. R. B. Hoggie and Mrs. J. Warburton were down to Bassano Monday to see him. We hope that he will soon be well again.

On Wednesday evening Mr. Eldon Wooliams, PC candidate for River addressed an interested audience in the community hall.

This mild weather has left the streets of Hussar in dreadful condition; one street has been closed for the Easter holiday on Friday. The least of the PUA spoke in the Hussar hall on PUA Problems. Mr. Elmer Delmer was chairman.

He called upon Mrs. C. T. Armstrong, president of the Alberta FWFA to introduce the speaker which she did in a well chosen talk. Animated discussions arose as this community is greatly interested in farm affairs. Lunch was served after the lecture by the members of the Hussar Local FWFA.

ROCKYFORD GIRL GUIDES
Delegates from the Rockyford
Guides and local Girl Guide As-
sociation attending the 29th annual
meeting of the Alberta Council of
Canadian Girl Guides in Calgary
March 21 and 22 at the Palliser
Hotel report a very successful con-
ference.

There has been a steady increase
in the number of girls enrolled in
the Guide movement in most dis-
tricts. The main highlight is the
shortage of leaders to handle the
companies and packs considering
that there is close to 10,000 girls in
this movement in Alberta alone.
It demands a more active consid-
eration by people who have leader-
ship ability.

The theme for this Guiding year
is Adventure. Out of Doors, and
this is possible to attain through
camp, hikes, etc. and what great
adventure for our girls, but
camp personnel and camp sites are
almost impossible to find in a lot
of communities.

Handcraft competition is a part
of our annual convention with
individual Brownies and Guides en-
tirely so. MacArthur, Mr. Har-
rington, and Miss MacArthur, who
Rockyford girls winning ribbons
were Marilyn Houghton, knitting;
Betty Bedford, art; the pack exhibi-
it, six stuffed toys, ribbons
were brought about to the Rocky-
ford Guide Co. by Marie Harrington,
sewing; Donna MacArthur, their
sewing.

The Rockyford local Guide and
Brownie Association made it pos-
sible for the entire Guide Co. and
Brownie Pack to travel to Calgary
to view the handcraft display by
supplying transportation and dinner
at the Crossroads Motel for all
the girls and most of the members
of the association.

Guiding in Rockyford is very ac-
tive with 50 girls between the ages
of eight and sixteen enrolled. Five
Guides, a local association with a
membership of 12 and the Drumheller
District Commissioner residing here.
Besides these actively
participating in Guides the red-
cross, business, and other groups
have always been most co-operative.

Wheatland M.D. Meeting Results

The first official meeting of the
Council met on April 8 at the M.D.
Wheatland No. 40. Those present
were MacArthur, Harwood, Emil
Chamberlain, Cammatt, Heston
and Miller.

The Secretary Frank Heston called
the meeting to order and read the
declaration of elections. Mr. Mac-
Arthur and Mr. Heston had been
declared elected for a further term
of three years.

The Secretary then called for the
appointment of a Review Committee
on the motion of Mr. MacArthur,
Mr. Heston was nominated and on
motion of Mr. Cammatt, Mr. Chamberlain
was nominated.

It was moved by Cammatt that the
Council meet on a secret ballot in
voting. The secretary counted the
ballots and reported that Chamberlain
had been declared Reeve for the
ensuing term of three years.

The Reeve called for the appoint-
ment of a Deputy Reeve for the
ensuing term of 6 months. Mr. Har-
wood was nominated on the motion
of Mr. MacArthur and Mr. Miller
was nominated on the motion of Mr. Cammatt.

After preparation of secret ballots
and voting Mr. MacArthur was
declared elected.

Mr. J. Harwood then moved that
we have application to the Dept.
of Municipal Affairs for the estab-
lishment of a County. The motion
was tabled. After discussion it was
agreed that the County system
should be further investigated.

The Council agreed to go to visit
two Counties and make studies of
the organization. It was suggested
that they visit the Counties of Ver-
mont and Stettin and try to arrange
to have the Wheatland School Board
agree and go with the members of
the Council.

Meers Anderson and Robertson
of Red Deer were appointed as rep-
resentatives for the year at a fee of \$875
per year.

On motion of Cammatt it was
moved that we purchase two new
motor graders and that we trade
in the Champion grader.

The monthly financial statement
for the month of March was sub-
mitted showing wherein we have
a balance of \$10,525.51.

Correspondence was read to the
Council from the Deputy Minister
criticizing the Council for not
spending in public works in the
year 1935 in the sum of \$15,000.00
and asked for the establishment
of a surplus in the 1936 budget.
The Council authorized the Sec. to
reply stating that his views and re-
commendations would be adhered
to in 1936.

Mr. Hal Nelson of Lethbridge
was present and discussed the
Council making application for
job running the crusher. On motion
of the Council he was engaged on
trial at a wage of \$200.00 from May
1st for a period of two months and
if satisfactory that the wages were
to remain the same.

Dr. W. Lawrence of Drumheller
a Veterinarian was present and ad-
dressed the Council discussing the
diphtheria the Brucella policy in
cattle. It was moved by Cammatt
that we endeavor to get our
land cleared to be a bonus free
area. Dr. Lawrence offered to do
the eastern half of the M.D. as a
test and left a sample contract to be
operated under with the M.D.
of Wheatland No. 47 He stated that he
could get another Vet from Calgary

to do the west half of the M.D.
Discussion centered on the matter
of altering the Municipal bound-
aries. After much discussion Cam-
matt and Mr. MacArthur were
made in our boundaries.

Moved by MacArthur that our
Reeve get in touch with the
School officials and see if they can
reduce their school budget. If they
do not propose to utilize all the pro-
posed money that is listed under
their capital expenses item.

The matter of Medical Services
incorporated was introduced by
the Secretary; there were 12 cards
from our employees duly signed
willing to be included in the M.D.
The Council agreed to sponsor this
plan and also make investigation
and see if the Councils can be
included in the plan.

In Essay Contest At Arena Annual Meeting

The Annual Meeting of the
Wheatland and District Area As-
sociation was held in the Arena
auditorium Wednesday, April 2.
President Keith Baldwin had 27
members of the meeting. There were
37 members of the community at-
tending.

A detailed financial statement
was distributed, consisting of an
overall statement of receipts and
expenditures during the past year.
There was also separate state-
ments of the two blooded hall
summers.

A total of \$3,502.56 was shown as
the balance in the present bank ac-
count. The last blazon was split
with the Strathmore Curling Club,
an only half of the last blazon re-
ceives are included in this figure.
All questions that were asked the
executive considering this state-
ment were answered to the satisfac-
tion of the meeting.

The following will act on the
board for the next three years:
Northwest District, R. Jackson,
elected; Northeast, Irlbert (re-
elected); Southeast, Roy Wheeler,
Southwest, Ed. Heston. There
were three members from each com-
munity of the community plus one
from each community elected for
one year, for a three year term.

Considerable discussion was
from reports that there were some
children who started this year, and
did not pay their season's ticket.
As a result of this, it motion was
carried to have the members of the
community, allies and other sporting
activities. The swimming pool
of the arena would have to be
covered in the winter time for
artificial ice surface. He pointed
out that the curling club could put
on by himself once a year and
use each place for games.

At first this proposal met
with a good deal of opposition
in its audience, but after considera-
tion they thought it could be worth
investigation. The Lions Club mem-
bers also expressed favorable reac-
tion. It was pointed out that the
Arena was not used enough during
the winter months and that it would
cost the Lions Club many thousands
for their separate project whereas it
could be done for a much smaller
sum. The advantage of the community
was also pointed out.

BY MRS. F. O. K.

Richard Jensen who is attending the University of Oklahoma at Norman, Oklahoma, returned to Calgary with a friend and spent Easter holidays with his parents Mr. and Mrs. Jack Jensen of Standard.

Mr. and Mrs. Aksel Jensen, who have been popular residents in our town for several years left Standard with their station wagon and new matching red and white trailer last Wednesday, April 2. They set as for the high silver canoe to Vancouver Island where they were to live when they struck a soft spot in the highway, which almost destroyed their trailer, house furniture and other belongings.

Standard Transport went to High River to pick up Aksel's electric tools and other equipment, but much of the trailer load had to be burned on the spot as it was beyond repair. They returned to Standard and for several days were guests at M. Castella's home. The Jenses plan to leave early this week again, and this time we wish them better luck and a safe arrival at their destination. Their many friends were deeply distressed by their misfortune.

We are sorry to report that Mrs. Sofia Klemmensen suffered a broken hip two weeks ago when she fell in her home. She is a patient at the General Hospital and is able to sit up part of each day.

Mod. Mod. Mod. Nearly all social activities were cancelled Monday evening: the Students Union Easter party for Tuesday was also cancelled and the annual community ball banquet was postponed until the roads improve. No definite date has been set for the banquet.

Mr. and Mrs. Hilbert Nielsen have moved into their new home just vacated by Mr. and Mrs. Aksel Jensen.

The Max Pedersen are now living in the Roy Berntsen farm house and the Perrell Jensen family have moved into the former Simon Christensen farm house just south of town. They formerly lived on a farm at Delton before moving to Southern Alberta.

The Nichol family spent the long Easter weekend with Mr. and Mrs. P. Nichol in Didsbury. Gordon Kinnert has returned to Montreal by plane, and is quite recovered from his recent illness.

Mrs. M. Jensen has returned home after spending several months with her son Ray and Mrs. Axel Jensen in California. While there she attended the confirmation of her grandson Timothy.

Mrs. Burge Larsen, Lorna, Cliff and Doris are spending the Easter holidays in Calgary.

A work crew organized by Burge Larsen and composed of Burge, Danner, Gordon Rasmussen, Ian Threlkott, Chris Jensen, Howard Rasmussen, Richard Madson and Harvey Larsen are in Dryden, Lake this week at the Lethbridge Bible Camp where they with many other Lutherans from various points in Alberta are engaged in building a Chapel for use during the summer camps.

Henry Nielsen spent the weekend at the Walter Hansen home.

Jean Petersen was home from Oakeside College for the Easter vacation.

DAYS RESIST ROOT ROT

Dr. Turner of Edmonton reports that the lowest root rot infection in barley were from fields cropped to oats. An oat crop does not produce food for root rot fungi, but a wheat or barley crop does. Root rot fungi build up rapidly in wheat or barley fields. Soil, after three years of these crops, transferred to the greenhouse produced root rot infections from 31 to 52 percent.

What truck buyers can learn from the big Fargo fleets...

Look behind the scenes and you'll soon discover why more and more haulers are making the swing to FARGO. When successful fleet operators such as Klaymen's Cartage Company, Limited, Winkalpey buy forty big Fargos at once, you know Fargo's got something special to offer!

Klaymen's Cartage typifies the truck fleets that find real day-after-day, year-after-year satisfaction with Fargo on the job. There are plenty of reasons for that satisfaction, too.

Take economy, for instance. New Fargo V-8's pack up to 234 horsepower, yet their unique combustion chamber design wrings bonus miles from every tankful of gas. And no other engine has the famous-for-thrift reputation of Fargo's efficient Six!

Ruggedness is another reason. Fargo rear axles in all models are heavy-duty engineered, specially treated for fatigue-resistance. Fleet springs on high-tonnage D700's have been increased to 3 inches wide, are extra long and resilient for greater strength. Frames have double-width front crossmembers, and extra-deep centre and rear crossmembers.

Fargo's a better deal for the driver, too, with shorter turning diameters, smooth, super-responsive steering, an independent parking brake that adjusts from inside the cab.

So why not follow the lead of successful truck operators like Klaymen's Cartage Company, and check into '58 Fargo Power-Masters now? Come in right away—see how you're farther ahead when you haul the FARGO way!

You get more of the future with

FARGO POWER-MASTERS

Klaymen's Cartage Company, Limited, of Winnipeg keeps this fleet of Fargo Power-Master trucks in service day, day-out.

Five Teams Will Compete In Bow Valley Baseball League

The annual meeting of the Bow Valley Baseball League was held in the Editor of The Strathmore Standard at Strathmore, Wednesday, April 24, with the following teams represented: Standard, Gleichen, Brooks, Irricana, Bassano and Strathmore. The league will consist of five teams this year. Last year there were seven. Bassano who was represented at this meeting reported that due to the lack of players they were forced to drop out. Ogden who were notified of the meeting, did not appear. Interest in coming in this year so the league will be made up of Standard, Gleichen, Brooks, Irricana and Strathmore.

Mr. M. Holman was re-elected by acclamation to act as league president for the coming year; vice-president will be L. Hill; and secretaries, Harry Cullen, all of Strathmore.

According to the financial statement, the league is in good shape, so it was decided that there be no entry fee this year.

Players stipulations were discussed at considerable length. It was decided that each team must have 15 players in the names of 18 players to the Secretary of the League. These players must have played three games with that team prior to July 15th, to qualify for team competition, and they must not be playing, or be registered with any other league.

L. Hill was elected to draw up the schedule for the year.

The top four teams after championship play will play off for the championship.

It has been the routine in the past for the home teams to report the results of games to the Secretary-Treasurer of the league, but this year it was suggested by Mr.

STRATHMORE MOTORS HELD SUCCESSFUL AUCTION SALE

Strathmore Motors held a big Auction Sale on the last week of town on Monday that attracted interested buyers far and wide. Tony Zharky the owner of the spread said he heard news reports about the vast display of machinery and that it was the best they had ever seen of this type.

Tony said that he was very pleased with the results of the sale and judging from the number of cars in town it is certain that there were many dollars brought into Strathmore that day.

Letter To Editor

Dear Sir,
 I have read your editorial, Reconsider Mr. Manning in your issue of April 17, to which I crave this reply.

It has been said that when this dividend was received last year it was spent foolishly by some. I know of one man who applied the entire amount to a good work for a good purpose. Like receiving a gift from a friend it was not apart for a purpose, unless necessity of the moment determined otherwise. I believe that was the majority view.

It has been said that this dividend made Crooks of some men. There is a law or a proverb long known in our universe and it says that: Circumstances does not make a fool, it shows him so.

Respectfully yours,
 Charles R. Hornstra,
 Langdon, Alberta.

Mixed Bonspiel Finished Off On Calgary Ice

The last bonspiel of the year sponsored by the Strathmore Curling Club was finally completed on Sunday night and curling in the town is history for another year.

This competition was started earlier in the Strathmore rink but was hampered by the weather in the spring, and was taken to the Strathmore rink in Calgary for completion.

The Al Morton rink came out on top of the heap by winning all the both events.

Rumors up in the first competition were rinks split by Joe Thurston, Frank Smith and Joe Voerman in that order.

In the second and last event money went to Dutch Holman's rink and he was followed by Joe Voerman and Albert Denton.

The prizes have not been announced but arrangements will be made by president Earl Baker.

The cry of the day seems to be membership, and there seems to be no solution to this at the time.

The FUA Locals represented were: Chetmerville; Dalmen; Baintree; and Gleichen. FUA members from Dalmen, Strathmore, Kathryn, Langdon and Rockyview, reported high lights, membership attendance and other activities.

Mr. Otto Heitche, a noted farmer and hockey player, was the first speaker. He reported on re-operations and contract farming.

He reported 30,000 names of eggs (40 per cent graded B) were shipped through Alberta Coop last year; also 5,000 broilers shipped weekly to Edmonton.

Questions on egg grading.

Mr. A. M. Barker, FUA district 10 director spoke of giving our support to the farm unions and said in his opinion the best way to help the farmer is to support the poor membership. We all realize that communities are weak.

Standard HSA Discuss Teenage Problems

The program of the Standard Home and School meeting recently contained a panel on Teenage Problems. On the panel were two teenagers, Margaret Bush and Violet Johnson and four adults. Mrs. H. S. Pedersen, representing the home, and Mrs. Charles Madson, representing the village, Mr. Marshall Ray, representing the school and Mrs. Beal, representing the church.

The views presented by each were his own.

The first one to talk was Mr. Madson. He discussed mostly concerning the community affairs and teenagers of Canada are given a part in community affairs and are represented by one in the hall council at Standard. He did not feel that there was a basic difference in the attitude of the teenagers today from that of his time.

Mrs. Pedersen was very definite and concise in her presentation. In an age when youth matters physically but not socially it is the duty of the parents to be guides. He asked how much freedom, discipline and money were necessary for this age group and answered each.

There should be no late school nights — after 10:30. Parents should always know where their children are. Children 14-16 should be chaperoned at dances and dates. They should be given discipline to be removed to privileges.

Mr. Marshall Ray talked about on gangs and restrictions for teenagers. He also asked if all teenagers were capable of thinking, reasoning and contributing as should be required in our schools. He asked if our society? We must remember we live in an age that is somewhat different socially than when Pat Burns gained a fortune with very little education.

Margaret Bush expressed that adults often think of teenagers as children who try to get away with as much as possible. Where this is the case she felt more responsibility should be given the teenagers the felt that little money could be earned from the situation as it is in and around Standard — thereby responding to Mrs. Pedersen's idea that teenagers should earn all their money.

Miss Johnson brought out the fact that teenagers' actions are mostly a result from a need for approval. Therefore many turn to gangs and groups. They have to be different. If adults talk about how they break the speed limit, or they cannot expect their children to do differently.

Rev. Danhauser said that the book, "The Teenager" by H. S. Pedersen, is a sense of security. When a teenager reaches out to become an independent self, he seeks a new type of security. This security is found in other sources than that of the home. It is found for example in friends. To be influential in his group a teenager may do something which he believes makes him somebody. This often leads to trouble and the rest of the group may follow. It is at this age, therefore, that we also find many youth with religious problems. They seek right and know that the greatest sense of security comes in their relationship to God. But they see a contradiction in the lives of men to what Christianity and religion teaches — thus are misled.

Teenagers who need to be understood, otherwise they will rebel. Parents should seek to be understanding and understood. Especially can this be done through doing.

thinks together. The church today is also doing much to understand youth. In order, however, to get to the basic problems with our teenagers here Mr. Danhauser said that he would be willing to help a teenage group begin to discuss and form their own codes if they would so wish. Adults also would do well to have a group discussion on the problems of parent-teenage problems to find out the real facts and what can be done about it.
After the panel talks all of the audience divided into four groups when the social conditions of life as teenagers in our area have too much advanced caused by -
It was also felt that if teenagers in our community and district could meet and discuss fully their problems, privileges, restrictions and no worse a code of behavior or ethics, to live by, as has been done in parts of the States, that there would be less friction in the home, a role and communication and in this matter the teenagers present heartily approved.

Winter takes its toll of human vigor, and mechanical condition. Check your car and check your driving, the Canadian Highway Safety Conference warns, to check accidents.

Standard News

Of unusual interest to the many friends of Rev. and Mrs. V. Beck, now residents of Montreal, but formerly of Standard was the full page interview with illustrations entitled "From Years Later," in a recent edition of the Family Herald and Weekly Star. The write up concerns the life of Mr. and Mrs. John Maclean of Banville, N.S. and it refers to some of the most famous of Nova Scotia. Mrs. Maclean was Ellen Signe Beck and received her early education in our local school and later graduated from McGill and then took a library post graduate in Boston.

Seven years ago John Maclean and another young farmer from near Plaster Creek were the first young farmers to go abroad to study agriculture and farming methods in Great Britain on a Northfield Scholarship founded by Lord Northfield, owner and founder of the Morris car company.

When asked what he considered to be the best thing he had gained by his study overseas he replied instantly "My Wife." He met Ellen Signe on board ship on his return journey home. She was returning from Geneva, where she had been working in the International Library of the United Nations. John also remarked that his wife was as popular in Halifax that the local people there had decided that their annual second name was true despite though all Danish people will recognize it as purely of Danish origin. John and Ellen Signe Maclean play a leading role in

many provincial and local organizations - to name a few both are members of the United Nations organization, both are members of their local hospital Executive; John being president; Ellen Signe is treasurer of their local church and on the Provincial Executive of the Ontario and Mrs. Gordon Piggitt.

From Women's Group, but through in their most important cooperation, and John Maclean especially their fine heart of Guessey cattle and their splendid garden which supplies many homes in the town of New Glasgow. The illustrations show Ellen Signe rocking her son.

The Ford 1946 - sleek, trim lines and a new 100-hp V8 engine - the new generation of its class.

Ford's strength is beauty-wrapped

Just one look and you'll know why this great new Ford is every man's favorite land-craft. Here is new style, new low, lean lines that linger with you long after you lose sight of the sculptured rear deck. Inside, fine-car appointments and trim you'd expect to find only in higher priced cars.

But look again! There's brawn beneath the beauty. Ford's strength begins with the frame itself - the great new "Inner Ford." An Appeal for Shoes

The Kim Hoang is a little Vietnamese girl 7 years old. The father died in 1945 leaving her mother to support five children, her mother and shoes and socks are so much in her large unhappy family.

Now, to the average Canadian there is nothing sadder to see than a barefoot child playing outside a pretty suburb home. Such is the case in Viet Nam. Bare feet mean danger, disease and often death.

Day after day, the Kim Hoang has to walk barefoot to play and school through the thick, oozy mud which covers the lanes and roads in her village. Her feet are constantly exposed to such things as worms, infection, make little runs from sharp hidden objects and worst of all, leprosy. According to a well known doctor, 10 percent of the world's leprosy is caught through the feet - a fact which has led to the Kim Hoang's plight.

Poster Parents' Plan, Inc. has recently launched a campaign to provide shoes for these unfortunate youngsters - one hundred thousand of them! They are supplying them to traditional Vietnamese villages of rubber and plantations and looking not make a barefooted Vietnamese village. They are the only kind of shoes the barefooted child will not get out of. Best of all, they are made of strong and can protect a small foot against all disease and hurt.

They also buy a pair of shoes to help a Vietnamese child walk safely during her daily life. Fifty

Just Didn't Learn How To Write

Construction graduates may be well trained in the technique of building but employers find many of them need more schooling in English, reports The Financial Post.

A questionnaire to members of the Canadian Construction Association asking for suggested changes in university courses to improve engineer training brought these comments.

Better training in English increased emphasis on English grammar and composition. Most graduates could be trusted to write letters to clients without further training in English.

Jack Pot Rodeo Opener Enjoyed By Good Crowd

The opener for the season of Jack Pot Rodeo in the district was held at the Ray Dwyer farm south west of Strathmore last Sunday. A good crowd was on hand to take in the show, and all felt that it was time well spent despite the windy and dusty conditions of the day.

Possibly the contestant who held the spotlight was leader in the rodeo, candidate for Stampede Queen sponsored by the Okanagan Legion Club. Isabelle proved that she was truly a girl of the west by the way she handled the rearing in ladies competition. She was a first place birth in the barrel race, for which she received a long long cheer.

As you go through the list of the winners printed below, you will see other star performers including names like Harrell, Fred and Simpson is an effort to have every day in their own families as much as possible. Here is the list of the first three winners in proper order.

Boys' rodeo riding - Dave McDonald; Frankie Coker; Ted Simpson and Raymond Torgerson.

Old Rodeo - 1st go around; Mr. Thorpe; Jack Harrell; Jerry Robson; 2nd go around; John Dewdney; Roy Dwyer; Don Jones.

NO GRASS SKITS
FOR NAMAKA LADIES
The Namaka ladies representing the Friendly Club were finally out today in the Best of the Western Show over CHCTV's last Sunday.

Not by any wide margin, however, there was only too positive between them and their competitors, the girls from the offices of the University of Regina. It means that if they would have beat them out of one question the score would have been tied.

They were in the final final for the grand prize of the contest, a trip to Hawaii.

There are not empty hands as a result of the series of contests however. Their homes are full of prizes won by them during the past few weeks. So the girls still think it was well worth while to come with a wonderful time during their TV careers.

Acme started out with a bang in the first by knocking in five runs and followed up with a single in the second round. The Strathmore team back in the fourth with two; one in each of the sixth and seventh and two in the eighth. Acme tried with a desperate effort in the top of the ninth to get in the game, but could only cross the plate twice before the side was retired.

They will go to play the same team at Arise next Sunday.

Possibly the most grateful family for miles around is the John Van Veen family from Standard, where the blaze consumed the pump house which is situated just feet away from their farm home.

Enormous Cast In Ten Commandments

Charles Heston, who portrays Moses in Cecil B. DeMille's, The Ten Commandments, says that nothing he had read or saw, as he prepared for the role of Moses did as much for his characterization as to stand on Mount Sinai, where the first scenes for the picture were shot, on the very ground where Moses had stood more than 2,000 years ago.

Relief From Water Shortage May Be Here This Summer

The regular meeting of the Strathmore Town Council was held Tuesday night. It carried on much business, but much business took place. All councillors were present except Councilor Klalber.

A request to purchase property from the town to keep horses, between fourth street and the highway was turned down. Council felt they did not want to encourage livestock to come to town.

Councilor Bassett reported that vandalism cases had been brought to his attention, and felt that the town should have some protection. They will advertise in the local paper for a part time policeman.

A request by seven residents on third street was granted to pump lawn and garden water from the irrigation ditch west of town, by piping it in. This will be done at the town expense. They will be buried 8 inches deep along the alley and 2 1/2 feet above the road. It was brought up that some water users were not on meters. The Dept. of Public Works will take immediate action in this regard.

The cement foundation will be put in under the shop recently moved on town property, by the fire hall.

Sidewalks will be finished this year on the following streets: On the Ave. between 1st and 2nd Streets, on the East side of 3rd Ave. between 2nd and 3rd Streets, and the frontage owned by Tom Old.

Council decided to let the crosswalks at intersections. A suggestion made by F. Koskowiak, Second Avenue, that the Royal Rank to the Highway will be gravelled this year, as soon as the M.D. rubber moves to town, was approved. Arrangements have been made for this by Councilor Koskowiak.

They will be clear hauls, and will build up 3rd avenue as well. This work will commence immediately.

As has been the practice in the past, the first day of the Calgary

Stampede will be set aside for Civic Holiday. A by-law was passed in this regard.

Two building permits were granted. One to British American Oil Co. for a new office building, stone tanks with overhead leading to be placed near the present site of the Bolt station on the same property. A permit for a home was also granted to a Calgary salesman Mr. Kemp, to be built in the new subdivision.

The acute water supply took considerable time to discuss. Council felt that there is plenty of water for domestic demand in town, but when it is used for gardens and lawns, a serious shortage results. The plan the office at present is to pipe water from the lake in east Strathmore.

They would possibly use the old main, that is presently under 2nd Ave. from 1st St. south to 3rd St. But it will have to be extended further. Councilor Koskowiak pointed out that this should be done before repairs are made on that avenue.

From the main, it was suggested that they use carlin pipe running east and west providing outlets for each resident in the alley.

Gleichen has a similar system, and secretary L. Hill is going to make an appointment with officials there. Mr. Strathmore Council to go on an investigation their garden and lawn water supply.

MEETING

The scene of a wedding on Saturday night at the Strathmore Hotel was a masterpiece of ceremony, and had Newton proposed the toast to the bride.

For her daughter's wedding, Mrs. Haberger chose a dress of royal blue, accented by a silver metallic design. Her choice white accessories and her corsage was of pink and white carnations. Mrs. Haberger, mother of the groom, wore a dusty rose lace dress with rhinestone jewelry and completed her ensemble with white accessories. Her corsage was also of white and pink carnations.

For travelling the bride chose a white linen suit accented by navy accessories. Her corsage consisted of red roses. After a honeymoon in Eastern U.S. the honeymoon will reside near Balesker.

PLEASE RETURN HALF

Kelly Baldwin is taking the strain.

Last week we reported that he had purchased wire for a new fence to keep interfering individuals away from his machinery on his farm. His lot but before he was able to put it up, someone stole one roll or 100 feet of it.

When the fence was discovered, he tried to order more of the same type of fence, but found out that he no longer available. He tried to get the fence for the present. So if the person who took the wire would bring back only half of it, it would be sufficient to complete the fence. Kelly isn't asking, he is pleading. He isn't getting too much sympathy from his friends here, as they are getting a good laugh out of it.

Latest reports are that when it ever the fence is completed, it will be charged with 230.

Another baseball team has been organized in Strathmore. It may be called a farm team to the juveniles in the town, but it is a team that are anxious to play, about 16 of them, that some of the men in the town and district entered the boys in a league with Monstigh and Carleton.

They played their first game last Wednesday evening at Strathmore. They were taken by quite a margin, the post-victors for the future is there, it would give a little coaching, they would give a lot of trouble to their opponents later on in the season. They went to Carleton Saturday evening. It was 4-0 at the end of the fourth, then the home town boys applied the pressure and crossed the plate with 13 runs to make the final score 13-4 for Carleton. They play again at Monstigh this Sunday.

Strathmore Police — Officers are taking their holiday from June 16 to 21. There will be no court during that time.

Last Sunday Mrs. Chas. Harvey took some relatives who had been visiting with her to the Blue Hills where they stayed for a few days.

Apparently they used two days in Strathmore in 1955, but they were found one day in each town while staying in his home.

 The regular meeting of Rockyford Lions Club was held June 8, with a fair attendance. A lively report on the district convention was made by the delegate. However, it was felt a full report could be no more at this meeting as the Lions who had attended were only just back home the day before and some of the details were not clear yet.

It was reported the Trappes Bros. Circus would be here on Wednesday as arranged.

The club voted to try and arrange a display in the Park preferably the last part of July or the first part of August. More information will be available at a later date.

The Rockyford Lions Club were very happy to receive a donation of a new kiddie slide for the park from the Ladies Auxiliary of the Ladies in Rockyford. A vote of thanks was given and the secretary was instructed to send our thanks in the official correspondence.

The next meeting is important as the installation of officers will be the major order of business and a good attendance is expected. A very happy event will be held at the home of Mr. and Mrs. R. Shady and family of Drumheller; and Mr. and Mrs. Bob Durrant and family of Edmonton.

We are happy to report Mr. Melvin W. is home again after a lengthy stay in hospital.

Mr. and Mrs. Lawrence Shaden are the proud grandparents of a baby boy. The little bundle of joy arrived at the Poncha hospital June 5. Mother Dorothy is doing very well and Sylvia is slowly recovering.

Mr. and Mrs. J. Toner; Mr. and Mrs. Barney Dyer; Mr. and Mrs. W. Brown and Mr. and Mrs. C. Smith attended the International Lions convention at Great Falls.

5-Car Bingo To Be Held August 6th In Strathmore

The community meeting called by the Arena Committee for Tuesday night was splendidly attended. There were only eight members of the executive board present.

Those men did however decide to hold a 5-Car Bingo again this year and the date was set for Wednesday, August 6th. The men were present felt that the small attendance indicated that there wasn't sufficient interest this year to hold two bingos, as was the case last year.

Another meeting was called for Tuesday, June 24th to formulate final plans and to set up the working committee. The public is invited to attend this meeting.

TEST THE ZIP of a new Fargo pick-up!

Come over this week! Take one of these stylish new Fargo models out on the road. See how much ZIP it puts in a trip... how free and easy it handles... and how relaxed YOU feel in the cab!

Worth a little of your time? Well, sir, it sure is! After all, your next pick-up will be your work partner every day! You need the liveliest, thriftest, work-worst one on wheels. And Fargo is all that — and more!

For one thing, Fargo's big Power-Drive V-8 gives you the get-up-and-go you need in traffic. So does its peppy L-head Six. And you can manoeuvre well in tight places, too, thanks to Fargo's advanced design steering system.

These trucks have a low loading and unloading height, which saves you a lot of strain. They have plenty of road clearance. On lowest tonnage models you get a new "passenger car" ride — rear springs automatically adjust tension to varying loads. You can get a new Bump-Griff differential on these models, too, which prevents loss of traction in mud, sand, snow or ice.

Come over for that test-drive now. You'll like Fargo's new style... big, roomy cab with 6-way adjustable seat... cut-outting performance... and other extra-value features. There are three wheelbases and body lengths — one's just right for you. Pick it out. Price it... you'll like what you hear!

Look for these Fargo features, too, when you "test the ZIP":

- New easy-shift manual transmission
- Push-button automatic transmission

• Drive-adjustable independent parking brake
- Full-opening alligator-type hood

• New dual headlamp system
- Electric windshield wipers

• New, higher G.V.W.'s for greater payload

Small Towns And Movies

The Movie Theatre business in small towns is fighting a losing battle. In many instances when some of the world's top movie attractions are on the bill, they play to a sparsely filled theatre.

The TV set in the home is responsible for most of the opposition. But for up to date movie entertainment, they must depend on the local theatre.

It has been known in former years where the theatre is forced to close, that the business men and help to keep the old house that town realized the importance of the local theatre and shipped in to get it open again. Rockyford and Standard are running theirs as a community effort, because the people realize the importance of the local movie to their town.

We all realize that the TV set cannot compare in quality with your downtown movie and it is up to us to support these places before they are forced to close.

What ever brings people into town is worthwhile keeping, and your local theatre is a great driving card. Support your local movie and help to keep the old house that town realized the importance of the local theatre and shipped in to get it open again.

BY MISS H. P.

The latest news item in our district this week is the fact that we were favored, along with most other Alberta, with a wonderful rain during the weekend. At least two inches of rain fell, bringing a promise of new life to the grain and crops which were beginning to suffer from the drought.

The classes at our school were dismissed for the term on Friday afternoon when the children, parents and teachers met in a favorite place, not to have a picnic lunch together, followed by refreshments of soft drinks and bull games for the children with their parents. The children were their parents in spirit of their class composition. A water right followed the games, and pop, ice cream and coffee were served by the gathering dispersed just in time to make the big dust storm which came before the rain.

Mr. A. Hinton left for her home at Terrington on Friday evening, having completed her term of teaching the grade 1 to IV. Mr and Mrs W. Sparks and family left this week for Roseburg, B.C. where they will spend the holiday months with relatives. Mr and Mrs Jacobson of Paxton, North Dakota are visiting with their daughter and son-in-law, Mr and Mrs Gordon Miller. Mr and Mrs Haveli Khammanee and family spent the weekend in Standard where Mrs Khammanee attended the funeral on Saturday of her aunt, Mrs Anna Hall, of the Caroline district.

Due to the building of a new telephone line through this district, our telephone have been dead for the past week, so this is all the news I know for this week.

Please call me on weekends when we can communicate again.

Medical Milestones

Medical Science Helps Diabetic Women

Development of a pill capable of lowering blood sugar is many of diabetes has received world attention on the news item is due to latest research of a hormone called insulin by the pancreas, a gland located behind the stomach. We have also learned to control the disease by insulin injections, a fact which we are indebted to the Canadian doctors F. G. Banting and C. H. Best.

However, we still do not know the ultimate cause of diabetes, nor do we know why it affects more women than men. Of some 200,000 diabetics in Canada today, about 125,000 are women.

At 45, both sexes are equally susceptible to the disease. After 45, however, twice as many women as men become diabetics. Statistical studies have also shown that married women run twice as fast as single women.

Consequently, the new oral anti-diabetic drug called Orinase, which was originally developed in Germany, and is now produced in Canada by Hoechst Pharmaceuticals of Montreal, may be even more of a boon to women than to men.

In clinical trials involving 20,000 diabetics, Orinase proved to be the best. It is a four-part drug of six patients over 40 years of age. Since 19% of all diabetics are over 40, and even more so, women to enable the majority of diabetic men and women to enjoy a new freedom — the freedom from insulin injections.

WEDDING

HASKAYNE - MURRAY

The recent marriage of Miss Loe Mary Ellen Catherine Murray, eldest daughter of Mr and Mrs W. H. Murray to Mr Richard Francis Haskayne, youngest son of Mr and Mrs R. Haskayne, all of Gleichen, was celebrated at the Gleichen United Church on June 28, with Rev. Norman officiating.

Entering the church on the arm of her father, the bride wore a floor length gown with white bodice and full chiffon skirt. Her chapel length veil fell from a Queen Anne headpiece. The bride carried a white Rose. The bridesmaid was Miss Patricia Orvis of Calgary. The junior bridesmaid was Miss Leslie Haskayne, niece of the groom and Miss Bonnie and Olive Murray, twin sisters of the bride. The flower girl was Miss Laurie Haskayne, sister of the groom.

Mr Stan Haskayne, brother of the groom was the best man. The guests were ushered by David Campbell of Calgary. Mr and Mrs Elmer Hollinger, played the wedding music.

A lovely reception was held in the church basement for the immediate families, which was catered by the W. of the church.

Out of town guests were from Uranium City, High Prairie, Calgary, Cranfield, Haskayne, Oakes, Three Hills, Marville and Valparaiso. Open house was held in the evening at the home of the bride's parents which was well attended by nieces and friends.

From their return from a honeymoon to the west coast the happy couple will reside in Calgary.

The Prime Minister's youngest son, a few weeks from the family home, as his son, boy and girl, are expected to be announced for public life.

The Prime Minister's only son and daughter, with his mother, John and his sister, are expected to be announced for public life.

One of the problems in connection with mechanization of agriculture is the fact that many farmers consider safety devices as a hindrance to their work, and therefore unacceptable.

At the age of six, he told his mother of his intention to become Prime Minister of Canada. From then on, through a tedious youth on a Saskatchewan homestead to his student days at the University of Saskatchewan, he was always aware of his destiny.

Rosebud News

BY MRS. M. L.
The Rosebud Baptist Church held a special service Father's Day, with each of the fathers taking part in it.
The United Church Sunday School held its picnic last week. We are glad to see Mrs. Miller Evans back in town for the summer. She has been living with her daughter, Mrs. D. (Dennis) at Calgary.

It is to degrees above here this afternoon, June 25, and quite comfortable. We think of Miss Forsyth who was to lead in the Georgia about this time. It is generally 15 degrees above there.
Twenty-one people helped Mrs. Day celebrate her birthday Sunday with a supper at the home of her daughter Mrs. and Mrs. J. (John) Taylor.

Mrs. Doris McKinnon and Jim are spending a few days with her sister Mrs. Pearson at Carbon while Al is away on business.
The Rosebud Baptist ball team was host to the Drumheller team Tuesday evening. It was a fast game that saw lots of action and a minimum of errors. Drumheller won 16 to 9. After the game a one hour and 15 minute social was held at the church.

Mr. and Mrs. (Husker) and family are visiting in the town of "Husker". Mr. and Mrs. (Husker) and family are visiting in the town of "Husker".

BY MRS. C. R.
Miss Anna Pettit, who will be married on August 2nd was surprised by the mothers of her grade IV students, who met at 4 p.m. on June 19 in the staff room of the school for a miscellaneous dinner in her honor. A delightful lunch was served by the ladies after which the little girls of grade IV brought in many gifts and presented them to Miss Pettit. Mrs. Kuehne and Miss Longway assisted her in opening the gifts, after which she thanked everyone and invited all to come to the wedding in Gleichen.

We are glad to hear that Billy Larson of Baskapene expects to come home soon, after two months in the Husker hospital.
Our Savior's Ladies Guild met at the home of Mrs. Lloyd Clark on June 27 with 12 members present. A baby's layette was sent to Lethbridge Women's Relief, and handbags and toys are to be sent from the Junior Mission fund.
There will be no July meeting of the Guild, but all members are asked to make a special effort to be in Standard August 1st at 2 p.m. for the WMS district meeting and the program in the evening.

Rev. Paul Johnson, a UELC missionary on furlough from Japan will be in Husker at the end of July and will speak at the church. It is hoped that everyone will come, bring a friend to enjoy a first hand account of our mission.

The Sunday School picnic which had been planned at Rosebud for last Sunday was held in the church dining hall instead. Games and plenty of refreshments replaced the outdoor activities. No one complained because of the rain which was so badly needed.

Miss Leahy Lorne of Vancouver is visiting her cousin Judy Knowlton and both will attend the Calgary Stampede next week. An inch and a half of welcome rain fell in the Standard area over the weekend ending the long hot dry spell.

On Wednesday evening a large committee of friends entertained at a bridal shower in the hall dining room when Arlene Lavridson was the guest of honor. Mrs. Walter Jorgensen was Mistress of Ceremonies and welcomed the guests. Following delicious refreshments served at flower decked tables, a host of beautiful gifts were presented to the bride to be with the best wishes of her friends. EFFICIENT FEEDING AND LIVESTOCK MANAGEMENT

By Dr. Gustav Bohstedt
 Emeritus Professor of Animal Husbandry
 University of Wisconsin

Preparing Steers For Shipment To Market

Old-time cattlemen were very much concerned about "dirt" or loss of weight in cattle being driven long distances to market. They would make sure of plenty of grass and water en route, provide salt and permit the animals to feed. In other words, they would, as much as possible, provide the comforts of home to keep the cattle contented in order to hold the weight home.

Such loss of weight en route to market is not eliminated. It is a fact of life where cattle are shipped by train or truck. The modern cattlemen are still concerned and careful to minimize the loss.

More serious injury under the crowded and uncomfortable shipping conditions has a tendency to pull weight of the cattle. Depending on the method of marketing, this weight may be entirely "lost" but also actual loss of weight. For the most part, however, it is the reduction of the contents of the digestive tract, and in recoupling of that fact a buyer weighing steers right out of a feed lot customarily, by agreement, discounts the scale by eight pounds per cent.

Where the steers are to be switched at the stock yards or feedlot.

Question: How much salt do steers need?

Answer: Studies at Michigan, Minnesota and other stations show that horses and mules differ greatly in their individual consumption of salt, and they consume different amounts at different times. Also, according to their activity. In one study the salt intake of 12 horses ranged from a high of 8.50 ounces per day to a low of about 1/2 ounce per day. However, of the steers, it is advisable for horses and mules to have constant access to loose salt. One of iodized or trace mineralized salt for horses is becoming increasingly prevalent.

Preparing Steers For Shipment To Market

Old-time cattlemen were very much concerned about "dirt" or loss of weight in cattle being driven long distances to market. They would make sure of plenty of grass and water en route, provide salt and permit the animals to feed. In other words, they would, as much as possible, provide the comforts of home to keep the cattle contented in order to hold the weight home.

Such loss of weight en route to market is not eliminated. It is a fact of life where cattle are shipped by train or truck. The modern cattlemen are still concerned and careful to minimize the loss.

Gas Company To Make Further Study Of Strathmore

After considerable negotiating Canadian Western Natural Gas Co. of Calgary has been permitted to pipe gas into Calgary from the Carbon field. Construction is now underway on the Calgary end of the line, and, weather permitting, the project is expected to be completed by fall.
 Officials of the company made a survey of the town of Strathmore, at the request of the Town Council, some months ago to determine the economic feasibility of supplying gas to Strathmore, by bringing in a branch line from Carbon-Calgary line, a distance of about 15 miles.
 The Standard contacted the vice president of Canadian Western Natural Gas Co. Mr. Bruce Wilson on Wednesday and he had this to say:
 "The company is prepared to make a long and careful study of the town of Strathmore upon completion of the Calgary-Carbon line, and is hopeful that the results of the studies will be such that they will at that time be in a position to make application to the town to

provide service."
 He also stated that facilities could not be provided in any case before 1969.
 Mr. Wilson and another Gas Company official, Mr. Chuck Ross, met with the Strathmore Town Council on December 31 of last year; a preliminary survey was made a few weeks later, but according to the conversation with Mr. Wilson yesterday, a much more careful study will be made after the main line is completed.

This trophy is awarded to the veteran who obtained the most points during the week's competition. Jack also was third in the wild horse race. With him in this event were Tom Hildahl and Bob Jones.
 Lolly and Roy Dewey competed in the calf roping contest. Lolly received National recognition over CBC TV when the picture flashed on him while trying to throw his calf.

From where it stood, it looked as if the calf was as busy as the Cowboy and could be thrown. The calf was wrestling mad, when the point of grunting and grunting. The only thing wrong with the calf was that it was too nervous to give the calf the three count when determined Lolly finally proved to be the master.
 Ted Simpson put up some pretty stiff competition in the Boys Steer Riding event and came up with a trying position for third spot. Dave MacDonald also entered in this event.

Others in the competition were Jerry Holman, Gordon Christensen and of course the Verne Greys and the Verne Greys. The chuckwagon outfit from Standers was in stiff competition till the last.

Strathmore Service Club, and took the stand on their behalf.
 He stated that the Club had drilled a well this year with the purpose in mind to get clean water, but when the job was completed, they found the results were not at all satisfactory, so it was filled with the irrigation water. This action was taken as a result of pressure brought on the club by citizens wanting to swim as soon as possible.

Mr. Hildahl stated that he was aware of the fact that the filter wasn't doing a proper job and that steps were being taken by the Lions Club to remedy the situation.

At the close of proceedings and testimonies, the jury were left to come to a verdict.
 All the details are now in the place, a complete new fare list, all the details are now in the place, a complete new fare list, all the details are now in the place, a complete new fare list.

The job is not completed however, Plans are now to replace the water in the tank and the interior will enjoy a new paint job.

Buddy System In Operation At Strathmore Pool

Officials of the Strathmore Lions Club announced Tuesday that they have put the Buddy System in operation at the Strathmore Swimming Pool.
 The essence of this system is that the swimmers will stay in pairs at all times, and they are responsible to each other, when in the water. At any time, the Lifeguard may blow his whistle, and those in the pool are to hold their hands up in pairs. If this is not done, and the occupants of the pool are not together, they will be penalized by having to get out of the water.
 This has been put into operation to assist the Lifeguard, and to insure the safety of the swimmers.

This system has been used by Bill Scott, who is in charge of the pool previous to this when instructing large classes.

Medical research aims at a longer, happier life for you and your children

Thanks to untiring research, many dangerous diseases are under control today. A number of other "killers", however, are still unsolved problems. In the over-all research effort being made to solve them, the medical schools of Canadian universities are playing an important part. To help strengthen and develop their research programs, the Life Insurance Companies in Canada are providing research Fellowships to these universities, every year. Fellowships are awarded to graduates who have been appointed to teaching or research staffs of Canadian medical schools. During the past nine years 107 Fellowships of this nature, amounting to half a million dollars have been granted.

New Baler "Measures" Hay

Here's a baler that measures hay so that farmers get "square" bales every time for better handling and curing. The Hayliner, product of New Holland Machine Company, does not choke or jam. A slip-clutch prevents it. The new baler, now in production, turns out bales anywhere from a foot to 4-1/2 feet in length. The farmer decides what length bale he wants and makes a simple adjustment to get it.

Blood Clinic To Be Held In August

The time is fast approaching
when the citizens of Strathmore
will have an opportunity to have
their much needed blood to
the Red Cross.

Plans at the present time are to
hold a clinic in Strathmore in the
Memorial Hall on August 16.

It is the hope of the Red Cross
that the clinic will also be held in
the immediate district about the
same time. The time and place will
be announced later.

The Red Cross will require a
larger than average number of
Group O Rh Negative donors, be-
cause that type of blood is ex-
posed to all patients of this type
requiring it. In addition to this
when there isn't time to check the
blood type of an emergency pa-
tient, this type is used. New bor-
rowers often require this type as
well.

Real friends are those who, when
you've made a fool of yourself, to
man. The information was rec'd.
don't feel that you're doing a harm
to man. — Kevin T. Randall.

ORELLIN PITCHING BALL

WHILE ON HOLIDAYS

Gordon Orellin, Strathmore, and
one of the pitchers of the Strath-
more entry in the New Valley
Baseball League didn't let his arm
go rusty while on holiday.

Gordon spent two weeks in Ver-
non, and while there filled in at
his usual position with the Vernon
Clippers.

We received a clipping from
these remarks were, longer route,
additional set, all weather
road, splitting the community in
two, and that the social and out-
side curricular activities of the
students would be cut in half.

The Divisional Board agreed that
the situation was not an ideal one,
and requested that the Department
of Education make a survey of the
situation and other recommendations.

This was done by Mr. Kneisel,
Inspector of high schools, on Jan-
uary 1968, and he presented his findings
to the Divisional Board in writing
June 1968. He recommended three
alternatives.

1— Provision of a two room
high school, grades nine to 12.

2— Provision of a one room high
school for grades 10 to 12.

3— Provision of a one room high
school for grades 10 and 11 only
while the grade twelve are provid-
ed for in some other way and at a
larger school.

Mr. Kneisel felt that the third
recommendation would be the most
workable one, because the first
two would present limitations. He
stated that the first recommendation
could be made to the present grade
nine organization in the school,
which would then be made to the
board. It could be made in a two room
high school. Even when students
are in the grade nine organization,
the necessary qualifications as well
as the insurance time, and suggested
that the board overlook the first
two reasons.

He also suggested that a grant
be given to the grade XII students
if transportation could not be ar-
ranged.

The board accepted the third
recommendation of the brief, but

Investigation Results Of Rockyford Public High School

For the past three months, there
has been a Citizens Committee
from Rockyford busy contacting
local and government level offi-
cials of the school in an effort to
obtain a public high school in this
town.

At the present time, these wish-
ing to take high school here are
attending St. Rita's which is a pri-
vate Catholic school. There is a
working agreement existing be-
tween the Wheatland School Dis-
trict and the Citizens Committee
through a tax agreement.

At the regular Divisional Board
meeting of the Wheatland School
District, this committee, consist-
ing of Mrs. L. O. Hendry, Mr. Alan
Fraser and Mr. Sherman Brown,
presented their case. They re-
quested that they be given a petition
signed by 200 parents and taxpayers
requesting that the board make a
two room high school available in
Rockyford.

In presenting their brief, they
felt that they should not be forced
to send their children to a private
school against their wishes. They
stated: "We are peacelovers but not
being able to quite make the 30
miles west the board demands for
a public high school, but if you
add to the figures on the environment
that school, you would find that
it could be made at least 85,
providing Mr. A. L. continue to op-
erate their high school."

They pointed out that 30 of the
30 high school students attending
the private school, the Wheatland
School District is paying the tuition.

The brief stated that the peti-
tion signers were not in favor of
housing students at other schools.

The board accepted the recom-
mendation of the brief, but

events on the calendar for this
year. The date is set for August

been given to these groups to use
the arena for this purpose at a fee
of \$25 which will cover expenses.
They will also be responsible for
any damage that may be caused.

Besides the Strathmore entry,
there will be teams from Cross-
mount, Deep Dale, Mission, and

**Standard Gaining
In League Position**

The Standard entrant in the Bow
Valley Baseball League now hold
a substantial grip on third place
and are threatening to move
Strathmore down a notch. They
took 10 runs to take both games
on Sunday on their home diamond.
Brooks is leading the park with
12 points. Strathmore 12, Standard
10, and Irricana 6.

All games are completed in large
play with the exception of a
few and home series with Stan-
dard and Brooks for a total of 6
points at stake, so these two teams
will have a battle on for what
could be first and second place
titles.

The first game Sunday, Standard
took by a 11 to 6 margin and the
second by a close 7 to 6.

Plante and G. O. O'Han were
on the mound for Standard in the
afternoon fixture, and Clark Chris-
tensen was the game for the home-
owners in the evening. Bala
caught both games.

There are copies of the financial
statement available at the Clean-
ing Plant and the report will also
be in next week's Strathmore Stan-
dard.

The following make up the ex-
ecutive: president, Norman Robson;
vice-president, Hugh Barry; and R.
Harris, the treasurer. H. Robson,
J. Scher, J. Harwood, K. Walker
and G. Patterson, directors. Gaylen
Robson will act as secretary-tre-
asurer for another year.

During the past year, the ex-

taken up in a last meeting and a
decision has been made to go on
with the structure.

**Clean Well Water
Now Being Used
At Strathmore Pool**

The battle of dirty water in the
swimming pool seems to be a thing
of the past.

Some weeks ago Don Murray,
drilled the well again. Archie Kie-
ser supplied a pump, and the
Club, operators of the Pool, pur-
chased chaul, red and cylinder
and used the material already there
in an effort to supply clear water
for the swimmers.

When the water was first pump-
ed, there was so much sand with
it that they were forced to be
the pressure of the children to fill
the pool with irrigation water.

This did not prove satisfactory
so George Linden, winched the
pump and gave and ran the pump
valve to be full of sand. (In doing
this he broke the winch on the
which caused some delay in this
operation).

When he replaced the pipe he
set it at the 60 foot level, rather
than the original 100 feet and at-
tained nice clear water plentifully
of it.

The pump pumped water contin-
ually for four days, and showed no
signs of tiring.

The water is now clear enough
that the bottom of the pool can be
seen with ease at the deep end of
the pool.

Money For Expansion

During the war, many people benefited by Victory Bonds. They did so partly, too, because it seemed a sound way of investing savings at a reasonable rate of interest. The government has now issued an invitation to exchange old bonds for new ones of the Canada Convention Loan on a voluntary basis. The reason it did so was that five of the old Victory Loans will mature over the next few years. Rather than wait for them, in its interest to fall due, it seemed more sensible to refund all five at the same time, by means of a single new loan.

ROCKYFORD HIGH SCHOOL

This is the eyes of the Citizens Committee was not satisfactory, and they then presented a report to the Minister of Education. They cited Standard as an example of a school that for the past 10 years have been operating a 7 room high school where no curriculum courses were required to obtain senior matriculation in one year, and felt that Rockyford could do the same by working with the new outline. They also pointed out further disadvantages of students riding on the bus to Standard and Strathmore. They also outlined the idea of grades 10 and 11 taking classes in a basement and with accommodation for about 18 when it would be necessary to build room for 38. The Divisional Board has also made arrangements for Rockyford students who want to go elsewhere. They will be paid \$330 per year, which is the cost to the Division of educating one child at present.

The board, at a meeting June 18th adopted that they notify St. Rita's Separate School District, the present outline agreement with them for grades 10, 11 and 12 be terminated as of June 30, 1968. The Department of Education stated that they would provide additional building grants. If the board decide, to add on to the present public school, but due to the shortage of teachers, they have decided not to enlarge the Rockyford building at the present time. Arrangements are in the making to use the grade 13 students' classroom. One will go to Standard and one to Strathmore, but it is not known how the other three will be allocated. Two of them will go to Rockyford and one west. The farthest distance for one student will be 30 miles by school bus.

WEDDING

VAN BAVEL — ROBERTS

Sacred Heart Church in Strathmore was the scene of a pretty early afternoon wedding June 18, when Miss Shirley Roberts, daughter of Mr. and Mrs. Leonard Roberts, became the bride of Mr. Hugh Van Bavel, son of Mr. and Mrs. John Van Bavel. The couple were united in marriage by the Rev. P. O'Rourke before an altar flanked with ferns and flowers. The wedding music was played by Miss Mary Lawverney. Mr. and Mrs. O'Rourke sang.

The bride given in marriage by her father wore a floor length gown of chiffon, featuring a large bodice with lily point sleeves. Her fingerless veil of nylon with sheer uppers was held in place by a dainty headpiece of lace and chiffon accented with sequins and pearls. She carried a bouquet of white roses and stephanotis. Her jewelry was a gold cross with matching earrings, a gift of the groom.

Maids of honor, Mrs. Shirley Craig of Calgary were a white length gown of pink chiffon. Miss Mary Bapiste wore a white length gown of blue chiffon. Gift gowns were coordinated with white accessories and white carriage bonnets.

The flower girls were Miss and Leslie Roberts, brides of the bride. They wore white chiffon dresses with pink accessories and carried white bouquets of pink roses.

The groom's attendants were his brother Herman Van Bavel and his cousin Mr. James Van Bavel. Others were Mr. Gordon Van Bavel, the groom's brother, and Mr. Bert Roberts, brother of the bride.

A reception for 150 guests was held in the Memorial Hall, Mr. MacKenzie presided the toast to the bride. Mr. DeLaurie and two lovely brides, accompanied by Miss Mary Lawverney and family, from Strathmore, officiated at the altar.

Out of town guests were Mr. and Mrs. Leo Jackson and family, from Toronto, cousins of the groom; Mr. and Mrs. R. Hitchcock from Ponoka and many Calgary guests. For travelling the bride chose a Royal Blue suit, matching the bride and many Calgary guests. The bride wore a white gown and a carriage of white sequins. For the honeymoon they went to Idaho and Washington, and came home through R. C. They are residing in Calgary.

Cars and Prosperity

Any way you like to look at it, says The Financial Post, the Canadian automobile industry is a big part of the nation's economy and its rate of sales a potent barometer of Canada's prosperity.

Next to housing, the largest expenditure of the average Canadian consumer is for the family motor car. That purchase accounts for over 55 per cent of the total spent on durable goods.

In several times the Canadian automotive industry provides jobs for 80,000 people. About 40,000 of these are directly employed in the manufacture and assembly of cars and trucks, another 20,000 in the making of parts. Wages and salaries total close to \$250,000,000 annually and, in a good year, output of approximately 400,000 vehicles is worth between \$600 and \$700 million. The industry and the motor car contribute about \$235 million in federal and provincial taxes annually.

The industry is a major consumer of rubber, textiles, aluminum, paints and lacquers, glass and, above all, steel.

HOW GOOD IS YOUR SUMMERFALLOW?
The results of a survey made in Saskatchewan in 1935 mapshow how important good summerfallow practices are in the production of grain crops in the Prairie Provinces. Last year, 17 per cent of the Saskatchewan wheat crop, 26 per cent of the barley crop and 26 per cent of the flax crop were sown on summerfallow. Here are the results: Wheat on summerfallow yielded 175 bushels per acre compared with only 9 bushels on stubble land. This on summerfallow averaged 35 bushels per acre compared with 21 bushels for stubble. The comparative yield figures for barley were: on summerfallow — 20 bushels per acre; on second crop land — 18 bushels per acre.

WHEATLAND MUNICIPAL DISTRICT No. 40

As pointed out recently by Mr. A. W. Hamilton of the Swift Current Experimental Station, summerfallowing is a costly item in grain farming. Furthermore, unless every effort is made to preserve as much of the available land as possible, it can be a hazardous farm practice. Maintaining an effective trash cover on summerfallow land serves two important purposes: (1) it reduces the danger of soil erosion by wind and water and (2) it increases the ability of the soil to absorb and retain moisture.

It is impossible in this short article to describe in detail the many aspects of a good summerfallow program. However, the main object in all tillage operations this summer should be to anchor, at or near the surface of the soil, as much trash as possible. This means the proper use of the right tillage implement at the right time. Invaluable tillage is important. Shallow tillage at a uniform depth (3 to 4 inches) not only conserves more trash cover, but favors maximum moisture storage in the soil. Watch your trash cover closely and select the implements that will do the best job of anchoring the trash at or near the surface of the soil.

There would be 24,568,000 acres under a summerfallow in the Prairie Provinces this year, and the area and quality of the grain crop that will be harvested in Western Canada next year will be largely determined by the thought and attention farmers give to their 1935 summerfallow operations. A good job of summerfallowing the Province will pay high dividends in 1936.

might drop dead anywhere, so I'm just looking from station to station.

Terrence newspaper columnist Alex Harris, who starts on a week-to-week basis, will be the summer this replacement for Raville on CIBC radio. The Alex Harris Show, featuring Harris' hilarious humor and choice of recorded music, will be heard each afternoon, Monday to Friday, on the Trans Canada network.

With Knight behind the plate they completely overpowered their opponents by a 17 to 1 tally.

Petros stayed in position, till the 7th inning, then coach Doug Simmonds put in Crelin and he did so equally good job to hold the Crowdfall swimmers at bay.

Kierian to McCool was the battery for Crowdfall.

The Strathmore Standard

The Strathmore Standard, established in 1909 is a member of the Canadian Weekly Newspaper Association and is published every Thursday at The Standard Office, Strathmore, by Keith Bergh Editor and Publisher. Member of the Audit Bureau of Circulation. Authorized to second class mail. Post Office Department, Ottawa, Canada. Entering more than 1,600 homes in a thriving district each week.

The Lions Have A Problem

Although Strathmore has a side of the pool to give the Lions a good view, and everyone has the idea that they are going to drive home a new car after the Five Car Blues to be held in the Memorial Arena August 6th, there is another organization in town who is taking for your help. The Strathmore Lions Club who are operating the Swimming Pool have a big undertaking, and it appears to be getting bigger every year.

In order that this club can put to the pool up to proper standards, take money (about \$15,000) to they need the help of the public.

They have done some towards the protection and safety of the swimmers so far this year by a lot of time taking clear water from a deep well, but the water is very cold. According to regulations, the pool they are asking for your help if should be overflowing at all times. This means that water should be pumping from the well constantly, and if this is done, there must be a way of heating it.

The bath house is inadequate and must be rebuilt, with both room facilities and heating equipment. Towels are to be built on either your own.

Mr. Frank, semi-retired engineer of Hamilton Creek, Ont., believes this exercising machine can add 25 years to a man's life. He developed it for himself when, bedridden after a fall, he wanted a stimulator for his unexercised muscles. He doesn't claim his machine a cure-all for arthritis, rheumatism or any other specific disease but is enthusiastic about its capacity to induce feeling of well-being. The machine is available by mail order at a special price.

Canadian Company Initiates Vigorous Expansion Program...
NEW MASSEY-FERGUSON PLANT
BUILDS 250 TRACTORS A DAY!

250 world-famous Ferguson System tractors every day... one in less than two minutes! A remarkable production figure that goes a long way towards proving this new Massey-Ferguson plant at Detroit one of the most advanced industrial facilities in the world!

Yet this is the output of only one of sixteen Massey-Ferguson factories that operate in seven countries — Canada, the U.S.A., England, Scotland, France, Germany and Australia. Over 23,000 employees in these factories manufacture a complete line of farm and light industrial equipment that reaches markets in over 135 other countries.

The Detroit plant is part of a whole new series of developments ranging from product research, manufacturing and marketing, that have recently been put into effect by this dynamic 110 year old company.

The largest manufacturer of tractors and self-propelled combines in the world today, Massey-Ferguson — a Canadian company with a truly international outlook — looks forward to continued progress in the mechanization of agriculture throughout the world.

Medical research aims at a longer, happier life for you and your children

Thanks to untiring research, many dangerous diseases are under control today. A number of other "killers", however, are still unsolved problems.

In the over-all research effort being made to solve them, the medical schools of Canadian universities are playing an important part.

To help strengthen and develop their research programs, the Life Insurance Companies in Canada are providing research Fellowships to these universities, every year.

Fellowships are awarded to graduates who have been appointed to teaching or research staffs of Canadian medical schools. During the past nine years 107 Fellowships of this nature, amounting to half a million dollars have been granted.

Mrs. M. Jorgensen from Hansen, Neb. was the guest of Mrs. Lillian Jorgensen last week. She is visiting in Alberta while her husband is holding in Denmark. Mrs. Jorgensen entertained at a coffee party one evening when former friends were pleased to see Mrs. Jorgensen again.

Standard craps and pool tables benefitted by another half inch of rain last Tuesday evening. Congratulations to Mr. and Mrs. Al Hansen on the birth of Darle Ann, 8 lbs. 13 oz. in Calgary on July 25.

Former old time residents of Standard Mr. and Mrs. O. Brookland now at Edmonton were visitors at the Ellis home last weekend. Mr. and Mrs. Don Nichols and daughters have returned home from a holiday at Redmont.

It was with deep regret that friends learned of the sudden death of Mrs. Martha Vangstad in Denmark where she had gone for a visit with relatives. She is survived by her husband, John Vangstad and daughter Mrs. D. Shillie and four grandsons. Mrs. Vangstad was active in church and school work. They had resided in Calgary. The infant daughter of Mr. and Mrs. Lars Halm of Halmstad was baptised recently in our local church. She was named Debra Gail and her godparents were Mr. and Mrs. Joe Cote of Calgary.

Many friends from Husar, Glenora, Chancellery, Kinsland and Standard gathered in the hall behind the room Wednesday evening to honor Mrs. Anne Wain (nee Cella Madson), a recent bride at a shower.

The guests and the program consisted of musical numbers; accordion solos by Doreen McMillan and Mrs. Ronald Christensen; a solo by Mrs. Ken Elder and a reading by Mrs. Ellen Maltby. Mrs. Howard Christensen of Chancellery gave a lovely tribute to the bride. Refreshments were served at decorated tables by the committee. The many gifts were passed around for all to admire. Cella graciously voiced her gratitude and appreciation for the lovely party.

Mrs. Helen Harrington of Seattle arrived Sunday and will accompany Mr. and Mrs. Clifford Gregory and their daughter Helen to Adrian, Mich. where they will attend a reception honoring the bride. The bride's mother, Mr. and Mrs. Gregory's daughter Mrs. Lee will be one of those in this room.

Sunday, July 27 was a memorable day in the lives of Mr. and Mrs. Orla Pedersen. It was their 25th wedding anniversary and their first well wishers arrived in the early hours of the morning and there were about 25 guests for breakfast. During the day friends from great distances arrived for dinner at their home and in the afternoon the bride and groom opened home to the Standard Lady Room where Mrs. Bettner of Husar and Mrs. Wille Jensen of Morris presided at the tea table. About 150 guests attended the afternoon reception.

WEDDING

LAUSEN — PHILLIPS
Bethel Baptist Church in Calgary was the scene of an afternoon wedding on Saturday, July 5 when Mrs. Fay, second daughter of Mr. and Mrs. Max Phillips became the bride of Mr. George Robert Lausen, son of Mr. and Mrs. William Lausen, all of Carleton Place, Ontario. The bride was in marriage by her father who was a full length gown of nylon chiffon fashioned with a lace bodice and horizontal lace inserts in the full skirt. Her matching veil fell gracefully from a small headpiece set with mother of pearl sequins. She carried a corsage of red roses on a white lace covered ribbon with matching streamers.

Terry Phillips, the bride's little sister, acted as flower girl. The bride's attendants were dressed in light shades of pink and blue with white headpieces. They carried colorful bouquets of red roses and bearded irises.

Mr. Bill Hansen of Chancellery acted as best man for his twin brother and the ushers were Mr. Earl Meadows and Mr. Joe Reakley.

The solemn Mr. Betty Summers was accompanied by Miss Evelyn Haurick at the organ. The reception was held at Club 11 where Mr. Ralph MacKinnon proposed a toast to the bride. For travelling the bride chose a pale blue sheath dress with matching bolero. Her accessories were navy blue and white. Following a short honeymoon in the U. S. they will reside on a farm at Carleton Place.

Top Notch Pitching Blanks Iricana

The Strathmore Senior Baseball team were hosts to Iricana Baseball in an exhibition double on both starts.

The first game by a close 6 to 3, and in the second they blanked their opponents 6 to 0.

The star of the day was Strathmore's pitcher Jerry Kautson. He pitched superbly in the latter game. He struck out 16 batters in the seven innings of play, only allowed two hits and walked but one man. This incidentally was the first man Jerry has walked in the last two games he has played on this mound.

Gordon Crelin was the winning hurler in the first game, and Ralph Way and Sherry Pannin each caught a game during the day.

Martin and McLeelan were the Iricana pitchers.

Three two teams are trying to keep in shape for the playoffs. They have finished their schedules and are waiting for Standard and Brock to decide the fate of their home and home series. This will possibly be staged in a sudden death fixture at one of the towns and the teams will split the game.

The hold up is Brooks. They are in a Provincial playoffs which has been keeping them busy over Sunday.

Blind Clinic To Be In Strathmore Aug. 14

Another Red Cross Blind group should will be held in Strathmore August 14 from 8:30 to 9:30 p.m. in the Memorial Hall.

Some good cooperation has been enjoyed in the past, but it is hoped that this clinic will be the biggest ever.

Mrs. Mary Melrose, Strathmore Clinic organizer, stated that anyone 18 years of age or older who wishes to give blood, should contact her so she may place their names on the donor list.

Blood cannot be manufactured. The only source of supply is from the donor. The Red Cross asks blood at this blood donor clinic. This will enable them to keep pace with the demand for transfusions. 14,700 of which were given to Alberta patients last year.

Town Council

The regular meeting of the Strathmore Town Council was held Tuesday night, with Mayor Rhodes and Councillors Hartell, Klueber, Knochowski, Sorvetti, and Secretary and Treasurer Hill, in attendance. Councillors Basant and Hunter were absent.

Officials of the Strathmore Seed Cleaning Plant Ltd., Ken Walker, Hugh Berry, Gaylon Robinson and Mr. Knochowski, presented the council requesting that a ditch be dug at the plant to get rid of standing water near the building. They felt that this water was the cause of the road becoming soft and at times impassable.

After considerable discussion, council decided that they would give them \$175 towards the project and supply them with culverts. This was acceptable to the committee.

Frank Knochowski who is in charge of public works, reported that he had gravelled 2nd avenue, 4th street east to 2nd avenue and the road by Service Station.

He also told council that 1575 feet of sidewalks had been poured and two cross walks placed during the past month. Of the total amount of sidewalks, 650 feet was a co-operative effort on the part of residents and the town.

The fire pump and pump house at the lake that was authorized at last monthly meeting will be completed at an early date. A committee was set up at the June meeting to go ahead with the lake project. The committee was made up of the following: because they could not get labor and equipment to do the job. The drive, dug and that the construction of the building will proceed this week. Rhodes and Knochowski are delegated to purchase a steam pump. They will use the present pump.

A building permit was granted for B. Stolyer for an addition to his greenhouse structure.

There were many applications sent to the Secretary as a result of advertising for a full time policeman. One man was there in person.

There were no decisions made in this regard, because Frank Hamat who is in charge of the town, was not present. It was suggested by the Mayor that a special meeting should be held to discuss this matter.

Councillor Hartell reported that he had received a number of objections from the community regarding a full time policeman for Strathmore. They felt that it would be too costly. All points were raised until the council in charge was present.

JASPER NATIONAL PARK

Come — with camera, sketch book, palette, or your mind's eye open to all things lovely, for here in the rugged grandeur of Jasper National Park every turn of the road is an artist's viewpoint. Lakes are mountain-side gems of jade and crystal; forests a sanctuary for wild birds and animals; and alpine meadows a garden of bright and fragrant flowers. And — there's so much to DO as there is to SEE at Jasper — boating, fishing, swimming, camping, hiking, riding, climbing and golfing.

Mr. and Mrs. Chris Jensen who have been visiting at the Elmer Jensen home for several weeks returned to their home in Audubon, Iowa last week.

Mr. and Mrs. Axel Rasmussen and Mr. and Mrs. Andy Westergaard are on a holiday to Vancouver Island and other coastal spots. Vacation Bible School got off to a good start in Standard on a very warm Monday morning. A colorful program full of new ideas and materials has been arranged around the theme, God's Holy Law. Eleven teachers and some 120 pupils are in attendance.

The Union Church Ladies Aid met last Friday at the home of Mrs. Knutson with a number of visitors present. Flower arrangements were on display and the roll call was a Garden Lot of Fruits, Vegetables or Flowers. Many humorous and good pieces were given. Mrs. Lee and Mrs. Billie had for first prize. During the afternoon, Mrs. Wirt's sister Mrs. Abbott who had just returned from a trip to Alaska gave a very informative and humorous account of her experiences and journey.

Mrs. Bysse will give a book review at the next meeting in Hope which will be at the home of Miss Hattie Norman.

Mr. and Mrs. Gordon Bramley have returned from a holiday at Swift Current.

Mr. and Mrs. Maurice Desmet and family are away on a visit to La Combe where Mr. and Mrs. Desmet, Sr. live. Douglas Desmet is still in hospital but should be home in a week or so. He is an up patient at the Red Cross Crippled Children's hospital.

Mr. and Mrs. D. McPherson are visiting in Bowden and other points north of Calgary during their holiday.

Miss Hazel Ornum, a bride-elect of August 14th was the honored guest last Saturday evening at a community shower in the hall dining room when friends gathered to offer their gifts and best wishes for her future happiness. Mrs. Harold Larsen was MC and welcomed the guests. Seated at the head table with the bride to be were her mother, her aunt, Mrs. Nellie Normandine of Yakima, her sisters Mrs. Wheeler of Calgary and Mrs. Armstrong from Hussar, Miss Peggy Ornum and other close relatives and friends. Beautiful flowers from the Ellis garden made the setting for the party very lovely. A short program of musical numbers by Mrs. Ken Elder and Linda Nielson preceded the refreshments. Mrs. Peter Denhart, a former classmate, paid tribute to the bride-elect. Many useful and beautiful gifts were showered on the bride to be for which she expressed her gratitude.

Mr. and Mrs. Roy Hinton of Victoria and their granddaughter, Ber Zabok of Calgary were guests at the Den Ellis home last week for a few days and they remained to spend a few extra days.

Community Shocked As Cheadle Daylight Robbery Family Meet Fateful End

The Cheadle community and the Wheatland School Board were shocked beyond comprehension when they learned of the fatal shooting of a family of three Monday morning.

Dead are: John "Red" McLaughlin, 19 year old farmer, his wife Doris, 28, and their only child Gary, aged 14 years.

According to a note left by Mr. McLaughlin, he shot his wife by accident with a high powered rifle about 5:30 a.m. Following this, Mrs. McLaughlin became hysterical, and it is thought that Red did it to and as a result, he also shot his wife.

At this point, he wrote a new will and a suicide note in which he explained the sequence of events and stated that he could not live without his wife and son.

He then phoned a friend on many years standing, Les Wehler, and asked him to come over because there had been an accident and that he should expect to find the worst. This done, Mr. McLaughlin apparently turned the gun on himself.

Mr. Wehler hurried over and found the three bodies lying in the yard. Near by was a broken rifle, he called Dr. John Clifton and Const. Doug Simmonds of the RCMP, both of Strathmore.

Lee, who had the gruesome task of having to find the bodies of the old and dear friends was completely stupefied as was the whole community. The bodies were taken to this little town six miles west of Strathmore.

The McLaughlin family was a credit to the community, and were at all times ready to help their neighbors in time of need. He was reported to be interested in working with the children, and took an active part all year around with hockey, baseball. He was an ardent carter and a good supporter of the arena.

Staged At Standard

The Standard Branch of the Royal Bank of Canada was robbed at closing time Monday. A masked man made off with over \$4,000.

The bank was closed at 4:30 p.m. and the teller, Jim O'Neill, was alone in the bank. He was holding a gun aimed at Mr. O'Neill's head. He handed over all the bills in the drawer which amounted to over \$4,000.

Before leaving the bank, according to Mr. Don Nichol, manager of the bank, the teller, Jim O'Neill, was holding a gun aimed at Mr. O'Neill's head. He handed over all the bills in the drawer which amounted to over \$4,000.

After a short stay in the bank, the gunman headed Jim, the teller, to the vault and instructed him to open it. He did not lock the vault however; in fact it was not completely closed.

Rockyford Grade 12's Good Response To Blood Donor Clinic

The Red Cross Blood Donor Clinic held in Strathmore Thursday will go down in the record books as being one of the best held in the area.

Reports showed that there were 122 donors and only two rejects. Committee chairman Mary Morris reports that there were an exceptional number of young people, people who had never given blood before, attended this clinic.

A letter of thanks was received from Mr. A. W. Haley, Donor Panel Organizer, expressing sincere thanks to, as he put it, your grand committee and members. Honors from Nanaimo, Nightingale, Lytle, Crowfoot and Chandler were included with Strathmore.

He named individuals and organizations who assisted, and said that the community spirit shown in Strathmore is highly prized.

Mr. Haley said that the clinic was a success and that the community spirit shown in Strathmore is highly prized.

No Dividends Next Year

After the first dividend was paid last year and will be paid this year, the directors of the Strathmore Standard have decided not to pay a dividend next year. The directors feel that the company is in a position to pay a dividend next year, but they feel that it is better to keep the money in the company to pay for the expansion of the company. YIELD OF WHEAT PER ACRE OVER THE PRAIRIE PROVINCES 1958

Based on reports received from the Prairie Grain Company, the average wheat yield per acre for the year 1958 was 18.5 bushels. This was a decrease from the 1957 yield of 20.5 bushels. The decrease was due to a combination of factors, including a late start to the growing season and a lack of rain in the early part of the season.

the former teachers, six of whom
were present.

Mr. Don McKinnon reviewed the

read a number of amusing ex-

Does Your Child Need Glasses

Recent tests of 1,200 Toronto
public school children revealed
that 10 per cent needed glasses,
but only three per cent were wear-
ing them. Dr. Elizabeth Chant Rob-
ertson reported in the August is-
sue of Chatsworth.

Dr. Robertson used the Toronto
tests to point up the importance
of frequent examinations of child-

THE OLD HOME TOWN

60,000 new reasons every day for mechanized farming!

In these days of man-made planets we
tend to overlook this old, but still
miraculous, earth that feeds and pro-
vides for us all.
That over 60,000 babies are born into
this world each day—more than enough
to repopulate the whole of Canada in
less than a year—now uncovers.
That these 60,000 new mouths will be
fed on the produce of this small earth
does not make headline news!

Yet, when we consider this astonishing
growth in the world's population,
we must wonder how it is that our
standard of living—measured in terms
of food consumption—remains so high.
How is it possible when there has been
little appreciable increase in the world
farm acreage and a decline in the ac-
tual farming population?

The answer lies in farm mechaniza-
tion in a scientific approach to food
cultivation and the development of
modern machine methods to increase
output per acre and per man-hour
worked.

In this development Massey-Ferguson
plays a leading role throughout the
world—in Canada, in the United
States, in France, South America,
Great Britain, South Africa, Germany
and Australia.

All the world over, wherever farming
is mechanized to meet our ever-grow-
ing needs, there we find Massey-
Ferguson machines hard at work in
the fields.

Massey-Ferguson Limited

fewer eye-sight. She stressed the
necessity of pre-school examina-
tions, particularly for children
whose parents have been absent
for some years.

Right could be tested any day
in the morning, and a child
could examine a baby's sight by
dilating the pupil and then test-
ing the side and shape of the
eyes with a special device known
as a retinoscope. Dr. Robertson
also stated the importance of
frequent examinations of child-
ren.

A disadvantage in having a
child's sight tested by an optome-
trist, rather than an ophthalmologist,
physician and surgeon, was that
the former was not allowed to use
such drugs as instilling eye-drops
if necessary.

On The Way Up

In its new financing plan, the
government of Canada is betting
that the big pay-revision is not
going to get worse and that it is
now on the way to improvement.
This is signalled by the business
in interest rates on the conversion
issue which will affect the whole
interest rate pattern in Canada.

While it is interesting that our
monetary masters have this opti-
mism about the business outlook,
commentators The Financial Post,
others will be forgiven if they wait
more positive signs of business re-
cuperation, particularly in the U.S.
before staging their recovery cele-
brations.

A Case Of Gravity

The Federation of Civil Engineering Contractors, London, in a recent bulletin, published the following letter. It is from a bricklayer in Barbados, to his employer as it was reported in the Avonmouth Works Digest, from which we copy it.

Respected Sir:—When I got to the building, I found that the baricade had knocked some bricks off the top. So I rigged up a beam with a pulley at the top of the building and hoisted up a couple of barrels full of bricks. When I had fixed the building, there were a lot of bricks left over. I hoisted the barrel back up again and secured the line at the bottom, and then went up and fixed the barrel with extra bricks. Then I went to the bottom and

sent off the line. Unfortunately heavier than the barrel and on the barrel of bricks was heavier started down again at high speed than I was, and before I knew what half way down, I met the barrel was happening the barrel started coming up and received severe injury, jerking me off the ground. Just as my shoes when I hit the ground, I decided to hang on and half round I landed on the bricks getting way up I met the barrel coming down several painful cuts from the top, banging my head against my presence of mind, because I at the beam and getting my fingers let go the line. The barrel then came down giving me another bang on the shoulder. I then continued. At this point I must have lost my head, because I hit the barrel again, putting it burst its bottom, allowing all me in hospital. I respectfully request the bricks to spell out. I was now quiet sick leave.

A miscellaneous shower was held in the hall on August 23 honoring Miss Audrey Kasta, a September bride-elect. The hall and chairs were decorated in pink, white and green streamers with vases of garden flowers on each table. The hostesses presented Audrey with an electric typewriter and the community gift was a place setting of silver and a chest. Other gifts were wheeled in a decorated wagon by several small children. In a few well chosen words Audrey thanked all those present and a lunch hour followed.

Many friends of Mr. Charlie McKinnon are pleased to hear he is now home from hospital after being thrown from his horse, suffering many bruises and scratches. Mrs. E. Laidick of Calgary has been visiting the past 10 days at the home of Mr. and Mrs. H. Stewart.

SEPTEMBER

Record Enrolment At Samuel Crowther School This Year

Superintendent of Schools, Mr. W. H. Hume, told the Standard that the number of pupils in the Samuel Crowther School were average for grade 11 and above average for grade 9 according to the tabulated results of the final exams.

In grade nine there were 38 students writing. One passed with honors, 34 passed and one failed. In grade 11, there were 72 papers written. There were 10 — A's, 22 — B's, 23 — C's and 15 — D's.

A 'C' average is not sufficient for the university entrance and is sufficient for other purposes.

The enrollment in the Strathmore school has reached a new high with 501 pupils registering the first day. June 30 there were 427, so the increase of 74 pupils in this year. Much of the increase is due to Nakama closing and 30 students moving to Strathmore. Mrs. Morton and Miss Gordon have their hands full, with 61 beginners under their guidance.

One more teacher has been added to the High School staff, teaching grades 10 and 11, and a Junior High School Program has been adopted taking in Grades 7, 8 and 9.

Gleichen Couple Married 50 Years

Mr. and Mrs. J. W. Stutchen of 535, 3rd Ave. NW who turned out Gleichen since 1912, will celebrate their golden wedding on Sunday Sept. 7th.

Mr. and Mrs. Stutchen were both born in Illinois and were married in 1908. They moved to Lamont, Alberta in 1912, from there to Medicine Hat in 1917. From 1917 to 1920 they farmed in the Moosehead and Gleichen district and then retired to Calgary. A cordial invitation is extended to their friends and neighbors to help them celebrate on an open house from 2 to 5 and 7 to 12 noon at the home of the daughter Mrs. Andy Thomson, 337 3rd Ave. NW on Sept. 7th. They have two daughters, Mrs. Floyd Stutchen of Gleichen and Mrs. Andy Thomson of Nakama. Five grandchildren and one great grandson; 48 of their 50 years of married life was spent in Alberta.

Strathmore Enters Finals, Standard Out

Strathmore entered the final in the New Valley Baseball League this Sunday when they tangled with Brooks on their home ground at 1:30 p.m. This was decided last Monday when Standard went down to defeat at the hands of the Strathmore club. The game was straight. Standard won the first game of the best of three series a week earlier at Standard. Brooks was the right to contest in the finale as a result of a default on the part of Erickson. They were unable to field a team.

One thing must be said of Strathmore's Clark Christensen, the lone pitcher; he has a great deal of stamina. He pitched all the first game and did a few job of it, and second around and pitched in the position till the 7th inning of the second fixture when he was relieved by Grant, although he pitched the first 4 he showed great spirit.

The scores of the games were 14 and 18 in Strathmore's favor. Standard was the winning pitcher of the first and Flamin the second. Both men showed good control and held their opponents at a safe distance most of the way.

Brooks have a strong team, on the local series should provide some top notch ball. The same teams played off for the championship last year, Strathmore winning that series two straight.

The regular meeting of the Strathmore Town Council was held Tuesday night with Councilors Hartell, Bowers and Bussell present. Councilor Hunter who is deputy mayor took the chair. Mayor Rhodes arrived late due to business reasons.

They had decided two months ago to hire a full time policeman, but due to unfavorable comments from taxpayers, the contacted one of the councilors, it was decided to try to obtain one part time once more. It was brought to the attention of council that the park was again being used for tethering horses. The council was asked to remove same immediately.

The saw pump house at the lake is not yet completed. All is ready to go ahead, but Branson and Rhodes reported that the pump is still at the machine shop for alterations. They were hopeful that it would be ready for use by the end of the week.

Robesud News

BY MRS. L. L.
 Our readers will be sorry to hear that the oilman injured in an accident near Robesud last week was Lawrence Peterson, who (trailer) spent the winter here two years ago. His wife Hazel phoned that on an oil rig was being moved and the power was to have been shut off. However as he pushed the wire with a pole there was a loud bang as 22,000 volts passed through his body knocking him off the tower. He landed on a steel girder 25 feet below. Though still unconscious his injuries are believed to be a fractured skull, burns to arm, but no broken bones. He is in the hospital hospital.

Mrs. John Martin and Rosemary are visiting with Mr. and Mrs. Ross Jenkins at Chilliwack. They will call on Mr. and Mrs. A. Henderson, former residents here.

Mr. and Mrs. Jim Clark have had her mother and sister visiting here. Mrs. Clyde reports that Mr. and Mrs. Percy Pritchard have two little boys, the second having arrived recently.

Mr. and Mrs. Burton Parker are enjoying a holiday. Phyllis is looking after the post office.

We are glad to report that Mrs. John Martin is out of hospital and convalescing at home. Sharon is with her and the boys are with Mr. and Mrs. Scott Leach.

Mr. and Mrs. Walter Bertach and family were Sunday visitors at the home of her sister Mrs. and Mrs. V. Roper.

Cpl. and Mrs. W. Preston of Barrer, Man. have been visiting his sister and family Mr. and Mrs. Martin. Another brother David will be staying on and going to school here.

Swearing and balling was com-

pleted by mid August and combining was in full swing. This estate includes consisting of a record for Mrs. Shaver.

We are sorry to report that the late Stephen of Mrs. Shaver and her family came here in the early days and lived about a mile from town. Later they moved to the Hamden district north of Drumheller and in 1947 she moved to Calgary. She was about 75 years of age.

Mrs. Pearl King of Drumheller spent the weekend at the home of Mr. and Mrs. Henry C. King.

Berry-Vale W. I.

The Calgary Rehabilitation Society journeyed to Arridale Hall last Sunday to enjoy their fourth annual picnic sponsored by Berry-Vale W.I.

A beautiful day made it berry there for the crippled folk of which there were about 100 including the children.

A bounteous lunch with ice cream and pop was served by the ladies.

Mr. Chandler, one of the bachelors, expressed for the bachelors their appreciation of the efforts of the Berry-Vale ladies and we all felt we were well repaid as we saw the pleasure afforded these crippled folk who in wheel chairs and crutches played bingo and were delighted with the small gifts they received. Mr. and Mrs. Fairbairn of Calgary were guests.

Mrs. Ronald Hinton was the lucky winner of the spin and pet bottle raffish among our guests and numbers.

General availed themselves of the opportunity of buying tickets on the annual balloon race sponsored by the Society.

The reception was held at the Ballroom of the Grosvenor Hotel where Cpl. Frank Rymer, proposed the toast to the bride.

Later that day open house was held at the home of the bride-mother at Namsaka.

Mr. and Mrs. Dave Kermack of Strathmore visited with Mr. and Mrs. Alvin Laker Day.

Mr. and Mrs. Len Laker and family went to Taber over the long weekend.

Mrs. Andy Thomson and girls have moved back to Calgary after spending two months on the farm.

Myrtle Ann Wheeler visited in Calgary for a few days last week.

Mr. and Mrs. Tuttle left last Friday for Chetiville, where Mr. Tuttle will teach school.

Mr. and Mrs. Doug Gaitley, Patty and Bobby attended the Legion reunion picnic near Nanton on Sunday.

Mr. and Merle Branner of Lethbridge visited the Bakers over the weekend.

Sunday dinner guests of the Bakers were Mr. and Mrs. Branner, Mr. and Mrs. Billy Pawkes and Leslie Post and family.

The Friendship Club held its meeting Thursday night at the home of Mary Newell. The hostess entertained the nine members present with movies of the Namsaka ladies on TV. The raffish was donated by Margaret Baker and Helen Watson, and lunch was served by Mrs. Parker and Mrs. Maxwell.

Bill call was an exchange of house plants. The next meeting will be held at Mrs. Oosman's home.

LESS WILD OATS IN FLAX
To mix the two crops in water, then
add salt and water to the proper
amount to take the seed out, and
sooner (though) is quite expensive
in the amount of salt and water
\$1.12 (2 1/2) in making costs per acre
\$1.75 for this chemical alone.
However, a new chemical weed
killer (guaranteed) for couch
grass has just appeared. Probably more in-
formation will be available by next
year (probably) the amount to use
for wild oat control.

ATTENTION ROCKYFORD!

The Sad Story of the Shrinking Dollar...

Pity this poor woman... perhaps a friend or neighbor of yours. She had
the idea that if she got into the family car and drove many miles to THE
BIG CITY, then she could do better with that shopping dollar than she
could right here in our town.

When she finally reached home again, she was tired and unhappy...
but a lot wiser. After figuring the cost of gasoline and oil, wear and tear
on the car, parking fees, restaurant meals and the repair bill for a badly
dented fender, that shopping dollar had shrunk so much she had to squint
to see it.

Moral: Buy everything you need from your local merchants. Their stores
may be smaller, but in selection, style and value they invite comparison
with any other source. And local shopping is a relaxed pleasure, not a
costly, time-consuming beating.

THIS MESSAGE BROUGHT TO YOU AS A PUBLIC SERVICE BY

HERE'S HOW YOU BENEFIT BY DOING ALL YOUR SHOPPING LOCALLY

When you buy from your hometown merchants you get:

1. HIGHER VALUES

4. MORE PERSONAL AND FRISKIER TREATMENT
5. SAVING OF TIME
6. REMEDY FROM COUNTRY TRAVEL
7. FREEDOM FROM ROAD HAZARDS
8. ELIMINATION OF COSTLY PARKING PROBLEMS
9. AVOIDANCE OF JOSTLING CROWDS

Three Wheatland Schools To Share 16 New Classrooms

At the regular meeting of the Wheatland School Division Board held in Strathmore Sept. 11, plans were discussed to increase the number of classrooms in three schools in the division by a total of 16 rooms.

This move is the result of the increased enrolment at these points.

Within the next few days, Mr. M. Nelson, Superintendent of the district, will be in touch with the architects, requesting that preliminary plans be drawn up.

The Board of Education school in Strathmore will increase by seven classrooms plus additional auxiliary space necessary for proportional expansion. The rooms in the basement that are now being used for classrooms will be eliminated when construction is complete.

The school at Standard will also increase by seven classrooms plus a science room, a typing and library room and increased auxiliary space.

The Rockford school will have two new classrooms as well.

The adding of the two rooms to the Rockford school does not necessarily mean that they will be offering grade 12 in the future. This problem was not discussed at this meeting.

The reason for the expansion of this school is due to the present increased enrolment.

Strathmore Seniors Wallop Brooks 9-0 To Win Championship

For the second year in as many years, the Strathmore Senior Baseball team took top honors in the West Valley circuit. The final decision was made last Sunday at Brooks when they beat their hosts by a 9 to 0 score.

After league play, Brooks was on the top of the heap, and many observers felt that they would go all the way, but Rainy River's boys had different ideas and took the first game was won in Strathmore around two weeks ago.

Strathmore, who were in the first spot after regular play, spread their scoring evenly throughout the game. They came in with 3 runs in the second, 1 in the sixth and seventh, and 2 in each of the eighth and ninth innings.

A display of superb pitching was given by Knutson, and was only in trouble once during the game, when Brooks had the lead and none down. The Strathmore pitcher had a lot of co-operation from his fellow players who never let him down.

They tagged the next batter out at home, the second Strathmore struck out, and the third was grounded out at first. Ward went to the winner.

Waters and Urbenenko started the mound for Brooks and they caught.

Coach, manager Ward had high praise for his boys Monday morning in every department. He was especially pleased with the way they hit, and said that the reason they didn't elect with a few homers was because of the heavy winds they were battling in.

Oca Raher Dies After Social Worker, Lengthy Illness

Accepts New Post

George Fox, social worker for the Blackfoot Hospital, died after a lengthy illness at the University Hospital, Edmonton, Saturday, Sept. 10th.

Mrs. Raher had been hospitalized at the University Hospital for a number of weeks, since March 25th of this year, but she was home for over three months prior to her death.

She was taken to Edmonton the last time on Tuesday, Sept. 16 and died there at the University Hospital.

Left to mourn her loss besides her husband are her mother and father, Mr. and Mrs. Bill Hildrich of Janelia, Calif. and Mrs. Arilla Mitchell, Corvallis, Ore. Two brothers, Don and Glen, also of the University Hospital. Mr. Don, Owens, brother of Mr. John Hildrich of Lantz, B. C.

Funeral services were held in the Strathmore United Church on Tuesday, Sept. 23, with Rev. H. H. Hildrich officiating. Interment was in Memorial View Cemetery. Music and flowers were in charge.

Ample Nominations To Warrant Election

The deadline for nominations for three councillors and a mayor for Strathmore was Wednesday night. It was thought that there were only two councillor-candidates to fill, but Larry Hunter resigned the last minute due to the pressure of his own business, so there were needed to fill the council slate.

Much interest was shown this time, and at the meeting Secretary J. Hill had five papers filled out for the three positions.

GRAY ELECTED MAYOR

Mayor Gray, popular Strathmore business man, was the only man nominated for the position of Mayor, and he was elected by acclamation. There were voters of considerable opposition about his nomination.

Gray, who has been mayor for several years, was elected by acclamation.

Mr. Morrison said that according to the present act, anyone serving on council is able to do for the town, providing the amount charged for services is competitive, and does not exceed the rate in their regular line of business.

These controlling the three positions were Richard J. Hill, Caldwell; Howard Gaulty; William McNeill; George Hildrich and John Hildrich. Mr. Hildrich was running for his second term of office. The election will take place October 15th.

Bridal Shower

A lovely shower was accorded Miss Charlotte Peterson recently when about 120 people gathered to wish her well on her marriage to Mr. William Morton.

Mrs. Peterson and Mrs. Morton were seated at a prettily decorated table along with the guests.

After a few enjoyable games of cards were played, Mrs. Keith O'Connor presented Charlotte with an automatic toaster, from the ladies.

A beautiful array of cards and pretty gifts were opened and passed around. Charlotte then in well-chosen words thanked everyone for their thoughtfulness and good wishes. To conclude a most successful evening the hostess served a delicious lunch.

Strathmore Lions

At the regular meeting of the Strathmore Lions Club last week, they discussed final plans for the annual Halloween Ball to be held in the Memorial Hall that evening.

A popular Calgary orchestra will be engaged, and a big night is planned.

George Hildrich reported to the meeting that Zone Chairman, Chas. County of Rockford, has called a Zone meeting to be held in Strathmore October 15th. Preparations for the night were discussed and planned for.

The first meeting in November will be for the purpose of electing a new member. Each Lion member will bring a farmer as his guest that night.

Don Hildrich, who was in charge of the program that was printed for the sports days held last month, expressed above thanks to the business men who so willingly supported the club with their donations.

The profits for the two day affair amounted to \$241 for the Lions and Lions cymposium, and \$90 for the Lions Association for the party they played.

It was decided to have another cymposium box Wednesday of this week.

The meeting decided that it was time to launch another project to make money, and a committee was appointed by President Bill Hildrich to make a visit to the Strathmore Legion to discuss same food raising scheme.

Perfect attendance buttons for the year were handed out to 13 members. They were: Harold Hildrich; Don Hildrich; Len Larson; Alan Rasmussen; Syd Cook; Doug Hildrich; Charles Scott; John Schaefer; Harold Schaefer; Helman Wolman; Bill Rhodes; Ken Hildrich and Ken Walker.

General WA

The General WA of the United Church met in the Memorial Room Tuesday afternoon at 2:30 with 19 members and one visitor present.

A special feature of the meeting was a dedication service. While a mirror in memory of Mr. Folk, member of Mrs. Mary Hildrich, plans for the children supper were discussed. Lunch was served by the Evening Group.

The B. B. B. family have moved into their new home in Strathmore.

Rosebud News

BY MRS M. L.

John Ryan, a nurse to training at the Calgary General Hospital, spent Monday at the home of his parents Mr. and Mrs. Ryan. He is finding his work very interesting.

Mr. and Mrs. Bob Cusack and little Lester spent the weekend at the home of his sister Mrs. Hill Powell at Burdett.

A heavy weekend rain which began Friday evening brought us a very wet day. The combine has been completed but much bad straw remains to be brought in and some baling yet to be done.

E. S. Libberting left in the Calgary and Winnipeg Rosebud train Saturday night.

The men of the Baptist Church have taken advantage of the wet weather to remodel the church basement. This will provide extra classroom facilities for the growing Sunday School.

We are sorry to report that Mr. Ryan is in the Drumheller Hospital. While walking home in the dark late Saturday evening he slipped his way and fell over a deep embankment. Mr. Ryan's father who with him some money went to the hospital to take him to the Drumheller hospital where his condition was diagnosed as broken ribs.

Apologies to Mr. and Mrs. Roy. It was erroneously reported your new grandchild Ashton as a boy instead of the granddaughter it is.

Due to a shift in the areas of the heaviest school population the larger bus driven by L. Coad will now take the Alton route. W. Kaser will pick up the CK route instead.

Mr. Peter Morand (nee Shanon) was the guest of honor at a shower held in the Rosebud Memorial Hall, Wednesday afternoon, Sept. 17 at 1:30. The party was given by the ladies of the Rosebud district. Mrs. H. H. H. was the hostess and the ladies of the Rosebud district. Mrs. H. H. H. was the hostess and the ladies of the Rosebud district.

song. Mrs. G. Milgate was at the piano. An amusing monologue of her experiences at a store wide dollar sale was given by Mrs. W. Ryan. This was followed by a solo, My Best To You, by Mrs. D. Christensen. There was to have been an accordion number by Mrs. H. H. H. but she was unable to attend. The tribute to the bride was given by one of Sharon's former teachers at Red Deer, Mrs. M. Lester. She recalled several school happenings, particularly an enterprise on the medieval festival system, and later the school made in December. Sharon was assisted in opening her gifts by her mother, Mrs. S. Kaser, her aunt Mrs. L. Kaser, and her uncle Mr. L. Kaser.

Mr. and Mrs. H. H. H. had just returned from a trip to Alaska and will visit their daughter and son-in-law before leaving for Santa Monica. Their home on wheels was much admired for its completeness and efficiency.

Little Terry Montion celebrated her first birthday on Thursday.

Mr. and Mrs. H. H. H. of Edmonton visited Mr. and Mrs. W. A. Tresser on the weekend.

Mr. and Mrs. R. Brown of Calgary arrived Saturday for a visit with Mrs. Brown's sister Mrs. E. Bell and Mr. Bell.

Wheatland M. D. Council Votes Out County System

Officials of the Wheatland Municipal Council have decided that the possibility of forming a county in this district for some time, but at a special meeting of the Municipal Council held in Strathmore on Monday, only one councillor, Mr. Jas. Harwood, who made the motion, voted in favor of the change. The count was 5 to 1. Councillor Doug Keer was absent at the meeting.

The Wheatland school officials were also present for the discussion and explained their future program with their organization. Both bodies of government discuss their various plans and problems.

Mr. Chamberlain said that much was gained from this meeting, and said that the two bodies should get together two or three times a year so each would understand each other better.

If a county were formed, it would bring the Wheatland and the Municipal district administration under one head. There are counties formed in Alberta at present, Newell in the east, and

Vulcan to the south are two of these.

The Reeves explained to the Standard that he felt that the people didn't know enough about the county system, and that he felt that it would be unfair if they voted on it before it was brought before the ratepayers. He stated that he would like to see it discussed fully at the annual meeting of the Municipality to be held in March.

Letter To Editor

The Editor,
 Strathmore Standard.

The solution to the Town's water needs, fire protection needs and irrigation, in one operation.

I suggest an immediate survey of the cost of bringing water from McCallister Lake or an adjacent reservoir, pumped by irrigation and filtered by an approved method as a solution to keeping our revenue at a minimum. We are faced with the needs of a rising population, adequate for all the needs of our home and garden. Once our local reservoir is assured of plenty of water, then our local system will be adequate to fight our fires and it will then be piped from the reservoir to all of the town and not just part as in the case of the present fire emergency system. This suggests that an McCallister water plant to our central pumping system and our newly acquired water delivery pump be installed and piped into the water mains with suitable valves and connections so that in future should we expand as we happened during the disastrous fire of the Crown Lumber Co. plant, we would be prepared and ready for immediate operation. The advantages of this system I find not apparent to all as are as follows:

1.—We are maintaining one set of pipes, pumps, valves, mains, etc., instead of three.

2.—The large volume of water available should easily bring down the price per gallon, making it possible to water lawns, gardens, etc., with the same safety.

3.—The assured supply of plenty of water as opposed to water shortages of the past few years will attract instead of repel new settlers to our town.

4.—We are preparing for the future instead of living in the past as we are when we are continuing our old system.

5.—The cost of a fire there will be no confusion as to which hydrants to hook onto and how to start and start the emergency system.

6.—Our summer irrigation problem will be solved.

7.—We will have plenty of water for our swimming pool system. This system is not fantastic, impossible as it is to the system in use in the town of Red Deer, Alberta.

George Rioson.

Fire Saturday At Mel Jones's Farm

Over 50 neighbors and friends answered a call for help last Saturday afternoon, when a large pile of straw broke out in flames on the Mel Jones farm near Cheadle. The fire was caused by a spark from the exhaust of a truck and went up as Mel put it. Like they were soaked in gasoline. The straw was situated about 10 feet from other farm buildings. The volunteer fire fighters can't do much, and the fire had a head in a short time. The shaver for Mr. and Mrs. Bill Hendricks brought out a truck load of water and soaked the straw and eliminated any further danger of fire.

Thieves Busy Tuesday Night

Thieves in Strathmore had a busy time on Oct. 20 Tuesday night. Two places of business were entered, Tommy's Groceries and Meats and Gibson Machinery Sales. Sometime between the hours of 3 pm and 10:30 pm they stole \$500 from the till at Tommy's, stole the auto which was not locked, and spread papers over the floor. The culprits also forced a small door open inside the main, but no money was found, as it had been cashed in valuable papers.

They gained entry through a back window by ripping the pane and by using a wrench, they removed the bars across the window. A cartage truck unloaded a cement procedure was followed from the front door at 8 pm, then the owner Tommy Oshman came to the store and tried to put his truck door in the building and discovered the break in. It is thought that the theft occurred between the hours of 3 and 10 pm.

Const. Doug Simmonds of the Strathmore RCMP who is investigating the break in, has had evidence that the same men broke into Gibson Machinery.

Mr. Alex Oshman discovered when he came to work Wednesday morning that the door on his side had been broken off with a hand instrument, but it is not known whether they were able to open the door at all or if they were noticed missing. Entry was gained by smashing a rear window.

It is the third break in at Strathmore in the last three weeks. Thursday's Drug store was entered Sept. 15th.

Competition is a
Wonderful Thing

Canada is flourishing under free enterprise and as, naturally, is the
life insurance business. In fact, Canadians place the guaranteed
security of life insurance so highly that, in relation to national income,
they lead the world in ownership of this valuable property.

Competition in the life insurance business assures the ut-
most benefit to Canadians who buy this important pro-
duct. They can choose, at will, from policies offered by
over eighty companies in this country before signing on the
dotted line.

To reach a wise decision they
are able to rely on the ex-
perience and knowledge of
exceptionally well-trained
life insurance agents.
Because of this good and
useful service, Canadians are
in this continuing to acquire more
life insurance every year.

YOU CAN AFFORD TO FORGET - IMPERIAL CAN'T

...because four generations of Canadians have come to depend on Imperial products on the road, on the farm, in the home

Imperial started supplying Canadians with oil products in the very early days of the industry in Canada... In fact, 1880 was the year it made its start in this business.

In most areas of Canada, it was an Imperial refinery which first began making oil products locally.

Imperial pioneered, too, in

supplying Canadians with products when and where they were needed. (As far back as 1906, Imperial opened the first service station in Canada... and perhaps in the world.)

Today, as over the past 78 years, Imperial recognizes its responsibility to bring Canadians the most modern of oil products at the lowest possible price.

Chicago has increased steadily compared to petroleum products prices.

BY MRS R. H.

Mr and Mrs I. Woodford of Victoria are visiting Mr and Mrs L. Walker and family.

Mr and Mrs Albert Schaffer and family have moved to the farm and Mr and Mrs McIntosh and Ken have moved into the Schaffer house in Hussar.

Mr and Mrs John Hildebrand and sons of Calgary are visiting his parents Mr and Mrs Carl Bloch in Hussar.

Mr W. Kerby M.A. of Red Deer and leader of the PC party called on Mr and Mrs T. Bell and other friends in Hussar on Friday.

Mr and Mrs Erwin Seely, formerly residents of Hussar held a reception in Calgary for their many friends on the occasion of their silver wedding. Among those from Hussar attending were Mr and Mrs Harold Thew; Mr and Mrs H. Vanden; Mr and Mrs Roy Parker; Mr and Mrs J. Stewart.

There will be a shower, honoring Miss Joy Treacy in the church basement on Sunday, Oct. 19 at 1:30 p.m.

The Hussar OES will hold a masquerade dance on October 21, proceeds will furnish a room in Hussar hospital.

The Ladies Aid will hold its annual bazaar on Nov. 7th. Mrs Frank Kelly, an old friend of the Hussar district passed away in Calgary last week.

There were 14 members and three visitors present at the Jubilee Local FWMA meeting at Mrs L. Day's home last week. A luncheon of 150 was made in the Canadian Mental Health Association. Plans were made for a turkey supper to be held late in November. At the election of officers, Mrs L. Baffler was elected president; Mrs H. Miller, vice-president, and Mrs Viggo Due, secretary.

The first Home and School Association meeting was held on Oct. 1st with president Mrs R. H. Nelson in the chair. It was voted to serve lunch for the HSA reunion conference on Nov. 1st at the school. Committees were appointed to make arrangements. Mrs W. Armstrong was appointed delegate to the Banff workshop for HSA leaders.

Miss Barbara Johnson gave a very interesting report on her week in Banff attending the United Nations short course for high school students. Miss Ole Norton of Hussar was then introduced.

She had the honor of being chosen as a delegate on a special trip to the U. N. headquarters in New York arranged by the IOOF and Hessehake. After a brief introductory talk on the purpose of the U. N. she gave a fine description of her trip to Ottawa, Quebec, New York, Washington and points between. Illustrated by various colorful slides.

Too many people seem to be taking advantage of the admitted fact that it isn't human to be perfect.

Where are we going, Dad?

Along with the desire to go places and see things, Canadians have an urge to get ahead in life... to have guaranteed financial security. That's why they own more life insurance, in relation to national income, than any other people.

Over 75% million Canadians own life insurance because they feel it offers them a variety of guaranteed benefits not obtainable in any other way.

Every year an increasing number of Canadians buy life insurance as their major source of family and personal security.

This strong belief in the ownership of life insurance means that Canadians may well continue to be the world's best insured people, in relation to national income.

Ownership of life insurance reflects the confidence that Canadians have in the well trained, helpful agents who offer them this valuable property.

Sentences were distributed by Marjorie and Marie and the task of this finding a partner proved a good mixer. Mrs. W. H. H. gave an amusing monologue. Misses D. Latch and Marilyn and Lenore Wilson sang a trio number. Finding the hidden names of dress materials in a paragraph and identification of seeds tested our skill and knowledge. Mrs. P. O'Connell gave the tribute to the bride. Annette Paul in opening her gifts were her mother, Mrs. K. Kling, her grandmother and Marie Nielsen. In expressing her deep appreciation for the shower and gifts the bride extended open invitations to a trousseau tea and the wedding Oct. 18 at 2 p.m. in the Baptist Church. Tall yellow tapers crowned the bride's table which was set beneath a background of gold and white bolls and streamers accented by sprays of artificial red and yellow roses. Seated with the bride and her mother were her grandmother, Mrs. Fred Wheeler, an aunt Mrs. N. McPherson and Mrs. L. H. H. at Calgary.

Eleven members of St. Andrews WA met at the home of Mrs. W. Somerville Oct. 8, who brewed a hot chili stews and soups. Plans were made for a harvest tea.

This Thanksgiving tea, bake sale and sale of aprons and Christmas cards was a success. In the absence of our president Mrs. H. Douglas, who is ill in hospital, the members wish to thank everyone who helped in any way.

A wedding of interest to all around Cluny, Mrs. Viola Brown of Valen was united in marriage to Mr. Otto Blain, formerly of Cluny on Sept. 29. Best wishes and congratulations to Mr. and Mrs. Blain from the community.

A fire believed to have started by hunters Sunday morning burnt the barn, garage and chicken house on the Artful farm, now owned by Mr. Edwards. Mrs. F. Schmidt phoned the alarm as the fire was starting to burn the stable but not far from where grain was stored. No one was living on the farm.

Miss Joan Thomas of Calgary and Miss Owen Koefoed spent the weekend at the home of Mr. and Mrs. Leroy Koefoed.

DALUM NOTES

By Mrs H. P. R.
Mr and Mrs T. G. Brown of Calgary were recent visitors with Mr and Mrs John Holmes.
Mrs Ellen Bohler and Mrs C. Thompson arrived home this Friday from a week's holiday spent with Mr and Mrs Morris Green of Saskatchewan.

A meeting of the Dalum School Association was held in the school Tuesday evening with a good attendance of parents present. A discussion was held on the question of the local trustees' financial position. Plans were made for painting the fence around the skating rink and for heating the building, which is to be used for a shelter of the girls' coffee and drinks were enjoyed in the close of the meeting.

Clouds of dust followed by snow blew into our midst on Wednesday afternoon just after the fall fashion had begun at the hall. The many ladies present became quite worried about driving home in the storm, but the show went on. After lunch was served the door prizes were drawn for a gift certificate from Calves' was won by Mrs. Harold Lund, and a leather blanket went to Mrs. Lillian Lund. Mrs. Harold Lund, an apron went to Mrs. Frances Tracy of Lussar and a toy stuffed dinosaur went to Mrs. W. A. Holmes. The gold wool blanket which was raffled went to Mrs. Pauline Shorby after four other most of the ladies ventured out into the storm and as far as we know everyone got home without trouble.

The first aid class slated for Wednesday evening was cancelled because of weather.

The fourth quarterly meeting of the congregation of Holyhood Lutheran Church was held on Thursday evening in the church basement with a good attendance. Items of discussion included a plan for changing the hour of Sunday School to coincide with the worship service. The question of grave markers for unmarked graves and a plan for building a garage for the parsonage. Election of president and treasurer were also on the agenda. Resolving in the resolution of J. Jensen and R. Pedersen for the respective positions. Two spare wives were also appointed, these being J. Jensen and Mrs. Jacobsen.

Crowfoot Notes

By Mrs G. G.
The regular meeting of the Crowfoot Goodwill Club was held Wednesday at the home of Mrs. Carol Conifer with 15 members present.

The meeting opened with the reading of the creed followed by roll call, which was to bring the broken toy to be sent into the fireman for their Xmas fund.

The treasurer's report showed a profit of \$45 from the flower show and \$31 from the dinner. It was decided to have a work bee next month to lay quarter round and repair the windows in the hall. Mrs. Carol Conifer is in charge of putting on the Christmas play. Two very interesting collections

were put on by Mrs. Conifer and of Mr and Mrs C. Harvey. Mrs. The first one was won by Mrs. V. Ramsey and the second by Mrs. Phyllis Desmet.
A lovely lunch brought the afternoon to a close. The members of the club are coming along nicely. The Gas oil twins are suffering with chicken pox this week. Please phone your news in as we will know what is going on in the neighborhood.

FARM BUSINESS

There is a great variation in

farm incomes — one farmer makes \$10,000 in a year while his neighbor gets less than a thousand. Usually the farmers who are not doing well put it down to hard luck and tell their families to do without and hope for a better year next.

FARM

Chief factors governing farm income are: volume or size of acres of crops and numbers of livestock; use of labor; or output per unit of capital or turnover on investment; crop yields per acre, and livestock yield per animal.

That is efficient production; and choice of lines or enterprises. Each of the factors is worth about \$1,000 to a farm business. Your income is like a barrel with these six factors as staves. It may be in long factors in business, and pull up a low one where the leak is, rather than push a good one higher.

The size of business is measured in work units which might loosely be called days. An average stand farm is 500 units, less than 300 is too small a business. One can sometimes measure the size by calculating number of animals, and guess by certain standard measures — for milk cows 11, crop acres 4, and cows 2 be common systems of farming in this district requires at least a section of land employing a man or two to make a fair farm family living. However, land is not a good measure of size; a brother or big business can be very large on only a few acres. Size may be increased by breaking, renting or buying more land, raising more livestock, or doing custom work.

Labor use or output per man is important. Some men work long hours but get little done; a man driving a horse for farm work is not fully employed. More acres or livestock cuts time required per unit and justifies purchase of labor saving equipment. Chores routine, and job planning all enter into the picture of labor efficiency. Average labor output per man is 400 units, or a gross of \$7,000. Farm labor returns per hour average \$1 or less compared to city wages double that and more; and some farm lines such as grain, hops and beef average below per hour than even in city.

Capital is used best when year's gross is high compared to the investment, that is quick turnover as the storekeeper says. Low livestock and crop yields or too much money in buildings, machinery and land means slow turnover. Usually the quarter or half section grain farmer is over invested in machinery; turnover is measured in years it takes gross to meet the capital 4 years being average.

Good crop and livestock yields are fundamental to high income, and may be checked against standards or averages for the district. It doesn't take much figuring to find that if your expenses are \$10 per acre, a 20 bushel crop of wheat at \$1 makes nothing over if you have a million acres; but a 30 bushel crop gives a fair profit and a living if you have enough acres.

Choice of lines depends upon what you like that is suited to your farm and district. Don't go into hops if you don't like them. Try to combine lines that go together or such as grain and hops or feeder cattle, but do not have too many. Two or three are enough as there is usually more money in increasing a line than in adding another in spite of the old saying

All eggs in one basket.

If not satisfied with your farm income, the first thing to do is analyze your business. Give one factor where most returns can be made. An excellent lead for this purpose can be obtained from me, and assistance in its use if required.

Langdon Men In Sunday Mishap

Four miles west of Strathmore on the Trans Canada Highway was the scene of a traffic accident at 5 pm Sunday afternoon.

RMP reports that a car driven by Arthur Poirer, Calgary, was travelling west at a high rate of speed. When he went to pass another car driven by John Kew of Calgary, he failed to pull over to the left sufficient enough to miss the rear end of the car and crashed into it with a terrific impact.

The Poirer car went over the ditch, through the fence and came to a stop in Jack Bartlett's field. The other car's frame and body was buckled up from bumper to bumper and stopped in the ditch. Total damage to both vehicles was estimated to be about \$1000.

Poirer was travelling alone and Mr. Kew had his father John Sr. with him, who was taken to the hospital by Stamped Ambulance to be treated for shock, but was released shortly afterwards.

Poirer was charged and fined in Strathmore Magistrate's Court on Monday night.

BANDED MALLARD DUCK SHOT NEAR WAYNE

A banded mallard duck was shot on the Agri Outpost farm by Thorvald Pedersen on Sept. 28. According to information received from U. S. Fish and Wildlife Service, the duck was banded at Benham, Wash. on Nov. 21, 1967.

LETTER TO EDITOR

With reference to the remark in the June News about the new ducks shot.

Hunters we contacted locally, and phoned the Alberta Fish and Game Association in an effort to determine that they were wild ducks.

Although it seems strange to get wild ducks of this size, our investigation proved that there are numerous ones in the area, probably coming from the Inglewood Sanctuary in Calgary.

**Rural Safety Is
Discussed At Meet**

Fatigue from long operating
hours was named as a major factor
in farm accidents by a rural doc-
tor, a farmer and a farm wife who
participated in a panel discussion
at the first Western Canada Safety
Conference.

One speaker said: We need to
instill a proper respect for power
machinery. Farm operators who
learned to farm with horses have
to adjust their sights to mechan-
ization.

Mrs. Glen Valdez, Waterbury,
referred to home safety saying that
with modernization our homes
should be safer than ever. Lamps
and heaters are no longer a fire
hazard in the electrified farm
home. But this new servant, electri-
city, must also be understood and
handled properly and we have a
responsibility to improve the prop-
er attitudes upon our own men-
tal and those of our children.

Bread Is Life

Bread is the staff of man's ex-
istence.

Bread is wheat and wheat is
earth, the good earth, the good
black earth out of which comes
man's food, his health, his vigor,
his long life.

Out of earth comes first a single-
green leaf, sprouting from the
burrowing, sprouting seed that is
the symbol of resurrection. In all
faiths and religions there the sym-
bols of thought and faith were re-
sided in man.

In that sprouting seed and they
saw the leaf live the whole
meaning of life.

Wheat and bread are a part of
that cycle which is the law of the
universe, the law by which we are
born, live and die, the law by
which we are here on this earth,
the law by which we learn our
children behind us — the great,
eternal and beautiful law of birth,
growth, death, decay and rebirth.
Of all of this the grain of wheat
is the symbol. — Louis Brandeis.

Pontiacs for 1959 are wider and lower, with up to 50 per cent more glass. Completely restyled,
the Pontiac has larger brakes, easier steering, improved suspension, and a new 150-horsepower
six-cylinder engine with a new single barrel carburetor and new distributor to give better
gas mileage and more usable horsepower at normal driving speeds. Five engines — six
and eight-cylinder — are available in domestic models. Pontiac's new radiator has 48 square inches
more core area, providing more efficient cooling. A tough, assle finish, from two to five times
more durable than other paints, is standard on all models. Pontiac offers 26 models in six
series: five Parisiennes, three Laurentians, three Strato Chiefs, five Bonnavilles, three Star
Chiefs and seven new Catalinas series. Above is the Strato Chief Four-Door Sedan.

IMPERIAL HELPS YOU FEEL SECURE WHEN THEY FLY

For as long as Canadians have flown, Imperial's leadership in aviation fuels and lubricants has helped make flying safer, surer

Canada's earliest airman depended on Imperial aviation products. In war and in peace, Imperial gasoline powered Canada's first air mail flight, in 1918.

As more modern planes flew, Imperial research provided them with the new fuels they needed. For many years, Imperial was the only Canadian manufacturer of aviation specialties.

An essential ingredient of aviation gasoline. The special skills and technical knowledge acquired over the years make Imperial Canada's major supplier of aviation fuels.

These skills and experience pay dividends to the motorist today when premium grades of gasoline are approaching top aviation octane standards.

Grades of premium grade gasoline approximate top aviation requirements.

WI DIST. 4 MEETING

The Glendon Constituency of
District 4 Alberta Women's Insti-
tute representative meeting was
held in Calgary Oct. 21 when 12 la-
dies of Berry-Vale, Cluny, Langdon,
Ardale and Nightingale W's regis-
tered and sat down to a delicious
pot luck luncheon served by the
Cluny ladies.
Owing to the illness of Mrs. Fred

Fairbairn, Mrs. Leroy Keenel acted
as chairman and Mrs. Hume-
ville was secretary. The meeting
was held at 1 p.m. with the
singing of O Canada and the
reading of the minutes.
Mrs. Keenel welcomed the ladies
and each one was individually
introduced. Minutes of last year's
meeting were read and approved.
At the spring conference it was
suggested that each hostess
branch be allowed their own way

of serving the noon luncheon.
Langdon as our next hostess will
serve it themselves. Mrs. Leroy
Jeffers of Langdon suggested that
all convokers meet at those meet-
ings in order to become better ac-
quainted with each other and our
problems.
The conference day was discus-
ed with a view of shortening it
and it was suggested that all con-
vokers be limited to condensed re-

ports of about two minutes each,
and that the conference open at
10 a.m. whether all branches are
there or not, and preparing tables
for exhibits the previous day.
The letter from Eldon Williams
M.P. was read by Mrs. Player of
Berry-Vale in which he expressed
a desire to speak to us on
Changes in the Estate Tax Bill.
The meeting expressed a desire

to hold a joint meeting at the Ard-
dale hall at a time agreeable to
Mr. Williams and Berry-Vale la-
dies. The hostess list was re-
vised and a few changes made. Mrs.
Keenel thanked the Cluny ladies
for being our hostesses.

UFA CO-OP PRESIDENT

DISCUSSES FARM ORGANIZATION

Mr. Geo. E. Church, president of U.F.A. Co-op, in a recent interview drew attention to the fact that November 3 - 8 is National Farm Union Week. He stated that in this drive for membership in the Farmers' Union of Alberta, farmers have the opportunity to show that they are united in their efforts to do something about the Cost Price squeeze. Mr. Church said he felt it was vital to the welfare of Alberta farmers that an enthusiastic sign-up be made when canvassers call during this week. He stated that the effectiveness of the program of the F. U. A. for the next 12 months would hinge on the outcome of this membership drive and expressed optimism that the farmers of Alberta would rally to the support of their Union.

The president of U. F. A. Co-op said if he could address the farmers of Alberta personally, his message would be this: "The membership drive during National Farm Union Week is your chance to join your Farmers' Union. It is also your opportunity to sign your authorization for municipal collection of dues. U. F. A. Co-op strongly urges all farmers and particularly its members to take an active part in National Farm Union Week. Join the Farmers' Union of Alberta. Get your neighbors to join."

The difficulty will be overcome this weekend so it is hoped that we will be operating normally thereafter.

Carsland Notes

BY MRS E H B

The monthly MHA meeting was held last Wednesday in the school. A good crowd was in attendance to hear Mr. Holman present the Governor General's bronze m.d. to Carol Ann Peterson for the highest marks in the grade 9 exams for the Wheatland Division. Mr. Tom Haynes, president of the MHA presented Carol with a medal and cheque from the MHA. Mr. Max Phillips also presented Carol with a cheque from the Wheatland R.D. Mrs. Bertha Hill presented Carol Ann's mother and Mrs. Jackson, one of Carol's teachers with a lovely bouquet of flowers from the Home & School. Mrs. Frankie Ostrom gave a very interesting account of the Home & School convention at Banff. Following the business meeting Mrs. Ivy Paulson and Mrs. Anna Lennox sang a lovely duet, followed by a duet from Johnny and Charlie Horner. A very nice lunch followed.

Halloween was very quiet in town this year.

Mr. and Mrs. Kate Oude had a few people in last Sunday evening to help Arthur Shiley celebrate his 75th birthday.

Mr. and Mrs. H. Harper were several visitors.

Mr. G. Hansen had the misfortune to have several ribs cracked last week.

Mr. and Mrs. Jack Johnson and family spent several days visiting in the Vauxhall district.

IMPERIAL'S 75 YEARS OF LEADERSHIP HAS HELPED CANADIANS TAKE FOR GRANTED THE RELIABILITY OF OIL AND OIL PRODUCTS

Reliability implies an adequate supply of the products you depend upon when and where you need them, at reasonable prices.

Imperial has always been the leader in ensuring Canadians of an adequate supply of oil. Imperial's discovery of oil at Leduc, in 1947, opened the vast western oil fields.

The first oil company to supply consumers in all Canada's provinces, Imperial has always been the leader, too, in a highly competitive industry which must stand up by broadening markets and increasing efficiency - to keep prices down. Over the past years, while prices of other goods have risen 150%, regular gasoline has gone up only 11%.

In cities most of these work a 40 hour week, you have it in the country too, but about half of my customers are served after hours, on my day off and even on Sundays. I have a sign on my office door which says: "Call me on my back door for service after hours, and I am glad to serve them at any time."

Yes, Mr. Editor, I agree with you that the government should take a long look at this one, and that the Cabinet should adopt a Get Tough Policy, but with love.

More Building Permits Issued Secretary-Treasurer Resigns

The regular meeting of the Strathmore Town Council was held Tuesday night with all council members and secretary L. Bell present.

A donation of \$150 will be sent to The Calgary Branch of the International Association of Firefighters in appreciation for actions rendered at the Crown Lands fire when they sent equipment and men out to assist in putting out the blaze. Letters of appreciation will also be sent to all assisting towns who also assisted at that time.

Fire Chief Swenson reported that the town now had 850 feet of fire hose. He felt that another 200 feet was necessary to reach all sections of town. He sighted the W.D. property across the highway as an example. Council granted authorization to purchase the second hose.

Mayor Gray who is on the senior citizens home board reported that the board was going to hold a meeting on December 15 to choose suitable property for the building.

The mayor said that he had received many complaints from persons who had had articles stolen during the past month, and spoke in favor of policing. Council decided to have a meeting with Geo. Bell, M.L.A. requesting provincial financial assistance to give police protection. Council referred council to the Superintendent of the RCMP, Calgary. Mr. Gray contacted the office and gave necessary data and report back to council.

Strathmore will have a Christmas tree this festive season. There will be a 16 to 20 foot lighted tree placed on the intersection at main street and second street.

The Strathmore and District Library will receive a donation of \$50 from the town.

Three house building permits were granted. They were A. G. Bandell, Calgary and Myron Christensen and O. B. Hermanson both of Strathmore.

Two lots were sold on Sixth Street to Jack Usard's residence, to Mr. P. Penak. A house will be moved in from the country on the property. It is up on the standard. After other houses on that street, A. Zuryak's house recently moved in from Calgary at a location on the property was approved.

Mayor Gray read a complaint received by him from an official of the TB Association about the conduct of the Secretary-Treasurer. The letter stated that he had been treated discourteously by him.

Excavation Done At Curling Rink

Excavation is complete in the Strathmore Curling rink in preparing the ground for artificial ice and gravel building started yesterday. The get the area in a ready to completion for laying the pipe.

The executive have held as high as two meetings in a day to solve the problems as they came up, but the biggest one at the present time is to get the promised money from those who said they would pay shares in the scheme. Anyone who hasn't done so is urged to contact George Lockie, who is in charge. The date of completion is now set for the middle of January.

ing a recent visit.

Mayor Gray said that he had investigated the complaint and talked to a ratepayer who was in the office at the time in question, and he was told by the ratepayer that they were both to blame for the trouble reached at that time.

Mr. Hill explained that when he asked this man his name, he was told that he wasn't obligated to tell him. Then more words flew.

Mayor Gray reported another instance of similar nature, and Mr. Hill promptly resigned his position and told the council they were to have a replacement by the first of the year.

The Mayor said that they were not angry for his resignation, but they did want an improvement in his attitude towards the public when they talked to him about town affairs. This statement was made after other complaints were brought before council, received by Mayor by phone and personal contact. Three other councillors stated that they had received similar complaints. Standard Reservoir Blows Up

Last Saturday morning the residents of Standard thought they were victims of an earthquake. A terrific explosion shook the ground about, and it was quickly learned that the water reservoir had blown up.

An employee of 1410's Children had put a lead-in pipe in the cement wall of the reservoir, from the town water supply from spring 2 1/2 miles north west of town and in order to heat the cement to melt up the hole with new cement, he decided to use a torch.

When he got within two feet of the spot he was intent to heat the whole thing blew up. The impact blew out one partition, loosened the top and cricked the cement all the way around and two feet deep. The lid from one of the compartments was blown across the road on the opposite side. The workman was not injured, but was thrown 12 feet in a ditch.

There were two school children working on the top of the structure and were badly shaken up. One turned a complete somersault in the air.

After investigation they found that the wires might decide gas coming from their former water supply (which was a local well) that caused the explosion.

Who knows the gas? Estimated damage of the blast was placed at \$1500 according to Couser Chalmers.

Work has begun on repairing the damage and a new reservoir will be placed on the opposite side. As a temporary measure, they have bypassed the new water supply to a 1,000 gallon tank and the village is getting water as usual. Village council has decided not to use the old well but keep it running enough to keep it in good condition.

Letter To The Editor

Dear Editor:

Your editorial "The Line" covered the facts of the situation briefly and accurately, regardless of who wrote it. That the village has a bad taste in the mouth for some unkind men.

There is a bad thing when run in a suitable way, but these days most unions are past that. There has been a good example of that during this past year, south of the border; and things were much in the same state of rottenness at the time when I worked out there one year in the mid forties. One union that I was very familiar with; two years after I left the coast, the three top officials were indicted by the law for embezzling several thousands of dollars of union funds for their personal use. The average Joe of the union at that time was a good fellow.

Strathmore TYPES TO BELL CHRISTMAS TREES

The Boys Tro Troop under the leadership of Mr. Alvin Gibson will sell Christmas trees this year. The trees are now on order and will be sold by the boys at Gibson's Mill. Sales at all our district boys group. The Scouts have done this in previous years.

Skating Instructor Meets With Parents

Jimmy Head, recently appointed skating instructor from Calgary met with a good number of interested parents and children at a meeting held in the Strathmore and District Memorial Arena on Sunday.

At that time, Mrs. V. Gibson who is in charge of the Strathmore Skating Club and that she had 44 names of those wishing to participate in the season's instruction.

Mr. Head outlined briefly what the instructions would consist of and said that there is no age limit. He welcomed beginners who have not yet learned how to skate.

Mr. Head explained that as child progresses he would advance them to different types of skating. If a child had the ability to do various figures, fancy or dancing etc., they would have an opportunity to do so.

Mr. Keith Baldwin, chairman of the Arena Board added that the arena would like to continue instructions of this type for years to come to give every child an opportunity to develop their ability as skaters.

A carnival near the end of the season will highlight the year's activities.

Mr. Baldwin was in charge of the meeting, and he said that his committee had felt that a \$3.00 fee should be charged for membership to the club. A first decision will be made on the amount by the Skating Club executive. He also explained that this \$3.00 fee had nothing to do with the yearly skating fee which would be used towards the wages paid to Mr. Head.

In last week's Standard, it was reported that skating enthusiasts would have the opportunity of taking free skating and dancing lessons. This statement was not too clear and sounds as if there would be no charge made. Free skating is a type of skating taught, or it is separate department from the dancing and figure skating portion of the art. We hope this will clear up the minds of those who misinterpreted the writing.

Flore Up in Council

What happened in council chamber Tuesday night is a regrettable case. We speak of the resignation of Mr. Leonard Hill who has been holding the secretary-treasurer's position in Strathmore for a number of years. When the Mayor brought a number of complaints regarding the general attitude towards the public regarding our secretary to the council, that Mr. Hill has done a very fine job in keeping town records in good order. Proof of this is shown on annual Provincial and federal reports year after year. That was only the mayor's receipt complaints, three other councillors overlooking and legal aspects of it as well. Letter To The Editor

The Editor:
Strathmore Standard:
We estimate about 10,000 Canadians, mostly children, are suffering from this progressive and crippling disease of the muscles. Muscular Dystrophy. For the child victims will live beyond adolescence. So far there is no known cure.

Our figure of 10,000 is merely an estimate because many parents don't aware that their children have this disease.

These people should know that an association exists in Canada whose function is to help them to find out if they have a victim of MD in the family, and to assist them in every way until a cure is found. This body, of whom I am honorary chairman, is the Muscular Dystrophy Association of Canada. They are spending thousands each year on research to find a cure.

By publishing this letter and encouraging your readers to let us know of cases in their families, their circle of friends, or their profession, you will be making much needed contribution to the work already in progress aimed at defeating this disease.

The Muscular Dystrophy Association of Canada, with its head office at 127 Wellington Street West, Toronto, has local chapters and committees across the country. In Alberta, information will be gratefully received by Mr. J. L. Hunt, secretary of the Alberta Chapter, 225 Superior Avenue, Calgary.

Yours sincerely,
OUB RIDDER,
Honorary Chairman.

There was a good attendance at the slide taken by Mr. and Mrs. Armstrong of their trip around the world last summer. On that trip they visited: Hawaii, Singapore, Sydney, Australia; Colombo and Kandy in Ceylon; Lebanon, Bethlehem, Rome, Geneva, Paris and several other places. Mrs. Armstrong's comments were most interesting. The entire week beautiful and there were some fine shots taken from the plane. No Christmas Fires Wanted

Christmas is nearly upon us. Unfortunately, statistics show that tragedy will be in the lead with the festive season. Traffic fatalities are at an all time high, and fire is a major cause of death. See that the wiring in your home is in good order. Place the tree on the opposite side of the room away from stoves. Leave plenty of space between the tree and the sofa for the audience and their lighted cigarettes. Remember paper lanterns, and if trees catch on fire there is nothing worse. In any event Christmas presents should be put on in a safe place. If sufficient care is not exercised, too often there are narrow escapes and nothing does that will hamper escape, and if fire starts up here without warning, the lower floor becomes a death trap. So take care in the home and hall this Christmas. Let our children enjoy this one and many more. With a little bit of effort and precaution on this will be the happiest and boldest Christmas ever.

Mr. and Mrs. G. A. Lee

Celebrate wedding

Sunday, Dec. 7 was declared LEE day in the Standard community. In the afternoon home was filled over and over with friends close to extend congratulations to this well beloved couple. The gift of their grandsons, given the two table, where during the afternoon Mrs. Anna Jensen, Mrs. Ellen Mellett, Mrs. Leslie Nelson and Mrs. Leo Larsen assisted the honors. Refreshments were served by the Ladies' Guild, assisted by members of Standard Chapter 76 OES. Many lovely floral tributes enhanced the living room. Mr. and Mrs. Lee were assisted in receiving by their daughters, Mrs. Jim Benson and Mrs. Johnny Jensen, her daughter-in-law Mrs. Bert Lee and her sister Miss Leda Henderson of Toronto and Mrs. Ethel Henderson of Manitoba.

In the evening well over 225 guests braved the weather to gather at the hall to share Mr. and Mrs. Lee's anniversary party, sponsored by a large committee of friends as is the custom in our village. A red and gold color scheme carried out by using large red poinsettias and gold wedding bands. Christmas tree bangles and gold wedding bells set the scene for a gala evening. Centering the head table was a beautifully decorated three tiered cake.

The bride's party was ushered to their places by old friends Mr. and Mrs. George Collins. Alex Christensen was chairman for the evening and a program of old songs, readings, quartets and duets followed. Alex's many humorous comments on the lives of Little and Gus were enjoyed. Mrs. A. Jensen representing the W. C. C. Club paid tribute to Mrs. Lee's leadership of that group many years ago. Mrs. Roy Fraser on behalf of the WA to the Legion made a presentation to Mrs. Lee, who at 79 is the oldest president of the Women's Auxiliary in Alberta (perkins in Canada).

Rev. Damkar brought greetings and added a sparkle to the program with several humorous stories and then concluded by reading the wonderful chapter from Corinthians on Love.

Tom McCowan paid tribute to Lee and spoke of their long association. Mrs. Collins presented the toast to the bride of 50 years. Bill Nielsen, close neighbor of the honored pair presented the gifts from their many friends in the community, which were four occasional chairs, a tea set, an electric frying pan, and silver. Many other lovely gifts were received during the day.

At the head table were members of the Lee family and old time friends, many of whom were from Calgary. Mr. and Mrs. Howard Nelson and family of Hinton and Mr. Walter Hansen and sons. Mrs. Lorine Rasmussen left on Tuesday for Edmonton, to spend Christmas with Mr. and Mrs. Harold Andersen and family. Mr. and Mrs. Howard Rasmussen are expecting the arrival of a son, a brother for Carmen. The infant son of Mr. and Mrs. Neil Langdon was baptized on Sunday at Nazareth Lutheran, when Miss Sonja Rasmussen and Miss McMillan were the sponsors.

Bliss 1954 the double barrel cross has been a world wide emblem of those striving to wipe out tuberculosis. That is why it is always included in the design of the Christmas Seal sold by the Tuberculosis Association.

FIGHTING RUST WITH CHEMICALS

The recent discovery by plant scientists at the Canada Department of Agriculture Research Laboratory, Winnipeg, of a relatively simple and inexpensive chemical, viz. nickel chloride, for the control of stem rust of wheat, is a step forward in the never-ending battle against this very destructive plant disease. However, as research progresses, it becomes more and more evident that the solution of the stem rust problem is not a simple one.

Chemical Control suggested Over 60 years ago, partial control of rust was obtained by applying chemicals to growing plants of wheat. The results of this early investigation as well as the more intensive studies of recent years, have shown that certain chemicals if applied at the right time and in sufficient quantity, usually will reduce and suppress wheat stem rust. Nevertheless, the economic returns from such a rust control program are still questionable. In some years it would be profitable, in others it would be an economic loss. Consequently, it is not yet possible to recommend that chemicals be used as a general rust control measure in the production of commercial grain crops in the Prairie Provinces.

Resistant Varieties. The use of rust-resistant varieties is, of course, the simplest and most effective method of controlling rust. Through the use of modern breeding methods and improved techniques for testing a large number of hybrids, it has been reported that Canadian plant breeders will be able to develop rust-resistant varieties of wheat that will provide some protection at least against the sudden appearance of a new destructive race of rust, such as 15R. Chemicals, even today, must be considered only as a second-best method to the use of resistant varieties in the fight against rust.

Lyalta Notes

A very large crowd enjoyed the town and chicken supper held at Lyalta on Nov. 23. The banquet was won by Fred Wade and the top ten set which was donated by Mrs. McKenna, was won by Mrs. D. Keer. Bingo brought the evening to a close.

The WI meeting was held Nov. 28 with Mrs. L. Fortman in the chair. Plans were made for the Christmas concert on Dec. 20. The white gifts for the Salvation Army were to be brought to the next meeting. The draw donated by Mrs. K. Snodell was won by Mrs. B. Scholley. A very nice lunch was served by hostesses Mrs. A. Bartel and Mrs. Scholley.

Lyalta and Chasid held a show in the Lyalta hall in honor of Mrs. K. Jones (see Edna Torgimson). The ladies made a scrap book of the bride and groom. A contest played was won by Mrs. A. Pedersen.

Miss Donna Scholley on behalf of the ladies presented Edna with the many gifts. Edna graciously thanked all her friends and was then seated at the head table and a delicious lunch was served by the hostesses: Mrs. Orser, Mrs. Scholley, Mrs. Huntley, Mrs. Keer, Mrs. Meier, Mrs. B. Novak, Mrs. C. Snodell, Mrs. Payne, Mrs. C. Hall, Mrs. H. Lachelt, Mrs. Ed. Barlow, Mrs. Jack Warrick, Mrs. Dave Hebble and Mrs. Robt. Jackson.

Improvement Coming

Steady and in some cases sturdy improvement in manufacturing is in the cards for 1950, says Dalton Robertson in 'The Financial Post'. Sales over all will move substantially ahead of this year's recession-hit totals.

Profits are due for a turnabout from decline and in some sectors the climb will be a major one. Merchandisers and to a lesser extent manufacturers are beginning again to plan further plant expansion - on a modest scale anyway.

Those are some of the answers you get when you put together the predictions of 100 top Canadian executives. They were picked as a representative sample from those answering a Financial Post survey.

Lausen Barn Guted By Fire

A barn 110 x 80 feet, 40 to 45 head of hogs and 4,000 lbs. of feed went up in smoke on the Hill Lausen, 2 1/2 miles west of Cheadle Tuesday morning.

Mrs. Lausen's father Dave Hecale was first to notice the fire when he called at 8:15 a.m. to pick up his son-in-law to look at some cattle.

Neighbors were alerted and they came to the rescue in droves with all the fire fighting equipment they could muster. Fire extinguishers, water and snow was used in an effort to stop the blaze but it was too small, so they concentrated on other nearby buildings to save them.

At one point, according to Mr. Lausen, for a period of about a half an hour, they thought the flames were going to spread to nearby granaries.

There was also some cattle in the barn when the fire broke out, but they were saved.

Mr. Emmett Foster flew to Dunlap, Iowa last weekend owing to the death of an uncle.

The Rockford community hall board held a bazaar in the hall last Wednesday, Dec. 10. Miss Frances Strobel of Rockford was the black-out, which was a very big chair.

The community extends its sympathy to the families of Mr. J. Kowert and Mr. Ned Merkley who recently passed away.

Dale Miller fell on the ice and sprained his arm last Saturday. Mr. and Mrs. Frank Heiler, pioneer residents of the Rockford district have recently moved to Calgary.

The CWL executive entertained its members at a Christmas party last Sunday evening, in St. Rita's School Auditorium. Games were played and Santa arrived bringing a gift for everyone present. Lunch was served. A farewell gift was presented to Mrs. Frank Hamlin who is now a member of the Sacred Heart Parish in Calgary.

Mrs. Rosell, who was visiting her daughter, Mrs. Steven Christensen, returned to Devon last Monday.

The Ladies Auxiliary to the Legion held their annual Christmas party on Dec. 9 in the hall. Santa arrived and passed out gifts to the ladies present who then found out their Sunshine Friends. An election officers took place and the new executive is: president, Mrs. Dorothy Reiger; past president, Mrs. Agnes Frayn; first vice, Mrs. Shirley Harry; second vice, Mrs. Tracy Katterhagen; Sec. Mrs. Mary Gerhart; Treas. Mrs. McLean.

The Ladies Auxiliary held their annual Christmas Tea last Saturday in the Community Hall. Eighty-one gifts were placed under the tree and \$800 in cash was handed in to be used for gifts for the patient in the Col. Belcher Hospital, Calgary. Later in the afternoon the raffish were drawn for Mrs. Mary Koster who won the turkey, Mr. Jimmy Dahl who won the Christmas cake and Mrs. Marion Boyce won the box of chocolates.

The United Church choir, under the leadership of Howard Ruppel, entered the Christmas Choral Festival held in Drumheller last Friday. Rachel Brown played the organ.

May God richly bless you at this glad Christmas tide and bring you true happiness.

Let's make this New Year a banner year with the utmost in health, happiness and success.

May your happy days be as many as the stars in the sky above.

NEW YEAR'S BLESSINGS AN

ANCIENT SWISS LEGEND

According to Swiss legend, the Holy Family is abroad during the hour of midnight on Christmas Eve.

Therefore, a bowl of fresh milk is placed upon the stable table and each member of the household carefully lays his spoon upon the table cloth.

The person who, returning from church, finds his spoon "in the milk" may anticipate special blessings during the coming year: for surely Mary and Joseph have rested within the stable during their flight into Egypt and the Virgin used that spoon to feed the infant Jesus.

Season's GREETINGS

Warmly, we welcome the happiest season of the year, with hearty wishes to our friends and customers, for a holiday abounding in joy and good fellowship.

Forward For Christmas

REV. RICHARD UPTON
 Strathmore United Church

After nearly 2,000 years, the ideal world still lies in the future. But we have come a very long way since the first Christmas. In spite of the wrong that is still in the world, our lives are immeasurably happier and surrounded with an almost incalculable amount of good because Jesus came. It is an illuminating exercise to think of all the things that would be shewn from our world, if he had not come.

If Christmas were banned it would go the delightful family secret the excitement of opening Christmas cards and packages, the thrill of watching children climb over each other on Christmas morning to see what Santa left, the tender, warm expressions of self-giving within the family circle. Think of not being permitted to sing the glorious Christmas carols that enrich the advent season!

Few would want to do away with Christmas, yet back in 1643 that is what happened when in England's Roundhead Parliament banned all observances of saints' days and sternly forbade the observance of Christmas and Easter, and enforced the ban with troops.

In the year 1659 the colony of Massachusetts had a law that "anybody who was found observing, by abstinence from labor, feasting, or in any such day as Christmas, shall pay for the offence."

Whether we are casual or devout Christians, the dot we owe to Christ cannot be expressed in human terms, for even though we may be poor Christians much of the year, at Christmas time we discover how love, kindness, and unselfishness become us.

Yet much remains to be achieved. The old powers of evil are not vanquished, but they shall be. What is important is that in looking forward we hold our vision true, as we see a recrudescence of narrow nationalism, a mistaken patriotism that makes the nations enemies of one another, instead of brothers. Today we have the powerful antagonism of East versus West.

The same mistake holds men's minds today, about how the golden age will come as in the days of Christ. Then they chose Barabbas instead of Christ; and Barabbas was a revolutionary who believed that good would never overcome the entrenched power of evil except by the exercise of violence. The vision of Christmas tells us that it is the spirit of forbearance and winsome love that is God's way of bringing in his kingdom. Christmas again reminds us that the true philosophy of life is a spiritual philosophy.

If the results seem slow, let us remember that there is no other way, and God is very patient. He has chosen his way of redeeming his world, and he will see it through to victory. Christmas is not only a time for looking back; it bids us look forward also, and with thanksgiving in our hearts, for the redemption from our God growth nigh.

Father Carved The Boar's Head

What roast turkey is to Christmas dinner today, the boar's head was to the Yuletide feasting of Medieval England.
 Preparation for the feasting began during September or October when the boar's flesh was at its best. Hunters tracked the animal down with well trained packs of boar hounds and it was dangerous sport, attacking the ferocious beast with spears or surrounding him and driving him into a net.
 His car was his most vulnerable

spot, but before the dogs could get a grip on it and pin him down, his sharp teeth often wounded — sometimes even killed — the hunter and his dogs.
 Nevertheless, the pluckier the boar, the louder his prayers were sung, the merrier the feasting, when his head was borne to the Christmas table.

Strathmore Flyers Win First Game Of The Season

The Strathmore Flyers, the newly formed minor hockey team, gave a pleasing display of hockey in the Strathmore Arena Saturday night when they defeated the Queen's Own Rifles from the Calgary Service League by a hard fought 7 to 5 score.

Doug Riddon, one of the young members of the team scored six goals. Ray Crellin opened the scoring on a pass from Tony Weyers early in the first period. This was quickly matched when D'Amour of the Queen's Own found a hole in the Flyers' defense.

In the first minute of play, of the second period, Bill Leason moved the home towners ahead on a pass from brother Bob, but it was short lived. D'Amour again scored unassisted at the 12 minute mark. Strathmore's Bill Dick moved in to score a goal with no assistance two minutes later, and was answered by army forward, Burns.

Rev Dick scored on a passing play with Weyers and T. Groves at the one minute mark of the 3rd frame but Burns put Calgary ahead with two quick ones to put him from ahead for the first time. Bob Leason tied the game up once more on a pass from Bill Dick and it was followed up by what proved to be the winning goal by Doug Riddon on a pass from Weyers. At the 18 minute mark, Benakley banged in the insurance marker for the home towners. Bill Dick got credit for the assist on this one.

A total of 11 penalties were handed out, six to the Flyers, and five to the Queen's Own.

On the Strathmore squad were: Krum, goal; Benakley; Cook; T. Groves; W. Groves; Morton; Bill Dick; Bill Leason; Bob Leason; Weyers; Crellin; Riddon; H. Dick; R. Groves; D. Dick; Weyers; Hermanson and Elphinstone.

A Christian Christmas

REV. J. T. GIBBONS

Sacred Heart Parish
 "Let us go over to Bethlehem and see this thing that has come to pass, which the Lord has made known to us." These words, found in the Gospel according to St. Luke, were first uttered by the shepherds on the wind swept hills of Judea. And they came with haste, and they found Mary and Joseph, and the infant lying in a manger.

The Evangelist has recorded the eagerness with which these Western-beaten men of the hills hastened to the Royal Stable. The heavenly splendor of the Sacred Night had taken complete possession of their child-like souls. These humble shepherds were indeed poor according to worldly standards; they were indeed rich in their abiding faith in the angel's claim that the child in the manger was the promised Redeemer.

Only the angelic hosts and the lowly shepherds were jubilant that Sacred Night the Saviour was born. Only the heavenly spirits and God's poorest folk were co-witnesses of the glory of God in human form. The stolid Bethlehemites slept the night. The prophecy of the Old Testament was fulfilled. The promise of the Redeemer is a solid thread running through and linking together the entire books of the Old Testament. The Chosen People of God were too busy making ready out of the pilgrims to give any thought to a Child born in the stable. St. John sums up the situation in a clear and precise sentence. He came unto His own and His own received Him not.

In the so-called Christian Church of our day, would think people would celebrate Christmas in a Christian manner. We Christians are indeed at strange. Let us celebrate Christmas with a real ringing of cash registers; a feast of lights, sentiment, music and garish meals. Half the nation is away on a wild spending spree, throwing away money as though they had no use for it and the other half of the nation is only too ready to grab every dollar they can lay their hands on.

If Christ had not been born we would have no Christmas to celebrate. That is just the plain, unvarnished truth. To lose sight of the Saviour, that sheltered the New Born Infant is to miss the real meaning of Christmas. Christmas without Christ for a Christian is no Christmas at all.

I wish to extend to all the need-

ers of The Strathmore Standard my sincerest wish that this Christmas may be for you a time of great joy.

Hearty greetings. May they bring you a message of joy and good cheer.
 May your Christmas sparkle with happiness.

Christmas Is

A Holy Day

REV. K. M. COLLISON
 St. Michael & All Angels'
 Anglican Church

"In the beginning was the Word, and the Word was with God, and the Word was God." (St. John 1:1)
 "And the Word was made flesh and dwelt among us, (and we beheld His glory, the glory as of the only begotten of the Father), full of grace and truth." (St. John 1:14)

So begins... so ends the Gospel for Christmas Day. I don't think any words more beautiful have ever been written. Here in a nutshell we have the basic truth of the Christian belief. First of all that this Word, this Logos, this Christ, was none other than God Himself. Secondly, that God as Christ, who is so much greater than man, humbled Himself and took upon Himself the form of man as the Babe of Bethlehem, as Jesus of Nazareth.

Naturally Christian teaching goes further than this because to get the full story we have to follow that Life through the Gospels and Judean ministries and on to the Cross of Calvary. Then to the Resurrection and the Ascension. But at the present time these get us away from the thoughts of Christmas, so we must return to the first things — the Logos was God and God took upon Himself the form of man.

That's why we hold Christmas. Not only to commemorate the birth of our Lord and Saviour Jesus Christ, but also to commemorate the fact that God's love for man is so great that He took upon Himself the form of man and lived in this world amongst men.

And so we celebrate this great Day with the Eucharist, with Carols, with decorations of all sorts, by the giving of gifts and in many other ways. But there are those who say that many of our Christmas customs originated amongst pagan peoples. How true! But the difference is that now these things are done for should be done to the glory of God. Customs which once praised gods of wood and stone now praise the One True and Only God. Praise Him because He became as one of us so that we might have Life and have it more abundantly.

Santa Claus is not the myth some people think. The name is derived from Saint Nicholas, a Christian Bishop who went about helping those who were in need. His name originally the Latin Sanctus Nicolaus, has developed differently in different parts of the world. Germany calls him Saint Nikolaus, the Dutch people Sister Klaas, and of course the English speaking peoples Santa Claus. It was because of the unusual generosity of this fourth century saint that our modern ideas of Santa Claus have developed.

Then again, December 6 is the day which honours St. Nicholas. This day being so close to Christmas Day, has been through the ages become associated with Christmas Day and now, instead of Santa Claus arriving on December 6, he arrives on December 25th.

With all our celebrations at this time of the year there is one thing that we are very apt to forget. That is that Christmas is a Holy Day. We make our celebrations but forget that they are praise to God for His Incarnation for the perfect union of the Godhead with humanity. Remember that this year will you? That our celebrations, whether of pagan or Christian origin are now all to the glory of God, praising Him because He became as one of us and lived amongst men. Above all, in your Christmas celebrations this year include time to worship God at the church of your choice.

I would like to take this opportunity, with the Editor's kind permission, to wish all the readers of The Strathmore Standard a very joyous and blessed Christmas.

Hope, Love, Peace. Let us make these words live with the true spirit of warmth and friendship which attend this day.

May the glorious light of Christmas joy shine upon you and those dear to you as you join together in celebration of this day.

The fire was out and under control in about a half an hour. The value of property lost was not determined. Insurance adjusters were out Saturday. All was covered by insurance.

The use of green at Christmas time is understandable when it is recalled that the idea of decking churches, houses, shops, etc., with green boughs. This custom antedates the Christmas era and apparently is a survival of the Roman Saturnalia when inhabitants of Rome ornamented their temples and dwellings with green boughs. Red, which is regarded as the most cheerful of all colors, is said to react most quickly on the optic nerve. Decorations available at the winter solstice include holly, the berries of which are red.

A Do It Yourself Christmas Touch

How exciting to finally find a use for those odds and ends you've been saving! Here are some ideas on Christmas decorating by Mrs. Arlene Speers, Home Designing Specialist, Alberta Department of Agriculture.

A gay front door impression is achieved by hanging up a boat shaped out of weatherproof red oil cloth trimmed with white, or paint on old stove-pipe including the elbow, red and white and grates you've a great candy cane. It may

also be hung on the front porch. Chet hangings can supply the foundation of cheery Christmas wreaths. Wire on spruce boughs colored balls or popcorn balls. Suspend the wreath in an archway or attach it to a door. The house is ready made.

White Christmas bells cut to come shaped paper, paste straw on or paper cups. Brush with paint or decorate with tiny colored balls. Perk up extra paper cups by trimming with a ring of patterned Scotch tape.

It's Not Enough To Be Sober

However true, the hatchedwines, if you drink, don't drive. If you drive, don't drink. It is far from being the last word in highway safety. The Canadian Highway Safety Conference has warned, "To be sober doesn't mean you're safe."

There's virtue in sobriety at the wheel of a car, said W. Arch. Bryce, general manager of the Conference, in that you can make the most of the wit and co-ordination you possess. But if you mis-use those facilities and neglect your senses, you can be a worse driver than a sodden drunk. Don't pride yourself on having had nothing to drink before you set out on the highway, then proceed to forget your own life and the lives of all other people in the vicinity by ignoring the measures of safety that should be inherent in every road.

The Conference, calling attention to the steadily growing number of vehicles on Canada's streets and roads, stresses the vital need for every motorist to take his driving seriously. Driving is no longer the pleasure it was only a few years ago. It's a serious business where frivolous, silly and ignorant driving can result in serious consequences, loss, painful injury or death.

Warns Mr. Bryce.

Muscar Socials

BY MRS. O. R.

In spite of the very cold weather, a good crowd gathered at the community hall for the benefit dance for Mr. Moulton. Over 8000 were present at the dance. We are informed that tickets were sold on several issues. Winnie Kirkpatrick, who was the hostess, had a very successful evening. Dave Wilson, the clock, and Harry Douglas, the piano, gave the crowd a most enjoyable evening.

My Daily Prayer

Author Unknown

This coming year I'd like to be a friend to everyone. I'd like to feel each day well spent at setting of the sun; I'd like to know that I have done

at least one kindly deed. Before I lay me down to sleep, I have given love — To some one's cry for sympathy, or friendship or that I have made the day seem brighter to some chance passer-by. And that the world is better still in just some little way. Because I've tried to live the very best I could each day.

I'd like to be a ray of light when skies are overcast, I'd like to help some one who failed to blot out all the past. To start again despite the storm, and find the skies are blue. To know that in this good old world, there's lots that's fine and true. I'd like to be the kind of person everyone will love, And make the world seem just a little more like heaven above; I'd like in all my dealing to be true and just and fair, That God will help me do these things shall be my daily prayer.

Christmas Turkeys At Bargain Prices

Featuring a surplus of Christmas turkeys, many Western farmers have started offering their birds at bargain prices, reports The Financial Post. They want to market as much of their poultry production as possible before the end of the year. Some producers in southern Alberta have been selling their first turkeys in recent days at 25c per lb.

These birds have been raised and specializing in the production of fattened on grain by operators' turkeys for the Christmas trade.

The HSA meeting was held on Wednesday evening in the gym and was well attended. At the business meeting plans were made for helping the teachers pro-

pare for the Christmas concert. Committees were appointed to look after buying the candy, etc., and decorating the school. A report was given on the returns from showing the film on Nov. 22, and the amount cleared was \$40. The members voted to allow up to

\$20 for buying a tree and decorations. There are now 43 up members of the Association. Mr. and Mrs. Baxter were in charge of the program which was enjoyed by everyone, and a vote of thanks was given them. Lunch was served by the hostesses Mrs. M. G. Gorka, Mrs. Montgomery and Mrs. Gorka.

Mrs. Gustafson and Mrs. Salomon taught at the school during the absence of Mr. and Mrs. Gorka. They were called away due to the illness of Mrs. Gorka's mother. Hussar friends extended their sympathy on this sad occasion. Mr. and Mrs. J. Carter arrived home from their trip to the Bahamas, and report a rather strenuous holiday in a hot climate. The cold weather felt good to them on their return.

Soon after his return Mr. Carter was called to Provost as his mother was very ill. Edwin Reiffenstein has been a patient in the Bessano hospital this past week. Mr. Warburton came home on Friday. Will Anderson, who had injured his neck, was able to come home Saturday. Friday evening the basement of the church was the scene of a bridal shower for Miss Gloria Hansen. Mrs. Howard Christensen of Chancerville acted as MC and welcomed the guest of honor and her family. Misses May and Kay Nielsen sang a duet. Mrs. Margaret Brewer played two numbers, on request. Mrs. Marion Clark gave readings; Beverly and Charles sang a song. Mrs. Helen Hiltved gave the tribute to the bride. All sang grace, and a very nice lunch was served, after which the tables were cleared. Mrs. Clark read a poem composed in honor of the bride to be, and little Stella Clarke charmingly dressed as a nurse recited a little verse presenting Gloria with the shower gifts. When the gifts had all been opened, Mrs. Sanden placed around the guest of honor's neck a lovely lei made of the ribbon bows from the packages. Gloria thanked everyone and invited the guests to visit her in Hawaii or Seattle, where she will be living after two more years in Hawaii. Mrs. Hansen invited friends to call at the Hansen home while Gloria is there, and on Dec. 14, which is Alma's birthday.

The Sunday School children are busy practicing for their concert on Friday, Dec. 20 in the evening. It has been arranged that the school children will be looked after in the basement of the church during the latter part of the services. We hope this will be of benefit to mothers with young children. Mrs. Clark is in charge at present.

May you be of good cheer on Christmas dawn—your heart full to overflowing with all of the high happiness and beautiful blessings of the Day. May the joys of this Christmas be remembered very happily through many a long year to come.

Unto All In Hawaii
The meaning of Christmas
strikes everyone at a very young
age. All over the islands of Hawa-
ii, for example, the youngsters are
deeply involved in the Christ-
mas story by virtue of the many
plays and pageants that are staged
to recreate the 2000 year old
drama. The first missionaries land-
ed on the islands in 1820, carry-
ing the story with them. Today
Christmas is as universally cele-
brated as in the United States, if
not more so.

The Gospel story of the birth of
a Savior for all the people of the
earth makes the brotherhood of
man at least partially the theme
of the 25th day of December,
which stands out with particular
emphasis in the islands, where the
great rhythms of national groups
and ethnic origins make for a uni-
versal application of the story, as
reflected in the pageants put off
for the children. In Hawaii, with a
population of about 500,000, there
are 25 racial and national groups.
These are all blended into the
meaning of the Christmas story,
proclaiming the Good Tidings of
great joy which shall be to all
people.

**Christmas Elf
Concerned With
Well-Being Of Cattle**
Jule-Nisse was not exactly a
Danish version of Santa Claus. He
was an elfin little old man who
lived in the attic and was primar-
ily concerned with the well-being
of the cattle, keeping them quiet
and contented, driving for them if
the stable hands neglected their
duties.

Nasse's name and association
with Christmas probably stems
from his legendary tenacity of
houses where peace and content-
ment prevailed. The elf he either
avoided homes where contention
ruled or played all sorts of gram-
ling like tricks upon the occupants
harmed.

Danish youngsters, mindful of
Nasse's long memory and watch-
ful eye, put themselves upon their
good behavior as Christmas ap-
proaches.

dren—that is, if they have been

listening long before Christmas.

bits of tin on the floor they are
certain of it, as this is angels' hair.

ing with the first Alberta Bird Book
to be published this month. The
volume is largely the work of Pro-
fessor W. R. Salt, leading provin-
cial ornithologist. It contains 233
color pictures and 90 black and
white ones when no color print
was available. Several of Calgary's
top photographers' pictures have
been used. The article states that
naturalists, teachers and Albertans
have eagerly looked forward to
such a book. It is a non-profit pub-
lication and is being handled by
the Alberta Dept. of Economic Af-
fairs and will be available through
the Queen's Printer, Alberta for
\$5.00.

Professor Salt is well known
throughout this area having taught
the Rosebud high school from ap-
prox 1929 to 1930 and again in 1940
following a year's leave of ab-
sence spent in a prominent part of
Duck Unlimited project. He
later taught in Drumboiler High
School before joining the staff of
the Alberta University in Edmon-
ton.

No Christmas Bonus For Many

Christmas bonus time has rolled around again. But, says The Financial Post, a lot of the existing unpredictableness about it has gone. This year end surprise packages don't mean a surprise any more.

Even Tulelake corporate giving is settling down into established patterns. And those firms which haven't been handing out any extras certainly won't start this year. Government and industry surveys in U. S. and Canada indicate that less than half of all business probably somewhere between 35 and 40 per cent — gives Christmas bonuses.

The Home Of Silent Night

The advent of Christmas is usually signalled by the singing of a song more popular than all the rest in the Western World. That favorite, of course, is Silent Night. In churches, at window caroling, and around the family hearth, it is the signature of the season. Like all other songs Silent Night has a home. It is the little village of Oberndorf, tucked away in an Alpine Valley of the Austrian Tyrol. The song itself was first composed and sung there in 1818. Silent Night is the work of two men, the parish priest Joseph Mohr, who wrote the words, and Franz Gruber, a teacher who composed the music.

Today the little village, which might otherwise go unrecognized, has a memorial chapel dedicated to the two men and the song, which may have the distinction of being the most universally popular in the world.

The church where the two men first brought their composition to light is still represented by an original tower that has withstood the years. In addition, Gruber's school room, with some modern improvements, is in existence today and is used as a school room for the children of the town. Both Gruber and Mohr have memorial windows in their home in the little church.

Each day some visitor or a tour, highway to see the birthplace of the party passes through the little town; the song that begins, Silent Night, town, detouring from the main, heilige Nacht.

Hussar And District

BY MRS. C. R.
The Hussar Ladies Aid held its annual meeting at the home of Mrs. Vic Law, with a large attendance of members and friends. The former slate of officers was returned by acclamation: president, Mrs. H. Miller; vice-president, Mrs. E. Parker; secretary, Mrs. Vic Law; treasurer, Mrs. Buck Schmidt; entertainment committee, Mrs. Shobdon and Mrs. Schaffer; entertainment committee, Mrs. P. Larnen, Sr. and Mrs. Buck Schmidt. A Pledge contest was won by Mrs. Ivan Manigault and the draw by Mrs. Law. Two new members joined the Aid. The next meeting will be at Mrs. Shobdon's home.

The next H.T.A. meeting will be held on Jan. 7 at 8 p.m. A discussion has been planned on the uses that may be made of the school gym.

The P.T.O.A. meeting will be held January 8 at 8 p.m. at the home of Mrs. W. Barker. Entertainment in honor of Mrs. Blake who had a birthday on Dec. 18.

Edith Reiffenstein is back feeling fine after two weeks in hospital. Several young ladies of the community are wearing new diamond rings.

The Junior Mission Band enjoyed the large patronage held made by Mrs. Barker for their concert on Dec. 17. A film strip, Christmas Joke, was shown; a gift of \$20.00 was sent to the British Empire Bible Society this month. This amount will provide five Bibles and 20 new Bibles.

Sunday evening, Dec. 21, a beautiful candle lighting service was held in Our Savior's church.

About 80 candles were used in the ceremony, and two trees were decorated with blue lights and silver tinsel glowing in the chancel.

The choir sang many fine selections, including a solo by Geraldine Binko. Murray Christensen, Leroy Barker, Donald Law and Gary Neillings held candles, which were lit by Edwin Reiffenstein, and the four boys sang through the church lighting candles. Edwin Reiffenstein read from the Gospel of Luke between the choir selections, and Pastor Olsen delivered the message from the pulpit. This was considered by many to be the best candle lighting service held here yet, and the pastor and choir are to be congratulated for their efforts.

Mr. and Mrs. C. Reiffenstein have as guests, Mr. and Mrs. Arthur Thompson and son Bob of Unionville, Ont., and Mr. and Mrs. Ray Reiffenstein of Aton, Ont.

Council To Crack Down On Water Users In Arrears

The regular meeting of the Strathmore Town Council was held in council chambers Tuesday night with all present.

Although it was passed at a previous meeting that the town office would have bathroom facilities, it was decided at this meeting that it would be placed in the basement. The town will purchase a new tile and add additional electrical outlets.

A letter was received by Mr. A. Norman of Strathmore to purchase the lots west of the Billings property to the north and a building permit was presented for a residence. This permit was given pending the purchase of the lots west of the Billings property.

Mr. Fennie made pictures available to council of the house he planned to give to his farm. The house was to be a duplex. The house was to be a duplex. The house was to be a duplex.

The town maintenance man, Albert Vanderhoff, will be sent to Edmonton Feb. 12 and 13 to attend an educational conference pertaining to town work.

Council received for a few minutes when one of Albert Vanderhoff's boys came to the office. The boys were playing and the boys were playing and the boys were playing.

Flyers Are Undeclared

The Strathmore Flyers apparently need more competition. They have four games in as many weeks and in each case the results were very decisive.

They reached up two wins recently by defeating the Calgary Transit System 7 to 1 on Saturday night and Eugene on Tuesday night 4 to 2. 170 spectators witnessed the first outing and 130 the latter.

In Saturday's game the Strathmore boys took advantage of every scoring opportunity and played a good all round game. Goals were scored by the Flyers and the Flyers scored numerous chances for the opposition.

Calgary did not score until the 3rd period. The 7 to 1 score was no indication of this game. It was a hard fought battle from the opening bell.

Strathmore had a scoring opportunity in the Tuesday night game. Scoring was in the first period, three in the second and four in the third. Bussard scored once in each of the first and second periods. The teams were outclassed on this one.

Ray Crellin was the top star last Saturday's game, with a four point performance. Two goals and the same number of assists. Wayne was close behind with two goals and one assist. Bob Lausen scored one goal and got one assist. Roder and Roder got a goal and a goal. Don Dick, Roder and Bill Groves spent two minutes each in the sin bin.

Temperature Rising Slowly

Two names were missed from the list last week. They were the Matt and Charles J. Hall. They added to the list for this week is A. Demet and Ken Walker.

The mercury rose slightly over last week, but had the weather man been more kindly it is felt that there would have been some action in this regard.

There is still a lot of work to do at the risk and any help who would volunteer to do so would certainly be welcome.

School Board Chairman Answers Letter To Editor

The Editor,
Strathmore Standard.
Dear Sir:

The Board of Trustees of the Wheatland School Division feels compelled to reply to Mr. J. M. Hanson's letter to the editor regarding the proposed building program.

The Board of Trustees is always willing to hear constructive criticism, but when we feel that our duty to the community is to provide the best possible education for our children, we must stand firm.

The Board has never considered transporting 12 pupils from the Chazy and Gleichen area to the Wheatland School Division.

When school building programs are undertaken by this board, there is full compliance with the regulations of The School Act as to advertising and in addition to the public notice a letter of explanation has always been published in the local press.

Sincerely yours,
Max Phillips, Chairman,
Wheatland School Division No. 40

A proposed gas and oil pipeline which may run in a northerly direction from Prince to near Rimbey has been the subject of much conversation this week. A surveying crew has been working half a mile east of Rosebud Tuesday and it is thought the four oil wells north of Rosebud would be included, as well as the 16 old ones at Chancellor.

Tips on Touring

By Carol Lane

Woman's Travel Authority

Do more after dark driving in winter — as it's especially important in the winter months in good working order.

When in the last time you had your car checked?

Provisional inspections show that nearly half the cars on the road have not been inspected since they're detachable, road shock is likely to be in them out of the shop after only a few months of driving.

Headlights aimed too high or too low to the left can blind oncoming motorists. Headlights aimed too low or too far to the right do not show far enough ahead to pick out obstacles in the road in time for a safe stop, especially in winter.

When lanes are slanted, only three inches too low, nearly half the light is lost 300 feet ahead. When they're slanted they incline high, slays in up 75 per cent.

No sale. How your headlights checked last year?

After light driving, have the wiring and ball joints checked.

If all the lights go out, it's probably defective wiring or a blown fuse. Always carry spare fuses. You don't know how to replace one, any service station attendant can show you how.

Check your tire lights, too. It's easy to drive for miles without knowing you're on a flat.

Carry a roll of rubber tape in the car. If light fails, apply some tape to the burners so other cars can spot you.

All men are created equal — and endowed by their creator with an inalienable right to become citizens.

Any More Questions?

Anyone who was unable to attend the meeting held in the Glen school on Monday night, will have some questions regarding the present building program in their minds. A wonderful opportunity to have them ironed out.

The Wheelchair School Board turned out in full force and chairman Miss Phillips was in charge of the meeting.

If you are against the program you may not have completely changed your mind regarding the situation, but we are sure that you would have gone away resolved to give it considerable thought before you expressed your public opposition to the Board's decision. Opposition to the Village of Strathmore having their old school replaced is foolish.

Berry-Vale W. I.

An interesting program for the 1959 season has been drafted by the Berry-Vale W.I. in a meeting held at the home of Mrs. Tom Taylor on Jan. 15th.

Now officers, secretary Mrs. H. Miller and treasurer Mrs. J. Colwell, assumed their offices.

Mrs. Fairbairn of Cluny will be the guest speaker at the next meeting.

It was decided to sponsor a whist drive in the Anderson Hall on Jan. 30 at 8 p.m. Everyone is cordially invited to attend and no admission is levied per person for whist lunch.

The next meeting will be held on January 29 at the home of Mrs. H. Bae when the roll call, will be held.

WAGES AND EXPERIENCE - How? Well, the prospect replied. It's an applicant, interviewing an employer, remarked. You ask him how much harder work when you wages for a man with no experience don't know anything about it.

Strathmore Needs More Lots Council To Make Study

The regular meeting of the Strathmore Town Council held on Tuesday night was a lame one. Business to be taken care of was not complete by midnight so another meeting will be held Feb. 10. Those present were Mayor Gray, Councillors Hartell, Godfrey, Caldwell and McNeill, as well as Sec-Treas. Bendall.

The Mayor had conferred with the Deputy Minister of the Attorney General's department in Wilton, Feb. 2nd, and was told that Strathmore must have police protection of some type. All councillors agreed that a policeman was necessary in the town and a lengthy discussion took place as to where they should obtain a part time or a full time man. It was finally decided that the matter needed much consideration and that they would hold a special meeting regarding the matter after the annual meeting. It was felt that in view of the \$4100 surplus in 1958, that they could supply this service with little or no rise in taxes.

It was brought out at this meeting that there were 19 houses under construction or have applications to be built in the town to date. As a result of this, there are not so many suitable lots in town so council are planning to acquire more land.

There was some discussion about various land that may be available but it was decided that the council make a tour of the town to make a complete study of the situation and discuss it further at the recessed meeting.

Councillor McNeill reported that the sewer disposal plant was filled with garbage and that the waste was all running off by way of the by-pass line and that it was not cleaned out as good as was their conditions would permit him that a proper job would be done in the spring.

LET'S GET NEWSY

Mr George Oakes was involved in an accident 13 miles east of Strathmore yesterday. The road was icy and a snow plow truck went out of control as it met him and was swerving from side to side. To avoid a collision George took the ditch but was hit with the back end of the trailer at the rear of his car. Damage done to his car is about \$100 and to the truck \$200 or \$300.

Bob Arthur, formerly a prominent Polled Hereford breeder, has donated a trophy for the competition at the Calgary bull sale. Mr Arthur has been a promoter for polled Herefords since 1946. He was given an honorary life membership in the Alberta Polled Hereford club last year.

Mr Archie Klairer has spent the week in Medicine Hat. As well as visiting with his father, he attends for the Western Stock Growers Association meeting.

Mrs Mary Mercer will sing over CPAC on Sunday at 2:30 during the regular Chicago Chimes program.

Mr and Mrs Keith Bergh and family spent the weekend at Camrose visiting with their son Norm and other relatives in that city.

Any news? This is a chance to show how. Any happenings you would like to see published, please phone us at 17.

A Alberta Permit was issued to The Alberta West Pool to erect a house in the subdivision. Payment of the lot had already been made. It will be used for a supervisor's residence.

Mr Bob Arthur had a request in to build a trailer court on his property in west Strathmore but it was tabled until the study of town planning had been made.

The possibility of irrigating for lawns and gardens received careful consideration but no decision was made. This will come up again at another meeting.

The annual meeting will be held Monday in the town office.

Wooliams Answers

Wire Sent By

District Farmer

A letter dated January 27, 1959 was received by The Standard from Eldon Wooliams, MP from Ottawa, in answer to a wire sent to him by a farmer in this district. The following is a reprint of that letter.

Today I received the following wire from one of the farmers in reference to obtaining cars on the Bassano-Irricana Branch CPR line. The following is a reprint of that letter.

There have been indeed small and where farmers have had orders for cars but have not been able to get cars on the railroad to ship out their orders.

Human and other points on the Bassano-Irricana Branch Line of the CPR have shipped very few cars of pearting barley since August last of this year.

Human elevators have sat all winter with 75 orders for pearting barley but so far the CPR has given us no cars for these orders.

We hear that other points have more fortunate in securing cars for pearting barley shipments. I have met today with the Minister of Trade and Commerce, The Hon. Gordon Churchill, and he is immediately contacting the Wheat Board, and hope that as a result of this review in reference to this problem, the situation will ease immediately in the Strathmore-Irricana district. If it continues to prevail, I would be happy if all the farmers would contact me who are having this same problem.

Heavy Wind Moves

Bassano Grandstand

A heavy wind caused a Stampede of its own at the Bassano Stampede grounds about 8:30 a.m. today.

Wind gusting to an estimated 75 to 80 miles per hour broke the newly constructed grandstand in half and blew it over a four foot bank and it came to rest near the chutes about 250 feet away.

There was considerable little damage done to the structure except where it broke in two. Judging by the path it took, observers believe that it could have been broken by a volunteer.

Volunteer workers began repairs the next day.

Strathmore Entrant

Wins District

Briar Play Downs

Four Strathmore curlers took top honors in the District Curling playoffs held in Irricana January 28 and 29.

A rink skipped by Reg Thurston had to win four out of five games to take middle shift position. With Reg were Roy Voulter, Russell Morgan second and Tommy Coates lead.

The final game was played with Irricana who defeated Strathmore in the early stages of the contest. Rockford then turned back Irricana but the Thurston rink outscored them both on the final day to give the rink to center in the Southern Alberta finals to be held in Drumheller Feb. 5 and 6.

The provincial finals will be played in Grande Prairie.

"The 5900 Club"

Radio Station CFAC is conducting a campaign to enlist the aid of the people in Southern and Central Alberta in purchasing one of the giant 5900 CPR locomotives for display in Calgary. It will be one of the 5900 series which for years have been on the final day to give the rink to center in the Southern Alberta finals to be held in Drumheller Feb. 5 and 6.

The CPR has offered one of the engines to the City of Calgary for \$5000 and it is hoped that a good portion of this cost will be realized through membership in the 5900 club. Each person who contributes will receive a wallet size membership card indicating that they have helped purchase a 5900 locomotive.

If you are interested in becoming a member you may do so by sending in \$1.00 or more if you wish to The 5900 Club, CFAC, Calgary.

Minor penalties were handed out four times to each team. The RCMP had boys were Dunlop and Richmond (no relation to Doug), each getting singles and a Keweenaw two. Strathmore's Bill Groves got two and Bill Laussen and Stevenson a minor each.

ST. ANDREW'S ANNUAL CONGREGATIONAL MEETING

The annual meeting of the congregation of St. Andrew's Anglican Church at Gleichen was held at 8 p.m. on Jan. 29 in the basement of the United Church, with about 20 persons attending the meeting.

The meeting opened with the singing of a hymn and with prayer. Reports were heard from the treasurer and secretary of the WA the Little Helpers society, the Sunday School Supp., the Evolvee secretary, the chairman of the Every Member Visitation and Canvas committee and the Women's committee and the Women's.

The treasurer's report showed that the congregation had had an excellent financial year and that the new organ was being paid for. The WA treasurer's report showed that this organization had a very successful year.

The report from the chairman of the EMCV committee showed that this venture had been quite successful and expressed the hope that the same would be done in 1959. The Sunday School Supp.'s report indicated that attendance was remaining at about the same level as before.

The following officers were elected for 1959: Mr. H. Colpoys was re-appointed Vicar's wardens by the Vicar; Mr. A. Holmes, people's warden; Mr. A. George, A. Horne, A. Young, W. Moore, H. Bogue and H. Brown were elected to the Vestry. Mr. George and

Mr. H. Martin at Strathmore won a trip to Hawaii last Friday night.

This draw climaxed the dance held by the Strathmore Legion & Lions Clubs on a night that averaged more degrees below zero than was comfortable.

Mr Martin who was present at the time was last for word when his name was announced from a letter drawn from a box by Mr. Elaine Norman of Strathmore. The lucky stub was one of only 24 others that were sold by members and friends of this jointly sponsored project by the two service clubs.

Mr Martin has elected to take the money value rather than the trip and announced that night that \$100 would be turned back to the two clubs to share.

The dance was well attended and money supplied by the Calgary Tune Toppers.

Flyers Bow To RCMP

The Strathmore Flyers lost their third game of the season Saturday night before about 230 fans, the largest crowd to date.

The RCMP from Calgary did the trick by a 1 to 1 score.

The Calgary team started out strong in the first period by scoring three goals before Strathmore got their lone counter by Skalsky during the late stages of the frame.

Donkette for the RCMP scored three goals in the second period. Winter and Goode got the other counters.

Minor penalties were handed out four times to each team. The RCMP had boys were Dunlop and Richmond (no relation to Doug), each getting singles and a Keweenaw two. Strathmore's Bill Groves got two and Bill Laussen and Stevenson a minor each.

Standard Wins

Sports Club Trophy

Below zero temperatures didn't stop the hockey tournament held at their home town last Friday & Saturday. They scored a total of 28 goals during the day and the combined total of goals scored by all the other teams was 14. They won the trophy and the Standard Sports Club trophy hands down.

The games went this way in the order they were played: Gleichen 4, Strathmore 0; Standard 8, Crowfoot School 2; Standard 4, Glenora 2; Standard 4, Glenora 2; Standard 12, Chum 2.

Standard also leads in the Pee Wee and Bantam Composite hockey league play. They have 8 wins and 1 tie, with two games to play, with Gleichen and the other with Strathmore. All they need to capture the League Championship and the Brent trophy is one more point. Strathmore is second in the league standings.

Strathmore Curling

Just Around Corner

It is expected that by the time this paper hits the streets, the making in the Strathmore Curling rink will be getting full swing. They were held up for some time waiting for the compressor to arrive from the east, but it is now possible to get to go.

Another step is towards the project since last week. Those buying shares or part shares were Roy Godfrey, Russ Martin, Mary Morton, Mrs. Clara Deeg and Ed. H. Deeg.

The reports for the church board were given by Mr. A. Proulx for the WA, by Mrs. W. Gordon and for the Sunday School by Mrs. B. Nicholson. Rev. Morrison gave a report of his activities for the past year.

The personal of the Board of Stewards and Treasurers remain the same. They were re-elected by acclamation. They are: Mr. L. Stewart; Warren Gordon; W. Proulx; Leroy Nicholson and Bob Goldsmith, and trustees are C. E. W. Gordon and W. Proulx.

Mrs. Gwen Koeford and Elaine Clarke were the weekend at the home of Mr. and Mrs. L. Koeford. We are sorry to report that Mr. Amund Christensen is a patient in Rossano hospital.

A group of women of the Church WA are compiling a history of Cluny and district. Any pictures or old letters or articles prior to 1910 would be gratefully appreciated and could be sent to the secretary Mrs. W. James.

Mrs. R. L. Thompson spent the weekend in Calgary and attended the Anglican Deservy meeting on Friday at St. John's Church.

Mrs. Leroy Nicholson, Miss Charlotte Burns and Mrs. Warren Gordon attended the annual rally of the Calgary Presbytery Women's Association of the United Church held Friday in Central United Church, Calgary.

\$139,400 In Building Permits Issued 1934

George Rindson acted as chairman at the Strathmore Annual Meeting held Monday night at the Town Office. All Council members were present.

Mayor Gray said in his report to ratepayers that the future bright for Strathmore judging by the building permits already issued and the interest shown by others regarding building sites in town. We need more space, he said, and council will take action in this regard immediately.

First and Third avenue will receive attention this year. He said that they will be able to get suit-able all at no charge, but keep the dust down next summer.

Eighteen blocks of sidewalk have been built in town during the past four years he said. In view of this he explained this department may not receive as much attention during the coming year.

Councillor Bessent said that his Police and Welfare department spent very little of the budgetary money, but that he was much in favor of obtaining a policeman for Strathmore. There is absolutely no way of enforcing by-laws without one he said.

Ed Godfrey of the Fire & Light department said that the equipment at the lake is in perfect running order as is the auxiliary pump. It is also hoped that some of the oldtimers will display their talents and show some of the young-er enthusiasts how the game should be played.

The fire that destroyed the new Crown Lumber building last June was the worst since the fire of 1924 when most of main street was gutted. The present fire-ness was built by A. Morton & Sons, Strathmore.

Mr. Alex Davies who has been manager of their Strathmore branch for the past six years will continue to serve the community. Also with this big opening will be Mr. H. J. McLean, Superintendent for Southern Alberta as well as a number of other officials of the Company.

Mr. L. L. Gray will cut the ribbon to officially open the business at 11 a.m.

Prizes and daguerre will be served all day, balloons for the kiddies will be given away as well as a number of pencils for the kiddies.

The Strathmore branch is one of 27 the company operates in Alberta. They have 12 in Saskatchewan.

Fairing the condition of the back alleys in some business and residential sections. Mayor Gray said that letters had been sent to offenders stating that they must clean up their garbage and if they didn't the town would, and charge it back to them.

A motion was made to make a complete survey of the roads and bring water from McCollister Lake west of Strathmore.

This was the result of a lengthy discussion about the shortage during summer months. Bank Manager L. Mugg said that water was a very important factor in the eyes of Central Mortgage and Housing when considering loans. It is getting to the point now when something must be done to insure more water he said.

The irrigation system was left for the Council to decide upon. Mayor Gray said that he felt every time that council would decide to spray the alleys this summer to combat the fly situation.

Opening Ceremonies At Crown On Sat.

The reopening after re-building ceremonies at the Crown Lumber Co., Strathmore will take place Saturday, Feb. 16, Valentine's Day.

This Company is no stranger to Strathmore: they have been selling lumber in this town for 53 years. 1902 was the year the first building was erected. This was built in 1902 by the building that was destroyed by fire last summer.

The original office has been moved twice since 1902 when it was placed on the lot where the United Church now stands and was used for law offices by the late Tim Wevers until his death when it was converted to a retail store and moved to the present location. It was purchased by Mr. Finch and moved to the west end where it stands. It is now owned by E. Berg.

Official Opening of Curling Rink To Be Staged On Sunday

The official opening of the Strathmore Curling Rink will be staged on Sunday, Feb. 10, 1935. The ladies and men's clubs have combined in an effort to make this gala event one to remember.

Invitations have been sent out to oldtime curlers all over Western Canada who at one time were members and it is the hope of the executive that many will show up for this special occasion.

There will be some type of curling featured. What it will consist of is not known, but we found out that the teams asked to play are the 1922's and the 1924's and The Hawks vs. Midgets. There are no one.

Some thought was given to raising the price of tickets in town, but the cost of services that it was decided to wait till further advice is received from town planning. Information has been received from that department.

The Mayor will contact the town council to give official information regarding using curling for an irrigation system and to give them that status on the system.

Although there was nothing passed in the minutes council expressed willingness to go ahead with such a system if all possible.

The price of tickets are 50c for adults and 25c for children and are valid all day.

A Lot Of Fun But No Games Won

The Reg Thornton rink who represented the district in the openers Alberta playoffs in Brantford competition at Drumheller went down to defeat two straight last weekend.

The first game brought them up against the Auld risk of the Calgary North Hill club but they were turned back by a close 9-12.

The last game is one the boys would rather forget when they thought of Red Deer being hit 14 to 1. Absolutely nothing went right for the Strathmore curlers.

They report a wonderful time however and said that Drumheller treated them royally throughout the weekend. With Reg were Roy Voulter, Russell Morgan and Tommy Cairns.

A risk played by George Menzies of Picture Butte took the southern Alberta championship.

Scoring race got two goals and helped with a win. As did Weisbe, Bill Dick and Skankley each gained a goal and two assists while Bev Dick, Bladen and Bob Lauzon got one each. Two assists went to Weisbe and Bill Groves and Stevenson got one each. There was no over-ice. Strathmore overpowered Burns Co. Tuesday night by a 6 to 3 score. Markham for Strathmore were Bob Lauzon and Don Weisbe with two and one each for Weisbe and Croft. Ockes got two assists and Bill Dick, Crellin, Weyers, R. Groves, Bladen and Bev Dick were credited with one each.

Artificial Ice Is Here!

It has been a long wait in one catch: more money is needed. Strathmore. As a result of Carnival preparations, the curling rink opening, lawn annual and room and meetings, some have had to start making the rounds early in the evening in order to attend as many meetings as possible.

It is a rare race but one that is necessary if the town is to forge ahead. In most cases there are no few doing so much that it is hard for them to spread their wings. Strathmore should be proud of the group who have provided the artificial ice plant. It will add much to the town but there is still time

Letter To The Editor
 The Editor, Strathmore Standard.
 There have been many questions asked by the farmers of the Bow River Constituency as to what might happen to the Crown-Nest Dam Rate which is a special people in general.
 The speech from the Throne contained the following words: "My Ministers will recommend to you action to alleviate the disastrious effects of the recent horizontal increase in freight rates."
 It would seem that both these statements clarify the future position of the farmers of Western Canada as far as freight rates are concerned.
 Once again, if any of you have any ideas in reference to this situation, please let us hear from you by letter.

How research saved Sherry Anderson's life

Sherry... 2 years after her operation.

Sherry Anderson was born a "blue baby". She had four defects in her heart which robbed her blood of the oxygen it needed. Her parents knew about the "blue baby" operation, but they also knew that he had not always been beneficial.
 Sherry was particularly fortunate because medical research had just developed a very efficient Heart Pump. This "pump" actually does the work of the heart during an operation, allowing surgeons time to make complete repairs.
 Medical research is also striving to discover the various causes of heart disease with the ultimate hope of preventing it. This valuable work is being correlated and stimulated by the National Heart Foundation of Canada.
 Because the life insurance companies in Canada believe in the Heart Foundation, they have given it strong financial support. This is just one of many ways in which these companies help to create a healthier, happier life for Canadians.

A baby shower was held recently at the W. Miller home in honor of Lyle Hendrick. Several contests were enjoyed under the leadership of Mrs. V. Kayten. After a social time tea was served and Lyle's gifts were presented. A gift was also given to the baby's mother and Milla made a nice little speech thanking everyone.

A card party was held at the home of Mrs. den Boer on Jan. 22. Whist was played and Rap. Ladies first, Mrs. Lyons and Gertr. M. M. Heinemann, and the low Mrs. H. Henke.

Rosebud News

BY MRS. L. L. The whole community was

plunged into mourning Tuesday by the news of the sudden death of one of its most respected citizens, Alack McMillan, proprietor of the Lucky Strike coal mine two miles

east and four south of Rosebud. Alack had been injured in the mine at two o'clock Monday when a pulley chain broke, and struck his chest right above the heart and knocking him against the wall and Bruce Houser.

Following X-rays, he returned home where he passed away that evening. Heartfelt sympathy of the community goes out to Mrs. McMillan and family.

In due respect for the late Mr. McMillan the Rosebud Lions Club dance was postponed.

The Rosebud hospital was postponed Monday because of mild weather, but they hope to hold it on February.

Mr. Kenner (Cushman) appeared on a guest on the Wednesday morning TV cooking program. Five neighbors say she was very natural as she demonstrated her methods of preparing food.

Mr. and Mrs. Bill Hunsen of Red Deer visited the latter's mother, Mrs. Sylvia Nicksen and her brother George and family last Thursday.

A very successful supper was held Thursday evening by the Jolly Junior W.A. followed by a program. Those taking part were Edna's Lender, Marie Wilson and Shirley Rasmussen; Mrs. S. Christensen; Mrs. Bertha; Ron Bertha; Tina Christensen; Tom and Ruth Stigstad; Jo Anne Jorgensen; and Wendy Barr; Gordon Barr and Jane Lender; Marie and Barbara Wilson; Barbara Balder and Shirley Rasmussen.

The annual meeting of the Rosebud Baptist Church was held Saturday, Jan. 31. Various reports were given and accepted. The church had handed \$2000. The Sunday School \$459 and Missionaries \$1300. An oil furnace had also been installed. The new board consists of Mrs. Wilson, sec.; Mr. Wilson, S. S. Supt.; Earl Krahn, treas.; Hans Andersen Jr., Leon and Coed and Leonard Kirby. There was much discussion on the matter of expansion and the construction of a manse.

Mr. Joe Brunner was renewing acquaintances here last weekend. He took the Young Peoples service Friday evening and showed films of his work with the West Indian Mission in Trinidad Sunday morning. He and his wife, Laurine, Berrie, Kenzie, Laura Lee and Shelley are home on their first tour.

The school boys hockey team met the Dahm team again Wednesday afternoon. Although the local team was badly beaten we were

remember that these boys are a lot younger than some of their Baptist and possibly Standard opponents. A great deal of credit is due the coaches Ralph Jensen and Bruce Houser.

A World Day of Prayer will be held in the Rosebud United Church Feb. 13 at 2 p.m. with

prayers from Rockyford, Rosebud, but younger than some of their Baptist and possibly Standard opponents. A great deal of credit is due the coaches Ralph Jensen and Bruce Houser.

Too many people who save for a rainy day work on the assumption that it will be a light shower.

Rosebud News

BY MRS M. L.

Harold Rasmussen took over the Lucko Stride male Feb. 6 as he had been scheduled to do before the fatal accident which claimed the life of the late A. McMillan. Mrs. Buland Christensen, fondly referred to as Grandma by most of us left Calgary by plane Saturday noon for Portland. The Lorne Feckley family were there to meet her.

Rev. Ron Allen, Alberta Director of Youth for Christ took the Baptist service on Sunday. A large crowd attended the Wheat Pool meeting Monday evening in spite of the bitter cold. Mr. Emil Cammaret of Rockyford gave a full report of the year's activities. The agricultural films were excellent and maintained the fine reputation for which the Pool meetings are famous. Mr. Cammaret and Howard Hyman spoke briefly on the petition for the farm in March on Ottawa which is not against any political party but against the indifference of the East holds for the West. Congratulations to Mrs. Julia Elliott on her 75th birthday, February 14th.

The annual curling bonspiel is in full swing. Mrs. Ella Edwards is doing a splendid job of looking after the refreshments. Terry Burke is able to be out to watch the bonspiel although he is confined to a wheel chair. Bob Heberling was taken to a

Calgary hospital last Thursday by Art Taubert, suffering from Lumbago. Miss Corlene Wilson was very sick with pneumonia recently. The annual Red Cross meeting was held in the curling rink on Thursday evening. The 1950 campaign had netted \$352.50. Volunteer canvassers were listed as: Verbonen, J. Haberger, W. Watt, Mrs. Biggs, A. McMillan, and L. Hagar. The present officers will remain for another term: president, Mrs. M. Camstock; secretary, Mrs. W. Wilson; treasurer, Mrs. Lester. Work material for flannels,lette, diapers, pillow cases, etc., is being ordered and may be picked up at Mrs. Watson's.

Mrs. Marge Camstock who has been visiting the families of her sons George and Bob has returned to Drumheller. She reports her leg is much improved. Bill Korney spent the week with his folks. A meeting of the Rosebud 4-H Club was held on January 27 at the home of Alice Mather. A raffle was conducted for raising money. Several other suggestions were discussed also. The girls brought their cosmetic cases to be examined. The next meeting will be at the home of Barbara Watson. A very enjoyable time was had by all.

Hussar And District

BY MRS C. R.

An interesting and well attended meeting of the Hussar HSA was held in the school on Wednesday evening. A panel discussion was held on the problems relating to conveying of children to school by bus. Four bus drivers and four parents with chairman Peter Hill were on the panel, and an officer of the Highway Traffic Board, Mr. R. Jones acted in an advisory capacity. Problems discussed related to discipline on the bus, responsibilities of drivers, parents and principal, and emergency such as ill-weather conditions. It was suggested that monitors be appointed on each bus and Mr. Jones stated that this method of control is being used in sections of Sask. It would be necessary to have the approval of the Divisional Board before it is adopted.
 A vote of thanks was given for the work of the panel 1 and Mr. Jones' help.
 Nine candles were lit on a birthday cake to celebrate Founder's Day, and for each year the HSA has functioned in Hussar. Mrs. C. Redfearn lit three candles for the term she was president, and one for Rev. Tange, who is now in the States. Mr. A. Remberg lit two candles, and Mrs. Remberg two, for their terms of office and Mrs. R. Hosen, now president, the remaining candle.
 Mrs. M. Stenken presented Mrs. Remberg, with a past president's pin, thanking her for her two years of leadership.
 It is expected that Mr. Holman will be present at the next meeting to discuss the school curriculum.

Grant, became the bride of Mr. Jack Osadchuk, son of Mr. and Mrs. J. Osadchuk of Prentiss, Sask. Rev. Morrison officiated and Miss A. Kilcup was pianist. The bride wore a gown of maroon by her father, a white gown of chantilly lace over satin, and carried a corsage of deep pink roses on a white ribbon. The bridesmaid, Miss Margaret Grant, sister of the bride, wore a pink dress of satin with a white sash and carried a nosegay of pink carnations.

The groom was attended by his brother Bob Osadchuk of Prentiss. The guests were welcomed by the bride's brother Ken Grant. A buffet lunch was served at the home of the bride's parents with several guests attending from outside points. Rev. Morrison proposed the toast to the bride, and the groom responded in a few well chosen words. A wire of congratulations from the bride's cousin, Mrs. Stanley McLevin of Necheska, (nee Jean MacLean) was read. The happy couple will reside in Strathmore.

Anglican W. A.

Miss Grace Sally of Calgary was guest speaker at the regular meeting of St. Michaels W.A. held Feb. 4 in the parish hall. Miss Sally is employed by the Calgary Diocese in the field of youth work

and during the summer months she travels by van giving religious instructions in some of the more sparsely populated areas. Miss Sally's talk to the group was in regard to the possible formation of organizations for girls within the parish. These are known as the Junior Auxiliary for girls

aged 7 to 13 and the girls auxiliary for those in the 13 to 18 age group. She spoke of the need for good leaders and told a little about the different projects these groups might undertake. She also mentioned the rewards each girl would receive in the form of stripes or badges on the completion of each project. Later in the evening, Miss Sally showed some interesting slides of her work and travels.

It was decided to purchase the study book *He Cares* and this will be used at future meetings. A bazaar sale was planned for Feb. 21 at 2:30 p.m. The WA will order a dozen ornamental cake plates to be made up and returned by the end of March. So it is hoped as many as possible will turn out.

A work meeting will be held in the hall Feb. 13 at 2:30. Mrs. H. Martin, Dorcas secretary has received a parcel of material and wool to be made up and returned by the end of March. So it is hoped as many as possible will turn out.

Mrs. Lydia Slater asked anyone having used Christmas cards to bring them to the next meeting or turn them over to her for use in handcraft projects.

Mrs. R. Paulson gave a brief report on the January Deceany meeting and several others attended in Calgary.

Mrs. D. Osburne of Ardenburg was on hand for the meeting and gave a talk on services available through the Red Cross. She is some chairman for district 40 which includes the Strathmore area. She said that should the need for aid arise because of fire or other disaster, or equipment needed, such as wheel chairs, beds etc. for the care of invalid patients, if contacted by those in this area, she would do her best to obtain the necessary items from Calgary Red Cross headquarters. The next meeting will be held March 4. The roll call will be an article for sale of work, at the St. Patrick's Tea.

Swift's new Sky-Hi 316 was developed especially for the poultry raiser who depends upon his laying flock for income. It combines high production with good feed conversion for real "assembly-line" efficiency. And, unlike many high producers, Swift's new Sky-Hi 316 maintains an extremely high rate of lay without sacrificing egg size. Here is a completely new strain—crossed Leghorns that excels in all characteristics of economic importance. In extensive tests of this and other strain-crosses, the Sky-Hi 316 proved superior. It had the highest egg production, earliest maturity, and greatest livability of all layers tested. During an 11-month period, the Sky-Hi 316 achieved a production of 281 eggs... an average rate of lay of 86%! And the egg weight kept consistently high.

Resolution To Close Wheatland To Hunters Passed At Meeting

The Strathmore Memorial Hall was nearly filled with municipal residents at the annual meeting of the MID Wheatland Feb. 15. Generally they all seemed satisfied with the way the council ran their government during the past year. The only flare up came when a heated discussion took place regarding the hunters and their wild damage during the fall season.

At 2 p.m. returning officer Phil Rogers called for nominations for councilors in districts 2 and 7 as well as two members of the District Health Board.

Jim Harwood and Chris Miller were both re-elected by acclamation by the council and H. J. Clark, Jr. and A. S. Anderson were in the same manner for hospital board members.

Walter Hymas of Rosedale was chairman of this meeting.

A motion was passed that annual meetings should be held alternately at Standard, Rockford and Strathmore.

A letter was read by secretary-treasurer Frank Doring from the Deputy Minister of Municipal Affairs with regard to the Financial Statement. He said that although \$36,000 was spent beyond the budget figure in the public works department, the surplus balance of \$47,000 for the year's operation was very commendable and the balance of \$40,983 was encouraging.

In Revere Chamberlain's report, he stressed the need for a chronic hospital in the area, and said that they are negotiating with authorities to provide same in Bassano and Drumheller. They had been assured by the Minister of Health that additional space will be available in a new wing in the Drumheller hospital.

The tax collections and arrears were excellent compared to previous years he said. Comparing them with last year there was 72 thousand dollars more collected and the arrears account decreased by \$46,000.

During 1958, work was done on 373 miles of roads which included new graded and repaved. He explained that the council is thinking of the day when they will have to change to other types of road building equipment such as rollers, and to do this they are discussing the possibility of establishing a capital reserve account of 25 to 30 thousand dollars against the day when they will be wise to make the change.

According to correspondence received from Hm. Gordon Taylor they will extend Highway 21 south to the Trans-Canada crossing the

border. The letter was charming in a deer length gown of white satin with fitted bodice and bouffant skirt, overlaid in Valencia lace and empire neckline. She carried an arm style bouquet of red roses with white streamers of rosebuds made, Peggy Gray who wore a gold ballroom length gown and

Another ratpinner said that he saw 30 deer dead in the middle this year abandoned by hunters. The resolution did receive opposition. Some felt that they would affect too many sporting hunters by passing this resolution. They maintained that their own game from the city should be able to hunt on their land.

The opposition agreed to this but felt that the resolution would bring action before the municipal council was heard by the citizens. When it was put to a vote, the resolution was passed by about 146 to 16 majority.

Two members were made presentations at the Lions Club meeting held last week for bringing in a new member during October. An international drive for members was on. They were Keith Bergh and Jack Newton.

The past week was discussed and suggestions for improvement were made. The coming Charter night was also discussed to great length, a discussion that will conclude at the next meeting.

A credit of \$288.00 was realized at the Banquet of Feb. 25th.

Strathmore Midgets Win Playoff Round

The Strathmore Midgets moved a step closer to the Southern Alberta championship by eliminating Fort Bragg in a two game total point playoff.

Playing at home, the kids played the first game as if their lives depended on the outcome and swamped the visitors 8-0.

The Jack Croftin coached squad looked good in the out-staked outshot and out-manoeuvred their opponents. The locals went ahead 2-0 after 20 minutes on goals by Earl Gray and 3 by Young. Earl Gray also collected two assists and James One.

The second period was a fast skating session but produced only one goal by Bob Zyrsky.

The third period looked red light. Three times the red light flashed. Young, Jarvis and Zyrsky collected assists. All the boys played well and the goalie from Ft. Bragg played a stout game and blocked no less than a dozen shots that were labelled for the net.

The return game at Lehighville ended in a 3-3 tie. About 400 fans were in attendance to witness the game. Goal getters were Zyrsky, Young and James.

The next round in this series starts in Taber Saturday with the next game in Strathmore Sunday afternoon. It is hoped all hockey fans will turn out.

Strathmore United Church was the scene of a lovely wedding on Saturday, Feb. 7 at 4 p.m. The church was attractively decorated in red and carnations, yellow tulips and daffodils. The double ring ceremony ended in marriage. Patricia E. Keay, only daughter of Mr. K. M. Keay and the late Ian J. Keay of Strathmore to Patrick A. Fletcher, eldest son of Mr. and Mrs. A. Fletcher of Regina.

The bride was charming in a floor length gown of white satin with fitted bodice and bouffant skirt, overlaid in Valencia lace and empire neckline. She carried an arm style bouquet of red roses with white streamers of rosebuds made, Peggy Gray who wore a gold ballroom length gown and

carried brown spray mums, and Donna Johnston in a pink ballerina length gown and carried white spray mums.

The two flower girls, sisters of the groom wore dresses of pastel green and carried colonial quarts of white hydrangea and sweetheart roses.

Vince McCullough of Calgary attended the groom as best man and Gordon Crillon and Robert Zyrsky were the ushers.

The reception was held at the home of the bride's mother for some 80 guests.

Mr. Ian MacKenzie acted as MC and the toast to the bride was proposed by Elmer Gray and responded to by the groom.

The couple will reside in Strathmore.

Red Cross Head Says

It's Time To Give

By F. D. Osborne, Zone Chairman

"Give you stopped to consider what you can do for the Red Cross? Perhaps you don't think it does very much. You just go around to the blood donor clinic once in a while and give a pint of blood or a regular donation to the Society's annual appeal for funds. Four donations to the Red Cross helps the refugee camps and when tragedy strikes the Red Cross volunteer is there with clothing, bedding and food.

Join the Red Cross, that gives comfort and hope to the heartless hopeless victims of disaster. It's your chance to help save a soul from drowning in the sea of suffering. It's your chance to do something that will help to win.

Red Cross is a people helping people. So when you hear a Red Cross canvasser calls on you, please give generously.

Highlights Of Strathmore Town Council Meeting

The regular meeting of the Strathmore Town Council was held Tuesday night with all members present.

The subject of obtaining a policeman was pointed out. The mayor had reported a number of thefts during the month, and it was also reported to council that some youths had been drinking beer in a town restaurant, throwing paper plates out of their car window on a windy night and the same group forced a car to the side of the highway, stopped it, and proceeded to beat up the driver of the car who was some 60 years of age. They desired the restaurant owner when asked to behave.

Mayor Gray and Councillor Barnard were instructed to take immediate steps to obtain a law enforcement officer.

The secretary A. Bendall reported that he has set up the water and sewer accounts separate from the general revenue account.

Mayor Gray reported that he contacted Hadden, Davis & Brown engineers who surveyed for water supply from McCallister lake a number of years ago. This firm said that they would go back in old files and let council know what it brought up.

They decided to contact provincial authorities, requesting that they construct waste water lines at the south end of the park.

A steamer to clean out frozen culverts has been made. Work in direction will begin this week.

Scott's Auto Service Ltd. requested permission to build a trailer court on their property. This was granted providing proper facilities are installed, plans of which are to be given approval by council. Sewer disposal must be up to government standards.

Engineers will be called to survey W. W. of town for a possible subdivision. They will investigate the possibility of sewer service. Council feels that it is possible and that enough space could be made available for 60 to 80 houses.

A proposal to join up with the Calgary District Town Planning Commission was tabled. Mr. A. R. Smith of that department met with council at a special meeting February 19th.

This organization would assist the town with the future in mind.

RED CROSS

ANNUAL MEETING

At most enjoyable talk by Mrs. N. Mumford of Calgary highlighted the annual meeting of the Red Cross Society, Strathmore branch, Feb. 24. The Red Cross is celebrating its 50th anniversary this year and is the nation's largest voluntary organization with two million volunteer workers in Canada. Mrs. Mumford explained in detail the mission of mercy carried out by the Red Cross and urged the organization to aim for a successful campaign this year.

The election of officers was as follows: President, T. Kilders; vice-president, Mrs. R. Stanger; secretary-treasurer Mrs. L. Macdonald; membership manager Mrs. K. Collins; blood donor clinic Mrs. M. Morton; press Mrs. J. Skrzypczak; public safety chairman Mr. Christensen.

March is Red Cross month. Please help us to complete our campaign this month.

as far as expanding is concerned with everything from drafting proper bylaws to advise in all phases of operation, including sewer, water, etc.

According to Mr. Smith through-out North America it has been experienced that when a city reaches approximately the quarter million mark, people spread out to towns close to that city. Calgary is now reaching that point, and as a result High River, Okotoks, Cochrane and municipalities bordering Calgary have signed up with the commission.

Council felt that they had no need for them at the present time because they knew where the new subdivision would be going if at all possible, and that engineers could give them sufficient guidance for the present. The matter was tabled. The provincial government pays one-half of the yearly budget of the commission and towns and municipalities pay the balance. Strathmore's portion of this would have amounted to about \$600 per year.

Calgary Power presented a plan to install 16 mercury vapor lights in the town. Streets proposed were Main St. from the King Edward Hotel to the Memorial Hall, from the Royal Bank to the skating rink and two at highway entrances. The lights would cost an additional \$50 per month to operate. Council is making a study of this.

Council decided to ask provincial officials for a resident game warden for Strathmore.

HEC MacLEAN, FORMER PUBLISHER OF STANDARD ACCEPTS NEW POSITION

HEC MacLean, former publisher of the Strathmore Standard is now managing the Dawson Creek Star for Dawson Publishing Ltd. of Grande Prairie.

Mr. MacLean who sold the Standard to the present owner in Feb. 1957 has been on the editorial staff of the Calgary Herald until this time. He started his new position in Dawson Creek Monday morning.

His wife Norma and two children will remain in Calgary for the time being.

The Star is a bi-weekly paper and Hec will have the responsibility of the overall operation.

Fire Breaks Out At Martin Residence

Strathmore was awakened early last Friday morning by the sound of the fire alarm at 6:45.

Fire broke out in the bedroom of Mrs. Edith Martin's home on first street.

Mrs. Martin was in the kitchen having her morning coffee at the time. The smoke and flame broke out very quickly. The house was filled with smoke in a matter of minutes.

The Strathmore fire department brought the blaze under control but before the interior of the house was badly burned. The house and the rear and front furniture were saved by intense heat. The words and contents were insured.

Bill Rohl Breaks World And Canadian Sales Records

Bill Rohl, Watkins Dealer of Strathmore did it again, only better. Last year he was second high in Canada in sales, but this year he went all the way and recorded the biggest year for any one dealer in Canada, in the history of his company.

He also established four world records. During the month of October, Bill came up with the highest weekly sales, monthly sales and cash sales. For the year he showed the greatest percentage sales increase over the previous year.

If you ask Bill how he did it, he will tell you that it wasn't him; it was his customers who can take the credit. He thinks they are a pretty swell lot.

Two Queens Reign In Strathmore Carnival

The annual carnival held in Strathmore Feb. 27 proved to be the biggest ever held.

Another first was two queens reigning over the event. Norma Kernaghan and Donna Kernaghan sold a total of 11,000 points in 1,100 tickets. They were sponsored by the Strathmore Students Union. Following close behind were Norma and Donna of Calgary. The Strathmore Students Union and Diana Blaney of the Students Union in Glenora.

The Strathmore Skating Club who have been instructed by Mr. Jimmy J. Gray of Calgary. It was obvious that the children had training during the year because they performed with more confidence and grace in every event from the beginners class to the older grades.

Mayor E. L. Gray gave the speech of welcome and carried on as MC during the evening.

Last year's queen Dawn Giffen was on hand to crown the two queens and at the same time wished them well. The two queens responded appropriately.

There were 18 numbers on the program which included solos, duets, trios, quartets, larger groups. A clown act by five boys and heretofore were very interesting. The Strathmore cadets participated during the queen coronation ceremony.

The arena was packed, and all enjoyed the evening. A great deal of credit is due the skating club, its leaders and to the instructor Jim Heald for a first class effort.

SCHOOL NOTES

In the reporting action this week Jim Mastland's team was the winner of the volleyball tournament held at noon hours. On March 7 the basketball tournament will be on with the first game starting at 8 a.m.

LET'S GET NEWSY

A long way yet to go. The article is in, but the money isn't. Would you like to buy a share or two of the good old bond?

The total has reached \$7835.00 to date. One more name to add this week, that is John Keeling, Lawrence Sadler and Courtney (Continued on Page Two)

Maybe he is waiting... tonight coming up at Strathmore, at the end of the month. In answer it does show that an old charter member of the Strathmore Flyers.

Flyers Win Second Round In Series

Strathmore Flyers moved another notch towards the Provincial Intermediate C championship Monday night when they defeated Capital Hill 5 to 2 in Calgary to take the series 10 to 4.

Crellin and Roy Groves each scored two goals and Szaskaly got the other.

Bob Lausen assisted on two while Weyers, Roy Groves, Weiss and Szaskaly got one each.

The next opponent will be the Lord Strathcona Horne at the Corral tomorrow night.

Red Cross Blitz Of Strathmore

Tomorrow Night

The month of March is Red Cross month. In addition to the organization's activities during the annual drive, they will celebrate their golden anniversary in February and the 100th anniversary of the birth of the idea in the world.

To give you the answer as to why you should give, here are a few missions of mercy the Red Cross did last year.

They have provided free translations to more than 16,300 patients at a cost to the Red Cross of \$7.00 for each bottle collected; 26,000 persons participated in the Water Safety Service last year.

Women workers made 446,520 items of clothing, bedding and medical supplies for the sick and needy at home and abroad. About 514,000 was spent to maintain its service to the war veterans of this province. 650 articles including wheel chairs, back rests, crutches, etc. were loaned to patients. The 1960 United Red Cross members contributed \$2500 for overseas relief and \$12,000 for crippled children in the province. This is only part of the fine work carried on. Funds for this work must come from you.

They are throwing the first official rock on artificial ice in Strathmore during the opening ceremonies. Bob Anderson of Calgary, another charter member held the broom.

Midgets Gain Ground In Playoff Series

The Strathmore Midgets (16 years and under) won another game in their march towards the Provincial crown by knocking down the Taber boys at Taber on Saturday 12 to 8. They carry this 7 goal lead into the 2nd game at Taber. Results on another page.

Strathmore may not get any more home games unless the weather turns cold. The town with artificial ice have their rinks occupied all day and night especially at playoff time and Strathmore may have to follow suit to keep hockey alive.

Gray and Young struck through the opposition almost at will and each scored five goals and each helped on two others. Jorgensen and James were the other marksmen. Bobby Zhygalski scored four goals and helped on two. The Strathmore Midgets won 12 to 8 at Taber on Saturday 12 to 8.

The winner of this match goes against a Calgary team to be held at the week.

Wheel chairs, back rests, crutches, etc. were loaned to patients. The 1960 United Red Cross members contributed \$2500 for overseas relief and \$12,000 for crippled children in the province. This is only part of the fine work carried on. Funds for this work must come from you.

Campaign chairman Rev. Ken Collison announced Tuesday that they will carry on a blitz of Strathmore on Friday night, that is March 6th. He and his committee will call on every home in town that night, and the leaders will be entertained at their stuns and offices.

Help the Red Cross help you to giving generously.

WEDDING
 SANDERSEN - HARRIS
 A wedding of interest to Glenelg and Standard districts took place January 31 in the Gleichen United Church when Miss Helen Elvidge daughter of Mr. and Mrs. F. H. Elvidge of Gleichen became the bride of Vernon Sanderson, young son of Mr. and Mrs. Alfred Sanderson of Standard. Pastor E. Olsen of Lussac performed the marriage ceremony.
 Given in marriage by her father, the bride wore a floor length gown of white nylon lace and ivory satin, embroidered with veils and sequins. She wore her mother's embroidered silk veil which was held in place by a white tulle coronet embroidered with matching sequins and seed pearls. She carried a bouquet in cascade style of deep pink carnations, with white satin streamers.
 Preceding the bride were Miss Imogene Thompson of Calgary, maid of honor, wearing a pink nylon chiffon dress and Miss Elaine Ferguson of Gleichen, best woman, in a lavender dress. Bridesmaids were Misses Elaine Ferguson of Gleichen, in white, and Misses Elaine Ferguson of Gleichen, in white. Both carried bouquets in cascade style of white, carnations, and white feathered.  Ushering the guests to their places were Mr. Roger Halko, brother of the bride and Mr. Dale Nielsen of Standard. The wedding music was played by Miss Lella Nicholas in the church.
 Mr. Vernon Hoff was MC. The toast to the bride was proposed by Mr. Edward Ferguson and groom responded in a few well chosen words. Mr. Stanley Rasmussen sang "Because, And Mrs. K. Elder with Stanley Rasmussen sang "Bless This Union".

IT'S IN A CLASS BY ITSELF!

The remarkable Sex-Sal-Link—bred at the well-known J. J. Warren Poultry Breeding Farm, and hatched and sold by Swift—is a strain of hen that produces favourably with any white egg-laying hen today.

Also, the Sex-Sal-Link has established an enviable record in official egg-laying tests, by consistently ranking among top birds entered. In one test, Sex-Sal-Link production hit 250 eggs per bird—54 more eggs than the average of all birds entered. (Ladies and feed efficiency have proven consistently excellent. Tests entered include the Illinois, New York, Florida, and Rhode Island Egg Laying Tests.)

In a side-by-side field test of random-sample birds, conducted at Swift's Rosebud Farm, the Sex-Sal-Link outperformed one of the largest selling hybrid layers by five eggs per hen for the first nine months of laying. At the same time, livability of the Sex-Sal-Link was 94 per cent through these months of high production! Now is the time to order money-making Sex-Sal-Link layer chicks for your flock. Dalum Notes

BY MRS. H. P. R.

The Ladies of the Guild met in the church basement Thursday afternoon with Gladys Jensen and Rita Pallen as hostesses. The meeting was devoted to listening to a very interesting talk by Mrs. A. Walker of Drumheller on the work of the ladies hospital unit.

The Ladies meeting last week was held at the home of Pastor and Mrs. G. Miller with a good attendance.

Due to the rainy weather of the week the ice on the rink became unfit for hockey games so the local men played two games in the Drumheller arena. The first was on Tuesday evening when they took on a team from the Zion Baptist Church. The second was on Thursday evening against the men from Level. Both games resulted in a loss for our team but a good time was reported by all. Another game will be played Thursday evening with the Baptist boys.

Mrs. Sorensen of Calgary has been a guest of Mr. and Mrs. Albert Jorgensen during the past week. Miss Christine Morken was a recent patient in the Drumheller hospital when she had her tonsils removed.

Mr. Walter Sparks was absent from school on Monday due to an attack of flu. Classes in his room were conducted by Margaret Rasmussen.

Mr. and Mrs. A. Andersen and family spent the past weekend in Calgary with Mr. and Mrs. A. Lauritzen.

Darvil Norman Pallen, infant son of Mr. and Mrs. Gladys Pallen was baptized in the Lutheran Church Sunday with Mr. and Mrs. Arthur Christensen named as sponsors.

David William Pentelchuck, infant son of Mr. and Mrs. Nick Pentelchuck was baptized in Grace Lutheran Church, Drumheller on Sunday, Feb. 22.

Mr. and Mrs. Axel Ostergaard, Don and Vicki spent the past weekend in Banff, where they tried their luck skiing.

Chancellor Notes

BY MRS. G. V. J.

The next SRA meeting will be March 20. It should be of great interest to all who have high school students in your family. It will be called Career Night and there will be many interesting speakers. Please try and attend. Mr. and Mrs. Carl Matheson recently brought home 1100 new baby chicks. Congratulations this week go to Mrs. Norma Andersen, Mrs. Mary Spence, Margie Sproule and Mr. Phil Rogers on their birthday celebrations.

Congratulations to Mr. and Mrs. Ray Jorgensen on their new car. Mrs. Kay Nielsen was home for the weekend from Calgary. Many of the children in the district are ill with scarlet fever. Mr. and Mrs. Bud Andersen of Calgary were guests at Mr. and Mrs. Will Andersen's home Thursday.

Sunday guests at the home of Mr. and Mrs. Jack Sproule were Mr. and Mrs. Carl Matheson, Mr. and Mrs. Chas. Christensen and Mr. and

Mrs. C. Pedersen. talked cousins from Calgary and Mr. and Mrs. Robert Sproule entered. Mr. and Mrs. L. Kristensen on Sunday.

NEW SWIFT'S SKY-HI 318

Average rate of lay... **86%!**

Swift's new Sky-Hi 318 was developed especially for the poultry raiser who depends upon his laying flock for income. It combines high production with good feed conversion for real "assembly-line" efficiency. And, unlike many high producers, Swift's new Sky-Hi 318 maintains an extremely high rate of lay without sacrificing egg size.

Here is a completely new in-rain-crow Lophorn that excels in its maintenance of economic importance. In extensive tests of this and other strain-crowns, the Sky-Hi 318 proved superior. It had the highest egg production, earliest maturity, and greatest livability of all layers tested. During an 11-month period, the Sky-Hi 318 achieved a production of 381 eggs... an average rate of lay of 86%! And the egg weight lagged consistently high.

Order this lay money-maker for your flock... the Sky-Hi 318 is ideal for either floor or cage. Sky-Hi is a trademark of Swift Canadian Co., Limited. For the Sky-Hi 318 and other fine Swift chicks, contact:

Hussar And District

BY MISS C.R.

The CWL met at the home of Mrs. Albert Gibson in Chancellorsville with 10 members and one visitor present. It was decided to hold a bazaar on May 9 in the Hussar hall at 2:30 in the afternoon. The next meeting will be April 14 at Mrs. Gordon Moulton's home.

On March 10 in the Hussar school a meeting was held to organize a Junior Farm Union Association. Lee Erickson was elected chairman of the meeting and Barbara Johnson, secretary.

Earl Johnson, Mrs. W. W. W. Mrs. C. Reiffenstein and Mrs. Detmer attended as representatives of the FUA. Mrs. Johnson spoke on the organization of the group and Mrs. Reiffenstein on its aims and objectives.

In the election that followed, L. Erickson was elected president; Mrs. Barbara Johnson, 1st vice; Howard Kather, 2nd vice; G. Summum. It was decided to hold the meetings at 7:30 sharp on the 1st of each month at the school if it can be arranged. The next meeting will be April 1st with a director of the Provincial Junior FUA will attend and speak to the group.

About 30 young people attended this meeting. Mrs. Rafter, president of the Hussar Local FUA, was chosen toastmaster as adult supervisor and the sum of \$10 was given to the juniors for this local to assist in getting started and it was voted to set a party fee of 50c per member for additional funds. The group is to be divided into two parts; committees to be chosen from each group to serve six months each.

Miss Andrea Elund visited her parents in Hussar last weekend.

Mrs. and Mrs. L. Rasmussen and family, Miss Dorothy Reiffenstein spent the weekend at C. Reiffenstein's.

Mrs. Marie Larsen has been ill with pleurisy.

Mrs. Buck-Schmidt has received a letter from the Pringles, reporting a good trip to Florida. They were meeting Perry, Bester for an outing.

The road and flames from the gas well near Van Schuyling are very impressive. Work is expected to start soon on the pipe line.

As the regular meeting day of the FUA is during the holidays, and the following week there will be a teachers' meeting.

Decided to cancel the April meeting. Watch for notice of the film to be shown by the ISEA to raise funds for the convention delegate.

Friends and neighbors of Mr. and Mrs. Chris Holm gathered at their home on Saturday evening to bid them farewell and present them with a gift as they are retiring from farming and will make their home in Standard, where they have built a new home. Svend Jensen made the presentation of an automatic coffee maker and Mr. and Mrs. Holm thanked their friends and invited all to visit them in Standard.

HOW FERTILIZER BOOSTS YOUR PROFIT ON BARLEY

YOU CAN MAKE UP TO \$8.00 PER ACRE MORE!
 Actual field tests show how your profit per acre of summer/fallow barley is boosted by the use of Elephant Brand Fertilizer.
 In the table below, note that the increased profit figure takes the cost of fertilizer into consideration. An increased profit of over \$9.00 per acre is certainly worthwhile.

Fertilizer per acre — 50 lb. 11-40-0 (Cost \$2.50)	
Increased yield per acre — 16 bu. (worth \$12.80)	
Your INCREASED Profit per acre — \$9.90	
or \$240.00 on 100 acres	

When properly fertilized, barley grown on stubble land will show an equally profitable return per acre... For greater net profits per acre from any crop on any soil, contact your Elephant Brand dealer listed below for the right information.

Council Accepts Offer To Service Town With Natural Gas

A special meeting of the Strathmore Council was held last night. Mayor Gray reported that he had engaged Roy Boche to fill the position as town policeman. Mr. Boche is in attendance as was Council Drug Stimmons of the Strathmore RCMP who gave the council some direction regarding administration and legal matters. The By-law regarding natural gas for Strathmore was given its first reading. It will now go to the Board of Utilities Commission for approval from the Board of Utilities Commission. A petition to be held the results of which must be two thirds majority in favor before the third and final reading can be made. Council pointed out that those voting in favor of natural gas do not obligate themselves to take the issue in any way, contrary to some talk in town. The fact of the matter is said the Mayor, anyone who votes against it may stop those who want it from having it. It is a two thirds majority of those voting on that day is what is necessary, not two thirds of all the proprietary electors of the town. He also pointed out that it will not be mandatory for anyone to take the service even if the line goes by his or her property. A question will be asked on the petition as to whether the voters want the council to be paid for meetings. According to law, they may be paid \$10 per meeting but that amount for no more than 24 meetings a year. The Mayor may

Spring Brings Tragedy

Spring is officially here. It is a time when we all look forward to. As on eight years of age have been killed by tractors which they have been operating. Twenty-five per cent of all the farm fatal accidents are to children under 10 years of age.

This year it is up to everyone to take more care. Take the attitude that "it could happen to me" and act accordingly.

The part that hurts is that these accidents could have been avoided if a little more time and care were taken. Don't make it necessary to have to pick up your mangled child's body over the back of a tractor when you can avoid it by taking the time to exercise safety at all times and allow all your family with you on the highways until you are 18 years of age, and only when they have passed rigid driving tests. Take the anxiety of farm work.

Mr. Bob Chyrtko has been in the area for several days. The WI held an executive meeting at the home of Mrs. Les Anderson.

The used feeding directly from the stacks, but found this took a fair amount of time carrying bales to a pole feed fence, opening a number of stacks, and an accumulation of manure. He now feeds about 50 bales on the platform, and feeds the tractor slowly down the field kicking off a bale every row or so. This method takes about half as long to feed his herd herd.

Tips on Tipping

There are many ways of tipping an experienced traveler. He has had a long experience. He never gets up before breakfast when appearing over his belongings and he never carries "carriage cash," if he is to be a traveler. Another thing he never does is to tip.

How much should a traveler tip? And when? While the principles are the same from Times Square to Timbuctoo, the amounts may differ - and who gets tipped varies widely. For example, in France you'll be expected to tip the theatre usher or the subway station washroom attendant - people you'll seldom think of tipping in the U.S. In certain big-city restaurants you are expected to tip not only the waiter but the head waiter, who travels abroad to discover that a satisfactory number of persons are accustomed to being tipped. But here are some general guide rules.

As a rule in a plane your tip problems are on and on a train they are few. In the case of the latter, porters, stewards, and conductors are tipped for each service rendered. Shipboard travelers, however, should count on about 10 per cent of the cost of the fare to be apportioned among the Cabin, Dining, Steward, and Stewardess. Supplement bar bills by 10 to 15 per cent, to take care of the entire bar bill including waiter, bartender and wine steward.

The familiar "percentage" rule of tipping between 10 and 15 per cent of the bill - but not the bill - is given at all, except in city taxis. On the other side in such places as Latin America and most of Asia, where neither 10 per cent is acceptable.

"The experienced traveler always carries plenty of small change."

and, when abroad, does his tipping in the local currency. This does not mean you have to carry a lot of cash - and be concerned about losing it. You can take all except a small amount of your funds in American Express travelers' checks. These may be changed into local currency as needed.

Most European and Latin American hotels add a "service charge" to their bills for distribution to the entire staff. Many travelers leave a little extra, anyway, especially if they may be back.

Senior Students.

Dear Parents:—
If you have children in senior
high school, the time has come,
no doubt, when you are seriously
thinking of their future.

We would like to take this op-
portunity to tell you about a pro-
fession you and your youngsters
should consider.

Everyone is aware that there
is a serious shortage of teachers
in our province and in all Canada,
with the net effect that in later
years teaching has become an ex-
tremely attractive profession to
both male and female candidates.

In short, teaching is not what it
used to be and we should not let
standards and salaries of past
years influence our judgment in
this matter.

Teaching New Offers—

1. Good basic salaries.
2. Bursaries and loans for training.
3. Assured employment.
4. Security of tenure.
5. A sound pension plan and many fringe benefits.
6. Opportunities for advancement.
7. An attractive short Work Year.
8. Inspiration found in few other vocations.

In discussing these points we
find that there are few vocations
which assure guaranteed annual
salary increases, and offer com-
parable starting salaries to in-
experienced persons.

Typical Salaries For 1962:—
1 year of teacher education,
Minimum \$7700, Maximum \$4000.
4 years of teacher education,
Minimum \$8000, Maximum \$5300.
6 years of teacher education,
Minimum \$4800, Maximum \$7300.

Teacher training bursaries,
scholarships and loans are avail-
able and increasing each year.

Every serious student contem-
plating teacher training can obtain
financial assistance in one form or
another. Information may be ob-
tained through local school officials
or principals.

The shortage of teachers assures
employment of every individual
who wants to enter the profession
and can meet minimum qualifica-
tions. There is no slackening time

in industry.

In our school system the teacher
enjoys security of tenure offered
by no other profession or voca-
tion. His contract assures him of
continuous employment and he
cannot be discharged except for
gross inefficiency or gross miscon-
duct.

All teachers are on a pension
plan and many participate in med-
ical and hospital insurance
schemes.

Opportunities for advancement
are unique and will continue as
a teacher with minimum qualifica-
tions can, by additional study, im-
prove them, resulting in a high
salary. There are, of course, an-
nual salary increases.

Opportunities go far beyond an-
nual increments or negotiated in-
creases. The rapid and steady ex-
pansion of Alberta's school system
means more schools, more open-
ings for department heads, vice-
principals, principals and so on.

The last several years of approx-
imately 150 days with long sum-
mer, Easter and Christmas holi-
days presents an exceptional

chance for teachers to take addi-
tional training with a view to per-
sonal advancement or to travel or
engage in other activities for per-
sonal satisfaction and advance-
ment.

Teacher education provides Job
Insurance, for when if for any
reason it becomes necessary for a
married woman to seek employ-
ment.

All of this is reasonable and
practicable, but it is the most
important aspects of teaching, its
continuing inspiration to everyone
in it, and its opportunity to help
in shaping the future of Alberta
and Canada.

May we suggest that you and
your son and daughter discuss teach-
ing from two approaches.

1. As a career opportunity in this
great country of ours.

2. As a contribution to the
growth of our country.

Yours sincerely,
Alberta School Trustees'
Association
TEACHER RECRUITMENT
COMMITTEE.

Berry-Vale W. I.

An interesting account of the first day of the Lethbridge conference of Oct. 4 of the W.I. was the feature of the March 26th meeting of Berry-Vale W.I. held at the home of Mrs. E. A. Player when 13 members gave reports of outstanding Canadian.

Mrs. Miller reported a splendid and instructive program had been enjoyed at Lethbridge which she had attended at Lethbridge.

One of our members Mrs. Alice Laroit is going to Scotland early in May and will be near Edinburgh at the time of the ACWV conference and credentials will be given so that she may attend.

Mrs. Miller and Mrs. Caldwell will meet early in April to prepare a questionnaire regarding expenditures, etc. for use of the district convenor at the biennial conference.

Cards will be sent to several sick people in the district.

A 25c parcel post will be brought to the next meeting to be sent to the Reverend Children's list on April 18th.

Mrs. Hermann J. was presented with a concert as a new member. Meeting adjourned and delicious refreshments were served, followed by a social time.

HOW FERTILIZER BOOSTS YOUR PROFITS FROM CATTLE!

YOU CAN MAKE UP TO \$320.00 PER ACRE MORE

Test work on the Prabaker has shown that increased forage yields from pasture and hayland can easily be obtained with the use of commercial fertilizer. In the table below, note that the increased return figure takes the cost of fertilizer into consideration. An increase of return of \$250.00 per acre is certainly worthwhile.

Fertilizer per acre...	1958 M. Nitrogen (Cost \$5.50)	1959 M. Nitrogen (Cost \$5.50)
Increased forage yield per acre (dry hay/acre)...	200 lbs.	150 lbs.
Increased feed produced...	200 lbs. (Worth \$30.00)	150 lbs. (Worth \$22.50)
YOUR INCREASED RETURN PER ACRE ...	\$32.50	\$22.50
* Fertilizer cost figures are per acre approximations.		

Your net profit per acre — your profit after you've deducted the cost of growing the crop — gets a real boost from Gleichen Brand Fertilizer! This applies to any crop — any soil. Your Gleichen Brand dealer is shown below. Contact him today!

Obituaries

OLD TIME HUSBAND
FARMER DIES
Mr. Otto Will, an old time farmer of the Husker district and later a resident of Calgary died at the age of 72 in the Calgary General Hospital after a short illness. He was born in Germany in 1886. In 1910 he immigrated to the United States, settling in N. Dakota. He left N. Dakota to come to Fort Saskatchewan, where he homesteaded until 1923, then he came to Alberta and farmed at Chumby. In 1929 he came to Husker where he farmed until his death. He was a member of the Seventh Day Adventist Church.

GEORGE ALFRED ALCOCK
George Alfred Alcock, 51 of Langdon, died Monday at his residence.
Born in England, he came to Westward Ho in 1929, going to Brooks in 1945 and to Langdon in 1958, where he operated a lumber yard.

He is survived by his wife, Blanche of Langdon; two daughters, Mrs. G. (Phyllis) Winters of Langdon and Mrs. W. (Shirley) Gardner of Calgary; his parents Mr. and Mrs. W. Alcock in England; one sister, Mrs. J. (Katherine) James of Kimberley and two in England and two grandchildren.

Services were held at Gooder Brothers funeral chapel Thursday at 1:15 with Rev. Laing officiating and interment was in Mountain View Memorial Gardens.

Anglican W.A.
The April meeting of St. Michael and All Angels W.A. was held Wednesday evening at the Parish Hall. Mrs. N. May began a most interesting study book, Women of the Bible. Mrs. Collier reported that books had been sent to several who are ill.
A donation of 50c per member was sent to help equip a hospital hut at Camp Kanana, the Anglican Youth Camp west of Calgary. \$200 was voted to the Dept. of the Calgary Diocese.
A very excellent report of the AWA annual meeting was given by Miss W. Neville.
It was decided to try and obtain Thank Offering books for all members. It was felt there would be more suitable than cards and envelopes now in use.
The Confirmation service which was postponed due to the Bishop's illness, will now be held April 26. Lunch will be served following the service.
Mrs. L. Slater gave a report on donations she and Mrs. J. Keeling had received for bazaar work.
A work meeting will be held on April 16 in the Parish Hall.
A lovely lunch was served by Mrs. H. Martin and Mrs. A. Mortimer. The next meeting will take place May 6th.

On the Parisienne Scene

High fashion experts finally agree

Wonderful news... at last fashion experts are unanimous in their choice of the most glamorous creation of the year. It's the most exciting new look in ages... the 1959 Pontiac Parisienne! Daring Twin-Grilles are the focal point of this beauty—the lines are crisp, clean, fresh as a daisy. The rear deck is sculptured out to give a lower, sleeker look. Clay art goes up and down and all around—lets you watch all the back turning as you sweep by. Interiors? Fabulous! Pontiac takes fine materials, dyes them all the colors of a summer sunset—mixes and matches them in the most exciting color trims and combinations of the year. How marvellous to show your new spring outfit off in interior like these. And just to show you it's a woman's world, try driving this car. It's effortless—you float along.

A flick of the wrist and you're round the corner. A touch of your toe and you stop smoothly, steadily, surely. The Parisienne matches your love of luxury, flatters your fashion sense. Drive the Pontiac Parisienne soon. It does more for you than a hundred new hats.

Rosebud News

BY MISS M. L.

The first shipment of 17 flat cars of gas piping rolled into Rosebud from the east April 3. Actually it comes from California via Edmonton. Each 33 foot American flat car carries 17 40-foot lengths of brown metal pipe 30 inches in diameter and each weighing 4500 lbs. The crews, which can handle 20 cars a day with the help of a crane were busily unloading by the time the cars ceased moving. A total of 168 cars of pipe were expected at the rate of 20 a day but they are not arriving that quickly 'due to some flatcars breakdowns and shifts of the pipes on the flat cars.

At least 32 farmers in the district are forming a co-operative which will negotiate with the pipe line company to have their farm homes covered by gas.

Mr and Mrs Laurie Harber who spent the holiday here with Mr and Mrs Burton Parker have returned to their home in Edmonton. We wish Laurie success with his medical exams which are coming on shortly.

Mr and Mrs Charlie Kirby, Sr. have taken Mrs Julia Elliott home with them until she feels much stronger.

Mrs Rens Deasult entered the hospital Sunday evening after several fainting spells. She had had three teeth extracted on Saturday. We are glad to report that she was able to return home on Thursday. Certainly home you will soon feel much stronger Juliet.

Mr and Mrs Dolner have returned from Hawaii and are presently visiting at the home of a daughter Mr and Mrs Bob Comstock.

Mr and Mrs Earl Krahn and Dale have returned to Kelowna for a week. Hope you have a nice time folks.

Mr Bruce Homet, the local principal of Severn Creek school has been ill most of the week. We hope you will soon be on your feet again Bruce.

Mr Mel Lester's sister and brother-in-law, Mr and Mrs Hargrave motored out from Calgary for a brief visit Wednesday afternoon. Mr Hargrave has been confined in a Calgary hospital with lead poisoning for four weeks. He is a painter in an auto body shop.

This minister of health and welfare insists on - The large economy size

Mother, as the family minister of health and welfare, knows the value of vitamins. She also knows that for the large economy size in vitamins, and many other things, when she shops. This way she keeps the family budget in line.

The Minister of Health and Welfare at Ottawa has a budget too. He uses it to pay for various important services. Among these are Family Allowances and Old Age Pensions.

Money for the Minister of Health and Welfare's budget comes through the Minister of Finance. This is true of other departments also.

Let's not forget that the Minister of Finance obtains the money for his budget in taxes from millions of Canadians like you. He spends more than he gets from you, he must turn around and borrow from you the amount he has overspent... or else create new money.

The creation of new money is a trick that leads to inflation - when the dollar buys less and less. So, as a thrifty Canadian, you are wise to pay for... with taxes.

Personally, you try to pay as you go, to live within your income. It is important that government try to do the same thing.

You want to live well now and to realize all your ambitions for the best possible future. That future is secured with a sound dollar - a dollar whose purchasing power you can depend on.

A SOUND DOLLAR MEANS A BETTER LIFE FOR YOU

BY MISS C.R.
The Ladies Guild met at the parlour on April 24 with 14 members and two visitors present. Following the devotional, Mrs. Nielsen read a paper on the Women of Columbia. At the business meeting it was decided to have some more painting done in the church. Committees were appointed for the Cradle Roll Tea on May 12 and Mrs. Nielsen and Mrs. Larkner volunteered to clean the church during May. The Junior Mission Band is planning a Lillie Tea on May 30. It was decided to order the film strip, Brazilian Frontiers and later on present it to the Visual Aids Committee of the District.

This seeder gives you
DROUTH PROTECTION
with every seed it sows

Gets a Sure-Stand at 1/2 the seed cost

SEED sown with a Brillion Sure-Stand gets more of the moisture it needs for germination even in dry seasons. It's the result of proper seed conditioning... of pulverizing lumps and clods, pressing out air pockets, and firming the soil.

This "conditioning" caps the seedbed, slows evaporation and actually brings "rain" up from below. Moisture in the soil continually moves upward. This natural upward movement is called capillary action. Firming the top soil, as the Brillion does, and lets retain moisture at seed level. Thus each seed has what it needs for fast germination.

Planted this way, every seed has a chance to grow. The type of soil, amount of rain, the planting season are less of a problem. You are more sure of a positive catch in loose or firm soil, wet or dry seasons — in bad years as well as good.

Look into the Brillion way. Get the complete facts. See us the next time you're in town.

Baintree Notes

THE REGULAR meeting of the Baintree FWIA was held at the home of Mrs. Clara on Wednesday with eight members present. The roll call took the form of a contest on car recognition and was won by Mrs. Wallace Miller. After the routine business it was decided to take definite action about the heating problems at the club room. Mrs. County and Mrs. Kuzlen kindly consented to act. Discussion then took place re: a Whistman Flower demonstration and tea to be held in Rockyford April 28. A letter from a former member, Mrs. E. Jensen was read. Tea was served by the hostesses Mrs. C. County and Mrs. Lyons and a social time was enjoyed. Mrs. Dorothy County won the tea prize. The May meeting will be at the home of Mrs. L. Bell.

A large number of Baintree people were in Strathmore Saturday for the Van Hecke Van Bavel wedding and dance. Baintree is looking forward to welcoming the bride to our community.

Mr. and Mrs. F. Henke and family were Calgary guests of the week-end. The happy couple will reside in Calgary.

Sunday, Is Mothers' Day

Sunday is a day of love. It is true happiness is to be attained each day because it has been said: "Love is the greatest gift we can give." Sunday is a day of love, and dedicated to those who have given us life, the mothers who quietly and selflessly have borne the burden of our lives.

Did you ever stop to think of what kind of a world we would have if it were not for the love of our mothers? It is not the case we owe them everything, for what we owe them is to love them, and to be worthy of their love.

Life must be based on love if it is to be worth living. Life must be based on love if it is to be worth living. Life must be based on love if it is to be worth living. Life must be based on love if it is to be worth living.

VOTE ON MONDAY

Monday, May 11th is election day. You will be voting on two issues. The Natural Gas franchise, and the payment of the Mayor and Councilors of the Town of Strathmore.

By this time there should be no doubt in your minds as to how to vote on the gas question. During the past few weeks we have tried to present the facts of the situation. We feel as we think you do that there is no alternative but to place our vote in favour of the gas franchise. We feel that the gas franchise is a necessary part of our development, and we feel that we should support it.

The Rat Battle

Continues In Alberta

More than 200,000 rats have been exterminated since 1951 at a cost of \$300,000. The Saskatchewan Rat Battle, through a year round control program, conducted by the Alberta Dept. of Agriculture in co-operation with various municipal governments. The program is maintaining Alberta's status as Canada's only rat free province.

The rat invasion from Saskatchewan in 1950. The Pest Control Division of the Agriculture Dept. installed a control program and, during 1952-53 called in professional exterminators to temporarily halt the invasion. Since 1950 the program has cost approximately \$235,000 for a saving of over \$4,000,000 damage to Albertans.

Two poisons, Warfarin and Phosalone, are distributed by the govt. free of charge to farmers, municipalities and urban centres. Pest control officers employed by the Department of Agriculture direct the control program. Over 20,000 pounds of dry mix and 10,000 quarts of water soluble bait were used to kill an estimated 200,000 rats last year.

The rat is commonly confused with the muskrat although the two animals differ in a number of respects. A rat is usually brown in colour, about 16 inches in length including a seven inch rounded scaly tail, and weighs about 11 or 12 ounces. The muskrat is much larger with a slightly flat tailed tail. It also has feathered or webbed feet which a rat does not have.

Everything is drive in nowadays. We have drive-in banks, drive-in theatres - everything that is, but street.

MP Reports From Parliament Hill
 In the Committee of Estimates on Agriculture, I made three recommendations in reference to the same:

1. That I believe a new Royal Commission should be set up, similar to the one that was set up in 1957, to investigate the prices of farm machinery; to find out who that machinery costs so much money; to ascertain how many dollars worth of labor goes in to making a combine, etc; and how much profit the machine companies are making and the general scale of salaries of the executives.
2. The cost-squeeze that the farmer finds himself in is caused by drive between management and labor, which continues without any end to increase the cost of everything the farmer buys.
3. That a proper allocation of resources be made and that a real incentive move be made to increase the number of bright, trained country sidings to make certain that a larger quantity of wheat can be delivered in the fall of each year, so that grain quotas can be met on time and increased so that highly productive farms can deliver their products to obtain capital for operation without having to pay high interest rates to finance their farm operations on capital borrowed because grain cannot be delivered.

3. — That the Wheat Board Regulations be looked at so that there can be later provincial trade between the provinces. Who should there be trade barriers from one province to another? Would the change, however, effect the overall picture.

These were personal suggestions made by myself in the House of Commons last week.

I would appreciate receiving comments from the farm population and others in the province of Alberta.

Dalum News

BY MRS. H. P. R.

Here, I've gone and done it again; and I feel like such a fool: I wrote my book at Dalum; I mean that Ralph was home from school. His mother hadn't seen him, although she called me up to say: "Who didn't you send him over just to pass the time of day?" So now I must remember, to call my neighbors up: To find precisely what goes on, and who with whom did sup. Trouble with this reporting job: In people can't agree: On what is news and what is gaff: And what's fit in print to see: Now I would like to tell you: When my neighbor buys a car: Or a trailer or a tractor: Or a miller with a jar: And when a feller buys a ring: To give to his best girl: It would be such fun to tell it: But I haven't given it a whirl: So I'll be content to tell you: Some things we are glad to know: Like the hall was overflowing, last week for the Variety show: Joris Jensen was home for the week end: With her friend, Miss Lamere; Eighteen ladies went to Standard; Pay a mission meeting: Pay a mission meeting: The ladies of the Guild met with Helen and Nellie serving: And from the hospital news has come: Al Clausen's health is improving: Ray Wilder's and Art Clausen's came from Radville to see their Dad: Ken and Anne Hudgeon were also home: With their two little kids: And there on all I've heard it: day: But another week will pass: And I'll send another column in with only truths. I pray.

Yes, For Natural Gas And
Payment of Town Councillors

Just a fair number of ratepayers turned out to vote on May 6th, when the voters of Strathmore voted in favor of the gas question. It was a 62.5 percent turnout: 168 of the 264 eligible voters went to the polls. Strathmore will have natural gas. The plebiscite proved that the council is a 160 to 2 majority. There were four rejected ballots.

The bylaw authorizing that the council be paid at the rate of \$10 per meeting with a maximum of 24 meetings per year also passed by a small majority. In favor were 12 votes, and against 70. There were nine spoiled ballots.

According to General Manager Mr. Hunter of the Canadian Western Natural Gas Co., Strathmore will have gas running in their lines by this fall. Deputy Mayor Dick Caldwell was told by a gas official on Tuesday that digging operations would begin in Strathmore on the 25th of this month.

Mayor Gray expressed delight about the outcome of the plebiscite.

PC'S TO ELECT CANDIDATE

The Progressive Conservatives are the only ones left to name a candidate to run in the Glendon constituency to contest this riding in the June 15th election as announced last week by Premier Manning. That is to say they are the last to name the PCP one in which is unlikely.

Glendon PC Association president Hugh Berry announced Monday that a nomination meeting will be held in the Strathmore Memorial Hall tomorrow night, but didn't give any indication as to who's name would come forward, but stated that he is hoping that anyone wishing to support a candidate will not hesitate to do so at this meeting.

Mr. Berry also said that the PC leader Ken Kirby, M.L.A. will open the election campaign at a meeting to be held in Glendon on May 20. At that time he will announce the agricultural platform.

The Secreter has nominated George Bell, M.L.A. and the Liberal Carmen Ellis to run in the election race in this constituency.

Bridal Shower

The dining room of the Memorial Hall was filled to capacity by friends to honor Miss Jimmy Miller (nee Gladys Cornwell) with a shower of beautiful gifts, good wishes, etc.

After the honored guest, her mother and sisters were seated at the beautifully decorated head table, where they were each presented with a corsage by Irene Gibbs and Mary Morton. A few games of bingo were played, and following this Madeline Mercant, accompanied by Madeline Vercant, sang "I Love You Truly."

A group of Gladys's Sunday School and music pupils entered carrying gifts and sang "I Love You Truly." Call You Sweetheart. Miriam Elms and Marjorie Hagen presented Gladys with a wedding cake and coffee table, the gift from the hostesses.

Mary Mercer spoke of the high quality of work Gladys has done in the field of music, business and church activities.

After the opening of the gifts Gladys thanked the hostesses and friends for the lovely evening.

Strathmore Votes "Yes"

Natural gas will be flowing in Strathmore lines by fall. This was decided by the vast majority who voted "yes" on Monday. There will be many advantages enjoyed as a result and we are sure we can all begin to see a brighter future for our town.

We are sure that Mayor Gray and his Council will be pleased with the result of the voting and against the payment to be made in annual meetings. It is evident that a public servant finds out how much he is appreciated for doing what is usually classed as a thankless job. Although the majority was small, there was a majority, which shows that the people of Strathmore think that the value of time and efforts should be paid for.

large centres. In an effort to stop this vandalism we have developed a policy and are planning to implement it by moving our game of floors into areas of heavy hunting pressure. In conjunction with this we have solicited the assistance of the RCMP and the Inspection Service Branch.

To a year we are planning to expand this policy and during the present season in the irrigation district we will be increasing our supervision, which may find.

Gleichen News

On Saturday Mr. and Mrs. Geo. Fredericksen and family of Calgary moved into the home vacated by Mr. and Mrs. Bridgeman. Mr. Fredericksen will be employed for the next few months by the UGC of which his brother-in-law Ted Foggett is the agent. We welcome them to the community.

Mr. and Mrs. R. Hunter and Mrs. and Mrs. Mary James moved to Calgary Sunday where they were direct guests at the home of Mr. Dale Hunter and Mr. Ted James.

Mr. and Mrs. Mitchell and Mr. and Mrs. Wm. Richards all of Calgary were Sunday dinner guests at the home of Mr. and Mrs. M. Stinson.

The Mothers Day tea and bake sale, plant sale, CGIT table and club table held in the United Church basement by the WA of the United Church on Saturday afternoon was well attended in spite of the weather and proved quite successful and enjoyable. The 100 cakes which had been ordered arrived in time to be used at this tea and everyone appreciated having them.

The WA of the United Church met on Tuesday evening May 5 in the church basement with 15 members present and Mrs. R. Hunter presiding. Mrs. C. Sim was the discussor. A very fine devotional devotional was given by Mrs. R. Hunter. Final arrangements for the Mothers Day tea were completed.

Several good reports were given. The one concerning the tables which had been made was very interesting. There were five large tables and eight small tables there all ready for use and after inspecting them the members expressed their pleasure at having them.

Mrs. H. Reed had the misfortune to fall down her back steps to the cement walk on Friday afternoon. She injured one foot and her left hand and sustained bruises and shock. Needless to say she didn't feel like leaving her home over the weekend but was slowly recovering on Monday.

The pupils and staff of the Sunday School of the United Church were very pleased that so many of the mothers and fathers, and other friends came to their special Mothers Day service on Sunday. The people all sang or recited very well and all present enjoyed the service very much.

Mr. and Mrs. Wm. Blaney and daughter Diane married to Niel in the community. They spent the honeymoon in the States.

District Lions Clubs

Collect Eye Glasses

Lions Clubs throughout Canada are collecting used eye glasses to

send to India. There are a number of clubs in this area, the members of which will be only too pleased to take your contribution.

These glasses will go to the poor. There are considerable people in India every year who need glasses but cannot afford

to buy them and your contribution will certainly be appreciated.

Contact someone people require glasses and have priority times and they say that no matter how rare your eye conditions are, there are first names that will find contact and improvement by wearing them.

The Calgary Lions Club had this experience. At their last Lions, they collected 1500 pairs of old glasses. One lady in error gave her good glasses instead of an old discarded pair but didn't realize it till after the huge pile was over.

To find one pair of glasses in 1500 was too big a task, so she started sifting herself and found

a pair that were better than the ones she had and went home happy.

If you have any old glasses, send them to the Secretary of your local club to give them to any number.

Edison invented the flash light in 1924.

Conley To Open Drive In Soon

The congregation of the Strathmore United Church held a business meeting at the close of last Sunday's service to discuss the building project to extend or replace the present building.

The owners are Mr. and Mrs. Darrell Conley who came here from Edmonton, a village south of Calgary, where they operated a store. Mr. Conley is no stranger to this district. He was born and raised on a farm near Hume, where his parents Mr. and Mrs. L. Conley still live and has a host of friends in and around Hume.

Mrs. Conley says that there is all new and modern equipment offered for the establishment and they are hoping to be open for business very shortly.

In addition to the Drive-In Mr. Conley will take over the Shell Service Station. They are now waiting for details to be worked out and they will have an official opening of both places of business.

He was a member of the Canadian Legion at Glenora branch and the Glenora United Church. He is survived by his wife, Elizabeth of Glenora, two sons, Robert and John, both of Glenora; four sisters Mrs. Evelyn Burns of Glenora; Mrs. E. Fawcett of San Rafael, Cal.; Mrs. Jean Eason of Vancouver and Mrs. C. Cluny Notes

Raymond Rourke, RCAF spent a few days with his parents. Darrell Reimche got a fish boat in his very own little boat on Tuesday and had to go to see a doctor to get it out. Pastor and Mrs. Wm. Davis of Kingston, Ont. were guests at Mr. and Mrs. B. Reimche recently. Mr. and Mrs. Roy Hubbard of Bassano were callers at the home of Mr. and Mrs. Frank Schmidt recently.

Mrs. Leonard Fleury and daughters of Brooks spent Saturday at her parents' home, Mr. and Mrs. Rougoux.

Mr. and Mrs. Harold Whitlock and family spent Sunday at the home of Mr. and Mrs. B. Reimche's.

Mrs. W. Stewart, Miss Joyce Stewart and Miss Stewart spent the week at Tofield.

A week later at 9:30 p.m. on May 28th Strathmore will hold their 15th annual school prom.

Home Economics fashion show will be held Wednesday, June 1, in the auditorium at 2 p.m. The weekend display will be held the same afternoon and the shop will be open all afternoon.

Ideas Vary In United Church Building Plan

The congregation of the Strathmore United Church held a business meeting at the close of last Sunday's service to discuss the building project to extend or replace the present building.

Five trustees were elected who led it is to supervise church building. They are: Mr. Whistler, Len Lamm, Jack Warrick, Roland Hanson and Mr. Christian.

Mr. Wheeler explained the architect's plan which was on display in the front of the church and a discussion followed. This plan was one to extend the present church to the north 40 x 40 feet, which will exactly double the size of the present building.

After considerable discussion about the plan for and against a motion by Milton Christensen, it was decided to accept all the groups who use space and find out what their requirements will be and to work from there with the building committee.

In addition to the above, it was suggested that a complete new church be built. Some felt that it would be foolish to add on to a building that was nearly 50 years old. The present church was built in 1912. Another idea came to the fore that they should build a church hall suitable for Sunday School and other church activities and join up the present building.

There were some who wanted to postpone the building for another year which time they felt that they would have a better idea what the requirements would be and more money would be available.

However it was decided to apply for a loan of \$100,000 at a grant of \$5,000 from the Board of Home Missions of the United Church of Canada immediately, so they would have it should it be decided to start building this summer.

At present there is about \$3,000 in the building fund. They estimate that they will be eight to nine thousand dollars in by the end of 1969. The original goal was \$25,000.

There are three on trial in this case.

The Paul Halwegner family spent the weekend with Mrs. Halwegner's parents in East Coulee. Paul and his mother-in-law celebrated their birthdays together on Monday.

Calgary visitors at the Bill Peterson home were Mr. and Mrs. J. Corbett.

Bill Jensen spent the weekend at Banff.

The car washing he held at the Trans Canada Service on Saturday was a complete success. The Strathmore Tyre were kept busy all day, and had time permitted it, they could have washed more cars. The boys had much praise for Bill, Mattie, owner of the service station. Bill supplied all the water and clean for the boys on the charge and helped supervise the work all day.

Mrs. M. Lockhart of Miss J. Jew spent the past week with Mr. and Mrs. Archie Chambers.

Donalds Barry broke her arm at school last week. She spent a gay visit with friends in the district night in the Crippled Children's

Crellin Pitches Strathmore Seniors To Double Victory

Gordie Crellin of the Strathmore Seniors, pitched the home town boys to a decisive two game win Dominion Day at Strathmore to take top money in the league. He had good control all the way and showed no apparent evidence of tiring over the distance. Strathmore was behind the bat.

In the first game at 1:00 the Strathmore Seniors overtook the Strathmore Juniors by a 9 to 3 score, and in the final best the Strathmore boys to 1. Ericson earned the right to come into the finals by defeating Airline in a late afternoon tilt.

Court Fortems and Ramie shared the round position for the Juniors and Barron, caught.

The final game was a close one till the 8th inning when the score was Strathmore 1 and Strathmore 1. Then Strathmore's Earl Gray hit a solid single to bring in the winning run. Following Earl at the bat was Ramie Crellin who connected with a three base hit and brought Gray home from first, making the score 3 to 1. Crellin then came in on a bad pitch and Gordie Crellin got to first when he was hit by a pitched ball. Wernick was allowed to walk, and Bill Hofer connected with a three bagger and he came home on a single.

Trivina did not answer with a run during their last bat. Paul scored was 7 to 1.

How Valley baseball league play opens this Sunday, with the two Strathmore teams meeting at home and Ericson will travel to Standard.

BANDITS' FAIL TO OPEN VAULT, BUT MAKE OFF WITH MANAGERS' CASH

The Royal Bank at Standard got a again.

In the early hours of Friday morning, an attempt was made to make off with the cash in the vault, but they couldn't manage that so they had to be satisfied with the 32 rolvers they found in Manager Don Nichol's drawer.

The bandits took their time. They removed four two inch screws from a storm window and back then they removed the moulding around a small window in the door, reached in and opened the door from the inside.

An attempt was made to open the vault, by prying on the dial. When they could see they were getting nowhere they searched around till they found the gun and went on their way. Const. Doug Simmonds of the Strathmore RCMP is investigating.

This is the second time this bank has been robbed in a year's time. The first attempt was a successful one when a daylong robbery took place. This lone bandit is now spending three years in the pen.

UNIONS & UNEMPLOYMENT

What we thought was the finest speech we have heard from our MP from Old River, Mr. John Williams was given by him at the Progressive Conservative convention held in Strathmore, Friday night.

He explained that we have priced ourselves out of the world market which is a direct result of the strike between management and labor. As a result of these conditions, we are faced with much unemployment due to a slow down in production.

He hit the nail right on the head when he said that what we need is more world trade to improve our unemployment picture.

The trade unions have gone too far in past years, and it is now catching up with us. The vicious circle of pay raises and price increases is going at such a rate that not only is the consumer suffering but many are out of work as a result.

As Mr. Williams stated in his speech, there are times when management takes advantage of the situation and adds an amount greater in percentage than the wage increase, to goods sold. But according to the financial statements of large corporations, the percentage net profit on the whole was less in 1958 than in the previous year, so this doesn't hold water.

When world trade is mentioned, many think it is too complicated for the average person to understand, so they pass it aside as something for the experts to worry about. This is not true. A healthy or unhealthy world market affects every one of us and, first, right where it hurts the most, in the pocketbook. If it is so simple, if we can't consume what we produce it must be sold. If it can't be sold, production drops, then comes surprise unemployment.

Mr. Williams said that the government's fault that there is so much unemployment in Canada, much of the responsibility can be thrown back to the workers themselves.

At the regular council meeting May 14 the councillors adopted the estimate for 1959, and then set the mill rates for taxation: business 15 mills; municipal 15 mills; school 17 and hospital 5. In spite of an increase in the school requisition, the rate was held the same as in 1958, but the increase in hospital requisition demanded an increase in the hospital rate.

The only increase for this year, an increase of only 3 mills. The tax notices will be mailed the last of May and a discount of 5 per cent will be allowed for payment of current taxes before the first of July if arrears are paid before that time.

Strathmore CWL

The regular monthly meeting of the CWL was held May 12 in the parish hall. In the absence of the president Mrs. Fraser who was ill, let vice president Mrs. Mary Barnett conducted the meeting. Treasurer Mrs. Mary Black read the financial report, which showed the past year to have been a very successful one financially. The ladies have accomplished much for the church this year, through many hours of hard work. In the event that the president cannot attend Mrs. Mary Barnett was named as delegate to attend the Diocesan convention at Banff on June 5, 6 and 7. As many members as possible from our CWL were urged to make a real effort to attend this convention, even for one of the three days. Some much needed kitchen cutlery will be purchased for the church kitchen. The social evening held May 2 was a real success, when we were privileged to have as guests the Diocesan president, Mrs. Anne Kirby of Lethbridge and Miss Florence Therpe of Calgary as well as CWL members from surrounding towns. The next meeting will be held on June 2nd.

Tips on Touring

By Carol Lane
Women's Travel Authority

Your vacation trip will be easier and more fun if your children know how to be safe passengers. Here are some tips for teaching them. Have them sit squarely back on the seat. Adult passengers should hold very young children on their laps. Use special car seats for infants.

For water or soft drinks on route rubber use paper cups. Break up long stretches of driving by frequent stops to keep the children from becoming too restless. Do not permit any climbing from the back to the front seat while the car is in motion. Always pull off the road and stop before permitting such a change. No leaning out of windows no fooling with door handles, shift lever, or ignition key. No candy wrappers or other waste materials should be tossed out of the window. No toy air planes, for example, to be held out the window. No roughhouse allowed. Games or word games should keep older children entertained. For the very small fry, toys of plastic or metal are best. The don'ts are basic. But the do's are basic too. Keep the children interested, and it's easier to "up them-thaps and side. GETTING OLD FAST Reader's Digest reports that in a crowded movie house, a young man was just about to sit down in one of a pair of empty seats when he was abruptly pushed off balance by a woman trailing behind him with her husband. Before he could recover, the couple had plunged into the seats. Sorry, my friend, said the husband, we bent you! That's all right, said the young man. I hope you and your mother enjoy the show.

What Industry Means To A Community

Normally, few of us give much thought to the impact of industry on a community. Only when there is a disaster or a major strike in a one industry town —

— do we realize how much we are dependent on the industry for our livelihood. In this, as in most other matters, there is some advantage in beginning at the beginning. Thus, the

building of a new factory in or near a community means of course more jobs for those who live in the area.

But it goes much deeper than that. Usually, this sets off a chain reaction which results in the expansion of the whole community, making for a pronounced increase in the level of local prosperity. The availability of jobs attracts workers from elsewhere; there are more marriages, more sales for local merchants, more services, more development, more children. These things are well brought out in the results of a study recently undertaken by the research and development department of Canadian National Railways, and published in pamphlet form under the title "What Increases Manufacturing Employment Means to Community Growth."

The CNR study considered the economic changes which took place in nine different Canadian communities between 1941 and 1961. Six of the communities are in Ontario (Belleville, Chatham, Cornwall, Peterborough, Stratford and Woodstock), and three are in Quebec (Granby, Joliette and St. Jerome).

Briefly, the study revealed that 100 additional manufacturing workers meant to their community: 427 more people 131 more households 68 more school children 117 more workers employed other than in manufacturing 187 more motor vehicle registrations 353 more telephones 32 more retail establishments 800,000 more retail sales per year

Those responsible for the study

stress the indivisibility of general using from the particular conclusions detailed in the pamphlet (all the nine communities studies considered to certain important criteria). Nevertheless, there is a valuable guide that points up in a clear terms the effect of manufacturing expansion on community growth.

Missing People

Three hundred Canadian dollars right over your head, reports the current Machine's in a feature article on missing persons. One year police were asked to find 31,772 missing Canadians, writes associate editor John Clark. All

but 540 were found by the end of the year. The desire to vanish, he says, is usually a romantic one. It is usually by love of indifference, frustration, failure, immaturity and an attempt at partial self destruction. These people feel that by losing their identity they may lose their problems. There is no central agency by

which missing persons are sought from one woman and often after a number of years. The International Red Cross, with headquarters in Geneva and representatives around the world, and the Salvation Army with offices in 85 countries, provide a fee for a full service which has reunited thousands of families since the war. The Canadian Red Cross has received 42,000 requests to trace missing persons believed to be in Canada, and the Salva-

tion Army gets more than 1,000 a year, half of which are successful matches. Middle age is when our tripping becomes less light and more less tasks. Don't be so busy saving words that you don't have time to sharpen the saw.

James where he managed a Co-op store, as well as doing book-keeping duties in that town. He has four children, three girls and a boy, the oldest daughter is training for a nurse. The three younger children and Mrs Thompson will move to Strathmore during the first part of July. As a result of the recent picnic, the council will be paid at the rate of \$10 per meeting starting in June. This was decided and accepted at this meeting.

The Council of M.D. Wheatland No. 42 met on May 12 in the M.D. office at Strathmore. It was moved that we grant approval to the Tennessee Gas Transmission Co. to construct low pressure gas stream crossings of Municipal roads on the bounds of sections 2 and 3, Twp 25, Range 21W to serve a Gas conditioning plant to be built in the NW 36/24-21-4. By-Law No. 128 was introduced to authorize the fixing of maximum rates for the use of the M.D. Mr. Dering as secretary of the ASB presented the 1958 annual budget of the Service Board for consideration of the council. It was adopted.

The secretary presented the monthly financial statement for the month of April, which was adopted. The secretary further presented a statement showing the receipts and disbursements as covering the period of Jan. 1st, 1958 to May 12, 1959. A copy of which was given to each member of the council, as they may be aware of the disbursements as the year progresses in comparison to our own budget. By-Law No. 140 was introduced to borrow \$50,000 from our bank for the current year's operation. Mr. Jack Lamb, A.S.B. was present and addressed the council on current road widening projects and a proposal to survey around Eagle Lake.

The Reeve and secretary were delegated to attend the regional course in municipal administration June 8 to 10 next in Banff. The date of the next council meeting was fixed at June 5. Moved that we write the road master at Medicine Hat of the CPR and ask permission to remove the hump from the crossing in the village of Hummer. And to have the crossing W 13-25-14 moved to the west.

The Reeve introduced a summary of Municipal owned trucks by the County of Vulcan and where they owned 8 trucks and handled the year around at estimated cost of about 7c. They contracted the crushing and estimated that they saved \$80,250 in 1958 hauling 122,880 yards in the year 1958. The statement from the Vulcan office was ordered filed for future use. Several applications for grant had been received in the office as a result of an article in the local paper by the Dist. Ag. The applications would greatly exceed the sum of money allocated in our agreement with the Dept. of Agric. which limited our expenditures to \$200 for 1959 in this connection. The applications were passed on

to the Agriculture Service Board for their consideration.

Mill Rate In Strathmore Increases By Four Mills

A special council meeting was held last Thursday evening when it was decided that a raise in mill rate was necessary. It will increase 4 mills to make a total of 53. The reason for the increase was due to the increase in school and hospital rates, and due to the police protection Strathmore now has. The hiring of a secretary was discussed and left to a committee to engage same. Since the meeting the man has been hired. He is Mr. Joe Thompson, formerly of the Strathmore Co-op store, as well as doing book-keeping duties in that town. He has four children, three girls and a boy, the oldest daughter is training for a nurse. The three younger children and Mrs Thompson will move to Strathmore during the first part of July. As a result of the recent picnic, the council will be paid at the rate of \$10 per meeting starting in June. This was decided and accepted at this meeting.

WHEATLAND M.D.

The Council of M.D. Wheatland No. 42 met on May 12 in the M.D. office at Strathmore. It was moved that we grant approval to the Tennessee Gas Transmission Co. to construct low pressure gas stream crossings of Municipal roads on the bounds of sections 2 and 3, Twp 25, Range 21W to serve a Gas conditioning plant to be built in the NW 36/24-21-4. By-Law No. 128 was introduced to authorize the fixing of maximum rates for the use of the M.D. Mr. Dering as secretary of the ASB presented the 1958 annual budget of the Service Board for consideration of the council. It was adopted.

The secretary presented the monthly financial statement for the month of April, which was adopted. The secretary further presented a statement showing the receipts and disbursements as covering the period of Jan. 1st, 1958 to May 12, 1959. A copy of which was given to each member of the council, as they may be aware of the disbursements as the year progresses in comparison to our own budget. By-Law No. 140 was introduced to borrow \$50,000 from our bank for the current year's operation. Mr. Jack Lamb, A.S.B. was present and addressed the council on current road widening projects and a proposal to survey around Eagle Lake.

The Reeve and secretary were delegated to attend the regional course in municipal administration June 8 to 10 next in Banff. The date of the next council meeting was fixed at June 5. Moved that we write the road master at Medicine Hat of the CPR and ask permission to remove the hump from the crossing in the village of Hummer. And to have the crossing W 13-25-14 moved to the west.

The Reeve introduced a summary of Municipal owned trucks by the County of Vulcan and where they owned 8 trucks and handled the year around at estimated cost of about 7c. They contracted the crushing and estimated that they saved \$80,250 in 1958 hauling 122,880 yards in the year 1958. The statement from the Vulcan office was ordered filed for future use. Several applications for grant had been received in the office as a result of an article in the local paper by the Dist. Ag. The applications would greatly exceed the sum of money allocated in our agreement with the Dept. of Agric. which limited our expenditures to \$200 for 1959 in this connection. The applications were passed on

to the Agriculture Service Board for their consideration.

Strathmore Jrs. And Standard Win

Play in the Bow Valley Hockey League opened on Sunday. Standard won over Irtana in a double header played at Standard, and the Strathmore Juniors defeated the Strathmore Seniors in the first game and the Seniors won the second game. The first game at Standard was an up and down battle. The Seniors were leading by 4 to 0 at four minutes in the first frame to 4 to 0 in the bottom of the eighth when Irtana came up with a 4 to 0 run inning on one wild, 1 error and 4 hits. It looked like Irtana's game but the Standard boys tied the score at 4 to 4 in the bottom of the eighth. The Seniors then took the lead by 4 to 3 in the bottom of the ninth when Harrison Gray for the winners. 1940 Wilson caught.

The second game, Standard took by 14 to 5 with Dal Nielsen scoring six innings on the mound and Harold Christensen finishing the game. Goan Grant and Billy Wilson shared the catching position. The Strathmore Juniors took the Seniors to 4 to 4. Gordie Crivell pitched to Sanderson for the losers and Stangness and Fritzen threw to Harrison Gray for the winners.

The game presented action in a hurry. On the first pitch W. Woyenko connected with a home run but R. Crivell for the Juniors chose a better time for one when two of his mates were on base. Strathmore got two more runs in the next two innings and one in the next. The Seniors didn't touch the score sheet again till the 8th when three players crossed home plate.

The Seniors poured on the power in the last inning and filled the bases with home runs. This was when coach Doug Simpson put Forbess on the pitching mound who was successful in striking out three men in a row. Final score 14 to 4.

The second game was in the second inning when rain stopped the play. The Seniors were ahead 1 to 0 at this stage, but was not counted as a game completed. Strathmore Juniors go to Irtana next Sunday and Bessano comes to Strathmore.

Farmers Day, June 12 Will Be A Big Day In Strathmore

It is the hope of the Strathmore Lions Club, that all the farmers of the surrounding area will celebrate Farmers Day, June 12th, with them in Strathmore where a big sports day will be staged. According to the committee in charge, it will be a big event for everyone young and old. One big attraction will be a huge Barbecue. The food will be prepared by Mrs. Parker's skilled hands, and served at the grounds. Dave is an "old hand" at this game.

Cont. Doug Simmonds is organizing a Junior baseball tournament and the children will have an opportunity to take part in competitive sports. Motor boats will be on hand to offer rides on the lake, and the day will conclude with a profit in the Memorial Hall. Profits of the day will go to improve the Strathmore Swimming Pool, a Lions Club project.

LET'S GET NEWSY The Strathmore Post Office has installed 40 additional mail boxes, and according to postmaster R. Martin, over half of them are reserved for the Strathmore community. Mr. Thos. Chamberlain, Sr. was taken to the General Hospital on May 20.

Mr. and Mrs. Bud Hebbes are receiving congratulations on the birth of a son on Monday, June 1st. Donna Marie, youngest daughter of Mr. and Mrs. Bud Newton was baptised in the United Church on Sunday, May 24th. Present were Mr. and Mrs. Hal Nelson.

Mr. and Mrs. Keith Bergh returned home Monday night after vacationing in Idaho and B. C. for five days. Frank Crick, Sr. returned home from the hospital last week. Mr. Walter Pettit is now a patient in the General Hospital. He was admitted Sunday and will be under observation for a week or so yet.

Mr. and Mrs. J. E. Bergh of Bowden spent Wednesday with their son Keith and his family. Mr. Bill Baber of Three Hills and Bill Barron, CPR operator at Lacombe, daughter and son of Mr. and Mrs. Barron, spent the weekend with their parents.

There is apparently no shortage of boxcars in Strathmore. On Monday, the CPR spotted two extra for the two local elevators, but the agents had to turn them down because they had no permits to load them.

This is quite a different story than heard in the past. Mrs. Winklow was born in Titik, Russia, moving to Tinton, Sask. in 1898. In Arrowwood in 1941 and to Calgary in 1957. Predeceased by her husband, William, in 1953, she is survived by two sons, William of Arrowwood, George of Calgary; 11 grand children and five great grandchildren.

Open house was held at the Standard school recently. Parents toured the school to see displays and accomplishments of their children and discussed problems with the teachers.

The shop and home economics displays were reported to be of a very high calibre.

Mrs. Gerry Wenzel, who was the Home and School delegate for the committee in Edmonton gave her report.

Vote Social Credit Geo. Bell

I am being asked every day about that part of the five year re-election program referring to improvement of farm homes.

For a number of years the family farm has been gradually disappearing. Too many farm homes are not conducive to beautiful living, not even to what might be considered as an adequate standard of living. Another reason is that many farms are not large enough to be considered as an economic unit.

To slow up this trend it is felt: 1— That the too small units should be enlarged to what is considered as economic unit.

2— That farm home life should be made more attractive to the young people.

To deal with No. 2 the Farm Home Improvement Act provides that a farmer may borrow up to \$2,000 at a bank or at a Treasury Branch with a guarantee from the Provincial Government to pay 50 per cent of any loss that might accrue as a result of the loan. The farmer will be given ten years to repay the loan which is to be used to improve living conditions on the farm and give the family additional comforts.

The money may be used to bring water and sewage to the home; to put in a central heating system, for applying stucco, to add a bathroom, insulate or shingle the house, renovate within or even add on a new room.

Some ten years ago the REA plan was set up to bring power to farm homes. Today, out of a total of 69,300 homes, 46,200 of these farm homes have been electrified. It is felt a similar program will be as successful in a home improvement plan. Adv.

Mrs. Bobbiela Christensen is home again after a lengthy trip to the U. S.

We welcome Mr. Stewart Wasmuth to the district. He has moved into the Stancos house and will be taking the Baptist and Methodist regular minister on call.

As Mrs. Jorgensen was driving home Thursday afternoon, she came over a rise to find the parked car of Mr. McCaffrey and his man right in front of her. Although she was to the left to avoid collision she was unable to miss him.

John high school held his graduation exercises May 25. Congratulations to our grads: Marilyn Rami, Diane Leach; Glenn Halberg;

Madsen, a nephew of P. Trevels, sang, God Underneath, and the congregation sang. What a privilege to have in Jesus.

Born in Airdrie 49 years ago, Mr. McKilliam was raised at Rosebud and spent a few years at Janus, Sask., before coming to Rosebud in 1943 where his brother joined him. Big John as he was fondly known had a big smile and a big heart to match his bigness. He leaves his wife Edith he leaves to mourn his loss, three children, Simon, Judy and Perry; a sister, Mrs. Phil Trevels in Calgary and brother John at Brooks; two nieces, Joan in Germany and Laraine in Calgary, and three nephews, Jim, Clarence and Freddy. Jim was preceded by his brother, Alvin just two months ago.

Paul brothers were D. Coggave, R. Halberg, B. Parker, W. Wal and J. Halberg all of Rosebud and A. Munroe of Mountain View Memorial Gardens.

Mr. H. Hyman attended the Crematorium on May 16th.

A Drumseller held the Croquet on the Good Hill Saturday. It had almost reached the top when it began to roll backwards rapidly in a westerly direction which took it off the edge through a depression, over the main road and into the far bank of the west ditch where it stopped abruptly.

The driver was uninjured. Several weeks a large semi-trailer had an accident on the same hill. The Drumseller they took second at the Rosebud sports last weekend.

Hanna took first.

Mrs. W. Hyman held choir practice in the United Church Wed.

Congratulations to Mr. and Mrs. Joe Verboom on the arrival of a baby daughter Joanne. Also to his grandparents.

Old Dog By-Law Revived, Twenty Signers Demand Action

The regular meeting of the Strathmore Town Council was held Tuesday night with all members present.

Councillor Bill McNeill reported that work on the irrigation system is progressing and is completed at some locations in North Strathmore. (Some were using this service on Wednesday morning). The work has been slowed up due to the digging of gas lines, but this work is expected to be completed by the end of the week, he said, so the irrigation line will go ahead at that time.

Building permits issued for the year total \$200,000 in Strathmore and for the month of May there were \$28,000 worth passed.

Mayor Gray reported on closing the main street. He said that the businessmen on main street paid \$25.00 of the total cost of \$125.00 and expressed pleasure in the way the business men co-operated on this project.

A petition signed by 20 residents in Strathmore, complained about dogs running at large, and of the small coming from poultry and live

stock confined in the town.

Council looked up the By-law that was passed regarding dogs on April 7th, 1928, which states that dogs running at large within the town limits will be destroyed by an authorized person. It states that dogs must be under the immediate and effective control of the owner, whether the person be the owner or otherwise. In short, it means that a dog must be on a leash unless it is in its owner's property.

This By-law will be enforced, Council decided. They will keep loose dogs in a pound for a short length of time to give the owner sufficient time to recover it now ever before it is destroyed. How long this would be was not discussed, neither was the penalty to be paid.

Regarding the poultry and live stock, they decided that they would not take action until such time complaints are lodged.

Eighteen Students Graduate From 12 At Samuel Crowther

The 14th annual Prom was held last Friday night in the Samuel Crowther Auditorium in Strathmore, when 18 students graduated.

There was a very good crowd of parents, students and friends on hand to enjoy the dancing from 9 to 2 and the midnight lunch.

The Queen of the Gown and Maid and the Maid of the Honor were announced by last year's choices, Court Foreman and Joan Groves. They were Doreen Schley and Charles Watson. They are chosen by the student body and the teachers for their attitude to school activities, good character, prudence and school achievement.

Crest awards were given to the following students by the president of the Student's Council, Harrison Gray: Trust - Earl Gray, Jim Ferguson; Hockey - Earl Gray; David MacDonald, Bob Zyrsky; Doreen Barrow, Peter Peterson, Jim Mallard and Marvin Dams; they were the members of the Maidens team who won the Provincial Championship.

Three Wins Sunday

The Strathmore Grays won two over Bassano on their home ground and the Juniors split their double header with Irricana at Irricana on Sunday.

Kauten was the winning pitcher for the Strathmore boys in the afternoon game. He took over in the 7th when his team was down 8 to 6. Bassano got seven runs in the bottom of the seventh however and got three runs but Strathmore tied the game next time up. Strathmore came back in the 9th with four runs which made up the final score of 13 to 8. Chervin, Connolly and Burrows threw for

Strathmore's Grays pitched a 18 strike out game the last night, eight of those came in the 9th. The first eight men out who appeared at the plate. Sanderson caught.

Strathmore only allowed their opposition one run in the game up with 11 men alive. Bester was the big noise at the bat this time out. He got five for five with three doubles and two singles. Pitching for Bassano were Harvey, MacLean and Burrows.

The Junior's loss man Doug Simmonds got into the act and pitched the last game with the Strathmore's Old real line too especially when he hit a long home run with two on in the 3rd. He got five for five with two because they won by a narrow 7 to 5. Foreman and Stangson pitched the last game for Strathmore. He was Collins and Kouchuk pitching to Martin.

The Strathmore boys were almost in the first game 8 to 5 until the eighth inning when Irricana poured on the pressure and got four runs. Strathmore didn't answer back in the ninth so the final score was 108 for Irricana. Sutton to Knight was the winning combination while Foreman and Collins pitched to H. Gray for Strathmore.

The Dog By-Law

As a result of a written petition signed by a number of Strathmore residents regarding dogs running at large, the town council has decided they are going to enforce a 1953 By-law now on the books. According to this by-law, dogs must be on a leash when out on the owners' property.

Strathmore last the first town had found themselves with an on flowing number of dogs. Many have found it necessary to take similar action.

Five years there have been reports of dogs knocking over garbage cans, running flowers and gardens, biting people, etc., and it is time something is done about it.

There have been many occasions that councils in the past have threatened to do something about the dog situation. Warnings have been given but no legal action has been taken for the lack of having someone to enforce the law. Such is not the case at present, and it is the council's duty to see that the dog By-law is carried out to the full extent.

While here, Miss Larsen passed away so they delayed their return to Winnipeg until after the funeral last Friday.

Many old time Standard residents gathered to pay their last respects to this beloved pioneer resident of Standard, Rev. Bent Dinkler on Tuesday at the service at Nazareth Lutheran Church with interment following in Mountain View cemetery. Rev. Christensen was the officiating evangelist during the church service, expressed the feeling of those who were present and many others to whom Miss Larsen's memory will always be cherished.

Angie Pedegast and daughter Susan of Kamloops and Mr. and Mrs. Boudreau (Mrs. Boudreau) were and returned to Winnipeg at the Walter Hansen home.

Mrs. Dawson of Lethbridge is visiting her daughter Mrs. Cecil Hunter.

Mrs. Blaine Vallance and four children spent last week visiting Mr. and Mrs. Louis Nielsen.

Mrs. Slevin Sanderson entertained many friends last Saturday afternoon and evening to the occasion of her birthday. Skagford arrived home from a new Westminster holiday for the celebration and Carla received greetings from her daughter Bernice who was in Spain with one of the British troops. The Union Church Ladies Aid tea and plant sale was well attended and the strawberry shortcake much enjoyed. Mrs. Ingrid Jensen was the winner of the lovely coffee cake.

Our towns is bulging with trailers and every available nook and cranny is being used to accommodate the men working on the gas line. Standard is enjoying a stimulation boom.

Mr. and Mrs. Arthur Klemmensen of Calgary have a new baby girl. Mail arrived in Standard at 11 am Monday. Wednesday and Friday as before but leaves 6:30 minutes earlier 2:45 instead of 3:30 pm.

Harvey Cummins was one of the UGC agents chosen to go with a group of others from Alberta to visit the coast terminal at Vancouver. They left Sunday morning by train and would spend all day on Monday inspecting the terminal and Monday evening a banquet by the UGC. They will return Wednesday.

The children of Mr. and Mrs. Elmer Jensen found that their ref. rating for their children as part of their 4th training really paid dividends when they showed their calves at Gleichen last week and won several prizes. Jackie won two silver cups, Ellen Anne won a cup and Dallas was a pen.

Gleichen

Rev. and Mrs. Morrison motored to Medicine Hat Monday where they attended the remarkable sessions of the Alberta Conference of the United Church there. Later they will motor to Lethbridge to attend the Grand Chapter of the OES and hope to visit with their daughter Mrs. V. Brown and family of Milk River for a day.

Mr. and Mrs. K. Van Bavel (nee Ruth Sammel) of Yorkford are the proud parents of a baby son born May 30 in the Holy Cross Hospital, Calgary.

Some people pull the mark because they never pull the trigger. At least ten countries use the eagle as the symbol of supremacy.

IN MEMORIAM

In loving memory of our dear husband and father, Morris M. Jensen, who left us June 2, 1935. One from us his loving wife. And his pleasant cheerful way. A heart that goes so many friends in happy big days. Ever remembered by his wife Edith and family.

IN MEMORIAM

In loving memory of Andrew Brown, who passed away on June 4th, 1935. It is sad to walk the road alone. Instead of side by side. But to all there comes a moment. When the way of life divides. You gave us years of happiness. And then came sorrow and tears. But you left the beautiful memories. We will treasure throughout the years. Fondly remembered by your loving wife Rose.

CGIT Girls Hold Banquet For Mothers

On Thursday evening, May 21st, the Strathmore CGIT girls held their Mother and Daughter banquet. There were 30 seated at the banquet table. Josephine Chamberlain gave the words of welcome and following the banquet Elsie Wehman presented the toast to the Queen. Lynn Taylor presented the toast to the mothers and Mrs. Taylor replied.

The toast to the Church was proposed by Sharon Teare and Mrs. R. Teare gave the reply. Linda Warrack presented Carol McCallum, Joyce Koshowski, Joan Ferguson and Frances Chamberlain with bouquets for their efforts in serving tables, and Mrs. Helwegger was presented with a bouquet for her kindness. The various reports followed this with Gail Moon giving her report as senior president. Mrs. G. Watt, Intermediate Leader, gave her report. Messages to the girls were given by Mrs. Colwell, president of the WMS; Mrs. Wheeler, president of the Afternoon WA; Mrs. Hansen, president of the General WA; and Mrs. Voutler, president of the Evening WA. Miss Ellen Voutler, on behalf of the CGIT girls presented the leaders. Mrs. G. Watt, Mrs. L. Larson and Mrs. V. Moon, with lovely printed plaques in appreciation of their work during the year.

The girls presented a skit entitled "The Case of the Mutilated Middy." Following this a sing song under the leadership of Miss Upton was enjoyed by all. The evening was brought to a close by the singing of the hymns. Something for the girls and then the girls and guests formed a circle and sang Taps, and repeated the closing benediction.

Hussar And District
BY MRS. G. R.
Congratulations to Eugene Olsen and Wanda Adamson for winning the most points in their respective classes at the Hussar and District track meet in Standard.
The Jubilee Local Fashion Show was well attended on Wednesday. All admired the floral decorations which lent a very festive air to the occasion. Many pretty dresses and suits were modeled, while the Junior models wore dresses and sports outfits. The garments were supplied by Clara of Drumheller. Raffle tickets were sold on a gay red hammock and three chairs. Winners were: the hammock, Joe Nicholson of Carleton Place; Chairs, Mrs. P. Jensen, Mrs. L. Rouquet and Mrs. Clara Beaulieu. A number of attractive door prizes were also handed out to the lucky winners. The children of the Junior Mission Band gave a short program at their tea on Saturday, consisting of songs and choruses, and selections from the Sermon on the Mount.
Articles made by the girls in their handicraft classes were sold and realized over \$20. The children assisted by Mrs. Jensen, Mrs. Jensen and Mrs. Hoffmann served a very nice lunch.
The Hussar High School held its picnic in Calgary on Saturday and report a very fine time. Broomus and St. George's Island were visited. We hear that besides the buns, salad, etc. eight water melons were consumed.
Pastor Olsen went to Regina on Saturday to attend a meeting and Pastor Hougard of Calgary occupied the pulpit at Our Savior's Church on Sunday.
Charlene Olsen and Nancy Haller wrote music theory exams on Saturday.

Vote Social Credit

Progressive Conservatives. How progressive they are is still to be shown. Already we have serious unemployment, an increase of 25 million in our yearly debt charge, a deficit of a billion dollars. We are facing another cycle of higher taxes, increased borrowing and inflation.

You are now being asked to decide whether you want a government to administer your affairs who has through the years been able to manage your affairs so that Alberta has become the leader of all provinces in social services and in economic stability instead of being an almost bankrupt province as in 1933, or who you want one of the old line parties whose policies have failed in every province, even at Ottawa to come up with a policy to deal effectively with the problems that are a part of depression.

The Social Credit Anti recession program which is already underway is the biggest since ever attempted by any province and its benefits to all our people will be greater than any announced up to now. Voters can assure a continuation of our progress by voting for your Social Credit candidate on June 18.

Vote: George Ernest BELL
Sponsored by the Social Credit
Association of Gleichen Constituents.

On June 18 you will be deciding, in other words the voters who will choose your province's government of its 250 million assets for the next four years. Naturally at this time you are going to want to know what the government has done for you in the past four years. 24 percent of our total revenue goes to the federal government. The rest of our revenue is used for the following: Long range plans were made in 1938 and today we see the results that have placed Alberta in the lead in every important field that comes under our provincial jurisdiction.

It will be 24 years since the people of Alberta elected the first Social Credit government. Since then they have elected the Social Credit government five successive times. Because they feel we are on the right track. Long range plans were made in 1938 and today we see the results that have placed Alberta in the lead in every important field that comes under our provincial jurisdiction.

Here are some of the accomplishments of this government: We have reduced the debt from 187 million dollars to 29 million dollars. We have built up reserves of an amount nearly 400 million. We have cancelled over 850 million in interest on the provincial debt. We have abolished the following taxes: Social Service tax; wild lands tax; provincial education tax; the unwarranted income tax; the poll tax, the fuel oil tax on farm trucks and the amateur license. Our provincial debt is the lowest in Canada and the interest rate only 2.75 percent, the lowest in Canada.

It is being said by our opponents that we have had losses here; that we have received millions of dollars from oil exploration. Let us remember that this oil was during the 16 years of Liberal rule and 14 years under the UFA. It was the Social Credit party that brought oil exploration in a big way. It is being said by our opponents that because we have received so much revenue we should have given the municipalities more. That we have paid off our provincial debt and forced the municipalities further into debt. In order to that I would like to refer to the year 1937 when this government received more revenue than has ever been received in any single year. The total being 285 million dollars.

All of our municipalities are in a state of financial distress. A recent report showed that 112 municipalities are in financial distress. This is because the Liberal government failed to adopt policies to deal with the situation and was forced in 1937. They left a heritage of irretrievable debt. High taxation, and inflation. We now have a new party the

Progressive Conservatives. How progressive they are is still to be shown. Already we have serious unemployment, an increase of 25 million in our yearly debt charge, a deficit of a billion dollars. We are facing another cycle of higher taxes, increased borrowing and inflation.

You are now being asked to decide whether you want a government to administer your affairs who has through the years been able to manage your affairs so that Alberta has become the leader of all provinces in social services and in economic stability instead of being an almost bankrupt province as in 1933, or who you want one of the old line parties whose policies have failed in every province, even at Ottawa to come up with a policy to deal effectively with the problems that are a part of depression.

The Social Credit Anti recession program which is already underway is the biggest since ever attempted by any province and its benefits to all our people will be greater than any announced up to now. Voters can assure a continuation of our progress by voting for your Social Credit candidate on June 18.

Vote: George Ernest BELL
Sponsored by the Social Credit
Association of Gleichen Constituents.

The Carleton Place members, Mrs. H. Mrs. D. Page and Mrs. B. Wyndham served a special luncheon to close the evening. This concludes the meetings till Sept. roll call for the Sept. meeting will be a banner article.

"In Manitoba the entire cost of delivering electricity to farms is borne by the provincial government. In Saskatchewan a large proportion is borne by the provincial government. A Progressive Conservative Government in Alberta will bear 10 per cent of the capital cost of building up these farms that do not now have electric power. This will be less than \$400 or more than \$600 per farm. Those that now have power will receive a capital rebate spread over four years, starting next year. It will be not less than \$400 or more than \$600 per farm."

Cam Kirby, Leader, Alberta Progressive Conservative Party.

THIS IS PROGRESS YEAR

This year will go down in the record books as a "Progressive Year" for Strathmore. The long struggle for National Gas has been pronounced to be in this fall, and the town council have all but completed the irrigation system throughout the town. That is progress.

The irrigation system is possibly the best money invested by the town fathers since water and sewer-

age. It must be understood that this system will pay for its own way and that it will equidate itself in about eight years to the users during the "watering season." Besides beautifying the town, this irrigation water will save the taxpayers a lot of future money. Without this system, it would have been necessary to either drill more wells or bring water in from a nearby lake to keep up to the mark during the summer months.

Either way it would cost more than this existing system. The council must be congratulated and have off to Bill McNeil in particular who has spent many hours planning the system and working with the men during installation. We think that those who are enjoying the benefit of this water will agree that this money was invested wisely. We have enjoyed the water for a town twice the size of Strathmore.

Rosebud News
BY MRS. M. L.
Tragedy struck our little community for the sixth time in four months (Tuesday) afternoon. Eleven year old Johnny Marks was killed when a farm tractor overturned on the farm of L. S. Leach about eight miles southwest of Rosebud. His cousin, Tex Leach, is in the Drumheller hospital with bruised, lacerations and a broken ankle. The sincere sympathy of the community is extended to Mr. and Mrs. J. Marks and family. Mr. and Mrs. Leach and family; Mr. and Mrs. Glenn and family; Mrs. Beaulin in the loss of a son. The grandchild who was loved by all who knew him. Get well Tex.
Rev. Alan Wright, missionary on furlough visited with his aunt Mrs. Percy Good last weekend.
Mr. and Mrs. Milgate, Jr. motored out from Calgary Thursday. Mr. Milgate is 70 this week.
Mills Vans are bringing in barrels of tar, each weighing 600 lbs. Paper also for use in laying the pipeline is being brought in and stored in the old Murray garage.
An almost constant stream of trucks is now hauling pipes south from here. The inch of rain which fell Wednesday caught trucks and cars stranded all over the country as far south as Earl Kribs.
Mrs. Herz of Owen is visiting her daughter's family, the Fredricksons and becoming acquainted with her new granddaughters Twila Rose Marie.
Two representatives of the Dept. of Education were in town Thursday to appraise the local high school situation and met with some of the high school parents at 2 p.m. No action was taken as it was just an appraisal.
The Milgates formed part of a two carload team which moved to the Pleasant View Home in Yungabloom for an afternoon service last Sunday.
Ken and Ron played an instrumental duet on their sax and accordion and Mrs. Milgate accompanied the vocal numbers.
Congratulations to Mr. and Mrs. Peter Norstrom of Edmonton on the arrival of a little brother for Susan. Also the grandparents Mr. and Mrs. Walter Hyman with whom the children are staying while their parents enjoy a short holiday.
A good crowd attended the Farmers Day sports day sponsored by the Rosebud Lions Club. Rosebud won their first ball game against Standard by 10-8, and played Rosebud in the second game. A dance was held in the evening, at which the lucky draw for the calf went to Mr. A. Taubert.
Earl Kraben and his Cat were busy excavating for a Baptist Church manse on Friday. George's well outfit drilling a well there last week without encountering any quick sand which is a remarkable feat in this town.
Mr. and Mrs. A. Clark and Mr. and Mrs. Doug Campbell and Berney were reviewing acquaintances here Friday. Also Misses Sandra and Karen Christensen.

Strathmore Needs Golf

There is a piece of land just to bring the course up to par. New north of Strathmore that has been since 1952 that is the last year that this land was used actively for golfing and was of one-time use will be brought up to a point where the future nine-hole course in there will be many games of golf enjoyed yet this year, and by next year when we get an earlier start it will be something of which we can be proud.

The Turner Valley course has a membership of 500, most of which is from the city. On June first, new interest seems to be rising again and the drive is strong again and the drive is strong again and the drive is strong again.

EXECUTIVE MEETING OF ARENA ASSOCIATION HELD

At an executive meeting of the Strathmore and District Arena Association held Tuesday night, plans were made to proceed with preparing the rink for artificial ice.

Committees were set up into departments to handle roads and grounds to prepare the base for cement.

Fred Zarnick, who is in charge of the building committee, has had bids for installing an artificial ice rink. He will deal with these companies before any contracts are signed but according to new figures, the cost would run around the \$25 to 28 thousand mark. This does not include the current work of preparing the surface for cement. Volunteer labor will be used for laying the pipes, etc., as well.

Another bango will be held soon. A meeting will be called next week to discuss this matter.

This minister of agriculture
has pony-will travel far

This young lad is really going places. He knows the value of a pony — because he worked hard over the past year to buy this pony. He saved every penny and nickel by doing farm chores for his Dad.

While the Minister of Agriculture's budget at Ottawa runs into millions of dollars, he has to justify his expenditures down to the last cent.

His money comes through the Minister of Finance who gets it largely in taxes from Canadians such as you. When he spends more that he takes in, he must borrow from you ... or else create new money. The creation of new money is one factor that leads to inflation — which means your dollar buys less and less.

The government has been spending more than you have been paying in taxes. To narrow the gap between income and expenditures, new taxes have been imposed.

You can encourage the government to live within its income by asking only for those services you are willing to pay for with taxes. Tell your M.P. at Ottawa that since you are trying to save, you expect government to do the same.

You also help when you save more by means of life insurance, savings deposits, and the purchase of government bonds. Your savings help to create a SOUND dollar; and this, in turn, helps to create job security for you and more jobs for other Canadians.

A kitchen shower was held at the home of Miss Madeline Prowse in honor of Florence Thompson, a bride elect of July.

WILLFUL DAMAGE

Some people just don't appreciate what is being done for them. In the wetting room at the town swimming pool, considerable damage has been done. A big window has been broken and the corner divider between the concession booth and the wetting room proper has been deliberately cut with a knife from top to bottom as a jagged line and things have been thrown all over the floor.

Conduct such as this is not human. Many more of the town and district have worked long hours and donated much money to make this arena something of which to be proud, and this is the gratitude shown for their labors.

The Association is now in the process of putting in artificial turf, and it is up to everyone to make sure that things such as this are not done. The arena is yours, and if you know anything about this willful damage it is up to you to go forward and report it to town authorities or the president, Keith Borch.

What kind of driver has the most accidents? The rank beginners. The skilled but too daring youngsters? The older, over cautious driver?

If you picked any of these, you are wrong. The fact is that the so-called average driver has most of the accidents. As one of the country's top traffic safety experts said recently, "The real key to traffic safety is to be the fellow who sits behind the wheel, the fellow who understands his car can travel 50 or 60 miles an hour, whether in half a stop sign or hard through, whether his car will blow itself irreparable and safer into the traffic stream or create turmoil, confusion, and danger."

He goes on to say that although we like to think there is a special class of careless driver, flouting laws and enjoying dangerous stunts, this is not so. Actually, there are few habitual careless drivers; eliminating them wouldn't start to solve the whole problem.

What to do? First of all — realize YOU are the average driver, and practice safe driving YOURSELF all the time. Remember that you are The Other Fellow, The Other Fellow.

Some safe driving tips: Avoid over confidence, mindless distractions, hypnosis, unresponsive driving, poor mechanical condition of car, distractions while motoring. Don't be an average driver. It's not good enough by far.

Most tax increases in Canada in the last 10 years have been engendered by (1) defence costs or (2) increasing social security schemes.

EFFICIENT FEEDING AND LIVESTOCK MANAGEMENT

By Dr. Gustav Bohstedt
Executive Professor of Livestock Management
University of Wisconsin

Salt Prevents Abortions Caused by Weeds

It has been found that cattle that are starved for salt frequently resort to eating weeds to satisfy their strong craving for salt or anything that approximates the taste of salt. Quite a number of weeds contain large amounts of sodium and are known to cause abortions in cows.

To avoid abortions and other forms of seed poisoning, it is essential that your cattle and sheep or livestock on pasture have free access to all the salt they may want. This holds true regardless of the kind of pasture and in all periods of the growing season.

The Wisconsin Experiment Station last year reported that many abortions in calves occurred in areas where the cows were grazing on unimproved marshland pastures. The station workers found the abortions to be caused by the weeds which were red-rooted, certain species of palmaria, stinging nettle, and white and purple beets.

They found high in sodium and potassium content of abortion cases. Bull thistle, Canada thistle, burdock, hank, quack, pigweed and young plants of chickweed.

To confirm the cause of the abortions the Wisconsin workers used 2,4-D on a part of the pasture and left a similar part of the pasture as a control. Only one out of eight abortions on the treated pasture.

Hussar And District

BY MRS. C. R.
A farewell party in honor of Mr. and Mrs. B. Sandum was held at the Duck Lake community hall on June 20. Four of their married daughters were present with their husbands, Mr. and Mrs. L. Hall, Mr. and Mrs. L. Blake and Mr. and Mrs. W. Leonard of Calgary, and Mr. and Mrs. S. Dundas of Hussar. Miss Shirley Sandum came out from Calgary and Mr. and Mrs. B. Sandum from Gen. were present. The party was well attended by friends and neighbors from Densley and Hussar districts. They were presented with a lovely dinner basket recently.

Many of the farmers in the Duck Lake community have been busy turning cattle recently. A phone line has been installed in the vicinity of Kipsa and Isaac. Mr. and Mrs. Charlie Horn, come from Red Deer to visit Mr. and Mrs. G. Hein over the weekend. Mr. Hein's son had his age spot removed in an emergency operation on June 21 and remained in the hospital overnight. Mr. and Mrs. G. Hein have a baby son, born Wednesday in Bassano. Mr. Age Reinhold expects to leave the hospital very soon. Mr. and Mrs. Paul Reinhold and Mr. Reinhold's sister, come out from Calgary on Sunday.

A farewell party was held by Miss Harris class of pupils. Monday for their teacher, who will be teaching in Claresholm next fall. Mr. and Mrs. C. Reinhold returned from Sidney, Mont. on Wednesday, moving while Pastor and Mrs. Olsen arrived in the evening.

The Ladies Guild met in the church basement on June 24 and following a brief devotional period and a report on the convention, went to work packing clothing for the Canadian Lutheran World Relief. Four complete latrines were packed as well as a large amount of used clothing. Over two inches of rain fell on Friday and Saturday. Because of the road conditions Miss Barbara Armstrong's shower was postponed and the school picnic was put off till Monday afternoon and was to be held at the sports ground in Hussar. Most of the children were disappointed, but the rain was most welcome and long overdue. We hope for better luck with the picnic next year.

The Boy Scouts will attend Scout Camp at Bragg Creek from July 1 to 5.

Rosebud News

BY MRS M L

A Rosebud girl narrowly missed becoming election day. A few of the Rosebud children had gone down to the river after school to swim. The water was about four inches higher than usual and for some reason the older girls did not go swimming that afternoon. Presently a man, however, 12 year old Patry Riches persuaded a friend, 13 year old Barbara Watson, to carry her across the river on her shoulders. Coming back Patry lost her balance and both girls fell into the river. The water was about four feet deep. By the time Barbara had freed herself she was 100 or 150 yards from the shore. The 12 year old Ron Milgate rushed to help. The crew loading pipe for the gas line were working in a field nearby. Sixteen year old Bill Riches who had been watching the men at work rushed through the fence, dashed the 200 yards to the scene and plunged right in with his clothes on to effect a rescue. It was just in time for his sister had been up and down several times.

A number of cars, motorized by Kenner Lake near Three Hills on Saturday when the United Church held its annual Summer School picnic, and work bee of the camp site donated by the wife of the late Mr Kenner.

Alma Marie Watson, Barbara Watson and JoAnne Jorgensen took their music exams in Drumheller Friday afternoon.

The final meeting of the Rosebud IEBA for this term was held in the school auditorium Friday evening June 19th. During the business part of the meeting president Geo. Connelick presented the teachers with the three books, Birds of Alberta, for the classrooms. Each has been nicely autographed with suitable inscriptions by Dr and Mrs Rae Salt. Plans for the free community picnic were finalized. The president thanked everyone for their co-operation and called for nominations for a new executive. The new executive was returned for a second term of office. Mrs Charles Kirby, Jr. was elected to replace Mrs J. Grace as treasurer. Rev. Hutton, Rockyford Rosebud delegate to the IEBA convention in Vaux brought a very informative report.

Mr and Mrs Howard Hymas flew to Montreal June 25th to visit their daughter Alma for a few days. They will dine with the Queen and Prince Phillip at Government House July 1st. They expect to be back July 2nd. We all wish them a happy time, and are proud to have them represent the western farmer.

Miss Julia Polasek, taking a Lak Tech summer course toward a B. Sc. was home again last week and she says her path often crosses that of Miss Mervyn Louka, formerly of Rosebud who is training for a nurse at the General Hospital.

The Katenbach children who have been with their grandparents on "H. Green" farm, 1 mile west of Log Cabin, and Mrs A. Noy, returned to Rockyford last week.

We are glad to hear that Mr G. Nicklessen whose plane came into contact with a power wire while flying low spraying a field for weeds was not injured. The accident occurred nine miles from Cluny Monday.

ALBERTA'S Rural Electrification goes forward

FULL POWER AHEAD

Rural power lines now carry better farming

— and better living

— to more than 72 per cent of all Alberta farms.

Where power goes ... farm profit grows.

Power on the farm boosts its market value by more than the cost of the service installation. For power is the "wired hand" that sets a new high in farm efficiency. And power in the farm home means an unequalled standard of 20th century living!

Little wonder that rural electrification is spreading at increasing speed. At the start of 1959 no less than 72 per cent of Alberta's farms were being served with low cost power through local REAs.

To keep the power-flow coming, Calgary Power Ltd. maintains four and a half thousand miles of main transmission lines, plus three thousand miles of distribution lines to supply farmer-owned REA service. Calgary Power's overall facilities represent a multi-million dollar investment.

We're going forward ... FULL POWER AHEAD!

The power transmission lines of Calgary Power Ltd. were serving about 33,000 farms at January 1st, 1959 — an increase of 29,000 in 10 years.

This Small World

The world's top airline executives are spending much of their time together.

They are looking for one thing: First sign that a rival is going to become a competitor.

At least two major U.S. plane makers and one British have plans for production of new airliners that will hurdle the Atlantic in two hours. They will link Montreal to Vancouver in less than that.

And the betting is that with a little encouragement the first could be in service within seven years.

Most likely share of support would be a military contract; for a supersonic transport and a rail tanker.

MR. AND MRS. VANDERLUIJ ARE NOW CANADIANS

Mr. and Mrs. Albert Vanderluij of Strathmore, who came over from Holland in May of 1952, are now Canadians.

This was made official Monday morning when they had to report to the court house in Calgary.

Three of their five children were also born in Holland, but according to Albert, as soon as the official papers arrive from Ottawa, it is but a formality to change their citizenship.

The Vanderluijs who came from a place six miles south of Amsterdam, boarded a plane in May 1952. They landed in Montreal and travelled by train to Winnipeg where they stayed for 14 days before coming to Strathmore where they worked on the George Maunuel farm. In 1956, Albert accepted a position with the Town of Strathmore and has been with the town ever since.

The Vanderluijs who came from a place six miles south of Amsterdam, boarded a plane in May 1952. 200 Gather For MacLean Reunion

Well over 200 members of the MacLean clan, gathered for its first family reunion at Pine Lake on July 1st.

The family originated with the arrival from the Falkland Islands of the Archibald MacLean family at Nightingale in 1905. A brother Peter, settled at Basano and one of his sons settled at the Hard Hills, south of Hanna. Since then the family has spread across the province and are well represented in various other provinces and the United States.

Seniors present were Pete MacLean, who still operates the original homestead at Nightingale, Bill MacLean of Basano, Mrs. Belle Fredericks who farms at Nightingale, Mrs. Mary Longman who farms at Kathlamet, Jack MacLean of Kelsey, Mrs. Agnes Reid, out of Dummerston and now residing at Edmonton and Jack Bradley of Armstrong, B.C. who married one of the daughters.

The gathering was blessed with exceptionally fine weather. Mrs. Blanche Stewart of the Sandy Cove Hotel catered for the occasion, which was under the direction of J. D. MacLean of Kelsey, as Chairman and with Mrs. Lillian Fiddell of Red Deer as secretary.

The honours for travelling the greatest distance went to the members of the Bradley family, Mrs. Bill Bradley, formerly of Olds and now of Burlington, Ontario, arrived with her son and daughter, Mr. and Mrs. Norman Bradley of 9125, 124th St. Edmonton from New York in a private plane.

Others making the gathering and their son, Bill from Vancouver, was also in attendance.

To the longest family of MacLeans, High River and Edmonton, went the honours for 100 per cent attendance.

Mr. and Mrs. Alec Bauld of Kelsey represented the Hard Hills MacLeans.

One of the next reunion has not been finalised but everyone is looking forward to it.

Installation of officers took place at the regular meeting of the Strathmore Lions Club last Thursday night. Helman Woldum officiated.

The following is the new slate of officers: President, Myron Christensen; 1st vice-president, Roy Wheeler; 2nd vice-president, Bud Newton; 3rd vice-president, Harold Rasmussen; Treasurer, Earl Twister; Secretary, Bill Springthorpe and Treasurer, Len Larson.

Outgoing president, Bill Morgan thanked the club members and executive for the splendid co-operation he had received and called on everyone to give the new president, Myron Christensen the same consideration.

History was made at the meeting. The Tallwater Harold Rasmussen was fined to mark the first time anyone in that position has had to dig for a dime in the Strathmore Club. The charge was laid for refusing to take the second piece of pie to fine the tallwater, the complaint must be laid before the first of August and it must be passed unanimously. He got revenge however as he fined everyone present for making a nuisance of themselves.

The net profit of the Farmers Day Sports day was \$280.18 by Treasurer Len Larson.

The meeting decided that they would operate the concession at the Five Car Bingo which is to be held in Strathmore August 19th.

The secretary was instructed to

Secretary Joe Thomas was instructed to prepare a by-law allowing the town to buy McElroy home within the town limits.

Permission was granted by the Mayor to buy the lot directly west of his present lot for the purpose of building another house. It was noted that this lot could be used with a sewer.

Although official building permits were not signed, Paul Haggan and Robert Larson had started to the Mayor that they wanted to build houses.

It was claimed that the Calgary sewer l.d. is not giving the town proper service. One report stated that some residents of the town have had a power failure some times in the past month. This was attributed to the fact that to this company regarding this and to request that they place a sewer line in the town.

Councillor McNeill reported that there were over 100 users on the irrigation system, and that the whole town was served with water from a part of 6th street which was at present on their own system. Some residents of that street indicated that they wish to be included in the town water system.

C. Cocks was given permission to cut the grass in the park.

Mayor Giff reported that he had been in touch with government officials regarding construction of a new table near the highway in Strathmore and was told that they couldn't come in the town limits.

The irrigation rate was set at \$2.00 and there will be no freightage tax at least this year. It will come up for review again next year.

The hours of operation were set at from 10 to 12 in the morning and from 5 to 9 in the evening.

Council decided to grant the \$1000 from the highway to the King Edward Hotel. This will be done as soon as arrangements can be made.

Protection

...at your fingertips

Safety in the automobile is optional at 22 extra cost. No mechanical safety device can replace the protection of careful driving.
Last year, traffic accidents claimed the lives of more Canadians than ever before. Someone was injured every 8 minutes. A car was damaged every 48 seconds. Automobile insurance claims rose to more than \$150,000,000.

One result of this is higher automobile insurance rates — because what is paid out in claims must be brought in by premiums. But even more important is the fact that you hold your life, and the lives of others, in your hands when you get behind the wheel of a car.

Safety pays dividends... saves lives, helps to lower your insurance costs. Be Careful.

This minister of transport says:
"This end up, handle with care!"

The family minister of transport jokes as he lifts his young son into the car, but he is well aware that raising a growing child is no joke. It means watching family expenses with an eagle eye.

The annual expenditures of the Minister of Transport at Ottawa involve millions of dollars — and his department is only one of many.

This money comes through the Minister of Finance who gets it largely in taxes from Canadians such as you. When he spends more than he takes in, he must borrow from you... or the create new money. The creation of new money is one factor that leads to inflation — which means your dollar buys less and less.

The government has been spending more than you have been paying in taxes. To narrow the gap between income and expenditures, new taxes have been imposed.

You can encourage the government to live within its income by asking only for those services you are willing to pay for with taxes. Tell your M.P. at Ottawa that since you are trying to save, you expect government to do the same.

You also help when you save more by means of life insurance, savings deposits, and the purchase of government bonds. Your savings help to create a SOUND dollar; and in turn, helps to create job security for you and more jobs for other Canadians.

A SOUND DOLLAR MEANS A BETTER LIFE FOR YOU

call for
"CAL"

Here in the West most people DO "call for Cal." They like to drink deep of the refreshment that really quenches thirst. They like to savor the crisp, keen taste of a drink made with Nature's own pure rocky mountain spring water; they like to satisfy themselves with the horse-hoof-and-buffalo brand — the beverage that's first and still finest in the West.

Nothing will convince you of Calgary's quality like trying it . . . so soon — today perhaps — whether you're ordering by the bottle or by the case: Call for Cal!

Chevrolet out-braked the other leading imported cars tested by a wide, wide margin. Proof positive that you're far safer in Chevrolet! And Chevrolet's safety-brake system gives you money on replacement — but 45¢ longer!

Chancellor Notes

BY MRS. H. J.

We of the Chancellor district are very proud of our neighbor Raymond Jorgensen, who won 28 many prizes at the Calgary Exhibition. Raymond captured the grand champion steer; grand champion boar; 4 first prize ribbons; 1 second; 1 third; 1 fourth; and 2 fifths, with his entry of Landrace pigs. He also received a third prize ribbon for good housekeeping of his pens and cleanliness of many prizes at the Calgary Exhibition. This is the first time Ray has entered his stock in the Calgary Fair, but has won a third at the Royal Winter Fair in Toronto. Raymond has worked hard to keep his stock in first class shape and we all congratulate him. It is nice to see a small outfit win so many prizes. Hard work has paid off. Good luck in future! Ray and Mrs. Libby Clark were visitors in Duchesne on Sunday. Mrs. Clark had just returned from Calgary where she was visiting her mother Mrs. Sander.

Mr and Mrs Harold Baldwin and family visited Mr and Mrs Verne Hansen on Sunday. They brought Judy out for the day. She is working in Calgary for the summer.

Mr and Mrs Gordon Pedersen were guests of Mrs. B. Pedersen in Calgary Sunday.

Congratulations to Rodi Larsen on her birthday this week. Mr and Mrs Howard Christensen were down at Cranfoot, Saskatchewan and young Daryl, cut his foot. He had six stitches under the big toe. Hope that your recovery is quick.

THE STRATHMORE STANDARD

VOLUME 50 - No. 10 PRESS RUN - 1750 Strathmore, Alberta, July 23, 1939

LONGER HOURS FOR IRRIGATION

The Strathmore Irrigation System will now be operated by a 15 hp electric motor. It will be connected this week.

The diesel motor used at first is not satisfactory due to its running hot when used for long periods and it took up a lot of time turning it on and off four times a day.

The electric system according to Councilor Godfrey will be on a time clock and will operate from 9 a.m. to 9 p.m. daily. A centrifugal type pump will be used which will only pump the amount of water desired according to how many outlets are running. It will deliver 150 gallons per minute at a pressure of 70 pounds constantly regardless of how many services are in use.

This system will also serve as a fire protection. To give full pressure on the hydrants, all that is necessary to do is to close a valve which closes off the irrigation system. There is also connection in the allies on the irrigation system that will fit five hose if it is desirable to do so.

The diesel engine will be retained as used as a standby due to power or motor failure. It is connected up to the same.

A small irrigation system was installed to service ten houses in the subdivision last week as well.

Standard kept Basano a pale the same day. Basano stopped after seven innings in the first with a score of 13 to 4 on the board. Clark Christensen pitched this winner.

The game was ahead 9 to 1 in the last game, after five and a half innings of play and the game was called due to a weather. Harv and Frank played well. Miss one to Grant who also caught the other game.

Basano pounded four home runs during the day. They were hit by Collins and Gordon. Gest, Denzel and Dale Niles.

The last scheduled games will be played Sunday. Strathmore-Basano go to Basano and Strathmore-Juniors play Iricana at home.

The standings are now as follows: Standard 13, Iricana 12, Strathmore Seniors, Strathmore Juniors and Basano each have 10.

NO STRATHMORE TEAM THIS WEEK
There will be no team of The Strathmore Standard next week. We will be on our holidays. The office will also be closed.

Farm Safety Week

This week in National Farm Safety Week it should not be too difficult to find a farm accident. One hundred and fifty-eight farm accidents last year, and according to statistics, the toll will be higher this year. Only you can prevent it.

Don't depend on luck — Make sure your equipment is in safe operating condition. Make certain all guards and safety devices are in place. There is plenty of time, and by taking that time it could save lives and limbs.

There are many definite safety rules to follow, but the best preventive for farm accidents is common sense. Stay and think. Look for possibilities where an accident could happen then take the time to correct them.

Closed For Holidays

In an operation the size of the Strathmore Standard, it is not possible to have holiday during the summer unless we close the office. So following the pattern of many other papers of this size, we have chosen to close our doors next week. The office will be closed for the week of July 27th.

The fireman's hat is a symbol of protection. So is your fire insurance policy.

When fire strikes, often firemen are soon on their way, accepting risks themselves to protect your life and property. And when fire strikes, fire insurance steps in to offset disastrous financial loss.

Every week, some 1,400 fires break out across Canada. Companies writing fire insurance pay out more than one hundred million dollars annually in claims. And yet virtually all the fires which take the lives of more than 500 Canadians each year are preventable.

Fire insurance safeguards your property. But only you can guarantee against loss of life. Safety pays dividends... saves lives, helps to lower your insurance costs. Be Careful.

Electricity is Safe

If you use common sense.

"There is what may happen if you fail to use common sense."

COMMON SENSE RULES:

1. Employ a competent electrician to wire your home and farm buildings.
2. Use approved appliances, equipment and cords.
3. Never handle cords nor equipment with wet hands or while standing in wet places. Almost all places are wet enough to cause a ground for electricity. Wood and concrete floors have moisture in them.
4. Be familiar with directions for use of each piece of equipment—and operate it according to these directions.
5. Extension cords should not be run under rugs, over walls, nor around pipes or radiators, nor out-of-doors.
6. Always pull the plug—not the cord when disconnecting equipment.
7. Always replace a blown fuse with another of the same rating. Never use anything else as a substitute for a fuse.
8. Never touch exposed wires until you have turned off the power.
9. Call the nearest power office whenever your own service or the power line goes dead.
10. Always ground portable tools such as drills, hand saws, sanders, etc. before plugging in.
11. When moving lat machines or out-buildings, make certain there is ample room under all power lines.
12. Rain-proof best lamp installation should be of the best workmanship and material. Lamps should be suspended by chain or heavy wire, never by the cord. They should have heat resistant porcelain receptacles. Lamps should be protected from moisture and mechanical injury by a reflector top and hoop style guard underneath.

WHEN YOU CHANGE A FUSE

Note: Use 15 ampere fuse for ordinary household or lighting circuits (15A, 15W). 30 ampere fuse can be used with No. 12 wire.

Curfew May Be Imposed

The big problem confronting the Strathmore Police at present is the numerous reports of wild damage being done in towns by young children.

At the council meeting Tuesday night the problem was discussed at length with the Town Policemen Roy Bochek in attendance, and they decided that if the situation is not corrected after it is given publicity in the paper, they will take immediate steps to keep the children off the streets by means of a curfew.

The police have received many complaints from citizens of late of youths pulling garden potatoes and other vegetables up by the roots, knocking flowers over and the like.

In addition to this, there were reports of children out on the streets 10 to 12 p.m. during in and out of parked cars on Saturday nights endangering their own lives.

Council is appealing to the parents of these children to co-operate with them and to get their children off the streets at a reasonable hour or immediate action will be taken to put a curfew in effect. No time or age limit was decided upon at this meeting.

Const. Simmonds and his wife Lorna, who have moved to Strathmore, will be moving to Strathmore in the near future.

Gaylon Robison Dies Suddenly

Gaylon Robison, 39, Strathmore businessman and ardent sportsman, died in the General Hospital early Saturday morning, July 27, after a brief illness. He was taken to the hospital Thursday night after suffering from a stroke. Mr. Robison operated the Imperial Oil business and Insurance Agency with his brother Gerry.

Robison will be missed by many of the youngsters in hockey circles. He was secretary-treasurer of the Strathmore Hockey Association and showed great interest at all times for the furtherance of good sport. His untimely death leaves working with the boys will be felt by the boys and their parents alike.

He was always interested in horses and was an active member of the local rodeo association, and showed greatly with the Jackpot Rodeo held in the district.

Born in Cardston, he moved to Glenora with his family in 1929 when they went to Queenstown where his father operated an oil agency until 1935, when they came to Strathmore.

After spending four years in the RCAF Gaylon was employed with Imperial Oil in Lethbridge for a short time before coming back to Strathmore to set up an Insurance Agency and to work in the oil business with his father. He was predeceased by his father in 1950.

Sympathy of the district is extended to the survivors. His wife JoJo, his mother Mrs. Jennie Robison, his brother Gerald, all of Strathmore and to his sister Mrs. of Calgary.

Services were held at Jacques Funeral Chapel, Tuesday, July 28, at 11 a.m. Rev. Richard Upson officiating and interment was in Queen's Park Cemetery.

Protection

...at your fingertips

The first aid kit and insurance both have important roles to play in the event of accidents.

Each year, the companies writing accident and sickness insurance in Canada pay out more than sixty million dollars (not including auto-mobil accident costs) to policyholders — a mighty bulwark against unusual financial strain.

It is far better, though, to prevent accidents and mishaps, rather than to deal with the treatment of their serious — and often tragic — after-effects. That is why insurance companies are constantly seeking ways to meet Canada's mounting accident toll.

Safety pays dividends... saves lives, helps to lower your insurance costs. Be Careful.

SAFE TO SWATH
GRASS EARLY
The late Swift Current Ex-
perimental Farm over a five year
period show that barley may be
cut at a water moisture of 40 per
cent and wheat at 35 per cent with
out loss of bushel weight or yield.
Barley reached 40 per cent moisture
in 11 days before fit for
straight combining and wheat sev-
en to nine days, whereas most
crops are left for swathing until
uniformly ripe only a few days
before dry enough for combining.
The extra expense of swathing a
good crop is justified by giving
some protection from hail, wind,
insects or frost. Thus, it is good
business to take full advantage of
this protection in our country of a
short harvest season, by swathing
early. Shell out enough unripe
grain for a moisture test, and you
will probably be surprised how
soon it arrives at the 35 to 40 per
cent moisture stage.

WEDDING

LARSEN — ARMSTRONG
At 3 p.m. on July 18 at Our
Savior's Community Lutheran
Church, Husar, Barbara Marie
Armstrong of Husar and Nels
Christian Larsen of Malpassee
were united in marriage by Pastor
F. Olson.
The bride was escorted up the
aisle by her father, Mr. Leonard
Armstrong and was preceded by
two bridesmaids and two daisy
flower girls. The bridal gown was
floor length and made of white
nylon lace and set with a long
sleeved bodice, and worn a white
sash above on the full skirt alar-
tered with bands of lace. A chapel
veil fell from a flowered crown
and the bridal bouquet was
of red roses with white and pale
blue daisies.
The flower girls were the bride-
groom's niece, Anne Iversen of
Calgary and the bride's sister De-
bbie. Janet Armstrong, sister of the
bride and Emily Slenko of Cal-
gary, her cousin were the bride's
attendants.
The groom's brother Robert
Larsen was best man and Gordon
and Melvin Stewart were ushers.
During the signing of the regis-
ter Miss Geraldine Slenko, the
bride's cousin sang "A Wedding
Prayer," accompanied by Miss May
Nielsen on the organ.
Many out of town guests were
present from Sundre, Drumheller,
and Calgary.
Over 200 guests attended the re-
ception at the community hall,
where lunch was served in the
evening. Miss Doreen Armstrong
looked after the guest book.
Two of the bride's grandparents
Mr. and Mrs. Mike Slenko were
present, while her other grand-
parents, Mr. and Mrs. Chris Ar-
mstrong were unable to come, but
sent beautiful bouquets of pink
and white peonies for the church
and hall.
For going away the bride wore a
tan suit with a hat and gloves and
matching corsage of apricot color.
The happy couple plan to live in
Calgary.

FROM ALBERTA'S "UNKNOWN COUNTRY!"

New multi-million dollar Brazeau River Project . . . another forward
step in Calgary Power's long-range planning to maintain LOW-COST POWER

CALGARY POWER LTD. has a multi-million dollar belief in
Alberta's progress! While serving the province today, the com-
pany plans and builds ahead to maintain efficient, low-cost
service tomorrow.

Latest news of Calgary Power's long-range expansion program
comes from one of the most isolated regions of Alberta — the
lower reaches of the Brazeau River. In this virtually unknown
area of dense forest and muskeg, work is under way on a new
power project that will benefit, in particular, residential
consumers.

When completed in 1964 this important hydro project
will complement the 144,000-KW base-load thermal plant at
Wabamun. The new powerhouse and dam (towering two hundred
and thirty feet above the bedrock of the river) are designed for
economical peak-load power. From the "big bend" of the Brazeau
will flow low-cost, dependable power for the "busy periods"
when it's needed most.

Watch for further reports on the Brazeau Development — one
more example of constant forward-planning at Calgary Power
Ltd.

The Strathmore Standard

The Strathmore Standard, established in 1909 is a member of the Canadian Weekly Newspapers Association and is published every Thursday at The Standard Office, Strathmore, by Keith Bernier, Editor and Publisher. Member of the Audit Bureau of Circulation. Audited as second class mail. Post Office Department, Ottawa, Canada. Entering second time 1,600 homes in a thriving district each week.

Too Much Destruction

On another page in this paper there is a story of a number of farmers darning their tires and trucks to haul gravel, sand and pebbles to prepare the arena for artificial ice. This is only one example of community cooperation; there has been many in this town in an effort to make the town a better place to live in for our children.

The appreciation shown on the part of what we believe to be a minority of these youngsters has been in the form of destruction. Two windows have been broken in the waiting room of the arena which will cost possibly \$100.00 to replace. One outside door has been knocked off its hinges. The door at the lunch counter has been opened jaggedly with a knife and a good effort to break up the seats has been started.

Some willing workers have the gift course in shape and plan. These same men offer the course free to school children and it will take hundreds of dollars to replace windows, doors, etc. in the club house. This building was fairly good shape two years ago, but now it is a disgrace.

Gardens have been torn out by the roots. Some people depend on these vegetables to sell them during the winter, but apparently some prefer to see them go hungry.

The only reason the adults of the community do not stop working for the young people in the district is because they know that it is only a few responsible for these acts, but it would not surprise us if this destruction continues until they will throw up their hands in despair.

It is up to us all to assist the police in catching these responsible for the needless damage. In the main we feel that we have a very fine crowd of young people in the gift course in shape and plan. These same men offer the course free to school children and it will take hundreds of dollars to replace windows, doors, etc. in the club house. Gardens have been torn out by the roots. Some people depend on these vegetables to sell them during the winter, but apparently some prefer to see them go hungry.

The only reason the adults of the community do not stop working for the young people in the district is because they know that it is only a few responsible for these acts, but it would not surprise us if this destruction continues until they will throw up their hands in despair.

It is up to us all to assist the police in catching these responsible for the needless damage. In the main we feel that we have a very fine crowd of young people in the gift course in shape and plan. These same men offer the course free to school children and it will take hundreds of dollars to replace windows, doors, etc. in the club house. This building was fairly good shape two years ago, but now it is a disgrace.

Jim Mallick arrived home over the weekend after a long stay in the General Hospital. Visiting Father Gibbons for about ten days are his relatives from Chicago, Mr. and Mrs. Gene Brown.

For some people a bee or a wasp sting can be more dangerous than a rattlesnake bite.

Stung three times by wasps while pushing a lawn mower, the following is his own description of his reaction. It was so weak that I couldn't stand. I sank down into my chair. My heart was pounding.

Widely angry and bold were erupting on my back and shoulders; my face was crimson and breathing as rapidly as I could barely see out of one eye. Waves of nausea overwhelmed me. Luckily a physician called in and was able to administer shots of adrenaline, anti-histamine and a cortisone type drug and within a half an hour Mr. Wiley was well enough to ask the doctor what had caused such a reaction.

He was astounded to discover that some people become increasingly sensitive to stings to the extent that they suffer acute and sometimes fatal reactions. Fortunately it now seems clear that a fatal sting only follows on a previous severe reaction.

And Mr. Wiley's advice to anyone who has suffered such a severe reaction is to have your own or assemble an emergency kit that should be kept within reach during warm weather months. Be sure also that you and the members of your family are thoroughly drilled on how to inject the drugs.

It's From Rockyford

By Miss D.V.

Mr. and Mrs. A. Lehman and family of New York City are week long visitors of Mr. Lehman's brother, Dean Lehman of St. Rita's parish.

On Monday, August 3 a farewell party in honor of Mr. and Mrs. Ken Mitchell was held in the Rockyford community hall. There was a short program after which Red Henge presented the Mitchells with a small gift from the Masons.

Stan Pross acting as chairman also presented them with a gift in behalf of the Rockyford Lions Club and Mayor Voller presented a gift on behalf of the community.

Both Mr. and Mrs. Mitchell expressed their thanks and hoped that their many friends would come and visit them in their new home in Vancouver where Mr. Mitchell will be working as pharmacist in the Shagbushway Military Hospital.

Mr. Mitchell left Rockyford on Tuesday morning but Mrs. Mitchell will stay as until the middle of Sept. The community will miss them both as they were active in all community projects as well as managing the local Retail Drug Store.

Bill Reid of Strathmore was the lucky winner of the steer raffled off by the Rockyford Hall Board on the Sports Day and Jackson Jones recently held in Rockyford. Mr. and Mrs. Bill Benstead are presently vacationing in the U.S.

Mr. and Mrs. A. E. Voller entertained Dean Lehman and Mr. and Mrs. A. Lehman and family last Thursday evening.

Diane, Donna and Corinne Dahm of Shagbush are visiting their grandparents Mrs. Ardie Katterhagen for a few days.

Garry Tremblay of Calgary is visiting his grandparents Mr. and Mrs. Mike Hesterman while his mother is in the Holy Cross hospital with Garry's new baby sister.

Mr. and Mrs. A. E. Voller, Darlene and Lucille left Saturday for a holiday in Vancouver, Seattle and Victoria.

Mr. and Mrs. Tony Pearson are holidaying in Victoria. Members of the Firing Farmers of Alberta, their wives and families enjoyed the Fifth picnic and executive meeting held at the farm of Firing Farmer Harvey Katterhagen August 5. Planes flew in from several different points in Alberta including Milk River, Nemesis, Canby, Lehighridge, Milo, Blackie, Arrowwood and Clyde.

Lon and Gloria Griffiths spent a few days last week visiting their parents in Rockyford. Both girls are working in Edmonton.

Harvey Katterhagen flew to Calgary Saturday where he will attend a Firing Farmers convention.

Rockford Women's Golf team was defeated 18 to 6 by Drumheller in Friday night in Rockyford.

The Rockyford Knights of Columbus held their annual sports day with a good attendance. The inter-school football tournament was played off with Strathmore winning over Rockyford in the first game and Belcher winning over Drumheller in the second game. The final game was played off with Belcher winning the trophy over Strathmore.

WEDDING
BOWERMAN — STEWART
Aprel's wedding was solemnized at Brooks United Church on August 1st at 3 p.m. when Mary Joyce, daughter of Mr. and Mrs. W. Stewart, of Cum., became the bride of Roder Kent, son of Mr. and Mrs. Bowerman of Twifield with Rev. Morsen officiating.

Escorted down the aisle on the arm of her father, the bride was attired in a floor length gown of Swiss embroidered organza, with a sweetheart neckline decorated with sequins, tiny point sleeves, empire waistline, and princess style skirt. Her chapel length veil was held in place with a crown decorated with sequins and she carried sweet-smelling flowers.

The bridesmaid was Madeline Brown. The best man was Ken Abas of Calgary. Ushers were Lovell Stewart.

WEDDING

KELLAND — MILLER
Brides of summer flowers provided an attractive background in the Sacred Heart Church, Strathmore for the recent wedding of Miss Phylis Ann (Mickey) Miller and Mr. Robert Kelland.
The double ring ceremony was performed by Rev. Father Gilmore for the daughter of Mr. and Mrs. M. J. Miller of Port Smith, N.W.T., and the son of Mr. and Mrs. O. P. Kelland of St. John's Nfld.
The bride, given in marriage by her father, came down the aisle to the strains of Lovegrove's wedding march. She looked lovely in a gown of white Chantilly lace and nylon net, styled with a full skirt and long sleeves. A crown of seed pearls and aquinas held the bride's chapel veil, polished over a tangerine veil of net. The carriage was a bouquet of red roses.
Miss Diane Cole, cousin of the bride was bridesmaid.
Mr. Teddie McNeill of Port Smith, N.W.T., attended the groom.
After a short honeymoon in Banff and Jasper the young couple will fly to Fort Smith where they will make their home.

SEEDTIME and HARVEST

By F. J. GORDON, District Director, Live Eastern Farm Service, Hussar, Alberta.

Practiced the following method: (1) to educate farm people to work and live safely through the whole year. In plain words, to make farmers and their families more "safety-conscious".

The Fall is heavy on the average about 200 Canadian live there every year as a result of farm accidents. Many many more are seriously injured and many are crippled for life. In Alberta and Saskatchewan alone, in 1935, no less than 272 farm accidents resulted in loss of life. In Alberta and Saskatchewan alone, in 1935, no less than 2,500 farm people suffered injuries which necessitated hospital treatment.

Care and More Care What must be done to reduce the high toll in lives, injuries and property damage caused by accidents on the farm each year? Well, hazards loom large on every farm. Every farmer should, therefore, recognize the importance of making safety a habit — a good habit. Each adult farm person must assume personal responsibility, not only for saving and living safely themselves, but for teaching and setting the idea of safety to children. It is also essential that each of us support our provincial and local officials as they seek to strengthen and enforce our farm safety programs.

Prevention. One of the basic rules for farm safety is prevention. Remove all possible hazards on your farm today — tomorrow may be too late. And every day during the present harvesting season, plan on doing every job on your farm the safe way. After all, safety is in your hands. Think Safety, Act Safely, and Live Safe.

Mr. and Mrs. Bert Maclean are in Lethbridge where Mr. Maclean will receive medical treatment.

Many Hussar and district people were in Bassano Tuesday for the opening of the fine new hospital. They were happy to greet Mr. and Mrs. Scott, both looking very well, who came up from Ottawa for this very special occasion.

Chir Robertson, a Cambridge Corp. Drilling Co. employee is a patient in the hospital and will probably be there for some time, as he was badly injured in an accident at the well site on the John Blankenship farm.

Standard Interests

BY MISS F. D. K.

The Maurice Devos family are now happily settled in their home at New York, recently completed by the Post Elevator Co. for their Standard grain buyer and his family.

At a baptismal service at the Sunday morning church service, Randall Bredt, the infant son of Mr. and Mrs. Bredt, was baptized and the baby son of Mr. and Mrs. Stanley Rasmussen was named Michael. Stanley, the Best Dumber officiated.

Mr. and Mrs. Norman Bragg and family returned Saturday after spending several days in Idaho and later in Nelson, B. C. where Mr. Bragg attended a teachers work shop, put on by the BC Teachers' Federation as official observer for the Alberta Teachers' Federation.

School opens in Standard on Sept. 1st for registration of students which will require just a half day, with no school in the afternoon, to allow the teachers sufficient time to get their classes arranged. Adjustments made owing to the many changes in the school building this fall, and because some of the new classrooms will not be ready by Sept. 1st. There is a list of Standard teachers on another page in this paper.

Able Seaman Gordon Kimmert is home on a ten day leave before returning to duty on the Destroyer St. Laurent at Esquimaux. On Sunday the Kimmert family gathered at the home of Mr. and Mrs. Bill Kimmert at Nightingale to celebrate Gordon's birthday.

Mr. and Mrs. Jervais are occupying the Long Beach seashore and Mr. and Mrs. Tiverton will be living in Mrs. George Polster's home.

The Harry Lawless home recently purchased by Ole Kildal has received a fresh coat of paint which has greatly improved its appearance. Mr. and Mrs. Pihlak expect to become residents of our village this fall.

The Marshall Eyr family are on a California holiday and will not return until Sunday, August 31st.

Gus Lee returned to Calgary with the Jensen family last Sunday to spend a few days in the city. We regret to report that Mrs. Lee's return home has been delayed due to a back injury in a fall at a summer resort in Ontario.

The Everson Bros. are busy engaged in building a new three bedroom bungalow for the UGG on a corner lot next to the Mrs. Hild residence. The Cummings family are eagerly anticipating a move into their new home.

The Knowltons have returned home after a month's holiday here and there with the last week spent at Great Falls and other Montana spots.

HIGHLIGHTS OF OUR FIVE CAR SINGO

As Seen At The Ticket Office—
 What a night. Rain and more
 rain. Were we ever worried. Only
 750 tickets sold up to 8 o'clock.
 But after that 3,000 sold in 25
 minutes. How do you like that?
 Wouldn't you like to be a ticket
 seller at one of our Five Car Singo
 on a wet night with your ticket
 book looking good?

One wag said, two tickets, and
 presented a \$1,000 bill. Have you
 ever tried to make \$890 change in
 \$10 and \$20 bills with it pouring
 rain and a long line facing you
 and impatient. Wouldn't advise
 you to try it. And to learn he had
 a \$10 bill in his pocket all the time.
 What a life.

Tickets were purchased with ev-
 erything negotiable Pennies, sil-
 ver salore, cartwheels. American
 money? Canadian and American
 Travellers Cheques, Grain Tickets,
 Cream Tickets, Egg Tickets, Fam-
 ily Allowance Cheques, Personal
 Cheques, Money Orders. We were
 glad to have them. Hope they will
 be there next year.

Our Extra Card Sellers are the
 best. They have them all beat.
 Well organized and alert. Over 75
 per cent purchased extra cards.
 That takes some selling too.

Workers who prepare for the
 Singo put in long hours. In some
 cases it is heavy work preparing
 the arena. But no complaints. The
 secretary works for the Singo for
 about a week. We often wonder
 what happens to his own work.

One lady from Calgary said she
 had threatened to come to one of
 our Five Car Singos for some
 time and this was the night she
 had to choose. No coat, no rubbers,
 no hat! She was soaked. Another
 lady in the lineup beside her came
 prepared for the rain and laughed.
 She had got caught in the wet in a
 previous Singo and consoling the
 one without rubbers, etc. by telling
 her she had lost her shoes and
 stockings, so up to that time the
 one without rubbers, etc., wasn't
 too badly off. Needless to say "I
 didn't go down very well."

One small boy came back to the
 ticket after buying his ticket and
 wanted to know if he could have
 his money back if he didn't win a
 car. He was serious.

A successful Singo, but a wet
 one is more than one for some
 of our visitors. Hope they
 came back next year.

Last of public school teachers were in last week's issue.

Mr and Mrs Jim Clark and family formerly of Edmonton are living in Severd, Christmas's house. Mr Clark is the new district manager of the Calgary Power in Rockford.

President of the Rockford Lions Club, Barney Dyer, vice president, Fritz Hietelocher, chap, District Governor Charlie Chant, and chairman Carl Gerritsen and Stan Harry attended a Lions meeting in Bassano last Sunday. Other Lions Clubs represented were: Husar, Brooks and Beaver.

George Jubinville who has been working with the Calgary Power in Rockford for the past few months is now working in Banff where he will be married Sept. 5. Thelma and Thelma Linder of Calgary spent a few days last week visiting their grandparents Mr and Mrs Irvin Katerhagen.

Dennis Kothoff who attended the United Nations Week at the Banff School of Fine Arts returned home last Saturday.

I would like to thank all the readers of the Rockford News who contributed news during the past year to help make the column a success. I shall be attending the U. of A. in Calgary and sincerely hope that you will continue to place in your news to your new Rockford correspondent Mrs Ron Kernack at 64.

EDITORS NOTE—
Thank you Darlene for a job well done. It is nice to know that you are planning on going forward in the field of Journalism, as there is always room for good writers as we are sure you are going to be. Good luck Darlene, and on behalf of the Strathmore Standard and all your readers we wish to thank you for an enjoyable column.

At the same time we would like to welcome Mrs Ron R. Kernack to the fold. We are sure she will do a fine job.

Hussar And District
BY MRS C. R.
Miss Helen Sanders spent a month in Vancouver, Wash., with her great aunt and uncle. Mr and Mrs Elmer Douglas, David and Bentley have moved back to B. C. and the coffee shop has been taken over by Mr. Hammar of Bassano.
Mr Stewart Williams spent some time in the hospital with infection in his hand, but has now returned home.

Little Karen Selgeim celebrated her third birthday on Sunday with a party. Guests included Mr and Mrs Alfie Johnson and boys; Mr and Mrs Carter and family; Mrs Sanden and children and Mr and Mrs Don Brown.

We hope it will soon be better. Mr. John Martin was still in the hospital at last reports but was to have X-rays again on Friday to determine the condition of the cracked vertebra. His map, one of early Rosebud proper, and photo of early Drumheller have drawn much interest, especially among museum folk. He has also been interviewed by Bill Cameron of the Calgary Herald.

We are sorry to report the passing of an early writer of Rosebud district. Mr. Ral. (Stella) Brunner at the age of 83. Mr. and Mrs. Brunner and a son Dale came here from the U.S. about 1914 and joined southeast of town on the grades. In 1918, when they retired to Drumheller in 1946 they moved to Porterville, B.C. Mr. Brunner predeceased her by several years and she has been in a nursing home for the past year or so. We extend our sympathy to her son Dale and family, as well as to her many friends in Drumheller named in the hospital until Sale and district.

The Strathmore Standard

The Strathmore Standard, established in 1909 as a member of the Canadian Weekly Newspapers Association and is published every Thursday at The Standard Office, Strathmore, by Keith Bickel, Editor and Publisher. Member of the Audit Bureau of Circulations. Published as second class under Post Office Department, Ottawa, Canada. Extraordinary more than 1,600 homes in a thriving district each week.

Natural Gas Is Here

Natural Gas was turned on in Strathmore, Sept. 9, 1959. Two years ago four days previous to that date, the Strathmore Standard contacted Mr. Bruce Wilson, vice-president of Canadian Western Natural Gas Co., about the possibility of serving Strathmore with natural gas. This phone call came to be a result of a conversation with Mr. H. Holman, owner of a cup of coffee one morning when he stated that he had been in touch with gas officials regarding the matter and he felt that it should be followed up.

Since that time, much has transpired. Many letters and comments have passed back and forth between the Gas Company and the Town office until finally the people were given an opportunity to vote on it. They answered wisely, with a Yes by an overwhelming majority. Many towns have experienced steady growth since natural gas was added to their utility services. A gas company official cited one instance of a town with a population of nearly 2000 have added 40 to 50 services a year since installation four years ago. We predict

\$27,500.

M. P. Reports

Farm Credit Bill—Continued.

(a) Loans may be made on the combined security of land, buildings, livestock and equipment, up to 75 per cent of the total appraised value, or to a maximum of \$27,500.

(b) The Corporation may not make supervised loans if the applicant is 45 years of age or over.

(c) Repayment of the portion of the loan based on the security of chattels must be completed within the first ten years, but the portion based on the security of the land may be spread over the full 30 year period.

WEDDING

COUPLE WED IN PINCHER CREEK

Man and wife (gladly) provided the setting at the Pincher Creek United Church recently for the marriage of Caroline Anne Borden to Victor Morgan Johnson. The bride is the daughter of Mr. and Mrs. W. J. Borden of Pincher Creek and the groom is the son of Mr. and Mrs. E. Johnson of Gleichen. Rev. Wellington Dorman performed the wedding ceremony.

Given in marriage by her father, the bride wore a floor length gown of silk organza and chamois lace, featuring a Sabrina neckline embroidered with seed pearls and mother of pearl sequins with silk point sleeves. The bouffant skirt was draped up in front with a lace modulation showing the underkirt of lace. A fingertip illusion net veil masked from a tulle with mother of pearl sequins and seed pearls. The bride's only jewellery was pearl earrings, gift of the groom. She carried a White Bible, topped with a corsage of red roses. Streamers of satin ribbon entwined with red roses.

Miss Irene Hocking, maid of honor, Miss Gert Jensen and Miss Marie Phillips were bridesmaids. Flower girl was Miss Theresa Wolfstake.

Mr. John Jensen acted as his brother's best man while Mr. Merrill Laycraft and Mr. Ernest

and the guests were ushered by Mr. Robert Hocking of Pincher Creek and Mr. Roger Hocking of Gleichen. At the reception held on the lawn at Edgewood Ranch, home of the bride's parents, Mr. Fred Halliwell of Taber provided the toast to the bride.

For her honeymoon trip, Mrs. Johnson changed to a beige brocade ensemble with a three quarter length coat. Accessories of sparkle rust and a corsage of pink sweet peas. The room complemented her outfit. The young couple will make their home in Medicine Hat.

Canada's deficit from current transactions in goods and services with other countries was \$1.1 million in 1958 compared to \$400 million in 1957.

Two new teachers were introduced to the parents at a Home and School tea on Wednesday afternoon Sept. 2. The guests at the high school were beautifully decorated for the occasion with bouquets of Dahlias, Gladioli and other flowers. Mrs. Bell and Mrs. Blake played the tea and coffee. Mrs. Bell, president of the HSA, greeted the visitors and called on the principal Mr. Corvick to introduce the teachers. Members were glad to welcome back so many teachers. Only one replacement was made necessary. Mrs. Kinner is taking Miss Harris' place and a third teacher has been added to the staff. Mr. Robert Douglas, Mr. M. Holmes, Wheatland School Supt. and also present. The first HSA meeting will be on Oct. 7 at 8 p.m. when the awards will be made for highest standing in Grade IX in the exams in June for 1958 and 1959. Mrs. Sanden and Mrs. Christensen reported on their trip to the Old Farm House and other places which they both enjoyed. They received much helpful information which they hope to pass on to the members. The next meeting will be at Mrs. W. Anderson's Oct. 1st. Many young people were at home for the Labor Day weekend, and attended the morning service at Our Savior's Church.

Rain on Sunday morning stopped harvest operations, which had started in the Hussar district.

Halifax To Strathmore In Ninety Four Days

It took Guy Macchia 94 days to walk from Halifax to Strathmore. A native of Venice, Italy, he has been employed as a shipper in Toronto for the last four years. He started out on foot from Halifax May 1st because he was bored with Hog Town and his job, to gather material for a book he plans to write entitled "From The Atlantic to the Pacific". He arrived in Strathmore on Sunday at 5 p.m. pulling a small wagon filled with the essentials needed for eating and sleeping. He travels 40 miles a day at the rate of five miles per hour and keeps on a strict eating and sleeping schedule. He camps out each night and sleeps in a sleeping bag, rain or shine.

The rain no longer bothers him, he has become accustomed to it as he has raised 25 days out of the 94 he has been on his journey.

When asked if he was married, he replied No, but I have had six proposals of marriage since I left Halifax, from girls along the way. He guards a small bottle containing water taken from the Atlantic Ocean, with his life. While walking along he carries it in his hand with a string secured to the neck and tied to his finger. He has had many offers to purchase the water as well as some wishing to drink it. He is undecided what to do with it when he reaches his destination at Vancouver. He may offer it to a museum or merely pour it into the Pacific ocean.

He has won out three pairs of shoes and three wagons since his start from Halifax. He is being sponsored by a shoe manufacturing company who pays for his equipment and road expenses.

The practice has been monotonous, he said, and looks forward to getting into more scenic country. The mountains did not seem to worry him.

While in Strathmore he had a bottle of pop and a dan of ice cream, compliments of Claude L. Service. He refused supper as he wanted to reach Langdon Corner as soon as possible where he camped out that night.

Shortly after reaching Vancouver, he plans to fly back to Montreal where he has accepted a challenge issued by a former marathon walking champion of that city.

Former Gleichen Councillor Dies

Thomas Harry Beach, 79, of Gleichen, died Saturday at the Basano hospital. Born in London, Ont., he came to Kamloops, B.C. in 1903, moving to Gleichen in 1908, where he operated a saddlery and implement business, and dealt with auctioneering as well as farming. He retired in 1949. He was one of the original members of the Alberta Wheat Pool, and earlier in his life was well known as a polo player and racer of pacing horses. He was on the Gleichen Town Council and an enthusiastic promoter of curling, hockey, baseball and local sports.

He was a member of the Gleichen Lodge No. 38 AF & AM, Royal Arch Masons and the Alstar Temple. He is survived by his wife, Gertrude of Gleichen; one daughter, Mrs. Ralph (Kathleen) Harris of Regina; and two sons, Hugh H. of New York City, and Cpl. Pat Beach of the RCMP, Consul, Sask. and five grandchildren.

This minister of northern affairs says:
"It's in the bag!"

What's in the bag? A loaf of bread — broken up to last longer. Father is the photographer — with mother and baby brother well back behind him. For this is a highlight of a "camping out" holiday, so carefully planned that expenditures didn't exceed the sum of money set aside for it.

The budget of the Minister of Northern Affairs and National Resources at Ottawa covers a number of departmental branches. Among them are National Parks, Water Resources, Forestry, and Northern Administration and Lands. His expenditures involve millions of dollars.

Money for all departments of government comes through the Minister of Finance who gets it largely in taxes from Canadian such as you. When more money is spent than is collected in taxes, government must borrow from you . . . or create new money. The creation of new money is one factor that leads to inflation . . . which means your dollar buys less and less.

The government has been spending more than it have been paying in taxes. To narrow the gap between income and expenditures, new taxes have been imposed.

The next step should be to reduce expenditures, or at least hold the line. Undertaking new commitments — adding new welfare or other services — will only make it that much more difficult to pay our way. Tell your M.P. at Ottawa that since you are trying to save, you expect government to do the same.

You also help when you save more by means of life insurance, savings deposits, and the purchase of government bonds. Your savings help to create a SOUND dollar; and this, in turn, helps to create job security for you and more jobs for other Canadians.

A SOUND DOLLAR MEANS A BETTER LIFE FOR YOU

MUCH TO BE DONE

Work on the Strathmore Arena is progressing very well. Much has been turned out to help during the past two nights, but there is much to be done. The Arena Board held a meeting last night and hired a man to be on hand to supervise evening work from 7 to 9, so no one will have five time during these hours as usual to go to the rink and lend a hand.

This work must be done. It is a point now that if the work is completed this fall there will be no ice on the rink, so there is no turning back. It is now a case of either artificial ice, or no ice at all on hand to supervise evening work from 7 to 9, so no one will have five time during these hours as usual to go to the rink and lend a hand.

George Probin is home on a two weeks leave from his naval base at Hamilton. He returns to duty in Esquimaux on Oct. 2nd.

Mrs. R. P. Hansen is visiting at the Mauritz Castella home and enjoying meeting old friends.

Brian Larsen has been accepted by the RCAF and reports for duty at St. John's, Que. early in October. Best of luck Brian and good flying.

Mrs. Mrs. Anton Sorenson, formerly Standard old timers and now residents of Nanaimo, B.C. are guests of Mr. and Mrs. Burge Larsen. Mr. and Mrs. J. P. Madison of Calgary were at the Larsen home on Saturday to visit with their old time friends.

Miss Alice Howson of Calgary and Mrs. J. F. Hansen of Armstrong, B.C. were dinner guests of the Knowlton family when they entertained Sunday at the home of Mrs. Pringle in Calgary.

Mr. and Mrs. Harry Christensen are the proud parents of their third son, born Sept. 17 at the Calgary General Hospital.

The District Society met in the church parlors last Wednesday evening when Marian Rasmussen, Marie Weber and Esther Sundgaard were hostesses for a well attended meeting which was especially interesting because of the visit of Mrs. Norma Gray, Home Economist from Brooks who spoke on Storage space and the planning of cupboards and closets to make the best possible use of every inch of space. During the evening each Dorcas member presented a jar of

home coming to fill the shelves of the fruit cupboard for the use of the birds Mrs. Bent Damskar. Best wishes also accompanied the gift from the Society.

Rosebud Notes

BY MISS M. L.

Edna Leach has recently returned from a Youth for Christ trip to Mexico City. The young people of the Rosebud Baptist Church are holding a musical Mexico Evening on Sunday, Sept. 27th at 8 p.m. of which everyone is invited. Come and enjoy the slides of her trip along with a special musical program.

It was a thrill to hear Mrs. Riggs of Beynon on the Pioneer Trail's broadcast over CJDV Sunday evening Sept. 6th. She had come from England to Gleichen in 1935 and to her present home in 1936.

It was all very interesting for a great many people. Perhaps the outstanding information was that up to 1914 mail was brought from Gleichen and that was the nearest train if you wanted to go to Calgary by train. However the rails were laid during the winter of 1913-14 and train service began. It will be remembered that one of her daughters is a great bird lover and Dr. Rae Salt has included several of her bird photos in his book, Birds of Alberta.

Rev. and Mrs. Erickson and family have moved into Rosebud following a few days spent at the E. Krabben house. They are temporarily housed in the Stancos house. Although the name is not

Hussar And District

BY MRS C R

Prof. Hought and Glen Montgomerie are now in Edmonton attending the University in their second year of engineering. Both were successful in obtaining provincial

scholarships.

Richard Clark, son of Mr and Mrs Ted Clark of Santa Monica, Calif. has spent the summer in the Hussar district and now returns to California to finish his last year of college.

Joan Kuchle recently had his appendix removed in the Edmonton

hospital. His grade six classmates were glad to welcome him back to school last week.

Oliver and Kay Larsen and Dorothy Seidenstein came home Friday evening.

On Saturday Mrs and Mrs C. Hoffmann and family moved to Edmonton to attend the wedding of Mr Hoffmann's nephew, Dale Anderson, and to visit Dr and Mrs John Tongstad.

Friday afternoon many ladies met at St. Xavier's Church, earlier to honor Mrs E. Bell on her 80th birthday which occurred Sunday. A quartet of flowers decorated the room and tables. Seated at the head table with Mrs Bell were several of her friends. Long time residents of Hussar, Mrs Warburton, Mrs Treacy, Mrs Dundas and Mrs Clark, Mrs Blake and Mrs Larsen planned the party and program and presented Mrs Bell with a gift from all the ladies. A bag of Gold. Everyone in this community is happy that Mrs Bell is so well, and grateful for her wonderful example of cheerful and devoted service in all civic and social affairs, as well as her faithful care as a wife, mother and homemaker.

The Rockets Junior FFA held a meeting at Ralph Montgomery's on Saturday evening. Mr Gerald Schlar, a director of the Junior FFA, showed slides of the FFA camp and one of the first meetings of the Rockets. A series of debates are being planned to give the students a simple practice in public speaking. The Rockets hope to arrange a banquet with the Junior FFA group in Medicine Hat. The next meeting will be held on Oct. 19 at the school if possible and a film on Safe Driving will be shown.

The Hussar Ladies Aid met at Mrs Ian Sallows home on Thursday last with a very large attendance. An arithmetic contest was won by Mrs Carl Miller of Dalum and a novelty contest by Mrs Mary Miller.

A bazaar is being planned for November 6, and further arrangements will be made at the next meeting Oct. 8 at Mrs H. Muller's.

Cluny K. of C.

Meeting of Council 2238 was held Sept. 14 at 8:30 in the club room. Rev. F. J. Lynch was appointed as chaplain replacing Rev. Fr. Gueltel. Also new election of Bro. C. Hutton as Deputy Grand Knight replacing Bro. J. Wilde whose business has caused him to move to Edmonton.

Congratulations to Bro. Robert and Bro. Crestin and their wives on their 25th anniversary, for which an evening's entertainment was planned.

Visitors to our meeting were State Deputy Len Herget and District Deputy John O'Brien and Bro. J. Wilde of Edmonton.

The evening's entertainment consisted of Fr. Lynch showing his films on his trip to Rome, and the St. Shirlins of Lourdes and Fatima.

Those things that come to the men who walk seldom turn out to be the things he's waiting for.

BY MRS C R

Mr and Mrs Art Jenson and Joanne, who now live at Three Hills spent last weekend with Mr and Mrs David Jenson. On Sunday evening, Sept. 30th, our Savoir's club members surprised Mr and Mrs Jenson with a party in honor of their recent marriage. A beautiful picture was presented to them by the choir and a social evening and pot luck lunch was enjoyed by all. Mrs Perry Barker entertained the ladies at the Guild meeting on Sept. 23 with Mrs L. Clark as co-hostess. There were 17 members and four visitors present. Committees were appointed to look after the wedding dinner on Oct. 9 and the tea on Oct. 23. There will be a home cooking and candy table, and a table of novelties. It was suggested articles of interest such as antiques, bric-a-brac, etc., be brought for a display. It was decided to order 12 baskets from the Blind Institute for sewing bags. A pamphlet on Lutheran World Action was read aloud by the members, followed by scripture reading and prayer by Mrs. Sanders. Mrs. Bell read a poem, "My Mother's Bread." The next meeting will be in November as the fall tea will take the place of the Oct. meeting. There will be a shower for Miss Dale Sanders on Oct. 4th at 2:30 in the afternoon.

Kay and Olive Larsen invited their mother to dinner Saturday evening, followed by the musical comedy, "My Fair Lady." There will be no election in Hussar as there was no opposition. Mr H. Douglas was re-elected by acclamation as chairman. Mr and Mrs E. Bell and granddaughters Sandra and Connie spent Sunday Sept. 20 in Lacombe.

with the W. T. McLean and others relative celebrating Mrs Bell's 80th birthday. Mr Bell took in the RMC demonstration of the new crawler tractor in Calgary on Friday. Sunday night, Sept. 27 the Bell and Schooling stove was broken into and much damage done to the cash register. The police were summoned to investigate. Farmers are busy combining barley and standing wheat, but the swaths seem very slow in drying. Weather is cold. Mr and Mrs Jean Bell and Mr and Mrs George Hines visited in the Calgary last week.

The History Of Strathmore

The history of Strathmore is nearly identical in nature to hundreds of towns of the same size in Western Canada. Each resident of their respective towns is equally proud, and rightly so, but the history of Little Town in Alberta, seems to take a back seat to an one as it has had its share of progress.

When the little section house was built by the CPR in 1884, you would find they would have believed it if they were told that some day they would see a Strathmore as it is today, built by means of modern utilities and transportation facilities.

Would they have believed it if you told them that some day there would be skating rinks (ice and curling) available at will by merely flipping a switch and pouring water to make ice, regardless of temperature. That there would be a school in Strathmore large enough to instruct 200 students and that there would be a swimming pool for their grandchildren to pass the summer hours in, as they could heat, light or provide water for their homes by a mere movement of the hand. Could they see a hard surface highway running through the town with six service stations within the town limits serving high powered cars and trucks with gas and oil, travelling across this same country of ours. To them at that time, Calgary was many miles away so possibly if you told them that some day people would live in Strathmore and work in the city going back and forth every day by car they would have thought you off the beam.

But those people, those wonderful pioneers had brought, had they not, there would be no Strathmore or any town like it today. To those we owe much.

Perhaps the best authority on early Strathmore is Mrs. E. (Yvonne) Wright who came to Strathmore and has been in business in Strathmore since shortly after the turn of the century. He started his business in the building now known as the Strathmore Hotel, and later moved to his present location on main street. Perhaps a conversation with Yvonne will reveal more personal history as he saw it grow from infancy. However here are other little known in past pages of the Standard.

C. P. R. IRRIGATION — In the beginning, the town site was west of Eagle Lake. We have record of the first train going through Strathmore at that location in 1883. The superintendent of construction for the CPR was Jas. Ross, who married the daughter of Strathmore. It is taken from the Gaelic Word Strath which means "valley" and more meaning "big". The idea possibly stemmed from the big valley located at that first location. Strathmore was moved to its present site a few years later.

As a result of 10 years of drought, in 1903 the CPR installed the irrigation system through-out this area which was later sold in 1944 to The Western Irrigation District. This was a big project in those early days to create the artificial Cheltenham Lake behind the waters of the Bow River, but it did much to the district and Strathmore grew as a result of the heavy payroll of about \$400,000 per year.

STRATHMORE CHURCHES — The Sacred Heart Church was founded in 1903 by Rev. Leonard Van Tighem and built during the following year.

In 1910 Rev. Jas. Rannell who resided at Cheltenham served the town in the Presbyterian faith. The first resident minister was Rev. A. Boyd. The church was disbanded during the first World War and the building was sold to the Masonic Order and the money was used to erect the present Memorial which now stands on the lawn in front of the Memorial Hall.

The United Church was founded by Rev. J. E. Bury in 1908 and has

been giving continual service to the town since.

The St. Michael and All Angels Anglican Church was founded by Rev. T. W. Carter in 1908. One of the first workers and leaders of the church was the Druggist E. W. R. Lambert. In fact the records show that the first Confirmation class was held in his store before the building appeared. He was also the provider over for his ability to conduct a choir, and his Strathmore choir was considered one of the best in Alberta.

FIRST SCHOOL 1907 — A Strathmore resident who has been watching with great interest the progress of the Strathmore school system is the first teacher Miss Edith McQueen, B. A., who later became Mrs. Jas. Martin. Mrs. Martin who is still a resident of Strathmore taught her first class in what is now known as the First Hall, until January 1908 when the Strathmore School was founded and offered Grade 1 to 8. This first school was built on a site of 25 acres. Public demand called for a complete school of grade 12 and in 1917 the facilities were extended to give up to grade 12.

Crowded conditions found the school to bring in country schools from time to time to keep up to the demand for space until 1931 when a new building came on the scene.

A and note at this time should be brought out, Mr. Bernard Crowther who served as Principal until 1931 to this time from 1888, passed away three months before the new school opened and didn't have an opportunity to see a Strathmore true.

Mr. Crowther was a man who was interested in the school children and community affairs and appreciation was shown to him at his death for services rendered by naming the present school in honor of him. It is now known as the Bernard Crowther School.

In 1935 over-crowded conditions moved more building and a new high school wing was added, and this year eight more rooms were built on the south side to accommodate the ever increasing school population. The Strathmore school has grown from a mere 25 students to an all time record this year of 709.

HOW WHEATLAND CAME TO BE

The story of the Wheatland Municipality is one which took many years to formulate. In 1933, the area now Wheatland was divided into three municipalities known as New, Greenwald, Blackfoot, Bow Valley and a Local Improvement District. The area which was now to be the jurisdiction of the Dept. of Municipal Affairs.

In 1942, the Kermans and Greenwald M.D.s were combined to make Servisberry, with headquarters in Rockford with Frank J. Eddy, secretary-treasurer, and Blackfoot and Bow Valley amalgamated and called it Bow Valley. The Glenora headquarters was moved to Strathmore and the secretary Mr. Wm. Thompson was in charge of the office.

In 1953 these two remaining districts were brought together to form the present Municipality of Wheatland with headquarters in Strathmore. This takes in an area 60 miles east and west and 45 miles north and south.

Jim Harwood, an alderman of this area was the first Reeve of Wheatland, but it was no strange job to him as he had spent many years in that position in the Bow Valley district. Mr. Harwood is still serving on the council which gives him a total of 23 years public service, assisting with municipal government.

Last year, the duties as Reeve fell to another man who also represents a pioneer family of the district, Theo. Chamberlain. He is in his second term of office. He was elected on the council in 1956.

Another oldtimer of the Glenora district, Jack MacArthur is on the present council. He was first elected to office in the old Blackfoot M.D. in 1906, and served a number of years as Reeve of that district. Emil Chamberlain started on the Servisberry council in 1943 and still represents the Rockford district at the present time.

Councillors now serving are Doug Meier, elected in 1948; Chris Miller, elected in 1953 and Bob Heberling who was elected in 1955.

Frank Ewing is in charge of the office as secretary-treasurer. Mr. Ewing has the longest service record of any Municipal Secretary-Treasurer in the Province. He served as Reeve in 1948, 1951, 1952 and 1953.

He has worked with nine different Reeves and a total of about 112 councillors.

Cluny Notes

BY MRS. W.S.
The regular meeting of Cluny M.T. was held at the home of Mrs. Monville with 15 members present. Mrs. J. Reilly, president was in the chair. Mrs. Fred Fairbairn, Mrs. John Reilly and Mrs. A. George reported on the representative meeting at Nightingale in the form of a paper discussion which was very interesting and informative.

Mrs. E. Tomlinson gave a paper on United Nations and report on the recent visit of Mr. Horwath to the United States, which he reported visiting the Peace Garden in Manitoba and on a return visit from the States.

The roll call was answered by the members giving a short subject on history on each country. This was well answered.

Mrs. Jack MacArthur gave a paper on citizenship. Mrs. MacArthur showed a picture of a building built of corn in South Dakota and reported visiting the Peace Garden in Manitoba and on a return visit from the States.

The entertainment by Mrs. McKeever and Miss Burne was on the subject Who Am I which caused lots of fun. Mrs. John Reilly won the birthday raffle.

Mrs. and Mrs. Sammie from Jean (Cochran) are proud parents of a baby boy.

Mrs. and Mrs. John Reilly and family spent the week end at Rockford and reported lots of snow on their return trip home.

Mrs. and Mrs. R. Tomlinson were guests at the home of Mrs. Tomlinson's brother and sister-in-law Mr. and Mrs. Wm. Gane of Calgary, the occasion being the 25th wedding anniversary of Mr. and Mrs. Gane on Sunday.

Mrs. Myrna Gamble of Grimsby, Ont. and her son Darryl of Cluny spent Friday at the home of Mr. and Mrs. Reinecke. Mr. and Mrs. Adolph Frank and

Arlene of Strathmore, guests of Mr. Reinecke spent Friday at home of the Reineckes. Don't forget St. Andrew's WA on Sunday at Cluny.

In 1958 net farm income in Canada increased to \$12,200 million from \$9,960 million in 1957. A man who knows his own imperfections is just about as perfect as it is possible for anyone to be.

Jottings From First Paper

Deep in the dirt the first Strathmore Standard was lifted from its resting place for the past number of years. From this we will copy some jottings many of you may find interesting.

Thos. E. Wright, then as well as now, guaranteed his Radio-Telephon sales for men. He was then called an outthier.

Wilson and Owen claimed to have the most complete stock of Hardware and Groceries between Calgary and Medicine Hat.

J. S. Barber was the manager of the Canadian Bank of Commerce which was at the present site of Economy Motor Service and is now located in Rockyford. The Royal Bank had Jos. Van Tighem as acting manager and advertised in those early days to be the Pioneer Bank of the West.

Riverdale Lumber of Calgary had a branch office in Strathmore and Brown and Davies were advertising their Hardware and Furniture. Drove and Salomon had their opening announcement for their Groceries and Provision Store. They regretted their delay because their window didn't come in time.

Diers & Ellis had a restaurant and Fruit Store and R. M. McCune the Pioneer Meat Market. F. M. Schellier, a farmer two miles south-west of town, advertised green tomatoes at 5 cents per lb. J. W. Johnson would supply leggings, horse blankets and whips and S. H. Pirch advertised his tail suits in the painting line.

George Lloyd said his store had everything that is good for men, women and children to wear and eat in his store and for Real Estate. Shilston & Goffier were the men to see. C. W. Chase said that he had the cheapest prices on all kinds of wiring, granaries, shingles, rabbit metals and fire insurance.

J. A. Anderson has completed a deal for the purchase of four lots at the south-west corner of town, and proposes next week to commence the erection thereof of a handsome \$10,000 dwelling house.

J. O. Wilkinson thrustled out that went 110 bushels to the acre. Mrs. Zerke, wife of the manager of Robin Hood elevator and Imperial Oil arrived from Chicago this week to visit her husband.

Y. W. Waddy claims the best prices on wagons in the country. F. M. Schellier brought two potatoes in the office, each weighing two and one half pounds.

The editorial predicts that natural gas will be found in this area and will be used in Strathmore.

Strathmore became a village in 1906 and in 1911, Mr. Lambert became the first Mayor when it was declared a town. Since that time the following have served the town as head of the governing body: Gardner, Hughes, Sharnstrom, Patrick, Gannon, Dorman, Butler, Bell, Gray, Rhoden, and now Gray is in for the second year.

Calgary Power has been supplying electricity since 1926, but the sewer system did not appear on the scene until 1940. Two years later a water system was installed and this year the utility services were completed by the addition of Natural Gas and an irrigation system for lawns and gardens this year.

The population of Strathmore has fluctuated down through the years. In the early 1900's or shortly before the first world war, when everyone from far and wide was looking for land and the CPR was in the process of extending irrigation as well as building up their farms to be a big operation, employed many men. At this time there were many men permanent residents in town, they would only stay until they had living facilities on their farms. At this time the population dropped from possibly a peak of over a thousand at times to about 550 and stayed that way until after the Second World War, until the present time when the nine count at present would reach about the 800 mark. This latest increase is a healthy one as it is mainly due to house building which gives a population increase of a permanent nature. At the present time the Town Council has its nose out for more land for house building.

THE FIRST BUILDING—The first permanent residence was built by the late C. W. Chase. This house is now owned by the present Mayor E. L. Gray. The first store was built by George Lloyd and was situated where the King Edward Hotel now stands. The Memorial Hall was built in 1924, and since that time has been used for everything a community appetite demands in the way of entertainment. It has been operated by the Strathmore Canadian Legion. The present Annex was constructed in 1931, and has served a very useful purpose in the community. Strathmore has received much publicity down through the years, but possibly the best publicity came through the medium of advertising of the annual five car biddings. This was another dream that came true. A group of men decided one day that they needed an arena. After the construction was all but complete, they found themselves without funds, and to make it worse, the debts were way out of reach. In 1953, someone dared to bring up putting on a five car biddings at a meeting one night. The suggestion met with considerable opposition, but after a lengthy discussion, this executive of the Strathmore and District Memorial Arena decided to go ahead with it. It went off with a bang. They cleared their debts and are now in the process of installing artificial ice. There can be no long list of names to offer thanks to the old members, that appeared in the news during the past 50 years in The Standard. If it was tried, someone would be missed and they are all important. Everyone who lived in those early days did their part to make this district what it is today. We group them all together and say Thanks, and God Bless You All.

Strathmore Town Council Meeting Results

The three councillors that were elected to office at the regular meeting of the Strathmore Town Council on Tuesday night were Archie Klaisler, Len Larson and Ed Godfrey. Two were named for a three year term and one to complete the term of Ted Hartell who resigned from office. Lows were drawn to decide this, and the result was that Mr. Godfrey will serve for that short term.

The committee heads were chosen as follows: Bill McNeill, public works; Frank Bazzant, police and welfare; Archie Klaisler, public utility and advertising; Ed Godfrey, fire and light; Len Larson, finance and Dick Caldwell, property.

Council considered a curfew to be placed on the town. After investigation, it was found that there were only about ten children involved representing about five families, so they decided to give it more study and bring and bring it up again next meeting. This came up as a result of recent damage done in town, and Coast, Rocher, stated that there were about ten children who were found from time to time walking the streets after what should be their bed time.

Mayor Goss reported that he had been in touch with government authorities, and they said that construction would be underway by the Strathmore Senior Citizens home first thing in the spring. The preliminary work will be done by the town now and that Council urged that the Senior Citizens Home Board meet at an early date.

It was decided that Council would send representation to the 10th of July celebration of the community is expected to be held in Calgary October 29 and 30.

Town Police Officer Ray Bouchard will be sent to Calgary in November to take a Municipal police course.

Mr. Louis Larson's grandfather, Mr. Neil Peterson of Vancouver died Sept. 28th at the age of 97. Sympathy of the community is extended to Louise and family.

Ron Stevenson left on Sunday for the Vernon Canadian where he will be playing hockey this season.

Owner Of Stolen Car Meets Thief Enroute To Work

Four juveniles were caught late in the afternoon October 1st in Calgary driving John Connolly's car which they had stolen from his service station four miles east of Strathmore early the same morning. They made a trip for only a short time when they were caught.

Mr. Connolly was at the station when he was hauling gravel about 6:30 a.m. when he saw the car. He saw it in the Strathmore RCMP. On his way, however, he saw the car driving south. He turned his truck around and followed the car but lost it before the RCMP station.

The first meeting of the current year of the Strathmore HISA was held in the school auditorium. The meeting was well attended. The staff of 20 teachers was introduced by Principal Mackenzie. George Watt thanked the teachers for their many services.

Mrs. Pat Morgan performed the installation of the executive of the HISA. The executive is as follows: president, Mr. George Watt, second vice, Mrs. Marie-Towne, program convener, Mrs. Pat Watt, membership convener, Mrs. V. G. Goss, Mrs. Janet Vander Velde; news correspondent, Mrs. Dula Stander, church committee, Mrs. Nettie Riedman, Mrs. Margaret Kowalski, and our very faithful secretary Mrs. N. Hamilton and treasurer Miss Margaret Goss.

advertisers, and within a year I was able to purchase the plant on

terms from Mr. Evans. In the following years plant and building were moved to an adjoining site and were only quarters on our

first site; the building was more than doubled in size, and more plant added, mechanical setting, roller, etc., being introduced in 1918.

Like the town whose name it bears, and the surrounding district, The Standard has had its ups and downs, but in its 50th year under Mr. Keith Bergh's ownership it continues to grow in circulation, size, new coverage, and influence.

To relieve my aging father of the burden of conducting his publishing business in Pottery (it being the only surviving son following the 1914-18 war) I was troubled to leave Strathmore and Canada in 1925, but my wife and myself did so with very great regret, and cherish kindly memories of its people and of the wholehearted support both readers and advertisers gave the Standard and ourselves in the pioneer years.

The property of the Bow Valley has been founded on agriculture, supplemented in these latter days by that valuable natural resource, oil, but its inhabitants today, when good roads have replaced primitive paths, service stations line parking places, hitchhiking posts, electricity and natural gas for oil lamps and coal stoves and tin-wood fires, will not forget the pioneers, whether ranchers, farmers or townsmen, who first put their faith in the agricultural and commercial possibilities of the area. Some succeeded, and some failed though no fault of their own, but they laid the foundations on

which Alberta of today flourishes, not as fortunate, and do not have a better printed paper to read. The files of a weekly newspaper record many items. They tell what you were up to when you were married and when you died. As well as nearly all readers they probably recorded many other interesting items in between. Such as when you were elected to an office in a various club or when you passed a swimming test.

Strathmore is fortunate at present to have a hard working mayor like Elmer Orr. During his tenure in office he has given an untold amount of his free time in directing various projects that will help make Strathmore a better place to live. His opinions have not always received complete endorsement from the people but in the long run his accomplishments have been a major help to the progress of the area.

A gradual growth such as Strathmore enjoys is far better than a boom and is an indication of a healthy district. With natural gas now available Strathmore will undoubtedly attract more residents and we hope the town will continue to grow and prosper.

Strathmore has a lot to be proud of and those coming up should do all in their power to keep the town progressing the way they think and grandfathers did.

Life expectancy for Canadian men is now 68 years, for Canadian women it is 73 years.

Provincial Farm Loans Explained

The following is information regarding the Provincial Farm Home Improvement Loans Act.

The purpose of this Act is to assist farmers to make permanent improvements to their farm homes.

Improvements covered by the provisions of this Act are: water systems, sewage systems, bathrooms, central heating systems, insulation, concrete basements, new floors, new roofs, siding, painting, interior decorating and remodeling.

The Act also stipulates that other permanent improvements may be approved by the Minister of Agriculture, upon recommendation of bank managers, Treasury Branch managers, or Department of Agriculture officials.

The improvements do not include furnishings, electrical appliances or other things not affixed to the house.

A farmer requiring a loan under this Act must be over 21 years of age; must have been a resident in Alberta for the immediately preceding three consecutive years; and must be able to satisfy the bank or Treasury Branch in regard to his business and personal financial standing.

Applications are available at all banks and Treasury Branches. Applicants approved by the bank or Treasury Branch may be granted loans up to \$2,000 each. These loans are guaranteed by the Government of Alberta to the extent of 50 per cent of any loss incurred.

The loans will be made at 5 per cent interest, and must be paid off in 10 years in annual instalments of not less than \$100.

Applicant under this Act must be in possession of a farm as an owner or purchaser. His principal occupation must be farming, and the home improvements must apply to the house situated on the farm land possessed by the applicant.

committee workers have the renovation ready at the Strathmore Swimming Pool to erect a concrete block building to house the proposed new equipment for the pool.

This was reported at the regular meeting of the Strathmore Lions last week. The bids on the 12 x 12 foot building is only for the second building to replace the one that was destroyed by fire.

The Strathmore Pool showed a loss of \$1000 during the summer of 1967 when the equipment was replaced. The replacement cost was \$1000.

Plans were discussed for the Halloween dance sponsored by the club which will be held on Oct. 10 this year because the horse alphabet falls on a Saturday. Prizes will be given for various costumes and if the dance follows the same pattern as past years, there should be plenty of good fun for all.

A WORD TO THE WISE

One way to save face is to keep the lower half shut. It's better to give than to receive, and it's deductible. The best place for your bathroom scales is in front of your refrigerator.

The Ice Is Thin

A word of warning should be heeded by parents and children at this time of the year.

Our untimely cold weather has given a number of youngsters the skating fever.

It is not strange that they should want to get out of the houses when they see ice forming on the lakes and sloughs but the results could be tragic.

Unfortunately the sad news of

people breaching through the ice and losing their lives has already hit the papers and what is worse, there will likely be more of the same before the winter freeze-up.

It is hard for active boys and girls to stay off when there is so little recreation for them at this in-between season of the year, but it is on the safe side, you would be wise to wait until there is ice sufficient in thickness to carry

you safely.

2. No person shall hunt any big game or game bird upon or over occupied lands or enter upon such lands for the purpose of doing so without the consent of the owner or occupant thereof.

4. No person shall tear down, remove, damage, deface or cover up any sign mentioned in this section and erected or placed by or with the consent of the owner or occupant of the lands upon which the sign have been erected or placed.

Drug Addicts Can Be Cured

The plight of Canada's 3,000 drug addicts is clearly shown by a young woman, who after ten years on drugs, believes she is now completely cured.

She pleads for greater understanding and help for drug addicts and hopes that someday they will be recognized as sick people not criminals.

During her period of addiction, the writer spent three years in prison, and the habit cost her an estimated \$25,000.

It was not until her third sentence that she planned a cure in earnest, although she had tried

Tips on Touring

By Carol Lane
Women's Travel Authority

Most accidents are minor, and most drivers don't have them. But even the best driver can become involved.

So — If you should have an accident, here are some tips I hope you never have to use:

Try to get all the facts. Get the other driver's name, address, license number, car make, and the name of his insurance company. Get the names and addresses of all the occupants of the other car. Sketch a diagram showing what happened — the car positions and which way they were moving.

Except for very minor accidents call the city police or RCMP. The officer will direct the traffic and fill out an accident report. Do not discuss the accident with anyone except the police — ant, of course, your insurance agent.

STANDARD NOTES (Continued From Page One)

son. Mrs. Dick has been appointed assistant to Mrs. McGowan.

Anyone wishing to protest against these hours and wishing to file a complaint should refer it to the village council before Nov. 1. Mr. and Mrs. F. McNeil of Disbury were Thanksgiving weekend visitors at the home of Mr. and Mrs. Don Nichol.

Mr. and Mrs. Gordon Swenson returned by plane to their home in Redwood City, Calif. on Sunday. Gosser and Mrs. D. J. Swenson went in to Calgary on Monday to bring Mr. Swenson home from the hospital much improved in health since his surgery.

Tommy and Dad Fraser were away on a big game hunt last weekend in the mountains. It's hard to say who had the biggest thrill, young Dad on his first hunting excursion with his Dad or Tommy in having a son to share his hobby and sport real meat trophies.

Mrs. Jensen, Dr. of Redcliff has been visiting with Mr. and Mrs. Al Jensen. She returned home during last weekend.

The regular October meeting of the WA to the Legion was a busy one last Thursday, Oct. 8 when they met in the Standard Lodge Room. The president Mrs. Lottie Lee was in the chair for the first time since her trip overseas during the summer. After the minutes of the previous meeting were read by Mrs. C. Kline and the financial report given by Mrs. George Collins the Auxiliary decided to take over the concession at the skating rink for the winter after serving in the booth at the baseball games all summer. It was also decided to continue with the winter wheel and bingo parties again this fall. There will be two jackpots during the winter season.

Mrs. Marion Yule is teaching the members to make plastic dolls, corsages, flowers and other things. These will be on display at the monthly card parties and orders will be taken then or at any time from any WA member. It was also decided to raffish a Sunday dinner on a weekend close to Nov. 11. Watch for further announcements regarding this popular feature.

Delicious refreshments were served at the conclusion of the business session.

Town Policeman Treated Rough While Making An Arrest

Town Policeman Roy Bochek had a busy evening on Saturday. He checked on a car parked near the skating rink on and around about 9:45 p.m. and was in the process of arresting a man for committing an indecent act when he met with considerable resistance. There were five men in the car.

After finding that the driver of the car had no license, the car was taken to the back of the head. His assistant followed and during that time the driver was trying to get his car going to make a getaway but was unable to do so before Block had taken over control. Arnold Wegner who lives in an apartment across the street

Some Harvesting Schools To Close Now Complete

In some areas, harvesting is complete, but it is expected that if the weather holds over the week-end, they will still be finished in this area. From Calgary east to Standard and Humber and points south, the wheat is about 90 per cent complete. Barley and oats close to 100 per cent and flax close to 90 per cent at the middle of the week. In the areas around East Coulee west to Irricana there is, just what is needed, but a good percentage of the farmers are finished with barley and oats. Flax would be about 60 per cent complete.

The heavy frost in the mountains closes the farmers short days. In some cases they aren't able to finish until now.

Due to the wet weather, the grade has dropped considerably in most cases, which is giving No. 3 and there is very little peeling and matting.

Prospects were good at the first of the season, in fact one farmer who got a short cut early reported an average of 65 bushels to the acre. His highest yield was 80 bushels in the No. 2 grade No. 2 and 3.

Thieves Busy Dance Night

It would appear that thieves thought that everyone was at the dance that was held last Friday night in the Strathmore Municipal Hall judging from the activity that went on in town.

Strathmore history was caused by way of the back door and lost over \$400 worth of baling twine. Ray Baker lost two cans of gas that were in his yard and Dick Caldwell and Dave Thomas each lost a square tire for their car.

A radio was also taken from the band leader of the Big Top Orchestra who were playing for the dance that night. Town policeman Bochek saw someone taking an object from the car and put it in his own pocket to investigate but instead of the driver showing his drivers license, he drove off at a high rate of speed. Bochek followed him at speeds up to 80 miles per hour through town four times, but the suspect made his getaway. Bochek obtained the license number and it is now under investigation.

BY MRS C R

Mrs W. Will went to Banff on
October 20th to attend the HRA
Workshop at the School of Fine
Arts. During her absence Mrs Will
Sr. came out to the farm.

Eugene Olsen cut his first wheat
playing after school and won a 1 lb
on to Bessie where the dealer put
in six stitches.

Later Leagues attending the
convention in Pickens were Ben
Rink, Mary Reiffenstahl,
Charles Olsen and Leroy Barley.

On Saturday the young people
were invited to Jarvisville Church
for dinner, and later visited the
Geoff Fish Hatchery near Sundre
and an old well. Before the evening
meeting they enjoyed a turkey din-
ner at Dickson. There were about
30 young people in attendance,
and speakers included Pastor Carl
Hansen, A. Rasmussen, B. Den-
mark, E. Olsen, A. March and Bit-
tont Pastor Bruce Aasen from
Onda. Near Dickson the young peo-
ple saw the beautiful new Spruce-
view rural school, which has an
attendance of over 400 students in
grades 1 to 12.

The next HRA meeting will be on
the afternoon of Nov. 3rd. Parents
and friends are invited to attend
the demonstration of grading in
Grades 1 and 2 which will start
promptly at 2 p.m. in the school
auditorium. This will be followed
by a film on district in sand-
ing. Lunch will be served.

A farewell party for Mr and Mrs. Gille. It is hoped that next year
they will be back in the area.

A gift of money from the community
was presented by Mr. Harry
Douglas, and Wm. L. Detmer
presented a gift from the OSHA
branch and lunch concluded a
pleasant evening.

Over \$100 was realized at the
Ladies Guild tea on Friday. The
parrot table and home cooking dis-
play were soon sold out, and the
bountiful lunch enjoyed by many
visitors. The Guild members wish
to thank all who helped. Mrs. Arm-
strong brought in several interest-

TOMMY'S DOLLAR

Tommy is saving up for a bike. Dollar by dollar,
week by week, his bank account is growing...
bringing the Big Day nearer.

But meanwhile, Tommy's dollars are serving a
second useful purpose:

Bank credit is based on the dollars Canadians
keep in 11 million deposit accounts in the
chartered banks—and Tommy's account is one
of them. Bank loans are constantly being made
to meet the needs of business and personal
borrowers in all parts of Canada.

So every time you make a deposit you are—
like Tommy—building toward something worth-
while for yourself, and at the same time helping
your dollars at work for the benefit of all.

ANNOUNCING AN IMPORTANT

New Free Service

We have just purchased an amazing new electronic instrument that shows in 80 seconds — on a miniature "TV screen" — if your spark plugs are firing efficiently. This is the Real Key to performance and economy!

The mileage you get, how easily your car starts — how smoothly your engine runs — whether your car is peppy or sluggish — all depend to a great extent on the condition of your spark plugs. And now we can test your spark plugs electronically — and tell you their condition — in about 80 seconds. Without ever touching your plugs!

If you aren't really sure of the condition of your plugs, why not take a minute soon — and see for yourself? Find out if your plugs are still giving you full power and economy — or if they are secretly robbing you of money and performance. Just ask for a "Plug-Scope" check. It's free — and another of the many ways we try to serve you better.

On October 19 the Standard CGIT held their initiation which consisted of the initiation and Lanyard ceremony. It was held in the church. Children were presented to the girls of last year's work. The Dorcas Society, the United Ladies Aid, the milliner and his wife and the mothers of the girls were invited. At the ceremony in the church, everyone went to the church parlors where games were played and lunch was served by the girls.

Dalum News

Harvesting is still not completed but most of our farmers got two more days of combining in this week. And life with all its other activities still goes on. The ladies of the Lutheran Guild met in the church parlors on Thursday afternoon with a good attendance. For the convocation period Pastor Miller read the final chapter of the book The Christen 12. Included in the business of the meeting was a discussion on UNICEF. It was decided to continue with the plan but to omit the bus ride and the party at the church basement. We are reminded to have all our small change ready on Halloween night as the little masked people who come to call on us will be carrying their Shell Out jars, time or hours. These will then be

brought to Sunday School on Sunday morning to be turned over to the Dalum School Boys played another game of football on Wednesday with a Drumheller team on the Dalum field scoring their 2nd defeat 18 to 6.

A meeting of the congregation was held in the church on Thursday evening. The election of officers resulted in John Andersen and Asel Olsengard being replaced for a second term as Board Members and Palmer Rasmussen as secretary who had served the limit of four years, being replaced by Gail Christensen.

Harvest Festival was planned for Sunday, Nov. 29 to coincide with the closing day of Sunday School classes.

Mr. and Mrs. Reuben Martin of Calgary visited with Mr. and Mrs. Hanne Boe this week.

Mrs. Signe Boe of Calgary was a guest of Mr. and Mrs. A. Toft last week.

Mr. Toft was successful this week obtaining three first prizes and several other prizes for his pig at the Calgary fair and sheep show.

Johann Halmen also entered his pig in this show and obtained a third prize ribbon.

The Dalum School Boys played another game of football on Wednesday with a Drumheller team on the Dalum field scoring their 2nd defeat 18 to 6.

Mr. and Mrs. Jim Burroughs of Fort Nelson, B.C. brought their little son Robert Kenneth to the service at the Lutheran Church for baptism on Sunday morning.

Congratulations are extended to Mr. and Mrs. Leo Christensen of Prince Rupert on the birth of a second son, Gregory Paul, Oct. 14. Members of the Rasmussen family gathered at the home of Mr. and Mrs. Tom Schulte of Rockyford on Wednesday evening to visit with Karl Rasmussen of Ottawa who was in the district that day.

Mrs. Ellen Jensen of Mount Royal College was home for the weekend.

A GENERAL MOTORS VALUE

A car with major advances in transmission, suspension, brakes, and engines which are Buick's alone today. A solid, substantial car • A car of superb comfort, quiet, reliability • A car you should drive soon.

NEW DIMENSION, NEW VALUES AND QUALITY

Doors that open wider — easier to get in and out. Family-size interior. Seats that are higher, more deeply cushioned, and repositioned to provide more room for feet and legs. Perhaps the quietest running car in Canada due to Buick's Vortec-tube drive and its high use of insulation. Buick's new quality control program comes to a peak in the Turbine Drive Buick '60.

NEW INTERIOR DESIGN AND COMFORT

An entirely new "Mirromatic" instrument panel. It lets the driver see speed, gas gauge, and other necessary readings at a glance in a mirror he tilts to suit his own eye level. And a new exclusive safety feature — the Twilight Sentinel — that turns headlights on and off automatically as light conditions require. All-new colors and fabrics. Richer appointments.

OUTSTANDING PERFORMANCE WITH ECONOMY

1. Buick's Exclusive Turbine Drive Transmission — is jet-smooth, responds faster, more economically than ever. No gears ever shift while the car is in motion. 2. Buick's Exclusive Air-Flow Aluminum Drum Brakes — found on no other Canadian car. Fin-cooled drum front and rear for faster cooling. Fast cooling means safer stopping, longer brake life. Slotted

which pass a current of air from under the car constantly over the brakes for added cooling efficiency. (Wheels are 15" size which gives you up to 41 more tire life). 3. Buick's exclusive Wildcat Engines give high efficiency with high economy. (A standard new LeSabre Engine is designed to give Buick performance on regular grade fuel). (Optional air conditioning, standard on LeSabre and Wildcat).

Use Proper Planning For Urban Growth

North America, adding close to
 4,000,000 people a year, has population
 is fast doing so in the country-
 side what it did to its buffalo and
 to many of its resources and in the
 same uncertainty requires real
 and costly way. Town planners long
 ago coined a word for it: urban
 sprawl, the process of gobbling up
 land, destroying attractive natural
 environments in the haphazard
 spread of roads, houses and whole
 communities.

The Reader's Digest publishes a
 provocative theory for slanting the
 waste of land which now comes
 which have become sprawling ones
 some could have accommodated 50 per
 cent more people and had more op-
 en space to boot. For there are an-
 swers to all this, says the author,
 William H. Whyte, Jr., assistant
 managing editor of Fortune maga-
 zine.

The crux is for communities to
 decide in advance what kind of
 pattern they want. Within subdivi-
 sions for instance, the community
 itself should decide the basic street
 pattern and should emphasize open
 spaces. Instead of forcing the devel-
 oper to split his tract into large
 lots, needing expensive services, it
 should let him group his houses
 into a tighter pattern that is eas-
 ily to service and should leave the
 extra space for all the residents
 to use. The headache of large in-
 dividual backlots is eliminated;
 more space is created and at less
 cost to everybody.

And he points to an ancient legal
 weapon called an easement which
 allows a community to reserve for
 itself the future choice of what
 should be done with land within
 its boundaries. The land remains
 in the hands of the owner but an
 easement, at relatively little cost,
 gives the community the right of
 voice in what he can do with it. In
 this way, the city or town as a
 whole can guide and govern the
 growth the future will bring.

In the most recent year of record
 there were 79,797 cottages in
 Canada subject to federal corpo-
 ration tax, and of these 62,827 re-
 ported a profit and 27,880 report-
 ed a loss.

NOW... '60 CHEVROLET STURDI-BILT TRUCKS

**WITH REVOLUTIONARY
 TORSION-SPRING
 SUSPENSION
 THAT GIVES ASTONISHING NEW
 SHOCKPROOF
 ACTION!!!!!!**

Chevy's done the next best thing
 to giving every road in Canada!

First they threw out the front axle and put in torsion-
 spring independent suspension. Then they built coil
 rear springs into most light-duty models, variable-rate
 leaf springs into heavier. That made it a ride you have
 to feel to believe. A ride that lets you move faster to
 get more work done in a day.

Brawlier build!

They're tougher than any Chevy trucks ever made.
 Frames are stronger, caps 67% more rigid. Front
 wheels and tires are precision-balanced. And that new
 suspension cushions jolt and road shock that used to
 spell slow death for sheet metal.

More comfortable cabs!

Easier to hop in and out of too. Many models are
 a whole 7 inches lower outside. Yet there's more head
 room inside, plus more width for shoulders and hips.

Rig in the power department!

With the industry's most advanced gas-saving 6's.
 With high-torque Workmaster V8 performance in
 heavyweights. With new 6-cylinder or V8 power avail-
 able in new L.C.F. models.

More models than ever!

New 4-wheel-drive models, tandems and high-styled
 Suburban Carryalls. It's the handsomest, hardest
 Chevy fleet ever to report for duty. See your dealer for
 the whole story, and be sure to take a ride!

Anything less is an old-fashioned truck!

No Governor, - No

The Canadian Association of Broadcasters proclaimed its outright opposition to the proposal by the Board of Broadcast Governors that the weekly program content of television stations be at least 50 per cent Canadian. We think their opposition is justified.

There are programs produced by the CBC that are of a high calibre even better than some that originate in the U.S. but three can't nearly enough to take up that much time during a viewing week. The CBC will not permit stations to have obligations to the viewing public and that is seen that they receive the best entertainment possible. And what of the advertisers who spend millions of dollars a year for their spots? They are left out when they find that the

Letter To The Editor

Dear Sir:

As most of you know, it is now the time of year when your library asks for contributions. We have a public library supported by contributions from different organizations of the community.

Some have asked why we continue to ask public support. We are constantly adding to our list of books and now have to replace some of them, many of which have been some years old.

As the case in all libraries, some books are lost. While the rule is that the borrower pays for the book, some are hard to trace. Sometimes the borrower moves away. If a reader has in their home some books which have not been returned we should be very glad to have them back.

Also some have books for which they no longer care for. We should be very glad to have them. While the library is supported by local organizations of various kind, we should be very glad to have them.

Contributions from individuals We receive from the provincial government for dollar for dollar spent on books up to \$300. We have not received more than two thirds of this amount for several years.

I feel that we should be able to raise \$300 as we are serving over 12 families. Many are subscribing all the time. We are circulating books at the rate of 1000 a month.

Your Librarian,

Nellie Hansen.

ANGELICAN INDUCTION

Official Induction Services for the Rev. D. C. Anderson were held

for the Anglican Native Sons hockey club was out for his first practice Tuesday since he received a groin injury three weeks ago in a game at Lethbridge. The Doctor says he may be able to play against Moose Jaw this Sunday.

Frank Ewing, secretary-treasurer of Wheatland MD attended a banquet in Red Deer Wednesday night in honor of Mr. W. L. W. Wright.

Despite the snow weather the arena work continues. Officials state that they hope the people are set for a big week before clearing cement possibly next week. It will take about 50 to 100 to keep the arena work going.

Cement In Arena To Be Poured In A Few Days

The executive of the Strathmore and District Memorial Arena held a meeting on Saturday night to discuss the artificial ice plant now being installed in the arena.
Two men were hired full time to work in the arena. They were Ralph Tiede and Harvey Broel. It is not known if they will both be engaged all year but at least until the risk is in operation.
The committee expects to pour the concrete which surrounds the end of this week or the first of next.
Although there is no reason for immediate alarm, government inspectors have instructed the Association to tighten the present bolts in the girders and put additional bolts in place where the limitation has parted in the spot before the arena is opened for the season. Calgary engineers were employed to ascertain what work was necessary on the structure.

Missionary From Africa Visits Standard Church

BY Mrs. Knewlton
In the course of a planned tour during a fortnight, one of Standard's favorite people paid a brief visit here last week.
Miss Margaret Nielsen was a guest at the parsonage while visiting her niece and nephew, Pastor and Mrs. Finn Tanneberg.
On Friday evening, Miss Nielsen spoke to an interested audience in Nazareth Lutheran Church.
Her calm sincerity and simple language kept even the children in the seat as she spoke of the need for spreading Christianity in Africa, so that there would be a preponderance of Christian among the natives in contrast to the Communist influence.
Miss Nielsen expressed her belief that the great decision regarding the future of our world ideology will be settled in Africa, and she said that Africa was at last awakening and in the past generations had spawned the slaves that had taken hundreds of years to accomplish.
She spoke of the work being done at her mission station in Nigeria and of the wonderful cooperation of the folks back home.
Later with the help of colored slides the audience was able to see how much of the daily work is being carried on by the small faithful band of helpers, many of them native persons and women.

Hussar Lions Charter Night

The Hussar Lions Club was honored on Friday with District Governor F. T. Edwards official visit at their Charter Night anniversary.
A supper was enjoyed at Bud's banquet room in Basanto. Lion president Bill Will welcomed everyone, advising members and their ladies to enjoy themselves.
Toast to the Queen was given by Deputy District Governor Charlie County. Toast to the ladies was given by Al Ferardi and responded to by Mrs. Will. Andy Baxter was MC for the evening.
Zone Chairman Carl Geerard introduced District Governor Edwards, who spoke on Lions' growth and meaning to the members. Valuing club present were from Calgary, Rockyford, Strathmore and Brooks. Following supper, dancing was enjoyed by all.

The new hospital built with money from friends is a boon to that land where there is so much suffering and superstition.
Carrying out the missionary theme of the evening, Pastor and Mrs. Damsch sang a beautiful duet "I'll Go Where You Want Me To Go Dear Lord, I'll do what you want me to do, which surely could safely be said has been and always will be Margaret Nielsen's theme song as she carries out his will from day to day, whether at home, on furlough, or in darkest Africa.

Fire Threatens Ass'n Delivers First Propane

Only fast action and some handy equipment saved Mr. H. K. Ruppe's barn from burning to the ground Friday morning.
The fire which started from a heat lamp was first seen by Mr. and Mrs. Ruppe at 12:45 a.m. from the bedroom window. They first heard their goat, which was in the barn, scream and looked out to investigate.
Mr. Ruppe called his hired man, who located a pump and garden hose in a water tank that was in the barn while Mr. Ruppe threw water on the biggest section of the flame with a pail. The fire was brought under control in this manner.
Close neighbors, Dale Husman and Fritz Hoelcher, assisted by throwing snow on the fire. Within 20 minutes to a half an hour the Rockyford Fire Department and 40 to 50 neighbors were on the scene and finished the fight.
There were 180 pigs in the barn, 100 of which were ready for market in a few days. There were five liters of pigs, two of which died in the fire.
There were also a cow and a calf in addition to the pigs. The damage to the building was estimated to be between \$400 and \$500. It was insured.
This was the first rural call for the Rockyford Rural Fire Department, and Mr. Ruppe had high praise for both men and equipment and said that it is a wonderful thing to have something of that high calibre standing by to assist with rural fires.

THIS TOWN'S BUSINESS

Although the building season is about over for this year, the time is looking forward to next year is

Strathmore needs more building lots to offer prospective buyers. As it is at present, we have little to offer. True, there are a few lots scattered here and there, but they are limited. A new subdivision is needed, and needed now so arrangements can be complete before spring when the lots will be needed.

Unauthorized moving must be stopped. It is not fair to the owner or the people in it when buildings are moved on a location contrary to the zoning by-law. It is a matter of proper building standards.

It would seem that the property along the highway through Strathmore is at the mercy of individuals

judgment and buildings are moved, as at will. This is wrong and something must be done to protect the by-law that clearly states in addition to having a permit to move on to the property, the construction of those buildings must be passed and approved by council before they are placed on the lot.

A speedy recovery is wished Mr. Jack Winter, a patient in the Hays and to Mr. Otto Haverich, a patient in the General Hospital. The Indian HSA sponsored a very good time at the auditorium last Wednesday evening. Those attending received a very good time. The Bow Valley 4-H band and dance held in the hall Friday evening was once again much enjoyed by many. Gary Gast of India was mentioned in a motorcycle accident last week and required 12 stitches to close a gash in his upper lip. Mr. and Mrs. Edna Cleveland spent a few days holidaying in Great Falls last week. Mr. Jack Stewart, Bob and Bobby journeyed to Clearwater last Sunday, the occasion being Mr. Stewart's mother's birthday. Miss Irene Kinney of Rockyford was the visitor at the home of Mr. and Mrs. Carl Frieser over the week end.

On Saturday evening about 70 friends and neighbors called at the new home of Mr. and Mrs. Jim McKeen in Calgary. Mr. McKeen called on behalf of the community to present Jim and Vin with a card table and chairs, and furniture to Heather and Janet. Following the evening of entertainment the community club served lunch. Open house was held Sunday at the home of Mr. Owen Bease in honor of his father Mr. Levi Bease who was 96 years old. We all join in wishing Oldage many more happy birthdays.

Remember the show in the Dalemead Hall Saturday night, 8:30. Mr. and Mrs. P. S. Pedersen were visitors at the home of Mr. and Mrs. Ed. McKinnon of Airdrie the past weekend.

The Dalemead United Church is sponsoring a film entitled, "Men of the World" on November 21 at 7:30 p.m. in the hall. Everyone welcome about 70 members and relatives of the Coonier annual family get-together sat down to a turkey dinner in the Lions Senior Citizens Hall last Saturday. Mr. and Mrs. Clint Coonier and Mrs. Prudy of North Hollywood were among the out of town guests.

Get well wishes go to Mrs. L. Penning and Mrs. Wesman Miller. Sr. We also are pleased to report that Mr. Ron McKinnon is now home from hospital.

Collier; convener of the committee, Marilyn Goldman; sports, Lynne Ferguson; welfare, Diane Goldsmith; lunch, Nola Nicholas. The annual chicken supper held Nov. 7 in the hall was a huge success. Slides were later shown by Ed Jack on his recent trip around the world.

Miss Margaret Gordon of Strathmore spent the weekend at the home of her brother and sister-in-law Mr. and Mrs. Gordon. Miss Madeline Brown of Strathmore spent the weekend at the home of her parents Mr. and Mrs. Hugh Brown.

The United Church here purchased a Hammond electric organ.

The regular meeting of the Cluny W.V. was held at the home of Mrs. Fred Fairbairn. Mrs. B. McKeen, and vice president was in the chair. Ten members were present. Mrs. W. James read a paper "Every Man is a Naturalist," prepared by a past member Mrs. C. Ward. In appreciation for Mrs. Ward preparing a paper on this year for many years it was decided to send a silver spoon to her. A gift is to be sent to a mental health patient at Brooks for Christmas.

The entertainment was a Christmas quiz won by Mrs. James and Mrs. Tomlinson.

Cliff Giroux Dies Suddenly At Home

Cliff Giroux, 53, a Strathmore resident for the past 40 years, died suddenly Saturday morning at his home after a prolonged illness. He suffered a heart attack.

Shortly before five a.m. Saturday, Cliff Giroux was up and asked Mrs. Giroux for an aspirin and a glass of water which she gave him. A short time later, Mrs. Giroux heard Cliff cough and soon after he slipped quietly away. Dr. John Clifton was called but Mr. Giroux was dead before he arrived minutes later.

Born in Chaguan, Ont., Mr. Giroux came to Canada with his parents in 1910 and to Strathmore in 1919. Although Cliff had been sickly off and on since childhood he enjoyed a good normal life and raised a fine family.

Welding was his trade and he was employed with firms from Strathmore and Calgary until about three years ago when he operated a delivery truck in Strathmore which he sold when he became ill some months ago.

Surviving are his wife, Dorothy Nora; five daughters, Mrs. L. (Lona) Osherson, Mrs. C. (Cecilia) Matthews, both of Calgary, C. of Medicine Hat, Caron, Norman, both of Strathmore, and Mrs. L. (Linda) Giroux, his mother, Mrs. Diana, Mrs. G. (Gladys), Lacombe, Home, the grandchildren, Mrs. J. W. Clifton of Strathmore, Mrs. George, Calgary of Calgary; five brothers, Eugene A. of Turner Valley, Arthur Joseph, William A. Charles M., all of Calgary, and George E. of Strathmore.

Funeral services will be held at Sacred Heart Church in Strathmore Tuesday at 2:30 p.m. Requiem High Mass was celebrated from the church Wednesday at 10 a.m. and interment followed in the Strathmore cemetery. McNicoll and Holloway, funeral directors were in charge of arrangements.

Mrs. L. Maggi was taken to the hospital on Friday.
Mrs. Black of Vancouver is visiting this week with Miss Love.
Mrs. Anne Klatter while visiting in Portland, Ore. was taken to the hospital there. She has been confined for the past three weeks but is reported to be progressing favorably now.

By the time this paper is out, Benjie Iarling in the Strathmore and District Memorial Arena will be complete. Work was hampered to a great extent by the recent cold snap, but a good number of volunteers were on hand Tuesday and Wednesday nights.

It is not known definitely who will pour the cement but one of two things will happen according to the executive. They will either rent the equipment or engage a local cement contractor to do the job. If the contractor is engaged, he will only have his men on the job so it will take a good number of volunteer help as well. If the weather holds, it is hoped that they will pour the cement next week so everyone can expect a phone call asking them to help on that day.

Born to and raised in Strathmore, Mrs. Keith Hamilton, a baby son, Scott, on November 12th.

Teen Club Plans In Offing To Organize

The teen agers in the Samuel Crowther school have shown a lot of interest in forming a teen age club.

They have held a number of meetings regarding future plans and both teachers and students levels during the past week. Assisting with organizing is Const. Murray Macdon of the RCMP Strathmore Detachment.

At present, they are only at the discussion stage until permanent arrangements are made with the School Board who they must obtain permission from to use the school building for their dances.

A set of by-laws will be set up within the club which will be strictly adhered to according to Const. Macdon, and the laws will be enforced by the executive of the club.

At their dances they will have two chaperones, who will be parents of members or other interested grown ups. In addition to dances, they will participate in seasonal sports of a nature that the whole body may take part, such as sleigh riding, etc.

Letter To The Editor

The Strathmore Standard.
The Editor:
At the last meeting of the Council Goodwill Club a lively discussion took place regarding pleasant hunters in the district. Our clubhouse, formerly Crawford school is sporting nine large panes of shattered glass, obviously the work of vandals. The situation is appalling and we felt the Municipality should again make it possible to have this area fenced off. Surely these inconsiderate vandals could be caught and punished if a human is accidentally this work should not result in humanly killed. The way things are this year, it is a wonder to believe this nature didn't occur. Are we in a war zone on patrol, we are sure they didn't exist and if so why wasn't there any mention of arrests. Please don't try and mislead us by saying there were no cases for arrests. C.G.C.

Official notice was received from the CNE that their water supply from towers at Ardmore and Rockford would be discontinued from November 15th to 17th. It was moved to notify them that plans for catering to the Lions Ladies Night.

The Auxiliary members will have Christmas exchange of gifts to the value of \$100.
A donation will be given to the public library.

Rosebud Notes

BY MRS. M. L. A one hundred and forty prime parcels of Red Cross clothing was shipped to Calgary Oct. 19 by Mrs. Wyn Watson, sec. of the branch. The parcel contained baby blankets, bannetteles and 5000 wipers for use at blood donor clinics. Much credit is due the Redland Tuesday Night Club and the Junior WA who did all this sewing. Mrs. Watson still has wool on hand to be knitted for the Red Cross.

Rev. A. Erickson was in Hanna, last week where he represented the World Book Encyclopedia at the Ontario-Saskatchewan teachers convention. He reported a record attendance and a good interest in the World Book.

An oversight was the omission of the Pioneer Trails program in which Mrs. Biggs and Mrs. Pesh shared. It was good to hear of our own locality. The reading of John Martin's newspaper story of the Big Stone God was much enjoyed last week.

Mr. Christman of Elcho, Nevada was in the area recently. He had a basic herd of 6000 Shorthorn cows and bought 65 acres before returning home.

Mr. and Mrs. Walter Jensen, Jr. were in Calgary Monday to help Chris Christman celebrate his birthday.

Our readers will be sorry to hear that Carl Jensen's older son, an Heiseler burned down Friday. Fortunately there was no wind as the fire didn't spread to other buildings.

The annual meeting of the Rosebud used clothing plant was held in Rosebud Nov. 14. Bad weather cut down the attendance but a event interest was shown in all the discussions. Three men were present representing three grain dryers. These men who each told what their machines could do were Mr. Carter, representing To-O-Way; Mr. McKenna, Crop Guard and Carl Gevers, John Deere. The local dealers didn't seem interested. Mr. Gordon, Rosebud men who has a partnership in one told of drying 15,000 bushels with it already. Mr. Simon Roppel was elected to the Board of Directors to replace Mr. Katterhagen who passed away last summer.

Congratulations to Mrs. W. E. Holmes of Calgary, and 86 years young in a special way. She had been writing poetry for many years and entered four of them in the Canadian Authors Association contest. One of her poems was chosen. They will all be published by the first of the year.

Congratulations to Mr. and Mrs. Peter Morand of Calgary (nee Sharon Kenney) on the arrival of little Sharon Oct. 31.

The Rosebud WA held a turkey supper in the Rosebud Hall Nov. 19. More than 224 were served. A year, bales sale and candy sale were featured. A number of friends from Rockford, Standard and surrounding districts were present as well as Mrs. Jack Sangster and Mr. and Mrs. Chris Christman of Calgary.

Miss Marie Nielsen has been looking after the Barr household after school for several weeks.

Chancellor

November is quite a month for birthdays in the district and this week best wishes go to Ted Pedersen, Arthur Sproule, Susan Hansen, Carl Madson and Kurt Larsen and Mary Olive Sproule. Mr. and Mrs. V. Madson and family were guests of Mr. and Mrs. Roy Jorgensen Sunday. Miss Bonnie Hansen was a guest of Mary Olive Sproule over the weekend. Things that influence car insurance costs

Inevitably, automobile insurance rates must go up or down depending on whether the claims being paid are going up or down. In the long run, the money paid out to settle claims and to run the business cannot continuously exceed the amount of money collected in premiums.

In recent years, practically all the things which determine how much money has to be paid out have been increasing. Here are some of them:

1. **The Cost of Cars** — The \$2,000 car of yesterday has become the \$3,000-\$4,000 car of today. And even a "low price" car may smash another vehicle costing much more. The cost of insurance must always be related to the cost of repair or replacement.

2. **The Spying of Cars** — The modern car has many improvements over the car of yesterday — all costing money. Wrap-around windshields improve visibility, but cost five times as much to replace when broken. Power steering improves handling, but is expensive to repair. One-piece body units eliminate rattles but skyrocket replacement costs. In cost of parts alone, the repair bill must come out of insurance premiums in more than double that of yesterday.

3. **The Cost of Repairs** — Quite aside from parts, the average garage repair bill is far higher than it used to be, because the garage's costs have gone up also and the garage reputation gets a higher rate of pay than he used to — as do most Canadians today.

4. **Increased Medical Costs** — Hospitals, too, must charge higher rates today than they used to — and once again this cost must come out of the car insurance premium. Other medical costs are similarly increased.

5. **The Costs of "Lost Time"** — Canadians generally, are drawing considerably higher incomes than they used to. That means that the costs of keeping an accident victim off work until his injuries are healed are substantially increased. This is another cost which has to come out of the premium.

6. **The Number of Accidents** — Naturally, the cost of car insurance is greatly affected by the number of accidents in relation to the number of cars insured. Thanks to the efforts of many people, this ratio of accidents has started to go down — only moderately down as yet, and not nearly enough to offset all the costs which have been going up. Nevertheless, this trend toward a lower accident ratio — a trend we all can assist by careful driving — probably holds the best hope of all for keeping auto insurance costs down in the future.

HERE'S Corvair BY CHEVROLET WITH ENGINE IN THE REAR
WHERE IT BELONGS IN A COMPACT CAR

BETTER BRAKING - Corvair is designed to put an almost equal brake load on every wheel; the rear end maintains solid, sure traction for smooth, straight-line stops in virtually any situation.
LESS NOISE, LESS HEAT - Engine noise, heat, fumes are behind the passengers; carried away by the wind stream as you drive.
LESS MAINTENANCE - Corvair's air-cooled engine never needs antifreeze; never boils in the hottest weather; it warms up quicker in cold weather, so there's much less cold-start wear.
BETTER HANDLING - Corvair's "flat" engine and lower floor gets the centre of gravity "way down"; it rides rock-solid through the tightest turns. Steering is light as a feather, will never need power assistance.
LESS NEEDLESS WEAR - Corvair's power plant is mostly aluminum. And it's air-cooled - no need for a radiator, water pump, hoses or even the weight of the water itself. And there's an added plus here; we designed a gas-fired car heater* that gives warmth almost instantly. Engine, transmission, and rear axle are all bolted together into one solid power unit. We save literally hundreds of pounds, and that makes a whopping big difference in performance and in gasoline economy.

Mrs Walter Jackson left by plane last Wednesday for Rochester where she will undergo surgery. We wish her a speedy recovery.

Dave Heckle managed to bring home a deer while holidaying in Sas.

The Cheadle 411 bow club held its monthly meeting at the hall on Nov. 17. Plans for a toboggan party were mentioned and the bill about demonstrated the proper method of making a rope halter.

Hunter Bob Heckle, Lee Webster, and Leonard Edwards returned home from a successful hunting trip in the Highwood district recently.

We are happy to report that Mr. Carl Skibsted has been released from the hospital.

Pat Jackson won a two hundred dollar scholarship for proficiency in business administration, from the Carl and Nola Nickle Foundation.

Doug Keer was released from the General Hospital last Thursday. He returned to the emergency ward Friday to have bleeding from an extracted tooth checked, but is home again feeling quite well.

The Remembrance Day Service was well attended. Placing the wreaths were: Mr McElroy, Mrs Treacy Katteringham, Carmen Geerst and Brenda Devenport, Mr Simon Boppel, Joe Mcleish and Ken Herdroy.

Mr and Mrs Youngman and family are new residents now in the house formerly occupied by Jack Rhodes and family.

The Hermana Hunter family have moved into town for the winter.

The girls in charge of the United collection on Halloween were very disappointed in this year's drive as their only collected \$28.25. This did not come last year's mark.

The Golden Age party sponsored by the Canadian Legion Auxiliary was enjoyed by 26 people who attended. Entertainment consisted of songs by Mrs E. Wawor and several dances by Sally Bodwell.

Bliss was enjoyed by all.

Reports Indicate Less Trouble With Hunters in Wheatland

In an interview with Robert Foray, Provincial Fish and Game Officer for this area, some facts were brought to light as to how much protection the Wheatland area has had during hunting season this year.

Mr. Foray stated that he has had the assistance of five game officers from his own department as well as periodic checks by two members of the Inspection Service branch from Drumheller, three RCMP from Strathmore, three RCMP from Gleichen, one from Headley and two from Calgary. This is about four times as many as last year.

During the season, there have prosecuted 15 hunters and five more charges are still pending. The majority of them were for hunting game birds within 200 yards of an occupied dwelling and others included: hunting with live traps, loaded guns in vehicles, hunting on privately owned land without permission; hunting out of season. More charges were laid for hunting ducks within 100 yards of the Bow River.

Mr. Foray said that on most occasions hunters who appeared as if they were going to shoot near buildings or stacks, or looked as if they were about to break the game laws in other ways.

He also explained that there were a number of occasions when farmers reported license numbers of cars owned by hunters who were staying on their property without permission. These were investigated and the car owners were notified of the offences committed. Then the farmers declined to lay the charges so proceedings were dropped.

During the season, there were only two complaints of cattle being shot, one of a cow driving over washed grade. The cattle owners were investigated and found that neither did they hunt gunshots, but from other causes. The hunters who drove over the

grain were not found as the farmer did not get the license number.

According to Mr. Foray, there was a lot of damage done to rural mail boxes by hunters shooting them up in the area.

A biological checking station was set up at Nightingale this year, and the game wardens worked closely with this station which proved convenient for farmers who wanted information regarding the game act.

According to the number of complaints phoned in or reported to the Strathmore RCMP, this year, it would indicate that it was a much quieter year than last.

When asked if the request to close off the Wheatland Municipality to hunters made early this year had anything to do with this year's situation, Mr. Foray felt that although the request was explained by provincial authorities to be impossible to grant, it did tend to make hunters conscious of the problem and as a result they behaved themselves better. In addition to that, it also imposed upon his department the seriousness of the matter, and they in turn gave the area more concentrated protection.

He also said that the biological survey made at Nightingale which included a count on the number of hunters in the area, will give the department a wealth of information before long although the final figures are not released, they do know that they far exceed the number of hunters returning to be using this area. This check was made for nine out of the 31 days of hunting.

He also pointed out that the population of hunters will increase every year in proportion to the increase in the Calgary population, and with that increase more game wardens will have to be added from year to year.

Hussar Mayor Resigns Post

Mayor E. J. Bell who has been Mayor of the Village of Hussar for the past 20 years, resigned his post last Friday night at the council meeting due to doctors orders.

Mr. Bell was chosen Mayor in 1930, although he served the village as councillor for many years previous to that date.

Mr. Bell's wife, Mrs. Margaret C. Bell, also handed in her resignation as secretary-treasurer at the same time and she has also held for a good number of years.

Both resignations were accepted by council with much regret, and good wishes were extended the faithful couple in the future.

A nominating meeting will be held on Dec. 29 to fill this vacancy on the council.

The RCMP from Banaru were called on to clear the town place regarding more effective policing of the Village.

More Lights For Strathmore

The regular meeting of the Strathmore Town Council was held Tuesday night.

The Municipal Inspectors report was received by Mayor Gray which indicated that the office and camp being handled in a different manner although there were some minor suggestions for improvement in routine. The Inspector said in his report that although Secretary Mr. Joe Thomas is new at the job, he is doing the work in an efficient manner. Mr. Thomas took this post June.

The council received a letter from the Attorney General's Dept. in answer to one written last month asking for a portion of the money received from fines levied for offences under the criminal code, when arrests are made by town police. At present they all go to the province.

This department explained that they must appreciate that the town receives still fines for liquor offences and half of the money from offences under the Highway Act. If the rest is not made up by local police, but more under the Criminal Code. They explained that the Province pays the Magistrate and also other administrative

New Wing Opens At S. C. School

The Strathmore Home & School Association sponsored the official opening ceremonies of the new wing in the Samuel Crowther school on Monday night which was their regular meeting night and proved to be one of the biggest on record.

The 500 chairs in the auditorium were filled and many were standing along the sidelines.

An entertaining program was enjoyed by this packed house by members of grades 1, 2, 3, 7 and 9 in the form of singing, pantomimes and an Indian Club swinging demonstration.

The United Church Junior and Senior Choir members under the direction of Mrs. R. Upton rendered a few musical numbers at the close of the program.

It was a night to be remembered for Frances Chamberlain and Doreen Scholtz, Frances won the Home and School award for the longest member in grade nine last year which was a beautiful trophy and she also presented a bouquet of flowers by Charles Mercer on behalf of the Students Union. Mr. M. Holman Superintendent of Schools made the HSA presentation.

Doreen received a cheque for \$50 on behalf of the Home and School by president George Riecken and a bouquet of flowers from the Students Union for the highest marks in grade 12.

Holman, members of the Home and School executive and the guest speaker Mr. Wood, Principal of the School of Technology and Art in Calgary.

Mr. Hubert Damsen, local School Board member said that this was the second addition to the school since he began serving on the board five years ago. We have grown with the times he said, and felt sure that it was money well spent and dollar value has been received.

The guest speaker paid tribute to the late Samuel Crowther in whose memory the school was named. He said that it was to follow his fine example and make their lives as useful as his.

He gave advice to students regarding study habits and choosing their future careers.

Mr. Wood presented Principal Ian MacKenzie with a picture of an Alberta mountain scene from the Department of Education to hang in the addition.

Mr. MacKenzie thanked him on behalf of the school, and also expressed thanks to the Provincial Government for money grants in the past. He expressed his thanks also to the local government for their co-operation and to the HSA who sponsored this opening program.

Mr. Garriott presented Mrs. Upton a bouquet of flowers for her part in the program.

Safe Driving Week

Midnight Monday, December 7th, has been set aside to be Nov. 30 Driving Week. The aim of the campaign is to reach the motorists and pedestrians.

This is the group who refuse to believe the advice, information and plan for safe driving, and safe driving have anything to do with them. They are convinced it is all for advice and everyone else.

The average motorist according to the Council is becoming a professional driver, aware, not merely but adequately of his responsibility in preventing death, injuries, accidents and economic loss.

Letter To The Editor

The Strathmore Standard, The Editor:

The letter in your issue of Nov. 21st regarding irresponsible motorists causes me to add my contribution to the ever increasing flood of resentment that exists in this area. It is true that there are some who are courteous and considerate who ask permission to enter, and who exercise due caution when warned about livestock. It does seem a shame that these sportsmen should be penalized because some irresponsible jackasses show no respect for the property of others. If we went into the fields after their fences, littered their fields with broken bottles and left their animals loose, there would be a terrific cry for protection and justice. Our militia members would be extra contributions that make it possible to keep the library going.

expenses, to must have the fines paid for offences in this department.

The council wrote this letter as a result of an arrest made by Town Police Officer Birkbeck under the criminal code last month where there was a fine of \$200 in fines, and only \$10 of this came to the town which came under the Liquor Act. In this case the town had money by the time they paid jail fees in Calgary, expenses for two trips to Calgary, and expenses for the town.

An invitation will be extended to the Drumheller Health Unit to attend the next monthly meeting to discuss some unsanitary conditions in town.

A request for water to the dairy her on the highway as well as permission to improve their property was refused by the council. The council will detail plans of their intentions, and permission from the owner of the property to proceed with the improvements. They will be warned by letter.

Eight members of the Friendship Club met at Ruth Schultze's home. The roll call was answered with artificial flowers for a winter party bouquet. The minutes and reports were read and approved. It was decided to sell tickets on a quilt, wool blanket and rug, to be filled at the New Year's dance. Plans for a Christmas tree were made, possibly for Dec. 19, at the Hall. Santa will be there with nuts and candies and everybody is invited to sing Christmas carols and contribute other talents to the party. A beautiful doll for the girls was a gift and for the boys will be raffled. A silver collection will be taken at the party. The raffie contributed by Mary Newell was won by Mary Cantley and the highest prize for a contest arranged by Mary Cantley went to Ruth Schultze and the lowest to Helen Watson. Roll call at the next meeting will be What do you wish for Christmas. The annual meeting with election of officers will be at Mary Cantley's December 17. Ruth Watson assisted the boys with serving a lovely lunch.

Eight members of the Friendship Club met at Ruth Schultze's home. The roll call was answered with artificial flowers for a winter party bouquet. The minutes and reports were read and approved. It was decided to sell tickets on a quilt, wool blanket and rug, to be filled at the New Year's dance. Plans for a Christmas tree were made, possibly for Dec. 19, at the Hall. Santa will be there with nuts and candies and everybody is invited to sing Christmas carols and contribute other talents to the party. A beautiful doll for the girls was a gift and for the boys will be raffled. A silver collection will be taken at the party. The raffie contributed by Mary Newell was won by Mary Cantley and the highest prize for a contest arranged by Mary Cantley went to Ruth Schultze and the lowest to Helen Watson. Roll call at the next meeting will be What do you wish for Christmas. The annual meeting with election of officers will be at Mary Cantley's December 17. Ruth Watson assisted the boys with serving a lovely lunch.

Safe Driving Week

Midnight Monday, December 7th, has been set aside to be Nov. 30 Driving Week. The aim of the campaign is to reach the motorists and pedestrians.

This is the group who refuse to believe the advice, information and plan for safe driving, and safe driving have anything to do with them. They are convinced it is all for advice and everyone else.

The average motorist according to the Council is becoming a professional driver, aware, not merely but adequately of his responsibility in preventing death, injuries, accidents and economic loss.

On November 30, the Alberta Wheat Pool's new office building in Calgary was officially dedicated. It will be occupied before the end of December.

The completion of this modern 8-storey building is a tribute to the farm people of Alberta, whose loyalty and faith in the co-operative principles have made the Alberta Wheat Pool the province's largest home-owned business.

Today the facilities of the Alberta Wheat Pool - all farmer owned - include 668 country elevators, huge terminal elevators at Vancouver and Port Arthur, a seeding handling division and now Calgary's most modern office building.

Mr. Cross has been here 20 years. In making his remarks Mr. Barr said Mr. Cross was the most honest God fearing man he knew. Mr. and Mrs. Cross thanked the people graciously and Mr. Cross added The Lord bless you all. The program consisted of his humorous recitations; acrobatic and piano solo, readings, vocal duets, organ solo and instrumental trio, by local singers and players. Mr. and Mrs. Cross and family will be sadly missed as the are pleasant citizens and have been active in the CHS for several years.

They are moving to Carleton Place and several others have been prevalent this past week.

Congratulations to former residents of Rosebud Mr. and Mrs. Ralfus of Calgary who marked their silver wedding anniversary, May 27. A number of folk drove in for the occasion as Mr. and Mrs. Ralfus (nee Ellen Dinkel) are very well known in the Rosebud & Rosebud district.

The regular meeting of the Rosebud ISEA took the form of a 14 day night of Nov. 27. Mr. Palmer's rosen got the parent attendance prize of \$250. Scholarship prizes, all globe, chess, gifts and also trunks, and the possibility of sponsoring a destitute Korean child were discussed. Motions were made that the candy bags be the same as last year, that the "Hymn and Siphon" look after their bags and that adults again be charged 50c admission to help defray the costs of same. Scholarship prizes remain unchanged. Miss Marilyn Rennie and Miss Marilyn Wilson who will be awarded \$20 scholarships at the concert for their splendid work in grades 12 and 9 are to be congratulated. Rev. Epiphany spoke highly of the Universal Church and stated that the price of the set would be up \$10 in January. The guest speaker of the evening, Dr. Wes Reed of the Drumheller District Museum was introduced. He gave a very interesting talk in which he traced the history of Canadian museums from 18 in 1800 to 220 in 1957. Dr. Reed stressed the fact that the museum is a district undertaking of which we can all be proud. He pointed out the need of preserving pioneer records and photographs. Indian relics, etc. now. Everyone enjoyed his many outstanding scenic colored slides of points of interest.

Mr. John Martin was the guest on Pioneer Trails recently. We are looking for his second appearance this week.

A number of Rosebud folk enjoyed the Masque banquet in Rockyford Nov. 27.

Take These 6 Steps To Home Safety!!!

A Check of Your Gas Appliances and Heating System May Avert an Accident.
SIX STEPS TO SAFETY

Take time NOW to review the following SIX important points you will KNOW that your home is SAFE. If you do not pay proper attention to the care and maintenance of your heating equipment, and home-gas venting, tragedy can strike. Dangers increase during the cold weather — so make YOUR home safe... for the holiday season ahead... and for the rest of the winter!

A Word From Your Gas Company

This year some accidents resulting from carbon monoxide have been reported to our office. It is not natural gas that causes these accidents... it is the products of incomplete combustion. Normally the products of natural gas combustion are carbon dioxide, water vapor, oxygen and nitrogen, all harmless. But if the chimney, or a vent pipe into the outside atmosphere, is blocked or partially blocked, the heating equipment may produce poisonous carbon monoxide which is spilled into the occupied space with possible harmful effects to the occupants. It is important that left-over gases get a chance to escape to the outside atmosphere, and we urge you to make the above safety check in your own home so that you can continue to enjoy Natural Gas with Safety.

Don't Let Accidents Mar The Holiday Season Ahead!

Do not try to repair any trouble spots yourself. Call your local plumber, furnace or gasifier — he is qualified to do a proper repair job.

CHRISTMAS THOUGHTS

Christmas is more than an occasion. It is a day when we are reminded of the true meaning of Christmas. It is a day when we are reminded of the true meaning of Christmas. It is a day when we are reminded of the true meaning of Christmas.

For on this day is born unto the world a Savior... What more to be said about Christmas than that we must be reminded that Christ was born that He is with us, always, the Hope and the Light, the Promise and the Fulfillment.

GOOD WISHES TO OUR CORRESPONDENTS
Possibly no one works harder or does a finer job for their town or village or community than a correspondent for the weekly press and reviews less thanks for her efforts.

A correspondent for a weekly newspaper does more than keep community interest humming. Maybe she will announce a worthwhile fund drive which only takes up two lines in the newspaper but with those two lines she has set the drive off with valuable publicity. She can then announce the results of the drive in a later column, giving all who contributed the satisfaction of knowing that they were part of that total.

PLEASE NOTE—

There will be a publication of The Strathmore Standard next week, December 28th, but the following week the first issue of the new year will go to press January 7th.

Letter To The Editor

Editor: Strathmore Standard.
Dear Sir:
I would like to commend you on your editorial of last week regarding the uncontrolled dog situation in our town. Every year we have children nipped by dogs on the school grounds and also have

the clothing of children destroyed by such animals. I have written letters to parents regarding children bringing dogs to school. I have seen children being with dogs that have followed them to school. Many times the dogs are stray and are untagged animals and so we are unable to get them removed from the grounds. Sometimes a youngster is going to get badly mangled and then when it is too late something will, possibly be done.

Hoping that your editorial will bring a satisfactory response to the situation. I remain,
Yours faithfully,
W. M. MacKenzie,
Principal Samuel Crowther School.

Season's Greetings

Christmas joy is a fleeting thing if it encompasses only the present. The true Christmas must be brightened with past memories: the love of a family, the laughter of a child, the handshake of a friend; and, equally as much, it must be lightened with hope for the future — for peace throughout the world; for peace within our hearts. Then can we know the real happiness of Christmas, the "joy to the world" of which the angels sang.

Strathmore Post Office

Have you ever found it peculiar: That, every December, the wheels of the Nation Go into a state of suspended animation, That, Parliament is either closed or closing, That, the Stock Market is slowly dozing, That, newspapers ignore the Nations' vanity And start reporting on humanity, That, Spunkies and Lumies are away Replaced by the Jants and his sleigh, That, the Jants, the selfish, the greedy Take time to remember the needy.

It isn't peculiar, it's very clear For a short period of every year, The spirit of giving comes to bless us, It isn't peculiar, it's merely Christmas.

All best wishes for a Merry Christmas and a wonderful New Year from the POST OFFICE STAFF, Mary, Hazel, Tena and Especially ROWE AND LYDA.

Greetings From Rev. R. Upton

REV. R. UPTON

Strathmore United Church
I am very happy to have the privilege again, extended through the kindness of the Editor, to convey to our citizens a word of greeting for this Christmas season. We find ourselves once again involved in the feverish preparations for this season of goodwill, and all of us in our own way endeavor to make some humble contribution toward the spirit of Christmas.

In spite of the strenuous days through which we are passing, we are glad to return again to the Religious festival, to ponder again the simple story of the coming of Jesus to the world, and to His earthly life:—the peasant Christ who Came And Dwelt Among Us, who while He lived had nowhere to lay His head, and when He died left no possessions, except the robe he wore. Christ Jesus, Carpenter of Nazareth, child of Mary, speaks once again to us in the form of a rebuke to the artificiality and the complexity of a great deal of life today.

For will deny, today the beautiful Christmas festival which the Church has evolved, has become commercialized to such a degree that its original interest is in danger of being forgotten. A fever of extravagant gift giving has seized upon us. Every one runs riot, all of this bears more resemblance to the older heathen festivals than to the happy and joyous Christmas festival of our fathers.

This growing complexity of life is stealing from us something we can ill afford to lose. The vanishing of the old simplicity often means the disappearance of the old contentment in our hurrying. We have lost something of the dignity, something of the quiet in this complex age.

The call of this Christmas 1930 leads down the path to the example of Christ's humility and His realistic view of life.

We do not have to make the long journey of the Wise Men to find Christ at Christmas time, nor need we search for Him despairingly and fruitlessly. He is found as love and kindness and generosity express themselves, the joys of Christmas.

Christ is found of those who show the true Christmas spirit, the spirit of Him who Came not to be ministered unto, but to minister. A Happy Christmas to all our readers.

New Year's Eve Festive Occasion For Native Scots

Christmas never aroused much enthusiasm in Scotland — but on New Year's eve the Wassaill bowl goes around, filled with savory liquid nostalgically fragrant.

Floating atop the Wassaill bowl, apples stir memories of the apple-bowling, when boys switched the trunks of fruit trees petitioning the gods for a good crop; somehow, the Wassaill bowl (as the denotation of the Wassaill bowl is often called) is a remnant of young folks rushing to the nearest spring at stroke of 12 to drink the cream of the well — the first one so doing might expect good luck during the ensuing year.

Hanuel Monday — the Monday after New Year's is traditionally the big day for Scotch boys and girls; and, in addition to being the Scotch day of gift giving, it is a day of feasting and gaiety. Small wonder, that families and friends gather on New Year's Eve. To drink a cup of kindness! For Auld Lang Syne.

Best wishes to all for a peaceful and Happy Christmas

Best Wishes

for the Holiday Season

With sincere gratitude for the warm friendships which we have enjoyed, we extend greetings of the season to all of you, whose good will and loyalty we count among our most cherished possessions. May the holidays find you in hearty good health, surrounded by devoted family and friends.

CHRISTMAS THANKS :-

As we approach the festive season, we think of our many blessings; we stop to meditate about that great message that Jesus preached so that there can be heartily. That leads us on to think of our way of life and the priceless gift of friendship and good will. This the friendship and good will we have been shown here that has been especially wonderful and gratifying to us because without our friends and neighbors our efforts would have been in vain. For this we thank you most wholeheartedly. It is with these thoughts that we send our Christmas Greetings to you and yours and sincere wishes for complete happiness for the coming year. Dalum

BY MRS H. R.

Saturday, Dec. 13, marked the silver wedding anniversary of Mr. and Mrs. Albert Jorgensen. They celebrated the occasion with a family dinner at their home at noon, followed by an open house at the community hall at 5 p.m. At this time a cold plate supper was served to a large number of friends and relatives. A program followed the supper at which time two solos were rendered by Bill Niblett, Jr., two violin selections by Linden Holmen and four songs were sung by two groups of Dalum children. Many words of praise, thanks and appreciation were directed toward Mr. and Mrs. Jorgensen in speeches by several old friends. Mr. Dick Peterson, chairman for the evening proposed the toast to the bride and groom. This marked the close of festivities at the hall but the open house continued at Mr. and Mrs. Jorgensen's home during the evening when many close friends and neighbors called in to enjoy more memories over a friendly cup of coffee.

Mr. Ralph Jorgensen of the U. of A. at Edmonton was home for the weekend to share in the festivities at his parents' silver wedding. Mr. and Mrs. Leonard Christensen and some Marie and Gregory of Prince Rupert are guests of Mr. and Mrs. Albert Jorgensen. They arrived on Wednesday. They plan to stay for a few weeks.

Dalum, Madam, young son of Mr. and Mrs. Tom Madson has been a patient in the Drumheller hospital for the past two days, but we are pleased to hear that he is now at home again.

Miss Janice Holman of Camrose College was home for the weekend. Guests from this district at the wedding in Drumheller last Wednesday of Mr. Willy Learsson and Miss Jean Graham were Mr. and Mrs. A. Ande, son; Mr. and Mrs. J. Anderson; Mr. and Mrs. F. Rasmussen; Mr. and Mrs. Axel Olofsgaard; Mr. and Mrs. Dick Peterson and Mr. Nels Jorgensen. Crowfoot Notes

BY MRS K C

The monthly meeting of the CGC was held on Dec. 2nd at the home of Mrs. Michael Gerrard. In the absence of the president and secretary the seats were filled by Alice Gerrard and K. H. Hamman. Resolutions were made to make Christmas donations to the Strathmore Library, Women's Home, and The Salvation Army. Hostesses served a lovely lunch to the 18 members present and paid special tribute to Maria Schuman and Dorothy Woldum on their birthdays.

The Christmas party held Saturday night at the clubhouse was very successful with over 75 candy bags being passed out to the community children. The program was made up of recitations, songs and piano selections also two acts. The arrival of Santa Claus excited the little ones who eagerly received their gifts from the jolly old fellow. Special helpers with Santa were Mickey Mouse and Donald Duck. The lunch was catered by December Club hostesses, Ellen Harwood, Jean Harvey, Bill Gerrard and Doris Roberts.

Winners of the two draws made at the Christmas party were Mrs. Stan Pailton of Calgary, baby show; and Mr. Tuffy Ramsey, the Christmas tree.

VI Ramsey spent several days in Great Falls, travelling there with the Hoeghs of Champion.

The sympathy of all in the district is extended to Mrs. Bill Morgan and her family in the sudden death of her mother Mrs. P. Rutledge at Jasper.

Mr and Mrs Keith Coufner were hosts at four tables of military whilst recently honoring Maria and Dorothy Woldum on their birthdays.

Mr and Mrs Chas Harvey had the holidays meal Kennedy, to dinner on the Saturday previous to Mr and Mrs K. Baldwin's departure for points east.

A number of couples attended the dance in Namaka recently for Mr and Mrs Ralph Tiede. A party followed at the Tiede home which ended in the wee hours of the morning.

Mr and Mrs W. Shilbsted and family visited the Coufners recently.

Bill Morgan and Rose Harvey have enlisted with the Calgary Flying Club and have both had a couple of lessons.

Wedding

MAYNARD — FRASER

Knox Presbyterian Church. Bessie was the scene of a very pretty double ring wedding on Nov. 23 at 2:30 when Kathryn Jean, younger daughter of Mr. and Mrs. Douglas Fraser of Bassano, became the bride of George Albert Lee, elder son of Mr. Albert Maynard and the late Mrs. Maynard of Calgary.

Colorful bouquets of carnations adorned the church for the wedding rites, at which Rev. Hector W. Rose officiated.

Given in marriage by her father the bride was crowned in floor-length chaste lace. Her beautiful skirt featured panels of tulle and lace which fell into a slight train at the back. They and pearls of iridescent sequins outlined the neckline of the fitted bodice. Her situation not well camouflaged from a peerless daisy.

The bridal bouquet was of red roses mounted on a white ribbon. Attending the bride were her sister-in-law, Mrs. Doris Fraser as matron of honor and Miss Jeanette McKay as bridesmaid.

Mr. Wallace Fraser was best man and the guests were ushered by Mr. Donald Fraser and Mr. Kenyon.

At the reception held in the banquet room of the Masonic Hall with the OES in charge, Mr. Don Martin of Calgary, uncle of the bride was MC.

Open house was held later at the Fraser home.

For the wedding trip to various points of the U. S. the bride chose a red wool suit, featuring a three-quarter length coat, with which she wore a model hat of beige velvet and matching gloves, with white black accessories.

Mr. and Mrs. Maynard will reside on a farm north west of Calgary and the guests were from Edmonton, Calgary, Standard, Chancellor, Husar and Duchesne.

Merry Christmas

We hope this Christmas season brings in a full measure of happiness for you.

Plan New Weekly Paper at Bassano

Mr. and Mrs. Gregory Anderson of Calgary recently purchased the Ryan home where they will reside.

Early in the new year the couple plan to set up a printing office in the old 500 hall when The Bassano Herald will be given a new birth.

The last printed newspaper published in Bassano was during the early years of the Second World War. A newspaper was established originally in 1910 and continued publication until 1936. This newspaper was known as the Bassano

Mail. Following its demise three other publishers succeeded each other in a period of about four years.

The town's secretary treasurer, Hugh Pearce, published an official type newspaper for a couple of years, ceasing publication only last year.

Message From Rev. Anderson

THOU SHALT CALL HIM BY NAME
 EMMAUEL, WHICH BEING
 INTERPRETED IS GOD WITH US
 — ST. MATTHEW 1:23

REV. D. ANDERSON

St. Michael's Anglican Church
 This is the heart of the Christmas message — God's capacity for fellowship with men. God's Friendship.

It is strange how the idea, perhaps that God is far off, a sort of absentee landlord, that He only occasionally breaks through into our human experience, especially in what men call Acts of God. It is all very well for us to use this phrase Acts of God, in business and legal language, referring to various forms of disaster beyond man's control. It should not be used in our serious thinking about God. Against it stands the Gospel of Jesus, the heart of whose message is love, whose unfailing truth is: God is Father, whose own prophetic title is Emmanuel, God with us. The message of God, the Father, the Son, the Holy Spirit, the gift of God, the friendship of God, this is the Christmas message, this is why our thoughts centre in a Little Boy, God comes and speaks to us in a language we can all understand. Beside that manger, radiant all men speak to and understand one another. Not understanding the other's tongue, all understand the language of simple love, so forth in an infant in a Cradle, God in Christ, the great common denominator of all human thought and aspiration.

To say that the world needs Christ is not to express a merely pious opinion, nor only to set forth a correct theological tenet. It is to state a significant truth. A world, half-filled, needs Christ. Christ, Emmanuel, God With Us.

In this name, Emmanuel, we see the freshending of the whole life and ministry of Jesus and the whole of His teaching. He said, He that hath seen Me, hath seen the Father. This is Christ's answer to the world's cry: What is life? What is the world? This is the mystery of life that I live! This is the world, this is the mystery of life that I live! This is the world, this is the mystery of life that I live! This is the world, this is the mystery of life that I live!

Christians have the answer. We have the answer clear and sure, in Christ. He that hath seen Me hath seen the Father. Christians know what God is like, in Jesus Christ, in the mind and heart and will of Him, in His daily manner of living. St. Paul says of Him that He is the express image of the invisible God. Sometimes we say of a young man, You are the living image of your father. Jesus is the living image of His Father, the living image of your Father and mine.

It is not strange that the would-be dictators of the world — the Hitlers, the Mussolinis, the Lenins and the Khrushchevs try to stamp out the faith of men in God through Jesus Christ. They must stamp it out or be ground under its heel. They cannot live in the same world where each soul is precious in the sight of God and not the chattel of the state, a pawn to be moved at the will of a man. They cannot abide the thought that supreme power is best expressed in love, that men might pray, O God, who declared: Thy almighty power chiefly in showing mercy and pity that the greatest force in the world is like that which is commanded by a Babe-ling in a manger.

Christmas, the Nativity of our Lord, the age long prophecy is fulfilled, the age long cry of man is met, Emmanuel, God with us, God beside us, God within us. O God, who maketh us glad with the yearly remembrance of the birth of Thine only Son Jesus Christ; Grant that as we joyfully receive Him for our Redeemer, so

may we with sure confidence be with Thee and the Holy Ghost, hold Him when He shall come to our God, world without end, be our Judge, who liveth and reigneth.

... and may the spirit of
 Christmas bring most wonderful
 blessings to you.

Tell Me An Indian New Year's Story

The ceremonial for the new has
passed, when memories are fragrant
and words forgotten, as a new trail
has been blazed for the New Year's
festivities.

The story telling grandmothers
has taught the ancient chants and
customs through the heads of the
young of Indian warriors, but now
she again has time to enjoy with
the children.

Gathered around her lodge fire
they told for another story with
their bright eyes and shrill voices
to satisfy them, she tells an an
cient legend about the clouds.

Long moons ago when the world
was first made the sky at winter
time was cloudless much as it is
on clear midsummer days. The
sound was covered with white
snows and the trees, except the
green ones, were bare. The cold was
chilled around its bark colors,
and with a cloudless sky, every
thing above and below looked
dreary.

The children too missed the
green leaves and changing colors
the landscape and they gave
a wish that the sky might
cloud now and then. It is the

Greetings From Father Gibbons

REV. J. V. GIBBONS

St. Michael Parish, Strathmore

At this time of the year we are often made to wonder why some people celebrate The Feast of Christmas. Many have no clear idea of the reason why they celebrate.

A few years ago the Canadian Institute of Public Opinion took a poll across the provinces of Canada and they asked the question: Why do you celebrate Christmas? The answer they received could not but make us feel sad. Only 20 per cent of those questioned gave an answer that could be regarded as having anything to do with the birth of Christ. The other 80 per cent gave gifts, holidays, food and drink, etc., as the reasons for celebrating Christmas.

Everyday thus of greeting cards are being poured in the post office. People are rushing madly about looking for presents to give to friends and everyone is joining in a kind of Christmas stampede. We must once again ask ourselves: Why all this excitement? There is no other day of the year that is so widely celebrated. Few of us people forget the petty jealousies they have so carefully hoarded during the past year. Some even cast overboard charities they have carried in their hearts since the previous Christmas. Neighbors will extend the glad hand of friendship to all and sundry.

If Christ had never been born would we be celebrating Christmas at all? The answer to this question is just plain unvarnished. No. Christmas without Christ is like a coronation without a king, a wedding without a bride.

If St. John were writing the Gospel Narrative today, would he be able to turn up our allegiance to Christ in the same words he used 1800 years ago when he told about the birth of the Saviour. In the well known words: He came unto His own and His received Him not.

Christmas is the solemn commemoration of the birth of our Saviour in the stable of Bethlehem. The Child born of the Blessed Virgin Mary was not simply a messenger from Heaven, not just a good man. He was the Second Person of the Blessed Trinity, True God and True Man.

The King of Kings had no royal cradle of gold. He was born in a stable with a rough feedbox with common straw bedding for a cradle. In place of elderdown, He was covered with rough covering called swaddling clothes.

We cannot help but be very unhappy when we think of Joseph leading the Blessed Virgin Mary into the hills to find the stable that was to be the birth place of the Saviour of Mankind. We are ready to condemn the stolid Bethlehemites for turning our Saviour away from their doors. But we might ask ourselves: Are we any more hospitable than they when we refuse Our Saviour the first place in our hearts and affections? Can we really say we love our neighbors independently of color, race, of the dollar sign? The only way we can put Christ into our Christmas is by giving Him our love and loving our neighbor on account of Him.

To lose sight of the Infant in the manger is to miss the real meaning of Christmas and to prevent it into a day of celebration that has no reason for being celebrated. We cannot fill the void in our lives by grasping the passing shadows of time.

I wish to extend to all the readers of The Strathmore Standard my sincere wish that this Christmas may be for you and yours a day of great joy.

Changes In Sub-division Boundaries

An open meeting was held in Standard December 10th to bring

before the residents a proposal to change the sub-division boundaries in the Wheatland School Division. Chairman Max Phillips was in the chair flanked by area trustees. The board felt that a change of boundaries was necessary because they wanted to make a more even distribution of the supervision of the trustees.

Twenty-nine of the 37 present voted in favor of the change. Four

against and four did not vote.

Under the new set up if it is passed by the Department of Education, the Wheatland and Strathmore districts will be one as will Hammar and Dalm. Gleichen and Chury remain unchanged while Standard and Rosebud will make up one district and Rockyford and Level Land the fifth district.

Secretary Treasurer H. C. Wilson has forwarded the proposal to the Department of Education for their approval.

The Wheatland Board have also recommended to the Department, that they be given permission to call for nominations in all five sub-divisions in view of the fact that three positions must be filled at present and that the remaining trustees will have a change in their areas of supervision.

Trustees Hubert Danson of District and Walter Hyman of District 4 terms expire this year, and Gleichen-Chury District will need to replace the officer left vacant

when Mrs. Lucy Cunningham resigned and moved to Calgary. The election will be held in February.
